Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor-General on the 17th September, 1886, and is hereby promulgated for general information:—

ACT NO. XVII OF 1886.

An Act to annex the Town and Fort of Jhānsī and certain adjacent Territory to the Jhānsī District, and for certain other purposes.

Short title and commencement.

1. (1) This Act may be called the Jhānsī and Morar Act, 1886; and

(2) It shall come into force on a date to be appointed in this behalf by the Lieutenant-Governor of the North-Western Provinces, which date is in this Act referred to as the commencement of this Act.

PART I.

WHEREAS since the beginning of March, 1886, the town and fort of Jhānsī have been ceded to the British Government in full sovereignty by His Highness the Mahārājā Scindia in exchange for the cantonment of Morar which has been ceded to His Highness in full sovereignty by the British Government;

And whereas the town and fort of Jhānsī have been declared by the Governor-General in Council to be subject to the Lieutenant-Governorship of the North-Western Provinces;

And whereas it is proposed that certain lands adjacent to the Jhānsī district should be ceded to the British Government in full sovereignty by His Highness in exchange for certain other lands

to be ceded to His Highness in full sovereignty by the British Government;

And whereas it is expedient that the town and fort of Jhānsī, and the lands to be ceded to the British Government should be annexed to the Jhānsī district, and that the law in force therein should be the same as the law in force in that district;

And whereas it is also expedient that the town and fort, and the lands which may be ceded to the British Government, should, for the purposes of the Scheduled Districts Act, 1874, form part XIV of 1874 of the Jhānsī district;

It is hereby enacted as follows

2. The town and fort of Jhānsī, and the lands

Annexation of ceded lands to Jhānsī district. British Government in accordance with the proposal referred to in the preamble to this Part, shall, in the case of the town and fort, from the commencement of this Act, and, in the case of any of the lands, from the date of the cession thereof, be deemed to be part of the Jhānsī district.

3. All enactments which at the commencement

Assimilation of law in force in ceded lands to law in force in Jhānsī district. of this Act, or at the date on the cession of any of the lands referred to in the last foregoing section, are or shall be in force in the Jhānsī district and not in the town and fort of Jhānsī or in those lands, shall then come into force in the town and fort or in those lands, as the case may be.

4. On and from the commencement of this Act,

Ceded lands to become part of the scheduled district of Jhānsī. or the date of the cession of any of those lands, as the case may be, the town and fort of Jhānsī and the lands shall be deemed to form part of the district of Jhānsī mentioned in Part IV of the first schedule to the Scheduled Districts Act, 1874.

XIV of 1874

5. All acts of executive authority, proceedings, decrees and sentences which have been done, taken or passed in or with respect to the town and fort of Jhānsī since the beginning of March, 1880, and before the commencement of this Act, by any officer of the Government, or by any person acting under his authority or otherwise, in pursuance of an order of the Government, or which have been or shall be ratified by the Lieutenant-Governor of the North-Western Provinces, shall be as valid and operative as if they had been done, taken or passed in accordance with law; and no suit or other proceeding shall be maintained or continued against any person whatever on the ground that any such acts, proceedings, decrees or sentences were not done, taken or passed in accordance with law.

PART II.

And whereas it is expedient that decrees and orders passed by the Civil and Revenue Courts of His Highness in cases which would have been cognizable by the Civil and Revenue Courts of the Jhānsī district under the Code of Civil Procedure or the Jhānsī Courts Act, 1867, or the North-Western Provinces Rent Act, 1881, if the territory ceded by His Highness had been part of the Jhānsī district at the time of the institution of the cases, should be capable of being executed as if they had been made by the Courts of the Jhānsī district;

And whereas the period of limitation prescribed for suits in the territories of His Highness is twelve years, and it is expedient that persons having just claims which, but for the cession of territory, they might have enforced in the Courts of His Highness, should not be debarred from enforcing those claims by reason of a shorter period of limitation being prescribed for any class of suits by the law in force in the Jhānsī district;

And whereas it is expedient that suits pending in the Courts of His Highness and left undetermined by those Courts by reason of cession of territory should be continued in the Courts of the Jhānsī district;

And whereas it is expedient to remove doubts as to the effect of the law in force in the Jhānsī district, with respect to registration and stamps, on documents and instruments to which at the time of their execution the law of His Highness applied and the law of British India did not apply;

It is hereby further enacted as follows:—

6. (1) An application for the execution of a decree or order passed by a Civil or Revenue Court of His Highness in any such case as is referred to in the first clause of the preamble to this Part may, with the previous sanction of the Deputy Commissioner, be made to any Court in the Jhānsī district subordinate to the Court of the Commissioner which may be specified by the Deputy Commissioner in that behalf in his order giving the sanction.

(2) If in any case the Deputy Commissioner is of opinion that for special reasons the sanction ought to be withheld or ought to be granted subject to conditions, he may either withhold his sanction or permit the application to be made on any conditions which in the circumstances he deems it proper to impose; but in

either of those cases he shall record the reasons in writing.

(3) The fact that an application is barred by the Indian Limitation Act, 1877, may be sufficient cause for withholding sanction to the making of the application, but in any case in which the holder of the decree or order has been debarred from enforcing it by reason of the cession of the town and fort of Jhānsī to the British Government, and to which the Deputy Commissioner sees fit to apply the provisions of that Act, the Deputy Commissioner shall, in computing the period of limitation, exclude therefrom the time which has elapsed between the cession of the town and fort and the commencement of this Act.

(4) Subject to revision by the Commissioner of the Jhānsī Division, an order of the Deputy Commissioner sanctioning or refusing to sanction the making of an application under this section, or imposing conditions with respect thereto, shall be final.

7. (1) Notwithstanding anything in the Indian Limitation Act, 1877, or in any other enactment, the limitation for certain suits. Deputy Commissioner may, within such term, not exceeding two years from the commencement of this Act, as the Local Government may prescribe in this behalf, admit any suit of a nature cognizable by the Courts of British India, which, if there had not been a cession of territory and the suit had been instituted in a Court of His Highness having jurisdiction with respect thereto, would not be liable to be dismissed by that Court by reason of its being barred by any law of limitation.

(2) In the computation of the period of limitation for a suit referred to in sub-section (1) which the plaintiff has been debarred from instituting by reason of the cession of the town and fort of Jhānsī to the British Government, there shall be excluded from the period the time which has elapsed between the cession of the town and fort and the commencement of this Act.

(3) Subject to revision by the Commissioner of the Jhānsī Division, an order of the Deputy Commissioner admitting or refusing to admit a suit under sub-section (1) shall be final.

8. An original suit pending in a Court of His Highness and left undetermined by that Court by reason of cession of territory may, be continued, under the law of limitation applicable to that Court but otherwise in accordance with the law and procedure of British Indian Courts, in any Court in the Jhānsī district subordinate to the Court of the Commissioner which the Deputy Commissioner may appoint in that behalf.

9. The provisions of the law of British India with respect to the consequences of documents being unregistered or instruments being unstamped shall not apply to any document or instrument which may have been executed before a date to be prescribed in this behalf by the Local Government, and to which the law of His Highness applied, and the law of British India did not apply, at the time of its execution.

XIV of 1862.
XVIII of
1867.
XII of 1881.

XV of 1877.

XV of 1877.

PART III.

And whereas it is expedient that traders and others who were entitled immediately before the cession of the cantonment of Morar to institute certain suits in, or make applications for or with respect to the execution of certain decrees to, a Civil Court at Morar should be enabled to institute those suits in, and make those applications to, the Civil Courts at Jhānsī and Agra, and at any other place from time to time appointed in this behalf by the Governor-General in Council, and that the period of limitation in these cases should be extended;

It is hereby further enacted as follows :—

10. (1) Any person who at the date of the cession of the cantonment of Morar was entitled to institute in a Civil Court at Morar a suit of any of the descriptions referred to in articles 50 to 54 (both inclusive) or articles 56 to 64 (both inclusive) or articles 66 to 75 (both inclusive) of the second schedule to the Indian Limitation Act, 1877, or to make to any such Court an application for or with respect to the execution of a decree in any

such suit, may institute the suit or make the application in any Civil Court at Jhānsī or Agra, or other place appointed in that behalf by the Governor-General in Council, which would have jurisdiction in the suit to be instituted, or, as the case may be, would have had jurisdiction in the suit in which the decree to be executed was passed, if the cause of action had arisen within the local limits of its jurisdiction.

(2) Notwithstanding anything in any enactment or notification to the contrary, any Civil Court at Jhānsī or Agra, or other place aforesaid, in which any such suit or application as is referred to in sub-section (1) is instituted or made shall, subject to the provisions of that sub-section, have jurisdiction to dispose of it.

(3) In computing the period of limitation for any suit or application referred to in this section, the time which has elapsed between the date of the cession of the cantonment of Morar and the commencement of this Act shall be excluded.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information :—

ACT NO. XVIII OF 1886.

An Act to amend Act XXVI of 1858.

WHEREAS it is expedient to amend Act XXXVI of 1858 (*an Act relating to Lunatic Asylums*); It is hereby enacted as follows :—

1. After section 6 the following shall be inserted, namely :—

New section inserted after section 6.

“ 6 A. (1) Where a person found wandering at large who is deemed to be a lunatic, or where a person believed to be dangerous by reason of lunacy, is apprehended and sent to the Magistrate or the Commissioner of Police, or where, on report or information that a person deemed to be a lunatic is not under proper care and control or is cruelly treated or neglected, the Magistrate or the Commissioner of Police sends for him and then determines to proceed as prescribed in section 4 of this Act, the Magistrate or the Commissioner of Police, on the request of the medical officer, may, by order in writing, authorise the detention of the supposed lunatic for such time, not exceeding ten days, as, in the opinion of the Magistrate or the Commissioner of Police, may be necessary to enable the medical officer to form an opinion on the question whether or not the supposed lunatic is a person with respect to whom a certificate in the form A in the schedule to this Act ought to be signed.

“(2) If the medical officer certifies further detention than has been authorised under subsection (1) to be necessary to enable him to form his opinion on that question, the Magistrate or

the Commissioner of Police may from time to time, by order in writing, authorise such further detention as he deems to be necessary :

“ Provided that a supposed lunatic shall not be detained for the purpose of this section for a longer time than fourteen days from the date on which the first order authorising his detention for that purpose is made.

“(3) The Executive Government may from time to time make rules as to the place of detention, and the care and treatment, of supposed lunatics detained under this section.”

2. To section 9 the words “ Subject to the provisions of any enactment for the time being in force,” shall be prefixed.

3. After section 17 the following shall be inserted, namely :—

“ 17A. When an Executive Government has not established within its limits a public asylum for the reception and detention of lunatics under this Act, the Governor-General in Council may from time to time appoint an asylum established in British India beyond those limits to be an asylum to which a Magistrate or Judge exercising jurisdiction within those limits may send lunatics as to an asylum established under this Act for the division in which his jurisdiction is situate.

“ 17B. The Governor-General in Council may from time to time, by order, Use of provincial asylums as presidency asylums for purposes of the Act. direct, with respect to any part of British India which is not annexed to a presidency or, being annexed to the presidency of Fort William, Port Saint George or Bombay, is situated at a greater distance than three hundred miles from Calcutta, Madras or Bombay, respectively, that any lunatic asylum in British India named in the order shall be deemed for that part to be a lunatic asylum at the presidency for the purposes of this Act.”

S. HARVEY JAMES,

Offg. Secretary to the Government of India.

The following Report of the Select Committee on the Bill to amend Act XXXVI of 1858 was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886 :—

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill to amend Act XXXVI of 1858 was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. The Bill as introduced was approved by the authorities to whom it was referred, but further amendments of the Act were proposed by the Governments of Bengal and the Punjab.

From Officiating Assistant Secretary to Chief Commissioner, Central Provinces, No. 182—9, dated 21st January, 1886 [Paper No. 1].

From Secretary for Berar to Resident, Hyderabad, No. 146, dated 19th January, 1886 [Paper No. 2].

From Secretary to Chief Commissioner, Assam, No. 221, dated 27th January, 1886 [Paper No. 3].

From Officiating Secretary to Chief Commissioner, British Burma, No. 534—4L, dated 29th January, 1886 [Paper No. 4].

From Chief Commissioner, Ajmer-Merwara, No. 294C, dated 3rd February, 1886 [Paper No. 5].

From Under-Secretary to Government, Bombay, No. 522, dated 9th February, 1886, and enclosures [Papers No. 6].

From Acting Chief Secretary to Government, Madras, No. 355, dated 9th February, 1886, and enclosures [Papers No. 7].

From Secretary to Government, North-Western Provinces and Oudh, No. 331—VI-590-6, dated 19th February, 1886, and enclosure [Papers No. 8].

From Registrar, High Court, Calcutta, No. 502, dated 23rd February, 1886 [Paper No. 9].

From Secretary to Chief Commissioner, Coorg, No. 289—12, dated 1st March, 1886 [Paper No. 10].

From Officiating Secretary to Government, Bengal, No. 1604, dated 1st April, 1886 [Paper No. 11].

From Secretary to Government, Punjab, No. 319, dated 19th March, 1886, and enclosures [Papers No. 12].

3. The former Government drew attention to the absence of any provision authorising the detention of supposed lunatics for observation, and the latter to the inconvenience ensuing from the provision which requires lunatics who are not natives of the country to be sent in all cases to an asylum at the presidency.

4. It appeared to us that express provision ought to be made for the detention of supposed lunatics. As a matter of practice they are detained, for in many cases the medical officer is not in a position to form an opinion on the question whether or not a person is a lunatic until he has had the person under observation for some days. The detention is probably legal where it is authorised by the Magistrate (I. L. R. 9 Cal. 341), but it is desirable that there should be no room for doubt as to the legality of a practice which is in fact absolutely necessary. We considered it desirable, however, before submitting our Report, to consult Local Governments, and we therefore circulated a draft clause proposing, in accordance with the advice of the Surgeon-General, a period of ten days as the maximum term of detention for purposes of observation. We have now, after considering the replies to our circular, proposed to extend the term to fourteen days, and to authorise Local Governments to make rules as to the place of detention, and the care and treatment, of supposed lunatics.

5. The proposal of the Punjab Government with respect to the establishment of asylums at other places than the presidency-towns for lunatics who are not natives of the country was referred by us to other Local Governments, and has been approved by them. We have provided, therefore, that the Governor-General in Council may, with respect to any part of British India which is not annexed to a presidency, or is more than three hundred miles from a presidency-town, direct that any lunatic asylum named in the order shall be deemed for that part to be a lunatic asylum at the presidency for the purposes of the Act.

6. Section 9 of the Act empowers the visitors of a lunatic asylum to order the discharge of any person detained in the asylum. As the Code of Criminal Procedure, 1882, and the Prisoners Act, 1871, reserve that power in certain cases to other authorities, we have proposed to prefix to that section an express saving of the provisions of other enactments.

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information:—

ACT NO. XIX OF 1886.

An Act to legalize the discharge by the Lieutenant-Governor of the North-Western Provinces of certain functions of the Governor-General in Council.

WHEREAS certain functions which are by enactments in force in the North-Western Provinces assigned to the Governor-General in Council are in practice discharged by the Lieutenant-Governor of those Provinces, and it is expedient that these functions should continue to be so discharged, and that their discharge in the past should be legalized;

And whereas the functions assigned to the Governor-General in Council by Regulation LII of 1803 (*for establishing a Court of Wards in the Provinces ceded by the Nawab Fuzir to the Honourable the English East India Company*), which Regulation was extended to the Conquered Provinces by section 29, Regulation VIII, 1805, and to the Province of Benares by section 2, Regulation VI, 1822, were up to the twenty-second day of December, 1873, discharged by the Lieutenant-Governor of the North-Western Provinces, and it is expedient that their discharge by the said Lieutenant-Governor up to that date should be validated;

It is hereby enacted as follows:—

1. The sections of the enactments in the schedule to this Act which are

Transfer to Lieutenant-Governor of certain functions of Governor-General in Council.

specified in the third column of that schedule shall have effect, and, so far as may be

necessary to validate anything heretofore done under them by the Lieutenant-Governor of the North-Western Provinces, shall be deemed to have had effect as if the Lieutenant-Governor of the

North-Western Provinces were therein referred to instead of the Governor-General in Council.

2. Sections 3, 7, 9 and 17 of Regulation LII of 1803 shall be deemed to have had effect in the North-Western Provinces as if the words "or the Lieutenant-Governor of the North-Western Provinces" had been inserted in those sections after the words "Governor-General in Council" wherever the latter words occur.

S. HARVEY JAMES,

Offg. Secretary to the Government of India

The following Report of the Select Committee on the Bill to legalize the discharge by the Lieutenant-Governor of the North-Western Provinces of certain functions of the Governor-General in Council was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886 :—

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill to legalize the discharge by the Lieutenant-Governor of the North-Western Provinces of certain functions of the Governor-General in Council was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Chief Commissioner, British Burma, No. 574—17L., dated 19th September, 1884, and enclosure [Papers No. 1].

From Officiating Secretary to Chief Commissioner, Assam, No. 1520, dated 20th September, 1884 [Paper No. 2].

From Officiating Secretary to Government, Punjab, No. 572S., dated 29th September, 1884, and enclosures [Papers No. 3].

From Chief Commissioner, Ajmer-Merwara, No. 841, dated 3rd October, 1884 [Paper No. 4].

From Secretary to Chief Commissioner, Central Provinces, No. 36C., dated 26th October, 1884, and enclosure [Papers No. 5].

From Secretary to Government, North-Western Provinces and Oudh, No. 121—XIII-10-5, dated 8th August, 1884, and enclosures [Papers No. 6].

2. We have removed Regulation LII of 1800 from the schedule to the Bill, because the Mirzapur Stone Mahál Act, 1836, seems to us to render its retention unnecessary.

3. We have proposed in an additional section to validate the exercise by the Lieutenant-Governor of the North-Western Provinces of the powers of the Governor-General in Council under Regulation LII of 1803 which the Lieutenant-Governor seems to have exercised without question throughout the forty years which elapsed between the constitution of his office and the repeal of the Regulation. When the Bill was under consideration some two years ago, the interests of the parties to a suit then pending might have been affected by the validation of the exercise of these powers, and it was therefore decided that our Report should be delayed till the suit had been disposed of. There is now, so far as we are aware, no litigation before any Court which can be influenced in any way by the enactment of the section which we propose to add to the Bill.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information :—

ACT NO. XX OF 1886.

An Act to declare the law in force in Upper Burma.

WHEREAS the territories which were formerly governed by King Thebaw have become part of British India;

And whereas it is expedient to declare the law in force in those territories, and for this purpose to distinguish between those territories and the territories which were under the administration of the Chief Commissioner of British Burma on the thirty-first day of December, 1885;

It is hereby enacted as follows :—

1. (1) This Act may be called the Upper Burma Laws Act, 1886.

Short title and commencement.

(2) This section and sections 2, 3, 4 and 5 shall come into force at once, and the rest of the Act shall come into force on such date (hereinafter called the commencement of this Act), within four months from the passing of the Act, as the Local Government may, by notification in the official Gazette, appoint in this behalf.

2. (1) The following territories shall constitute a province to be known as Burma, namely :—

Constitution of Province of Burma.

(a) the territories formerly governed by King Thebaw, which shall be known as "Upper Burma"; and

(b) the territories administered by the Chief Commissioner of British Burma on the thirty-first day of December, 1885, which shall be known as "Lower Burma."

(2) The Local Government, with the previous sanction of the Governor-General in Council, may from time to time, by notification in the official Gazette, transfer any portion of Upper Burma to Lower Burma, or any portion of Lower Burma to Upper Burma, with effect from a date to be specified in the notification, and on and from that date the portion so transferred shall form

part of Lower Burma or Upper Burma, as the case may be.

(3) When any portion of Upper Burma is transferred to Lower Burma, the Scheduled Districts Act, 1874, shall, unless the Governor-General in Council otherwise directs, continue to be in force therein. XIV of 1874.

(4) When any portion of Lower Burma is transferred to Upper Burma, the Governor-General in Council may direct that that Act shall come into force therein.

3. The Local Government may, for administrative purposes,—

Division of Upper Burma into divisions, districts, sub-divisions, townships and circles.

(a) with the previous sanction of the Governor-General in Council, divide Upper Burma into divisions, and each of those divisions into districts, and from time to time vary the limits of those divisions and districts; and

(b) of its own authority, divide each of those districts into sub-divisions, each of those sub-divisions into townships, and each of those townships into circles, and from time to time vary the limits of those sub-divisions, townships and circles.

4. Where in any enactment in force at the passing of this Act in the territories referred to in section 2, sub-section (1), clause (b), there occurs the expression "British Burma Gazette", or the expression "British Burma" or "Burma" (except where the expression "Burma" occurs in the Petroleum Act, 1886, section 3), it shall be construed as referring to the Burma Gazette or to Lower Burma, as the case may be. XII of 1886.

5. The enactments specified in the first schedule to this Act, having been rendered unnecessary by the incorporation of Upper Burma in British India, are repealed to the extent mentioned in the third column of the schedule.

6. (1) Subject to the provisions of any Regulation under the Statute 33 of Victoria, chapter 3, so much of each of the enactments specified in the second schedule to this Act as is at the commencement of this Act in force in any part of Lower Burma which is not included in a scheduled district as defined in the Scheduled Districts Act, 1874, shall be deemed to be in force in Upper Burma generally, or in the Town of Mandalay only, according as the enactment is specified in the First or Second Part of the schedule. XIV of 187

(2) An enactment not specified in that schedule shall not be deemed to be or to have been in force in Upper Burma or in any part of Upper Burma unless it is expressed, by special mention of Upper Burma or a part of Upper Burma, to extend thereto, or after the commencement of this Act is extended thereto in exercise of the powers conferred by section 5 of the Scheduled Districts Act, 1874, or by any other enactment for the time being in force.

(3) The Local Government may, from time to time, with the previous sanction of the Governor-General in Council, by notification in the official Gazette, declare that any enactment which is specified in that schedule or which may hereafter be extended in exercise of any such powers as aforesaid, shall no longer be in force in Upper Burma or in any part of Upper Burma specified in the notification.

(4) The limits of the Town of Mandalay for the purposes of this Act shall be the limits for the time being of the local area subject to the ordinary original jurisdiction of the Civil Court of Mandalay.

(5) This section does not extend to the Shan States.

7. (1) The following enactments specified in the First Part of the second schedule to this Act shall, in Upper Burma, be read subject to the following modifications, namely :—

(a) in Act VIII of 1851 (*an Act for enabling Government to levy Tolls on Public Roads and Bridges*), for the last sixteen words of section 4, the words "or of any person or property exempted by order of the Local Government from payment of tolls" shall be substituted ;

(b) in Act V of 1861 (*an Act for the Regulation of Police*), to section 2 the words "All Thugyis and Myothugyis for the time being holding office shall be police-officers, and shall be deemed to have been formally enrolled under this Act" shall be added ;

(c) in Act VI of 1864 (*an Act to authorise the punishment of shipping in certain cases*), after section 5 the section and schedule in the third schedule to this Act shall be added ;

(d) in the Indian Evidence Act, 1872, after the words "police officer" in section 25 the words "who is not a Magistrate" shall be inserted ;

(e) in the Dramatic Performances Act, 1876, the words "within such area" shall be omitted from the third paragraph of section 10, and for the first two paragraphs of that section the following shall be substituted, namely :—

"No dramatic performance shall take place except under a license granted by the District Magistrate or such officer as the District Magistrate may appoint in this behalf.

"Any person who promotes or takes part in any dramatic performance in contravention of the foregoing portion of this section

shall be punishable, on conviction before a Magistrate, with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both."

(2) This section does not extend to the Shan State

8. (1) The Local Government, with the previous sanction of the Governor-General in Council, may, by notification in the official Gazette, from time to time extend to all or any of the Shan States any enactment which is in force in any part of Upper Burma at the date of the extension, and at any time withdraw all or any of those States from the operation of any enactment so extended.

(2) Unless and until extended under sub-section (1), an Act of the Governor-General in Council shall not be in force in any Shan State.

(3) The Local Government, with the previous sanction of the Governor-General in Council, may from time to time, by notification in the official Gazette, declare what territories constitute the Shan States for the purposes of this and the two last foregoing sections.

9. For the purpose of facilitating the application of any enactment for the time being in force in Upper Burma, any Court in Upper Burma may construe the enactment with such alterations not affecting the substance as may be necessary or proper to adapt it to the matter before the Court.

10. All acts of executive authority, proceedings, decrees and sentences, which have been done, taken or passed in Upper Burma since the seventeenth day of November, 1885, and before the commencement of this Act, by any officer of the Government, or by any person acting under his authority or otherwise in pursuance of an order of the Government, or which have been or shall be ratified by the Local Government, shall be as valid and operative as if they had been done, taken or passed in accordance with law; and no suit or other proceeding shall be maintained or continued against any person whatever on the ground that any such acts, proceedings, decrees or sentences were not done, taken or passed in accordance with law.

11. All rules, orders or instructions made or issued after the seventeenth day of November, 1885, and before the commencement of this Act, for the guidance of officers engaged in the administration of Upper Burma shall be deemed to have had the force of law, and shall, so far as they are consistent with this Act, continue to have the force of law until they are withdrawn, or are superseded by any Act of the Governor-General in Council, or by any Regulation under the Statute 33 Victoria, chapter 3, or by any enactment extended to Upper Burma, or by any rules, orders or instructions made or issued under any such Act, Regulation or enactment.

The following Report of the Select Committee on the Bill to declare the law in force in Upper Burma was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886 :—

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill to declare the law in force in Upper Burma

From Secretary to Chief Commissioner, Burma, No. 83—130, dated 4th September, 1886, and enclosures.

From Secretary to Chief Commissioner, Burma, No. 84—130, dated 4th September, 1886, and enclosures.

was referred, have considered the Bill and the papers noted in the margin, and have now the

honour to submit this our Report.

2. We have, in accordance with the advice of the Chief Commissioner, provided in section 1 that certain portions of the Bill shall not come into force at once. It is desirable that sections 6 to 11 of the Bill, as amended by us, should not have effect until the Civil and Criminal Justice Regulations, which have been drawn, and for the most part settled, have been finally proposed by the Chief Commissioner and have received the assent of the Governor-General under the Statute 33 Victoria, chapter 3.

3. Section 3, regarding the division of Upper Burma into divisions, districts, sub-divisions, townships and circles, will serve the purposes of the Regulations which the Chief Commissioner is about to propose.

4. Section 4 has been so modified as to cover, it is believed, the language of all enactments in force in Lower Burma.

5. Section 6 has been so amended as to define more precisely the local area to which the Second Part of the Second Schedule is to apply. The Shan States are excluded from the operation of this and the next following section.

6. *Section 7.*—(1) The section (7) which it was proposed to add to Act VI of 1864 will be rendered unnecessary by the application to Upper Burma of sections 390 to 395 of the Code of Criminal Procedure by the proposed Criminal Justice Regulation.

(2) It is proposed to amend section 25 of the Indian Evidence Act, 1872, in its application to Upper Burma, because Thugyis and Myothugyis will, besides being police-officers, be local Magistrates and Judges.

(3) The modification of section 10, Act XIX of 1876, will substantially continue the law as it was found in Upper Burma with respect to *pwe's* or dramatic entertainments, and as it seems desirable to maintain that law for the present.

7. Section 8 provides that British Indian law shall not extend *proprio vigore* to any of the Shan States.

8. Sections 9, 10 and 11 remain, with slight modifications, as they were in the Bill as introduced.

9. We have added some Acts to the First Part of the Second Schedule. Among them are the Court-fees and Stamp Acts, the Presidency Banks Acts, the Indian Companies Act and the Land Improvement Loans Act. The operation of the Court-fees and Stamp Acts will be limited by notifications to be issued when those Acts come into force. The fact that the Bank of Bengal contemplates the establishment of a branch at Mandalay necessitates the extension of the Presidency Banks Acts. The Indian Companies Act may be required at any time; and the local authorities advise the extension of the Land Improvement Loans Act for the purposes of loans to be made for irrigation-works.

10. The jurisdiction to be conferred on, and the rules to be prescribed for, the Civil Court of Mandalay will render necessary the extension of the Provincial Small Cause Courts Act, XI of 1865, and the Code of Civil Procedure to the Town of Mandalay.

11. Other amendments of the Bill do not call for remark.

12. The publication ordered by the Council has been made as follows:—

<i>In English.</i>		
<i>Gazette.</i>		<i>Date.</i>
Gazette of India	14th, 21st and 28th August, 1886.
British Burma Gazette	4th, 11th and 18th September, 1886.

<i>In the Vernacular.</i>		
<i>Province.</i>	<i>Language.</i>	<i>Date.</i>
Burma Burmese	... 11th and 18th September, 1886.

13. We do not think that the measure has been so altered as to require re-publication, and we recommend that it be passed as now amended.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information:—

ACT NO. XXI OF 1886.

An Act to declare certain allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871.

WHEREAS, on the death of Her Highness the Bahu Begam, His Highness the Nawab Vazir of Oudh delivered to the British Government a sum of money with intent that the interest accruing thereon should, in compliance with the wishes of Her Highness the Bahu Begam as expressed in a Deed of Deposit executed by her in the year 1813, be applied by the British Government to the payment of certain pensions, which pensions are known as the Amanat Wasikas;

And whereas in the year 1813 the said Government guaranteed the payment of certain pensions to persons connected with the Khās Mahāl of Her Highness the Bahu Begam, which pensions are known as the Zamanat Wasikas;

And whereas, in the years 1814, 1825 and 1838, loans, known respectively as the 1st, 3rd

and 6th Oudh loans, were made by the Rulers of Oudh to the Honourable the East India Company with intent that the interest accruing thereon should be applied by the said Government to the payment of certain pensions, which pensions are known as the Loan Wasikas;

And whereas the Amanat, Zamanat and Loan Wasikas have been regarded as pensions to which the Pensions Act, 1871, applies, and rules respecting them have been made and published under section 14 of that Act;

And whereas, since the making and publication of the rules, doubt has been expressed whether the said Wasikas are pensions within the meaning of the Pensions Act, 1871;

And whereas it is expedient to declare them to be pensions within the meaning of that Act;

It is hereby enacted as follows:—

1. This Act may be called the Oudh Wasikas Act, 1886.

2. The allowances respectively known as the Amanat Wasikas, the Zamanat Wasikas and the Loan Wasikas are pensions within the meaning of the Pensions Act, 1871, and that Act shall apply to them as if they were pensions of the classes referred to in sections 4 and 11 of that Act.

The following Report of the Select Committee on the Bill to declare certain allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886:—

From Chief Secretary to Government, North-Western Provinces and Oudh, No. 4281A. -X.-F.-42, dated 30th August, 1886, and enclosure [Papers No. 1]

From Messrs. Harries and Simmons, Solicitors, Calcutta, dated 8th September, 1886

allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. The Government of the North-Western Provinces and Oudh having reported that the pensions payable under the Treaty of the year 1829, under which the 5th Oudh loan was made to the Honourable the East India Company, have all been commuted, we have removed section 3 of the Bill as introduced and so much of the preamble as had reference to that section.

3. Exception having been taken to some of the pensions being described as "conferred by a former Government and continued by the British Government on political considerations," we have re-drawn section 2 of the Bill so as to make it clear that the allowances are dealt with as pensions of that nature only for the purpose of barring the Civil Courts from

entertaining suits relating to them and of protecting them from attachment at the instance of creditors.

4. The publication ordered by the Council has been made as follows:—

CHAPTER II.

OF CERTAIN RIGHTS AND LIABILITIES OF LANDLORDS, UNDER-PROPRIETORS AND TENANTS.

Right of Occupancy.

5. Tenants who have lost all proprietary right, whether superior or subordinate, in the lands which they hold or cultivate, shall, so long as they pay the rent payable for those lands according to the provisions of this Act, have a right of occupancy under the following rule :—

Every such tenant who, within thirty years next before the thirteenth day of February, 1856, has been, either by himself, or by himself and some other person from whom he has inherited, in possession as proprietor in a village or estate shall be deemed to possess a heritable but not a transferable right of occupancy in the land which he cultivated or held in such village or estate on the twenty-fourth day of August, 1866: provided that such land has not come into his occupation, or the occupation of the person from whom he has inherited, for the first time since the said thirteenth day of February, 1856: provided also that no such tenant shall have a right of occupancy in any village or estate in which he or any co-sharer with him possesses any under-proprietary right.

Nothing contained in the former part of this section shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1868.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 6-15.)*

6. Nothing in the last foregoing section shall be construed to restrict the power of a landlord to confer by registered document on any persons other than those mentioned in that section a right of occupancy in the lands which they hold or cultivate.

7. If a tenant having a right of occupancy is ejected, in accordance with the provisions of section 52, from the land in which he possesses the right, he shall thereupon lose his right of occupancy in that land.

Tenants' Right to Pattas.

8. Every tenant is entitled to receive from his landlord a patta or memorandum of the terms of the tenancy, signed by the landlord or his authorized agent, and containing the following particulars, namely:—

- (a) the quantity of land and, where the fields comprised in the patta have been numbered in a Government survey, the number of each field;
- (b) the term for which the tenancy is to run;
- (c) the amount of rent payable;
- (d) the instalments in which and the times at which that amount is to be paid;
- (e) any special conditions not inconsistent with the provisions of this Act; and
- (f) if the rent is payable in kind, the proportion of produce to be delivered, and the time, manner and place of delivery.

9. Tenants having a right of occupancy are entitled to receive patta at rates of rent determined in accordance with the provisions of Chapter IV, Part A, of this Act.

10. Tenants not having a right of occupancy are entitled to patta for the terms and at the rates prescribed in Chapter IV, Part B, of this Act.

Landlords' Right to Counterparts.

11. Every landlord who grants a patta is entitled to receive from the tenant a counterpart signed by or on behalf of the tenant.

Arrears of Revenue or Rent.

12. Any instalment of revenue or rent which is not paid on or before the day when it becomes due, whether under a written agreement or according to law or local usage, shall be deemed to be, for the purposes of this Act, an arrear of revenue or rent, as the case may be:

Provided that, unless the proprietor and under-proprietor have otherwise agreed in writing, the rent payable to the former by the latter shall be held to become due one month before the date fixed for the payment of the revenue on account of the village in which the land in respect of which the rent is payable is situate, and to be payable in the same number of instalments as the revenue; and the amount of each instalment of the rent shall bear the same proportion to the whole of the rent

payable for the year as the amount of each instalment of the revenue bears to the whole of the revenue payable for the year.

Receipts.

13. (1) Every receipt for rent shall specify the year or years on account of which the rent has been paid; and any refusal to make that specification shall be held to be a withholding of a receipt.

(2) If a receipt for rent paid by an under-proprietor or tenant is withheld from him without sufficient cause, he may recover compensation from the landlord up to an amount not exceeding that of the rent paid.

Deposit of Revenue or Rent in Court without Suit.

14. (1) If a co-sharer, under-proprietor or tenant from whom any revenue or rent is due in respect of the land held or cultivated by him, tenders the full amount of that revenue or rent at the usual place of payment to the person authorized to receive it, and that person does not accept the amount and forthwith give a receipt in full therefor, the co-sharer, under-proprietor or tenant may, without any suit having been instituted against him, deposit the amount in Court to the credit of the person authorized to receive it.

(2) The deposit shall, so far as regards the co-sharer, under-proprietor or tenant, and all persons claiming through or under him, operate as a payment then made to the landholder or landlord of the amount so deposited.

15. (1) The Court shall receive the deposit on the written application of the co-sharer, under-proprietor or tenant, or his recognized agent; and on the applicant making a declaration in the form set forth in Schedule A to this Act, or as near thereto as circumstances will admit, the Court shall give him a receipt for the deposit.

(2) The declaration shall be verified in the manner prescribed for the verification of plaints by section 52 of the Code of Civil Procedure, and shall be signed by the person making it.

(3) Upon receiving the deposit, the Court shall issue to the person to whose credit it has been paid a notice in the form set forth in Schedule B to this Act.

(4) The notice shall be served by the proper officer without the payment of any fee.

(5) If the person to whose credit the deposit has been paid, or his recognized agent, appears and applies for it, the Court shall cause it to be paid to him.

(6) The application under sub-section (5) may be on plain paper.

16. Where a deposit has been made under the provisions of the two last foregoing sections, a suit shall not be brought against the depositor or his representative on account of any revenue or rent which accrued due in respect of the land last hereinbefore mentioned prior to the date of the deposit, unless the suit is instituted within six months from the date of the service of the notice mentioned in section 15.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 17-24.)**Illegal Enforcement of Payment of Rent.*

17. (1) If payment of rent or of any sum in excess of the rent legally claimable is illegally enforced, and any under-proprietor or tenant institutes a suit to recover compensation for the illegal enforcement of the payment, the Court may award to him compensation, not exceeding the sum of two hundred rupees, in addition to any amount for which it makes a decree in respect of the payment itself.

(2) An award of compensation under sub-section (1) shall not bar any prosecution to which the person illegally enforcing the payment may be liable under any law for the time being in force.

Abatement of Rent.

18. Save as provided by section 29, sub-section (4), a suit for an abatement of the rent of a holding shall not be brought by an under-proprietor or tenant except on the ground that the area of the holding has diminished, or on some ground specified in a lease, agreement or decree under which he holds :

Provided that, if the under-proprietor holds a sub-settlement in a revenue-paying estate, an abatement shall not be allowed to the under-proprietor unless a remission of revenue has been allowed on the same ground and by competent authority in the same estate.

Remission of Rent.

19. (1) Notwithstanding anything in the last foregoing section, a Court, when it makes a decree for an arrear of rent, may, with the previous sanction of the Deputy Commissioner, allow such remission from the rent payable by any under-proprietor or tenant as appears equitable, if the area of the land in his occupation has been materially diminished by diluvion or otherwise, or if the produce of that land has been diminished by drought, hail or other calamity beyond his control, to such an extent that the full amount of rent payable by him cannot, in the opinion of the Court, be paid.

(2) Where a remission of rent under this section causes a material diminution of the assets of the landlord in the village in which the remission is given, the revenue-authorities shall take into consideration any claim made by the landlord for a remission of revenue.

(3) A remission shall not be allowed under this section to an under-proprietor holding a sub-settlement, or to a tenant having a right of occupancy, unless a remission of revenue has been allowed on the same ground and by competent authority in the same village.

Relinquishment of Land.

20. (1) A tenant shall continue liable for the rent of the land in his holding unless on or before the fifteenth day of March in any year he gives to the landlord or to the recognized agent of the landlord notice in writing of his desire to relinquish that land, and relinquishes it accordingly.

(2) If the landlord or his recognized agent refused to receive the notice or to sign and deliver

a receipt therefor, the tenant may, before the latest date prescribed for giving the notice, apply on plain paper to the tahsildar or proper officer, and written notice of the desire of the tenant to relinquish the land shall then be served on the landlord at the expense of the tenant.

(3) A tenant cannot without the consent of his landlord relinquish a part only of his holding.

(4) Nothing in this section shall entitle a tenant holding under a registered document under section 69 to relinquish his holding otherwise than in accordance with the terms of that document.

21. (1) If a tenant abandons his holding without informing his landlord and without arranging for the cultivation of the holding, the landlord may at any time after the fifteenth day of May enter on the holding.

(2) Before a landlord enters on a holding under sub-section (1), he shall file a notice in the prescribed form at the office of the tahsildar for service on the tenant stating that he has treated the holding as abandoned and is about to enter on it accordingly.

(3) When a landlord enters on a holding under sub-section (1), the tenant may institute a suit under this Act to recover possession of the holding, and the Court shall, on being satisfied that the tenant did not voluntarily abandon the holding, order recovery of possession on such terms with respect to the time of delivery of possession, the payment of arrears of rent, if any, and, if injury has been caused by the wrongful act, neglect or default of any party to the proceeding, with respect also to the payment of compensation by that party, as to the Court may seem just.

Compensation for Tenants' Improvements.

22. (1) If a tenant, or a person from whom he has inherited, has made any such improvement on his holding as is hereinafter in this Chapter mentioned, neither he nor his representative shall be ejected from the holding unless and until he or his representative, as the case may be, has received compensation for the improvement :

Provided that compensation shall not be payable for any improvement made thirty years or more before the date on which the ejectment is to take effect.

(2) An improvement made by a tenant for the benefit of his holding on land belonging to the person who is entitled to receive the rent of the holding shall for the purposes of this section be deemed to have been made on the holding of the tenant.

23. Except as provided in the next following section, a tenant shall not be entitled to claim compensation for an improvement made subsequently to the passing of this Act without the written consent of the landlord.

24. (1) If a tenant applies for the written consent of his landlord to the making of an improvement on his holding, and the landlord omits or refuses to grant it, the tenant may apply to the Deputy Commissioner for permission to make the improvement.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietary and Tenants.—Sections 25-30.)**(Chapter III.—Payment of Rent in kind.—Sections 31-32.)*

(2) When an application is made to the Deputy Commissioner under sub-section (1), he shall take into consideration any objections which the landlord may have to urge on either of the following grounds, namely:—

(a) that the improvement is too costly or is unsuitable to the nature of the tenant's holding, or

(b) that the landlord is himself prepared to make the improvement,

and shall then either grant the permission on such conditions as he considers fair and equitable or refuse the application.

25. (1) If either the landlord or the tenant desires the amount expended on an improvement executed with the permission of the Deputy Commissioner under the last foregoing section to be determined and registered, the Deputy Commissioner shall, on application made to him for the purpose, determine the amount of the outlay, and enter it in a register kept in the prescribed form.

(2) The entry in the register shall be a conclusive proof of the amount of the outlay in any subsequent proceedings respecting the cost of the improvement.

26. The word "improvement", as used in this Act, means a work by which the annual letting value of land has been, and at the time of a demand for compensation continues to be, increased, and comprises—

(a) the construction of works for the storage of water, for the supply of water for agricultural purposes, for drainage and for protection against floods; the construction of wells; the reclamation of waste land and jungle; and other works of a like nature;

(b) the renewal or reconstruction of any of the foregoing works, or such alterations therein or additions thereto as are not required for the maintenance thereof and increase durably their value.

27. In estimating the compensation to which a tenant is entitled for an improvement regard shall be had—

(a) to the amount by which the value, or the produce, of the holding, or the value of that produce, is increased by the improvement;

(b) to the condition of the improvement and the probable duration of its effects;

(c) to the labour and capital required for the making of such an improvement;

(d) to any reduction or remission of rent or any other advantage given by the landlord to the tenant in consideration of the improvement; and

(e) in the case of a reclamation, or of the conversion of unirrigated into irrigated land, to the length of time during which the tenant has had the benefit of the improvement.

28. When a Court has assessed the amount of the compensation due to a tenant, it may, if both landlord and tenant desire that the compensation assessed, instead of being paid wholly in money, shall be made wholly or partly in some other way, proceed to give judgment according to the terms agreed upon between them.

29. (1) A landlord may make an improvement on the holding of a tenant not having a right of occupancy with or without the consent of the tenant.

(2) A landlord intending to make an improvement shall, if any part thereof is to be made on the holding of any such tenant, give notice of his intention to the tenant through the tahsildar.

(3) A landlord making an improvement on the holding of any such tenant shall be liable to compensate the tenant for any loss which he may cause to the tenant when making it.

(4) If the effect of the improvement is to impair the productive powers of the holding, the tenant shall, in addition to any compensation which may be awarded to him under sub-section (3), be entitled to such abatement of his rent as to the Court seems just.

(5) A landlord may not make an improvement on the holding of a tenant with a right of occupancy without the consent of the tenant.

Survey and Measurement.

30. A landlord and his agents and surveyors may at all reasonable times enter upon any land comprised in his estate for the purpose of surveying and measuring the land.

CHAPTER III.

PAYMENT OF RENT IN KIND.

31. Where rent is taken by division of the produce in kind, or by estimate or appraisement of the standing crop, or other proceeding of a similar nature requiring the presence of both the tenant and the landlord either personally or by recognized agent, if either party neglects to be present at the proper time, or if a dispute arises between the parties regarding the division, estimate, appraisement or proceeding, either party may present an application to the Court, requesting that a proper officer be deputed to make the division, estimate or appraisement or conduct the proceeding.

32. (1) On receiving the application, the Court shall issue a written notice to the other party to attend at a time and place specified in the notice, and shall depute an officer before whom the division, estimate or appraisement shall be made or the proceeding conducted.

(2) The award of that officer in respect of the division, estimate, appraisement or proceeding shall be final, unless, within one month from the date thereof, either party institutes a suit to set it aside.

*The Oudh Rent Act, 1886.**Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 33-41.)*

CHAPTER IV.

ENHANCEMENT AND FIXING RATES OF RENT.

Part A.—Tenants with Right of Occupancy.

33. (1) A tenant having a right of occupancy in any land shall not, in case of dispute as to the rent to be paid in respect of the land, be liable to an enhancement of the rent except in pursuance of a decree made under this Act on some one of the following grounds, namely:—

1st ground.—That the rate of rent paid by him is below the rate of rent usually paid, by the same class of tenants having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate.

2nd ground.—That the rate of rent paid by him is more than twelve-and-a-half per cent. below the rate of rent usually paid, by tenants of the same class not having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate, less twelve-and-a-half per cent.

3rd ground.—That the quantity of land held by him exceeds the quantity for which he has previously paid rent.

Rule.—In this case the Court shall decree rent for the land in excess, at rates to be fixed by the first or the second of the rules contained in this section, as the case may be.

(2) Nothing in sub-section (1) shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1888.

34. After a decision has been passed in accordance with the last foregoing section, a suit shall not lie for re-enhancement of the rent until the expiration of five years from the date of the decision, except on the 3rd ground mentioned in that section, or, in the case referred to in the next following section, until, by re-assessment within the term of five years, the revenue of the land has been increased.

35. If, on a re-assessment of the revenue, the rent of the tenant cannot be enhanced under section 33 by reason of the absence of the grounds therein mentioned, the landlord may institute a suit to enhance the rent to a sum not exceeding double the average amount of the revenue imposed at the re-assessment upon land of a similar description and with similar advantages held by tenants of the same class in the same village.

36. Every tenant, not being a tenant with a right of occupancy or sub-tenant, shall be entitled to retain possession of the holding occupied by him at the time of the passing of this Act, at the rent then payable by him, for a period of seven years from the date of the last change in his rent or of

the last alteration in the area of the holding, or, where no such change or alteration has taken place, from the date on which the tenant was admitted to the occupation of the holding.

37. Every such tenant who may be admitted to the occupation of a holding after the passing of this Act shall be entitled to retain the same for a period of seven years from the date of his admission at a rent agreed upon with the landlord in accordance with the provisions of this Act; and every such tenant, in the area of whose holding or in the amount of whose rent any change is made by the landlord subsequently to the passing of this Act, shall be deemed to be admitted to the occupation of a holding within the meaning of this section.

Explanation I.—“Holding” means a parcel or parcels of land held by a tenant and forming the subject of a separate engagement. The engagement may be express or implied.

Explanation II.—This section and section 36 have effect subject to the provisions of section 4, sub-sections (3) and (4), relating to land not previously cultivated, and subject also to section 157, excluding certain classes of land from the operation of certain sections of this Act.

38. (1) A landlord may enhance the rent of a tenant to whom section 36 or section 37 applies, either by contract in accordance with the provisions of this section or by notice as hereinafter provided.

(2) Subject to the provisions of sections 49 and 50, the enhancement shall not in any case exceed one anna in the rupee, or six-and-a-quarter per cent., on the annual rent payable by the tenant at the time when the contract was made or the notice was issued.

(3) Provided that, where rent is paid in kind, the proportion of produce paid as rent by a tenant shall not be subject to increase except in accordance with an established custom of the pargana in which the land is situate.

39. If a landlord desires that the rent of a tenant to whom section 36 or section 37 applies be enhanced on the expiration of the term of seven years referred to in section 36 or section 37, as the case may be, or at any time during the currency of that term in the case mentioned in section 50, he may cause a notice to that effect to be served under section 42.

40. (1) A notice whereby enhancement is claimed on account of the expiration of the period of the tenancy shall not be served before the commencement of the last year of the tenancy.

(2) A notice of enhancement on account of an improvement made or acquired by the landlord may be served at any time during the currency of the tenancy.

41. The notice shall be written in Hindi and Urdu, and shall specify the land, the amount of the present rent and the amount of the enhancement, and require the tenant, if he refuses to pay the enhancement, to vacate the land by the fifteenth day of May next following, or to institute a suit

*The Oudh Rent Act, 1886.**(Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 42-51)*

in the proper Court to contest the notice of enhancement within thirty days from the date of the service thereof.

42. On the application of the landlord to the tahsildār or other prescribed officer the notice shall be served by the officer on or before the fifteenth day of February at the expense of the landlord.

Grounds on which tenant may contest his liability to enhancement.

43. The tenant may institute a suit to contest the notice of enhancement, within thirty days from the date of the service thereof, on any of the following grounds, namely:—

- (a) that he has a right of occupancy in the land specified in the notice;
- (b) that he holds under a special agreement or decree of Court or lease under the terms of which his rent is not liable to enhancement;
- (c) that the enhancement claimed is in excess of the rate authorized by law;
- (d) that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37 equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- (e) that the notice has not been served in the manner required by this Act;
- (f) that, where the enhancement claimed is on account of an improvement, the amount claimed is excessive.

44. (1) If the tenant does not contest the notice of enhancement and remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, he shall become liable for the enhanced rent.

(2) If the tenant contests the notice, and the validity thereof is maintained by the Court in whole or in part, he shall, if he remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, become liable for the enhanced rent to the extent to which the Court has maintained the validity of the notice.

45. If the tenant by remaining in possession of the land under the last foregoing section becomes liable for enhanced rent, he shall be entitled to hold the land at that rent for a further period of seven years.

46. If the tenant refuses to accept the enhancement claimed or decreed and vacates the holding, he shall be entitled to recover by separate suit from the landlord compensation for any improvements made by him on the holding.

47. (1) Except in the cases mentioned in sections 49 and 50, the rent of a tenant admitted to the occupation of any land the tenancy of which has determined according to the provisions of this Act shall not exceed by more than one anna in the rupee, or six-and-

a-quarter per cent., the rent payable by the tenant immediately preceding him.

(2) In the case of a tenant admitted to the occupation of a holding of which the rent has been immediately before his admission paid in kind, the rent payable shall, subject to any established custom of the pargana in which the holding is situate, be either the rent payable by the tenant immediately preceding him, or a sum which, subject to the provisions of sections 49 and 50, shall not exceed by more than six-and-a-quarter per cent. the equivalent of the value of the produce annually paid as rent on the average of the three years immediately preceding.

48. (1) The heir of a tenant who dies during the currency of the tenancy of a holding shall be entitled to retain occupation of the holding at the rent payable by the deceased for the unexpired portion of the period for which the deceased tenant might have held without liability to enhancement or ejection, and to receive compensation under the provisions of this Act for improvements, if any, made on the holding by himself or his predecessor in interest, but shall not be entitled to a renewal of the tenancy.

(2) Subject to any rights which he may have under section 22 as a representative of the deceased, a collateral relative who did not at the date of the death of the deceased share in the cultivation of the holding shall not be deemed to be an heir of the deceased within the meaning of this section.

49. The rent of a tenant admitted to the occupation of any land the tenancy of which has ceased in consequence of the death of a previous tenant, or of the ejection of a thekadār or mortgagee from land of which he has taken cultivating possession during the period of his theka or mortgage, shall be such amount as may be agreed upon between him and the landlord.

50. (1) Nothing in the foregoing sections shall bar the right of a landlord to enhancement of rent on the ground that the productive powers of the land held by the tenant have been increased by an improvement which has been made by, or at the expense of, the landlord, or for which during the currency of the tenancy compensation has been accepted from the landlord by the owner of the improvement or, on the expiration of the tenancy, compensation has been paid in accordance with the determination of a Court under this Act.

(2) Where an enhancement is claimed on the ground of any such improvement, the Court, in determining the claim, shall have regard to—

- (a) the increase in the productive powers of the land caused, or likely to be caused, by the improvement;
- (b) the cost of the improvement; and
- (c) the cost of the cultivation required for the utilising of the improvement.

51. Notwithstanding anything in the foregoing sections, the Chief Commissioner may, by notification in the local official Gazette, vary from time to time, within periods of not less than seven years, the limits of the enhancement to which tenants to whom section 36 or section 37 applies are liable in any local area specified in the notification.

*The Oudh Rent Act, 1886.**(Chapter V.—Ejectment.—Sections 52-60.)*

CHAPTER V.

EJECTMENT.

Tenants holding on special terms.

52. (1) A tenant having a right of occupancy in any land, or holding any land under a special agreement or decree of Court, shall not be ejected from that land otherwise than in execution of a decree for ejectment

Provided that the decree for ejectment shall not be made, unless, at the date of that decree, a decree against the tenant for an arrear of rent in respect of the land has remained unsatisfied for fifteen days or upwards.

(2) A decree for the ejectment of a tenant holding under a special agreement or decree of Court may be made on such grounds as would justify ejectment under the agreement or decree.

Other Tenants.

53. A tenant not having a right of occupancy, and not holding under a special agreement or decree of Court, may be ejected by notice, application or suit under the following sections of this Chapter.

54. If a landlord desires to eject any such tenant on the expiration of his tenancy, he may cause a notice of ejectment to be served on the tenant under the next following section.

55. (1) The notice shall be written in Hindi and in Urdu; it shall be signed by the landlord or by an agent authorized by him in that behalf; it shall specify the land from which the tenant is to be ejected; it shall, if a court-fee is payable in respect thereof under this section, contain a certificate by the putwari as to the annual rent payable for the holding to which the notice relates; and it shall inform the tenant that he must either (a), if he means to dispute the ejectment, institute a suit for that purpose within thirty days from the date of the service of the notice, or (b) vacate the land on or before the fifteenth day of May next following.

(2) On the application of the landlord to the tahsildar or other prescribed officer, the notice shall, if the proper court-fee (where a court-fee is payable under this section) has been paid in respect thereof, be served on the tenant by the officer on or before the fifteenth day of November at the expense of the landlord.

(3) If the tenant on whom the notice is to be served is a tenant to whom section 36 or section 37 applies, there shall, except as provided by this sub-section and sub-section (1) and by section 69, be payable in respect of the notice a court-fee equal in value to half the annual rent payable for the holding of the tenant, or, in the case of a tenant paying rent in kind, a court-fee equal to half the value of the produce annually paid as rent on the average of the three years immediately preceding:

Provided that the court-fee shall not in any case exceed twenty-five rupees.

(4) A court-fee shall not be payable under sub-section (3) in respect of a notice on a person to whom section 48 applies.

(5) Stamps representing the court-fee shall be affixed on the notice before the notice and the application for the service thereof are presented to the tahsildar or other prescribed officer.

(6) The court-fee paid by a landlord under this section shall not in any circumstances be adjudged to be payable as costs or otherwise by the tenant.

56. (1) A tenant on whom a notice has been served under the last foregoing section may institute a suit to contest his liability to be ejected from the land specified therein on any of the following grounds, namely:—

- (a) that he has a right of occupancy in the land;
- (b) that he holds under a special agreement or decree of Court or unexpired lease under the terms of which he is not liable to be ejected from the land;
- (c) if he is a tenant to whom section 55, sub-section (3), applies, that the notice was insufficiently stamped;
- (d) if he is a tenant to whom section 36 or section 37 applies, that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37, as the case may be, equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- (e) if he is a tenant to whom section 53 applies, that notice of ejectment has not been served upon him in the manner required by this Act.

(2) A thekadar shall not be entitled to contest a notice of ejectment on any ground other than that he holds a lease under the terms of which he is not liable to ejectment.

57. If the tenant has any claim for compensation for improvements on the holding, he shall file with his plaint a statement of the claim and of the grounds on which it is based.

58. If the Court dismisses the suit in whole or in part, it shall determine the amount of the compensation, if any, due for improvements, and shall declare ejectment from the whole or part of the land, as the case may be, to be conditional on payment of that amount into Court.

59. If the tenant on whom notice of ejectment has been served fails, within thirty days from the date of the service, to institute a suit to contest his liability to be ejected, his tenancy of the land in respect of which the notice has been served shall cease on the fifteenth day of May next following, unless, after the service, the landlord has authorized him in writing to continue to occupy the land.

60. (1) If the landlord requires assistance to eject a tenant on whom he alleges a notice to have been served under section 55, he may apply for that assist-

*The Oudh Rent Act, 1886.**(Chapter V.—Ejection:—Sections 61-66.—Chapter VI.—Supplemental Provisions respecting Tenancies.—Sections 67-69.)*

ance to the Court which would have had jurisdiction with respect to a suit by the tenant to contest his liability to be ejected under the notice, and that Court shall order the ejection of the tenant if it is satisfied—

- (a) that a notice of ejection was duly served on the tenant;
- (b) that the tenant has not brought a suit to contest the notice, or that, if a suit for that purpose has been brought, it has been determined adversely to the tenant;
- (c) that the tenant has not been authorized by the landlord in writing to continue to occupy the land.

(2) Nothing done by the Court under sub-section (1) shall affect the right of the tenant to institute a suit against his landlord on account of illegal ejection and to recover compensation therefor.

61. (1) If a landlord desires to eject a tenant to whom section 53 applies and against whom a decree for an arrear of rent has been passed and remains unsatisfied, he may, after the first day of April of the year in which that arrear accrued, apply to the Deputy Commissioner to eject the tenant.

(2) The Deputy Commissioner shall, on receiving the application, cause a notice to be served on the tenant, stating the amount due under the decree, and informing him that if he does not pay that amount into Court within fifteen days from the receipt of the notice he will be ejected from his holding.

(3) If the amount is not so paid, the Deputy Commissioner shall, unless good cause is shown to the contrary, eject the tenant.

62. (1) A tenant to whom section 53 applies shall be liable to ejection by suit during the currency of his tenancy on any of the following grounds, namely:—

- (a) that he has used the land comprised in his holding in a manner which renders it unfit for the purposes of his tenancy;
- (b) that at the time of the institution of the suit the entire holding has been sub-let;
- (c) where the rent is payable in kind, that his cultivation has diminished to a point which by the custom of the locality involves the forfeiture of the holding;
- (d) where the tenant holds, under an unexpired lease, land to which section 1, sub-sections (3) and (4), applies, then on any ground which would justify ejection under the lease.

(2) The tenant shall continue liable for the rent of the land until the decree is executed.

General.

63. Except in pursuance of an order under section 21, sub-section (3), a tenant shall not in any case, whether in execution of a decree or otherwise, be ejected from the land in his occupation, except between the first day of April and the thirtieth day of June in any year after the passing of this Act.

64. A thekadār liable to be ejected under the provisions of this Act may be ejected at any time during his tenancy.

65. In any suit for ejection the defendant may file any claim for compensation for improvements which he may have against the plaintiff, and, if the Court finds the grounds on which the suit is brought to be valid, it shall determine the amount of compensation, if any, due from the plaintiff to the defendant, and shall pass a decree of ejection conditional on the payment into Court of that amount.

66. A tenant ejected in accordance with the provisions of this Act shall be entitled to receive from the landlord the value of any growing crops or other ungathered products of the earth belonging to the tenant and being on the land at the time of his ejection:

Provided that, if the land has been sown or planted by the tenant after service on him of a notice under section 55, he shall not be so entitled, unless, after that service, the landlord has authorized him in writing to continue to occupy the land.

CHAPTER VI.

SUPPLEMENTAL PROVISIONS RESPECTING TENANCIES.

Sir Lands.

67. (1) The rights conferred upon tenants by sections 21, 36, 37, 38, 39, 45, 46, 47 and 48 shall not accrue to cultivators of any of the following lands, namely:—

- (a) land which for the seven years immediately preceding the passing of this Act has been continuously dealt with as sir in the distribution of proprietary or under-proprietary profits and charges;
 - (b) land which for the seven years immediately preceding the passing of this Act has been continuously cultivated by the proprietor or under-proprietor himself or by his servants or by hired labour.
- (2) Land which was recorded as sir at settlement and has been continuously so recorded since shall, until the contrary is proved, be presumed to be land of the class mentioned in clause (a) of section (1).

Thekadārs, Mortgagees and Sub-tenants.

68. (1) A person holding land as a thekadār, thekadār, mortgagee or sub-tenant shall not, while so holding, acquire any of the rights enumerated in the foregoing section in any of the land comprised in his theka, mortgage or sub-tenancy.

(2) A person having those rights in land does not lose them by subsequently taking a theka or mortgage in which his holding is comprised.

Long Leases.

69. (1) When a holding has been let by registered document for a term of eight years or upwards at a rent determined thereby for the whole of the term in accordance with the

*The Oudh Rent Act, 1886.**(Chapter VI.—Supplemental Provisions respecting Tenancies.—Section 70.—Chapter VII.—Distress for Arrears of Rent.—Sections 72-79.)*

provisions of this Act to a tenant to whom section 36 or section 37 applies, the landlord shall, on the expiration of the term, be entitled to enhance the rent of the holding in accordance with the provisions of Chapter IV, Part B, and not otherwise, and shall also be entitled to eject the tenant by notice under section 55 without payment of a court-fee under that section:

Provided that any change in the rent or alteration in the area of the holding by the landlord during the term shall be a bar to enhancement and ejectment for seven years from the date of that change or alteration.

(2) In addition to the grounds mentioned in clauses (a), (b) and (c) of section 62, sub-section (1), a tenant to whom this section applies shall be liable to ejectment by suit during the currency of his tenancy on any ground which would justify ejectment under the registered document under which he holds.

Miscellaneous.

70. Where a tenant has received a patta, a statement that since the date of the patta his rent has been changed, or area of his holding altered, by the landlord, shall not be admissible in evidence unless the change or alteration is recorded in an entry on the patta signed by or on behalf of the landlord, and in an entry on the counterpart signed by or on behalf of the tenant, or in a new patta and counterpart.

71. The expression "special agreement" or "decree of Court", where it is used in this Act to signify the tenure on which land is held by a tenant, is to be construed as referring to an agreement or decree made or passed before the passing of this Act.

CHAPTER VII.

DISTRESS FOR ARREARS OF RENT.

72. When an arrear of rent is due from any tenant, the landlord may, subject to the provisions of this Chapter, distrain the produce of the land in respect of which the arrear is due:

Provided that, when a tenant has given security for the payment of his rent, the produce of the land in respect of which the rent is payable shall not be liable to distress so long as the security is in force.

73. Distress shall not be made for the recovery of—

(a) any sum in excess of the rent payable in the last preceding year for the land in respect of which the arrear is due, unless the tenant has agreed in writing to pay that excess or unless he has been declared by decree to be liable therefor, or

(b) any arrear which has been due for a longer period than one year.

74. The power of distress vested by section 72 in landlords may be exercised by managers under the Court of Wards, managing agents and talukdars of estates held under direct management, and other persons lawfully entrusted with the charge of land, and also by the agents

employed by landlords or any such persons as aforesaid in the collection of rent, if expressly authorized by power-of-attorney to distrain:

Provided that, if any such agent, purporting to act in the exercise of that power, commits an act which, under the provisions of this Chapter, is illegal, the person employing him shall be liable, as well as the agent, to be sued for compensation for any injury caused by the act.

75. Any person empowered to distrain property under section 72 or section 74 may employ a servant or other person to make the distress, but in every such case he shall give to the servant or person a written authority in that behalf, and the distress shall be made in the name and on the responsibility of the person giving the authority.

76. (1) Standing crops and other ungathered crops liable to distress—products of the earth, and crops or other products when reaped or gathered and deposited in any threshing-floor or place for treading out grain or the like, whether in the field or within a homestead, may be distrained by persons invested with powers of distress under this Act.

(2) But no such crops or products, other than the produce of the land in respect of which an arrear of rent is due, or of land held under the same engagement as the land in respect of which the arrear is due, and no grain or other produce after it has been stored by the cultivator, and no other property whatsoever, shall be liable to distress under this Act.

77. (1) Before or at the time when any distress is made under this Act, the demand of arrear before or at time of distress—distrainer shall cause the defaulter to be served with a written demand for the amount of the arrear, together with an account exhibiting the grounds on which the demand is made.

(2) The demand and account shall, if practicable, be served personally on the defaulter, but, if he cannot be found, they shall be affixed at his usual place of residence, and shall thereupon be deemed to be duly served upon him.

78. Unless the amount of the demand is immediately paid or tendered, the distrainer may distrain property as aforesaid of value as nearly as may be equal to the amount of the arrear with the costs of the distress; and, when he has made the distress, he shall prepare a list or description of the property distrained and deliver a copy thereof to the owner, or if the owner is absent, affix it at his usual place of residence.

79. (1) Standing crops and other ungathered crops liable to distress—products of the earth may, notwithstanding the distress, be reaped or gathered by the tenant, and may be stored in such granaries or other places as are commonly used by him for the purpose.

(2) If the tenant neglects to do so, the distrainer may cause the crops or products to be reaped or gathered, and in that case shall store them either in such granaries or other places as aforesaid, or in some other convenient place in the neighbourhood.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 80-89.)*

(3) In either case the distrained property shall be placed in the charge of some proper person appointed by the distrainer for the purpose.

(4) If the crops or products do not, from their nature, admit of being stored, the distress shall be made (if at all) at least twenty days before the time when the crops or products or any part thereof would ordinarily be fit for cutting or gathering.

80. If a distrainer is opposed or apprehends

Application by dis-
trainer in case of resist-

obtain the assistance of a
public officer, he may apply
to the Court, and the Court may, if it thinks
necessary, depute an officer to assist the dis-
trainer in making the distress.

81. If at any time after property has been

tress on tender of arrear

before the sale thereof as
hereinafter provided, the
owner tenders payment of the arrear demanded
and of the costs of the distress, the distrainer
shall receive the payment and give a receipt there-
for and forthwith withdraw the distress.

products, or, if the crops
or products do not from their nature admit of
being stored, within five days from the time of
making the distress, the distrainer shall apply

ized to sell property in satisfaction of decrees
of the Court within whose jurisdiction the dis-
trained property is situate.

scription of the property
distrained, and it shall state the name of the
defaulter, his place of residence, the amount due
and the place in which the distrained property

(2) The officer shall at the same time send to the Court, for the purpose of being put up at the court-house, a proclamation fixing a day for the sale of the distrained property, not less than twenty days from the date of the proclamation, and shall deliver a copy of the proclamation to the peon charged with the service of the notice, to be put up by him in the place where the distrained property is deposited.

(2) When a bond has been executed under sub-section (1), the Court shall give to the owner of the property a certificate to that effect, or, if he so requests, shall serve the distrainer with notice of the execution of the bond.

(3) Upon the certificate being presented to the distrainer by the owner of the property, or upon the notice being served on the distrainer by order of the Court, as the case may be, the property shall be released from distress.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 90-99.)*

90. If, on the property being put up for sale, a price which the officer holding the sale thinks fair is not offered, and if the owner of the property or his recognized agent applies to have the sale postponed until the next day or (if a market is held at the place of sale) until the next market-day, the sale shall be postponed until that day, and shall be then completed at whatever price may be offered.

91. (1) The price of every lot shall be paid in ready money at the time of sale, or as soon thereafter as the officer holding the sale thinks fit, and in default of payment the property shall be put up again and re-sold.

(2) When the purchase-money has been paid in full, the officer holding the sale shall give the purchaser a certificate stating the property chased by him and the price paid therefor.

92. (1) The officer holding the sale shall deduct from the proceeds one anna for every rupee and fraction of a rupee on account of the expenses attending the sale.

(2) He shall then pay to the distrainer the expenses incurred by him on account of the distress and of the issue of the notice and proclamation of sale prescribed in section 81 to such amount as, after examination of the statement of expenses furnished by the distrainer, the officer thinks proper to allow.

(3) The remainder shall be applied to the discharge of the arrear for which the distress was made, and the surplus (if any) shall be delivered to the person whose property has been sold.

93. Officers holding sales of property under this Act, and all persons employed by, or subordinate to, those officers, are forbidden to purchase, either directly or indirectly, property sold by those officers.

94. (1) The officer mentioned in section 82 shall bring to the notice of the Court any illegal act which may come to his knowledge as having been committed by any person in making a distress under this Act.

(2) If in any case, on proceeding to hold a sale under this Act, that officer finds that the owner has not received due notice of the distress and intended sale, he shall postpone the sale and report the case to the Court, and the Court shall direct the issue of another notice and proclamation of sale under section 84, or make such other order as it thinks proper.

95. (1) When that officer has gone to any place for the purpose of holding a sale, and a sale does not take place either for the reason stated in section 94 or because the distrainer's demand has been previously satisfied, a charge of one anna for every rupee of the value of the distrained property, as estimated by the officer, shall be leviable by him on account of the expenses of the intended sale, unless the distrainer's demand has been satisfied before the day fixed for the sale and notice of its having been satisfied has been given by him to the officer.

(2) If the distrainer's demand is not satisfied until the day fixed for the sale, the charge shall be paid by the owner of the property, and may be recovered by sale of such portion of the property as may be necessary.

(3) In every other case the charge shall be paid by the distrainer, and may be recovered under the warrant of the Court by attachment and sale of his property.

97. (1) In all suits instituted to contest a distrainer's demand, the defendant must prove the arrear in the same manner as if he had himself brought a suit for the amount of the arrear.

(2) If the demand or any part thereof is found to be due, the Court shall make in favour of the distrainer a decree for the amount so found.

(3) That amount may be recovered, if the distrained property has not been released on security, by sale of the distrained property as provided in section 96, and, if any balance remains due after the sale, by execution of the decree against the person and any other property of the defaulter, or, if the distrained property has been released on security, by execution of the decree against the person and property of the defaulter, and if his surety has been made a party to the suit, against the person and property of the surety.

98. If the distress is adjudged to be vexatious or groundless, the Court, besides directing the release of the distrained property, may award such compensation to the plaintiff as it thinks fit, not exceeding twice the value of the property distrained.

99. If any person claims, as his own, property which has been distrained for arrears of rent alleged to be due from any other person, the claimant may institute a suit against the distrainer and that other person to try the right to the property, in the same manner, and under the same rules as to the time of instituting the suit and as to the consequent postponement of sale, as a person whose property has been distrained for an arrear of rent alleged to be due from him may institute a suit to contest the demand.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 100-107.—Chapter VIII.—Jurisdiction of the Courts.—Section 108.)*

(3) If the claim is upheld, the Court shall order the release of the distrained property, and may award such compensation to the plaintiff as it thinks fit, not exceeding twice the value of the property distrained.

101. No claim to any produce liable to distress under this Act and found at the time of the distress in the possession of a defaulting tenant, whether the claim be in respect of a previous sale, mortgage or otherwise, shall bar the landlord's prior claim, nor shall any attachment in execution of a decree of any Civil Court prevail against the prior claim of the landlord.

Landlord's prior claim to distrainable produce in possession of defaulting tenant.

102. When property has been distrained for an arrear of rent, and a suit has been instituted to contest the demand, and the right to distrain for that arrear is claimed by or on behalf of any person other than the distrainer, on the ground of that other person being actually and in good faith in the receipt and enjoyment of the rent of the land, that other person shall be made a party to the suit, and the question of the actual receipt and enjoyment of the rent by him before and up to the commencement of the suit shall be inquired into, and the suit shall be decided according to the result of the inquiry:

Provided that the decision of the Court shall not affect the right of any person having a title to the rent of land to establish that title in a Court of competent jurisdiction, by suit instituted within one year from the date of the decision.

103. Any person whose property has been distrained for the recovery of a demand not justly due, or of a demand due or alleged to be due from some other person, and who is prevented by any sufficient cause from bringing a suit to contest the demand or try the right to the property, as the case may be, within the period allowed by section 84 or section 99, and whose property is in consequence brought to sale, may institute a suit to recover compensation for any injury which he has sustained from the distress and sale.

(b) if any distrained property is lost, damaged or destroyed, by reason of the distrainer

not having taken proper precaution for the due keeping and preservation thereof, or

(c) if the distress is not immediately withdrawn when any provision of this Act requires its withdrawal,

the owner of the property may institute a suit to recover compensation for any injury which he has thereby sustained.

105. (1) If any person not empowered by this Act to distrain or sell, or not duly authorized for that purpose by a person so empowered, purports to distrain or sell any property under this Act, the owner of the property may institute a suit to recover compensation from the person so distraining or selling for any injury which the plaintiff has sustained from the distress or sale.

Suit for distress or sale falsely purporting to be under the Act.

(2) The institution of a suit under sub-section (1) shall not affect the defendant's liability to be prosecuted under any law for the time being in force.

106. (1) If any person resists a distress of property duly made under this Act, or forcibly or clandestinely removes any distrained property, the Court, upon complaint being made within ten days from the date of the resistance or removal, shall cause the person accused to be arrested and brought before the Court with all convenient speed, and the Court shall proceed forthwith to try the case.

(2) If the case cannot be at once heard and determined, the Court may, if it thinks fit, require the person arrested to give security for his appearance whenever he may be required to appear, and, in default of the security being given, may commit him to the civil jail until the case is tried.

107. If the resistance to the distress or the removal of the distrained property is proved, the Court may order the offender to pay a fine not exceeding one hundred rupees, together with all costs and expenses incurred in the case or in making the distress, and, in default of payment, may order him to be imprisoned in the civil jail until payment is made:

152. If the decree is for an arrear of rent due in respect of an under-proprietary right, the interest of the judgment-debtor in that right may, subject to the provisions of this Act, be sold in execution of the decree.

153. A beneficial lease or other incumbrance created by an under-proprietor on his tenure after the twenty-second day of July, 1868, shall not be valid in the event of the sale of his rights and interests in execution of a decree for arrears of rent, unless the incumbrance has been registered under any rules or law for the time being in force in Oudh, within four months after the creation thereof, and not less than thirty days before the date of attachment of those rights and interests.

154. (1) When an under-proprietor creates any such incumbrance and fails to pay to the proprietor all or any part of the rent subsequently accruing in respect of the land subject to the incumbrance, the incumbrancer shall be liable to pay to the proprietor the whole or the part of that rent, as the case may be, unless the proprietor has agreed in writing to waive any claim which he might otherwise have made on the incumbrancer under this section.

(2) Where after the passing of this Act an under-proprietor transfers his rights and any part thereof in land, and the transferee enters into possession, the transferee shall, subject to any agreement in writing with the proprietor to the contrary, be liable to pay to the proprietor any arrears of rent due in respect of the land at the date of the transfer.

155. (1) When land is sold in execution of a decree under this Act, and the land or any lot thereof has been knocked down to a stranger, any co-sharer, other than the judgment-debtor, may, before sunset on the day of sale, claim to take the land or lot, as the case may be, at the sum at which it was so knocked down.

(Schedule A.—Schedule B.—Schedule C.—Schedule D.)

(2) A like claim may be made, if the land is a proprietary tenure, by an under-proprietor, and if the land is an under-proprietary tenure, by a proprietor.

(3) Any claim made under this section shall be allowed

Provided that, if a claim to the same land or lot is made by a proprietor or under-proprietor as well as by a co-sharer, the claim of the co-sharer shall prevail:

Provided also that a claim shall not be allowed unless the claimant fulfils all the conditions of the sale binding on a purchaser.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 24th September, 1886, and was referred to a Select Committee:—

NO. 24 OF 1886.

A Bill to provide for the Protection of Indigenous Tribes in Burma.

WHEREAS it is expedient to provide means for protecting Karens and other indigenous tribes in Burma from the intrusion of strangers into their villages; It is hereby enacted as follows:—

Short title, commencement and local extent.

1. (1) This Act may be called the Burma Indigenous Tribes Protection Act, 1886.

(2) It shall come into force at once; and

(3) It shall extend to such local areas within the limits of Lower Burma as the Local Government may from time to time, by notification in the official Gazette, specify in this behalf.

Definition of "indigenous tribes."

2. (1) The Karens are an indigenous tribe within the meaning of this Act.

(2) With the previous sanction of the Governor-General in Council, the Local Government, by notification in the official Gazette, may from time to time declare of any other class of persons in Lower Burma that that class is or forms part of an indigenous tribe, and may at any time cancel the declaration.

(3) While a declaration under sub-section (2) is in force, it shall be conclusive proof of the matter stated therein.

3. In this Act, unless there is something repugnant in the subject or context,—

(1) "village" means any collection of ten or more houses not being either a municipality to which the British Burma Municipal Act, 1874, VII of 1874 or the Burma Municipal Act, 1884, for the XVII of 1884 time being extends, or a town, village or hamlet in which a house-tax or a cess on houses is for the time being leviable under section 5 or section 6 of the Burma District Cesses and Rural Police Act, 1880; but it does not include a village of which members of indigenous tribes are not the majority of the residents; 11 of 188

(2) "prescribed" means prescribed by rules under this Act.

4. (1) If not fewer than half of the cultivating householders of a village desire to eject or exclude from the village a resident or intending resident thereof, they may record that desire in the prescribed manner.

(2) When the cultivating householders of a village have recorded under sub-section (1) their desire to eject or exclude a resident or intending resident, the prescribed authority may, in the prescribed manner, eject or exclude him from the village.

Provided that a resident or intending resident of a village shall not be ejected or excluded therefrom, if he—

- (a) is of the same indigenous tribe as the majority of the residents of the village, or

- (c) has resided in the village for twelve years or upwards:

Provided also that a resident of a village who is ejected under this Act shall be entitled to compensation for any immoveable property belonging to him in the village.

5. (1) The Local Government may from time to time, with the previous sanction of the Governor-General in Council, make rules

- (c) to prescribe the mode in which the compensation to which an ejected resident is entitled under this Act is to be ascertained and given; and
- (d) generally to carry out the purposes of this Act.

(2) When making any rule under this Act the Local Government may direct that a breach of it shall be punished with fine which may extend to one hundred rupees, or with imprisonment which may extend to three months, or with both.

6. (1) The Local Government shall, before making rules under this Act, publish a draft of the proposed rules in such manner as may, in its opinion, be sufficient for the information of persons likely to be affected thereby.

(2) There shall be published with the draft a notice specifying a date at, or after which, the draft will be taken into consideration.

(3) The Local Government shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) A rule made under this Act shall not take effect until it has been published in the local official Gazette.

(5) The publication in that Gazette of a rule purporting to be made under this Act shall be conclusive proof that it has been duly made.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the ejection or exclusion in certain circumstances of strangers from village-sites occupied by Karens and other indigenous tribes of Burma.

2. It would seem that Burman, Shan or Chinese strangers occasionally settle in Karen villages and cause very great annoyance to the Karens, who, in some cases, from shyness or timidity, do not resist the intruders, whilst in others they have been goaded into acts of lawlessness. The missionaries, who know more of the Karens than any English or Burman Government officers, are very persistent in urging that power must be taken to preserve the Karens, especially the wilder Karens in secluded tracts, from intruders. Mr. Crosthwaite, when officiating as Chief Commissioner of British Burma, proposed to issue rules providing for the ejection of intruders from Karen villages; but it was found on further consideration that no rules of the kind could be enforced without legal sanction. The present Chief Commissioner, sharing Mr. Crosthwaite's views has urged on the Government the necessity for legislation, in the absence of which he fears that the Karen and similar tribes may either be driven out of their settlements or resort to lawless means of getting rid of intruders.

3. In these circumstances, the present Bill has been prepared. Though of a somewhat exceptional nature, it appears to the Government of India to be warranted by the peculiarities of the relations of these indigenous tribes and their neighbours. Further, it is supported by the analogy of the provisions of section 4 of the Garo Hills Regulation, I of 1882, which prohibit the acquisition of interests in land in those hills by strangers except under special sanction.

4. The provisions of the Bill are very simple. Section 1, sub-section (3), empowers the Chief Commissioner to apply the proposed Act to such local areas as he may by notification prescribe, while section 3 defines the term village so as to restrict the operation of the proposed law to purely rural tracts. Section 4 declares the circumstances under which a resident or intending resident may be excluded or ejected from a village. These are that the majority of the residents of the village belong to some indigenous tribe and that not less than one-half of the cultivating householders of the village desire ejection or exclusion of the resident or intending resident, who must not be of the same tribe as the majority of the residents of the village, or cultivate land within three miles of the village or have resided in the village for twelve years or upwards. The section further provides for compensation to persons who have been compelled to vacate any land or house in a village in consequence of their ejection therefrom. Under section 5, the Chief Commissioner has power to make rules with the sanction of the Governor-General in Council prescribing the mode in which the desire of the cultivating householders of a village to eject or exclude any one therefrom is to be ascertained and recorded, empowering certain persons to eject or exclude persons in pursuance of the recorded desire and on behalf of the cultivating householders, and prescribing the procedure to be followed in such cases, and the mode in which compensation under the proposed Act is to be ascertained. The section further enables the Local Government to direct in any rule that a breach of it shall be punished with fine which may extend to one hundred rupees, or with imprisonment which may extend to three months, or with both. Lastly, section 6 contains the usual formal matter as to the procedure for making and publishing rules.

-------------------	------------------------	---

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is, by repealing that portion of Indian military law which relates to Military Courts of Requests, to make the provisions of the Army Act, 1881, respecting Courts of Requests in India (41 & 45 Vict., c 58, ss. 148-151), apply to Her Majesty's Indian forces, and thus to place those forces, with respect to indebtedness, in the same position as the rest of the British Army. In this respect the law enacted nearly half a century ago for the Indian army is more severe than Parliament has seen fit to enact for the other branches of Her Majesty's regular forces or than the Council of the Governor-General would now enact.

ACT XXXVI OF 1858 AMENDMENT BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to amend Act XXXVI of 1858 (*an Act relating to Lunatic Asylums*) be taken into consideration. He said:—

"This is a Bill which was introduced by my friend Sir Steuart Bayley last December with the object of removing a slight defect in the Lunatic Asylums Act. The Bill as introduced was approved by the local authorities, but certain additional amendments of the Act were suggested by the Governments of Bengal and the Punjab, and it was thought desirable to make a further reference on these suggestions. After considering the replies to this further reference we have added to the Bill clauses expressly legalising the detention of supposed lunatics for a limited time for purposes of observation, and also removing an inconvenience pointed out by the Punjab Government which had been caused by the requirement that lunatics who are Natives of India should in all cases be sent to an asylum at the Presidency. The reasons for these modifications of the Bill are explained in the Report of the Select Committee, and I need not add to the explanations which are to be found there."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

LIEUTENANT-GOVERNOR'S (N.-W. P.) FUNCTIONS BILL.

The Hon'ble MR. ILBERT also moved that the Report of the Select Committee on the Bill to legalize the discharge by the Lieutenant-Governor of the North-Western Provinces of certain functions assigned to the Governor General in Council be taken into consideration. He said:—

"The passing of this Bill has been delayed for some time because it was proposed to add to it a section validating the exercise by the Lieutenant-Governor of the North-Western Provinces of certain powers under a Regulation of 1803, which he appears to have exercised without question during the forty years that elapsed between the constitution of his office and the repeal of the Regulation.

The proposal was quite reasonable, but there was at the time that it was made just a possibility that its adoption might affect the interests of some parties to a suit then pending, and accordingly the further progress of the Bill was postponed. There is now, so far as I am aware, no litigation before any Court which can be influenced by the addition of the proposed section, and therefore it has been added to the Bill.

“ We have also removed from the schedule to the Bill a Regulation of 1806, to which reference has been made unnecessary by the passing of the little Act of this year about the Mirzāpur stone-quarries.”

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

BURMA INDIGENOUS TRIBES PROTECTION BILL.

The Hon'ble MR. ILBERT also introduced the Bill to provide for the protection of Indigenous Tribes in Burma, and moved that it be referred to a Select Committee consisting of the Hon'ble Sir A. Colvin, the Hon'ble Mr. Quinton and the Mover.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the *British Burma Gazette* in English and in such other languages as the Local Administration thinks fit.

The Motion was put and agreed to.

UPPER BURMA LAWS BILL.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to declare the law in force in Upper Burma, remarking that, though it was only formally laid on the table on that day, it had been in the hands of hon'ble members for the last few days; and under those circumstances he had no hesitation in asking that it should be taken into consideration at once. It was desirable, for administrative reasons, that there should be no avoidable delay in the passing of the Bill.

The Hon'ble MR. ILBERT also moved that the Report be taken into consideration. He said:—

“ When introducing this Bill in July last, I said that its object was to lay the foundation of a system of law for Upper Burma, and I explained the system under which that Province had been provisionally administered under British rule. Since then I have seen statements to the effect that the provisions of the law have been totally ignored in Upper Burma, and that the people of that Province have been deprived of the safeguards against injustice to which they are legally entitled. As such statements are calculated to convey an entirely erroneous impression of the facts, it may be desirable that I should, at the risk of repetition, describe again the nature of the provisional administration which this measure and the Regulations by which it is to be supplemented are intended to supersede. That administration has been conducted in accordance with certain provisional instructions, which were framed by Sir Charles Bernard and approved by the Government of India. The object of those instructions was to apply to Upper Burma the provisions of the Indian Codes so far as they were applicable to the circumstances of the country and suitable to the customs and habits of the people. Certain variations from the precise procedure laid down by the Codes were considered necessary. Among the most important of these variations was the substitution for the method of appeals provided by the Codes of a system of review and revision by superior authorities. With the view of securing regularity of procedure and guarding against failures of justice, special stress was laid on the exercise of the powers of review and revision thus conferred, and all those who are familiar with the administration of justice in frontier tracts are aware how much better these powers are adapted to the circumstances of such tracts than the ordinary procedure of appeal provided by

the Codes. I need not go through the other variations between the instructions and the Codes. They are all of a similar character, and such as were rendered necessary by the exceptional and transitional state of things with which we had to deal.

"I believe that these instructions have worked satisfactorily, and have proved to be well adapted to their purpose. Careful inquiry has been made into all cases in which officers of the British Administration have been charged with oppressive conduct, or abuse of the powers entrusted to them; and the result of the inquiry has been in each case to show that the charge either had been grossly exaggerated or had no foundation in fact. As to one point there can be no room for doubt, namely, that, notwithstanding the difficulties with which our officers have had to contend, the administration of justice in Upper Burma under British rule has constituted an immense advance on anything which existed under the late regime.

"I am aware that the 'instructions' are open to technical objections, on the ground that certain Indian Acts, including the general Codes, were extended to Upper Burma by the mere fact of its incorporation in the Indian Empire, and that the instructions issued last spring are not in precise accordance with those Acts. But it was obviously impossible to work those Acts immediately and without modification in a Province so situated as Upper Burma. The choice practically lay between adherence to the letter of the law and observance of its spirit, and we preferred the latter course. In asking the Council, as I do by this Bill, to give retrospective validity to the provisional instructions of last spring, I confidently affirm that I am not asking them to condone any act, omission or practice inconsistent with the substantial interests of justice.

"I have said that the law embodied in this Bill will be supplemented by Regulations under the Statute of 1870. Until this Bill has been passed, there will be no authority competent to submit those Regulations in the manner required by the Statute. But much time has been devoted to them during the last few months; they have been carefully considered by the Government of India in consultation with the local authorities; they are now in a very forward state of preparation; and I believe that a very short time will elapse before they become law. When it is remembered how long a period elapsed before anything like a settled system of law was introduced into such Provinces as Oudh and the Punjab, it will be seen that the Government is not chargeable with undue delay in the performance of its task of providing a Code of laws suitable to the circumstances of its new Province.

"To return to the Bill. The alterations made by the Select Committee are neither numerous nor important, and are all, or nearly all, based on suggestions made by Sir Charles Bernard after consultation with his officers.

"There are certain provisions of the Bill which ought to come into force simultaneously with the Regulations to which I have referred, and we have therefore postponed their operation for a period which will not, I hope, exceed a few weeks. We have also defined somewhat more precisely the local area to which certain parts of the Bill are to apply. There is no present intention of importing British law into the Shan States, and therefore we have excluded those States from the operation of the laws which we declare in force in Upper Burma, merely reserving a power, which may possibly be useful hereafter, to introduce into any portions of those States such laws, if any, as may be required. We have made a few additional modifications in the Acts scheduled for application to Upper Burma in the narrower sense of the word, and we have made a few additions to the list of those Acts. But, as will be seen from our Report, none of these alterations are of any material importance, and the Bill which I am asking the Council to pass is, in all its substantial features, that which was introduced last July."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

MILITARY COURTS OF REQUESTS ABOLITION BILL.

The Hon'ble MAJOR-GENERAL CHESNEY moved for leave to introduce a Bill to abolish Military Courts of Requests as established by Indian Military Law. He said:—

"Courts of Requests were first established in India by a Regulation of the year 1810; and the object was stated to be to afford means to sutlers and others of obtaining a remedy in case of debt against military officers and soldiers and also to encourage sutlers and others to settle in military cantonments. The law was first recognized by the English Statute Law in 1825; at that time practically a sutler or trader in a camp had no remedy against an officer or soldier for the recovery of small claims, and these Courts were established only to afford such means of remedy. But in course of time, as Small Cause Courts have extended throughout India, the necessity for separate Courts of this kind no longer exists; in fact, the Courts are merely the relic of a state of things which has long passed away, and moreover, as stated in the Statement of Objects and Reasons, Military Courts of Requests are in many respects more severe than either the English law contemplates or the Government of India would now be prepared to allow if legislating in the first instance." It is therefore proposed to abolish Military Courts of Requests, so far as such abolition is not repugnant to the provisions of the English Army Act.

"The Statement of Objects and Reasons explains the nature of the proposed Bill."

The Motion was put and agreed to.

The Hon'ble MAJOR-GENERAL CHESNEY also introduced the Bill.

The Hon'ble MAJOR-GENERAL CHESNEY also moved that the Bill and Statement of Objects and Reasons be published in the *Gazette of India* in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

OUDH WASIKAS BILL.

The Hon'ble MR. QUINTON moved that the Report of the Select Committee on the Bill to declare certain allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871, be taken into consideration. He said:—

"The Select Committee have altered the Bill in two points. They have, firstly, omitted those portions of it which contained any reference to the 5th Oudh loan, as the Local Government have brought to their notice that there are no pensions under that loan now remaining, all allowances or pensions payable on account of it having been commuted in accordance with the terms of the treaty under which the loan was made.

"Secondly, they have re-drafted section 2 of the Bill so as to make it clear that the allowances are declared to be within the meaning of the Pensions Act with no ulterior object but only for the limited purpose of barring the jurisdiction of the Civil Courts in respect of claims relating to these allowances except on certain conditions, and of protecting them from attachment at the instance of creditors.

"There is nothing novel in these provisions. They have in effect been acted on since the annexation of Oudh, and rules on these matters were drawn up under section 14 of the Pensions Act of 1871, the applicability of which to the Wasika allowances has only within a recent period been the subject of doubt. In the Statement of Objects and Reasons I intimated that the legislation respecting the Taj Mahal's pension in 1880 suggested a question as to Wasikas being pensions within the meaning of the Pensions Act of 1871; and a year or two ago, Mr. Young, then the officiating and now the substantive Judicial Commissioner of Oudh, ruled that these allowances were liable to attachment under civil decrees as being outside the Pensions Act. On the correctness of

this judgment I offer no opinion, but it is opposed to the practice which has obtained under the orders of Government for 30 years, and, unless that practice was inexpedient, has rendered legislation inevitable in the interests of the Wasikadars themselves. The Government believes, however, that the practice which has hitherto obtained is salutary, that these allowances should not become the subject of litigation in the Civil Courts, and that the holders of them should not be reduced to destitution by the attachment of them in execution of civil decrees.

• “The letter of the Commissioner of Lucknow printed as a paper on the Bill, memorials received by the Select Committee and by the Government, and notices of the measure in the public Press show nevertheless that the scope of the Bill has been misapprehended, and that in many quarters a notion prevails that under cover of this enactment Government intend to facilitate the resumption or reduction of Wasikas at some future time and to appropriate funds for which they are bound to account as trustee.

• “As to the former point I hope the explanation I have just given of the meaning and effect of the Bill will dispel all misunderstanding; and as to the latter, if I am called upon to notice such imputations, I can only say that the Bill makes no alteration in the position of Government in respect of these allowances, and that all courses now open to claimants against Government on account of them will be equally open to them after the Bill becomes law.”

The Motion was put and agreed to.

The Hon'ble MR. QUINTON also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 29th SEPTEMBER, 1886.

GENERAL REMARKS.—Except in the Central and Southern Divisions of the Bombay Presidency, where there has been a slight fall, and in Mysore, Coorg, Bengal, Assam, and Lower Burma, there has been little or no rain during the week under report.

The *kharif* crops in Bombay, the Central Provinces, Hyderabad, Berar, Central India, and Rajputana, are in considerable need of more rain, but, so far, the prospects are not unfavourable. In the North-Western Provinces and Oudh the *kharif* crops are good, and the harvest has commenced in some places. In Madras the standing crops are generally in good condition.

The rice crop in Bombay requires more rain; and in the Central Provinces it has suffered greatly from the long break in the weather. In Bengal the early rice is being harvested, and, except in inundated tracts, the yield is good; the winter rice generally promises well. In Lower Burma the rice crop is healthy and prospects are good.

Rabi operations have commenced in Bombay, the North-Western Provinces and Oudh, the Central Provinces, Hyderabad, and Rajputana, and sowings have been made in places.

The public health continues satisfactory in all Provinces.

Prices are rising in the Central Provinces and falling in Coorg. Elsewhere they are generally stationary.

Public Works Department Resolution No. 570R.T., dated 10th June 1886.

Director General of Railways' No. 704T., dated 21st August 1886.

Abstract Returns of Accidents to trains, &c., on the open lines of Railway in India for the quarter ended 31st March 1886.

OBSERVATIONS.—As compared with the corresponding quarter of the previous year, the number of accidents to trains, rolling-stock, permanent-way, &c., shows a decrease of 152 or 22·16 per cent. against an increase of 375·25 miles or 3·18 per cent. in the mean mileage open, and of 200,744 miles or 1·76

per cent. in the train-mileage. The following are the Railways on which the numbers chiefly vary:—

Railway.	ACCIDENTS.				TRAIN MILEAGE.	
	Increase.	Decrease.	Percentage of increase.	Percentage of decrease.	Percentage of increase.	Percentage of decrease.
	No.	No.				
East Indian	17	...	65.38	...	3.41	...
Rajputana-Malwa	27	...	36.00	5.33	...
Southern Mahratta	10	...	50.00	127.85	...
North-Western	106	...	70.67	...	3.41
Eastern Bengal	39	...	41.94	5.07	...
Northern Bengal	10	...	41.67	0.09
South Indian	11	...	29.73	...	2.54	...
Great Indian Peninsula	33	...	40.24	...	12.57

2. Besides the above there were 21 accidents on the Jorhat Railway, from which line no returns had been received for the first quarter of 1885.

3. The largest increase was on the East Indian Railway; but looking at the particular headings under which the accidents occurred, there is nothing to call for special note in connection with the increase.

4. On the Rajputana-Malwa Railway the decrease chiefly took place under "Trains running into stations or sidings at too high a speed," "Trains running over cattle on the line" and "Broken rails," the number of accidents recorded under these heads being 1, 23 and *nil* against 8, 31 and 6 respectively.

5. The largest decrease on the North-Western Railway is due to the absence of any accidents under "Goods trains or parts of goods trains, engines, &c., leaving the rails," "Trains running over obstructions on the line," "The bursting of boilers or tubes, &c., of engines," "The failure of machinery, springs, &c., of engines," "Failure of couplings" and "Other accidents," while in the corresponding quarter of 1885 the accidents classed under these heads numbered 82 in all.

6. Of the decrease of 39 accidents on the Eastern Bengal Railway 26 were under "Trains running over cattle on the line" and 9 under "Failure of machinery, springs, &c., of engines."

7. On the Southern Mahratta, Northern Bengal and South Indian Railways there was no large increase or decrease under any particular class of accidents.

8. On the Great Indian Peninsula Railway the decrease mainly occurred under "Fire in trains," the number of accidents returned being 17 against 37. The number of "Goods trains or parts of goods trains, engines, &c., leaving the rails" also shows a decrease from 13 to 8.

9. The casualties resulting from accidents to trains, &c., were, among passengers and others, 6 injured against 3 killed and 22 injured, and among servants, 11 injured against 6 killed and 11 injured. It appears from the line returns that of these casualties 3 passengers were slightly injured on the East Indian Railway by the outgoing engine of a passenger train having been backed against the train with considerable force at Asansol on the 26th March 1886; 3 servants were injured—1 slightly and 2 seriously—by an accident to a lorry on the Great Indian Peninsula Railway on the 18th February 1886; 3 passengers and 2 servants were injured by a collision between an up and a down mixed train on the Oudh and Rohilkhand Railway on the 28th March

1886, owing to both the trains having been, through the carelessness of the station staff, turned on the same line; and 4 coolies were injured—2 seriously and 2 slightly—by the derailment of some trucks of a ballast train on the Bengal and North-Western Railway on the 25th January 1886.

10. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby :—

	Number of accidents.	NUMBER OF PASSENGERS AND OTHERS.		NUMBER OF SERVANTS.		TOTAL.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Collisions between passenger trains, or parts of passenger trains	2	...	3	...	2	...	5
Collisions between passenger trains and goods or mineral trains, engines, and vehicles standing foul of the line	11	...	3	...	2	...	5
Collisions between goods trains or parts of goods trains	16
Collisions between light engines	1
Passenger trains or parts of passenger trains leaving the rails	15
Goods trains or parts of goods trains, engines, &c., leaving the rails	45	4	...	4
Trains or engines travelling in the wrong direction through points	9
Trains running into stations or sidings at too high a speed.	5
Trains running over cattle on the line	197
Trains running over obstructions on the line	24
Trains running through gates at level-crossings	10
The bursting of boilers or tubes, &c., of engines	9
The failure of machinery, springs, &c., of engines	42
Do. of tyres	1
Do. of axles	7
Do. of brake apparatus	1
Do. of couplings	30
Do. of tunnels, bridges, viaducts, culverts, &c.	1
Broken rails	7
The flooding of portions of permanent-way	2
Fire in trains	55
Fire at stations, or involving injury to bridges or viaducts	12
Other accidents	32	3	...	3
TOTAL	534	...	6	...	11	...	17

11. The number of cases of "Goods trains, or parts of goods trains, engines, &c., leaving the rails" shows a decrease from 77 to 45, or of 32. On the Bombay, Baroda and Central India Railway there was only 1 accident under this head against 11 in the corresponding quarter of 1885; on the Great Indian Peninsula Railway 8 against 13; on the Bengal and North-Western Railway 1 against 5; and on the North-Western Railway *nil* against 11.

12. The cattle accidents numbered 197 against 226, the decrease being mainly due to the number of cases on the Eastern Bengal Railway being only 28 against 54.

13. Under "Bursting of boilers, or tubes, &c., of engines" there has been a considerable decrease, the number of accidents being 9 against 27. It is noteworthy that no accident of this kind occurred on the North-Western Railway during the quarter under review, although there were no less than 21 such cases recorded against that line in the corresponding quarter of 1885.

14. The number of "Failures of machinery, springs, &c., of engines," also shows a decrease of 13 or 24 per cent., owing chiefly to the absence of any accident on the North-Western Railway against 20 in the corresponding quarter of 1885, and to there being only 6 accidents against 15 on the Eastern Bengal Railway. The accidents of this class were the most numerous on the Jorhat Railway, the number being 14 or one-third of the total number.

15. Out of 7 cases of "Failure of axles," 5 occurred on the Rajputana-Malwa Railway; and of 30 cases of "Failure of couplings," 6 occurred on the Rajputana-Malwa, and 9 on the Eastern Bengal Railway. The return of the North-Western Railway does not show a single accident under the latter head, while in that for the first quarter of 1885, 12 such accidents were recorded.

16. Under "Fire in trains" the number of cases diminished from 78 to 55, of which 16 or 29 per cent. occurred on the North-Western Railway and 17 or 31 per cent. on the Great Indian Peninsula Railway. On the latter line, however, there has been a decrease of 20 accidents or 54 per cent. under this head.

17. The number of accidents classed as "Other accidents" was the largest on the Bombay, Baroda and Central India Railway, being 15 out of a total of 32.

18. The casualties to passengers from causes other than accidents to trains, &c., were—

	Killed.	Injured.
From falling between carriages and platforms	6
Falling on to the platform, ballast, &c., when getting into or out of trains	1	4
Whilst crossing the line at stations	2	1
Falling out of carriages during the travelling of trains	5	18
Other accidents	2	6
TOTAL	10	35

19. The accidents to servants in the employ of Railways, or of contractors,

whilst performing duties connected directly with the transit of passengers and goods, from causes other than accidents to trains, &c., were—

	Killed.	Injured.
During shunting operations	3	13
Falling off engines, vans, wagons, &c.	11
Coming in contact with over-bridges, &c., during the travelling of trains	2
Coming in contact, while shunting, with vehicles, &c., standing in adjoining lines	3
Getting on or off trains, engines, &c.	6	12
Whilst loading, unloading or sheeting	2	16
Whilst braking, spragging or chocking wheels	1
Whilst working at cranes or capstans	2
Whilst working on the permanent-way or in sidings	1	6
Whilst walking along the line on the way home or to work	1	1
Whilst walking, crossing or standing on the line	4	9
Whilst passing between vehicles	1	2
Whilst attending to the machinery of engines, cleaning them, &c.	3
Falling off ladders, scaffolds, platforms, &c.	4
By falling of lamps, wagon doors, timber, weights, &c.	1	5
Whilst coupling or uncoupling wagons	1	12
Miscellaneous	2	22
TOTAL	22	124

20. Of other persons killed and injured by running trains, &c., 3 were killed and 1 injured whilst passing over the line at level crossings; 29 were killed and 14 injured whilst trespassing on the line; 6 committed suicide and 1 was injured in attempting to commit suicide; and 3 were killed and 2 injured from miscellaneous causes.

21. The following table shows the total number of persons killed and injured from causes connected with the working of trains, as compared with the corresponding quarter of 1885:—

22. In addition to the above, 13 persons are reported to have been killed and 33 injured in yards, workshops, &c., and 98 passengers to have met death in carriages and at stations from causes unconnected with the working of trains.

RESOLUTION.—The attention of the Chief Commissioner of Assam should be invited to the large number of accidents on the Jorhat State Railway, especially to those due to the failures of machinery, springs, &c., of engines. The attention of the Director General of Railways should also be invited to the large decrease in the number of accidents on the North-Western Railway, as it appears to the Government of India that the decreases are probably due not so much to fewer accidents as to the omission to report certain classes of accidents which it has hitherto been usual to report.

ORDER.—Ordered, that this Resolution, with the Abstract Returns, be communicated to the Local Governments, Administrations and Officers noted in the margin, for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
 The Chief Commissioners of the Central Provinces, Burma and Assam.
 The Residents, Hyderabad and Mysore.
 The Agents to the Governor General for Central India, Rajputana and Baluchistan.
 The Director General of Railways.
 The Consulting Engineers to the Government of India for Guaranteed Railways.

Ordered also, that copies be forwarded to the Secretary of State for the information of Her Majesty's Government.

Ordered further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 24th September, 1886, and was referred to a Select Committee:—

NO. 24 OF 1886.

A Bill to provide for the Protection of Indigenous Tribes in Burma.

WHEREAS it is expedient to provide means for protecting Karens and other indigenous tribes in Burma from the intrusion of strangers into their villages; It is hereby enacted as follows:—

Short title, commencement and local extent. 1. (1) This Act may be called the Burma Indigenous Tribes Protection Act, 1886.

(2) It shall come into force at once; and

(3) It shall extend to such local areas within the limits of Lower Burma as the Local Government may from time to time, by notification in the official Gazette, specify in this behalf.

Definition of "indigenous tribes." 2. (1) The Karens are an indigenous tribe within the meaning of this Act.

(2) With the previous sanction of the Governor-General in Council, the Local Government, by notification in the official Gazette, may from time to time declare of any other class of persons in Lower Burma that that class is or forms part of an indigenous tribe, and may at any time cancel the declaration.

(3) While a declaration under sub-section (2) is in force, it shall be conclusive proof of the matter stated therein.

3. In this Act, unless there is something repugnant in the subject or context,—
Definitions of "village" and "prescribed."

(1) "village" means any collection of ten or more houses not being either a municipality to which the British Burma Municipal Act, 1874, VII of 18 or the Burma Municipal Act, 1884, for the XVII of 1 time being extends, or a town, village or hamlet in which a house-tax or a cess on houses is for the time being leviable under section 5 or section 6 of the Burma District Cesses and Rural Police Act, 1880; but it does not include a village II of 1880 of which members of indigenous tribes are not the majority of the residents;

(2) "prescribed" means prescribed by rules under this Act.

4. (1) If not fewer than half of the cultivating householders of a village desire to eject or exclude from the village a resident or intending resident thereof, they may record that desire in the prescribed manner.

(2) When the cultivating householders of a village have recorded under sub-section (1) their desire to eject or exclude a resident or intending resident, the prescribed authority may, in the prescribed manner, eject or exclude him from the village:

Provided that a resident or intending resident of a village shall not be ejected or excluded therefrom, if he—

- (a) is of the same indigenous tribe as the majority of the residents of the village, or
- (b) cultivates land within three miles of the village, or
- (c) has resided in the village for twelve years or upwards:

Provided also that a resident of a village who is ejected under this Act shall be entitled to compensation for any immoveable property belonging to him in the village.

(1) The Local Government may from time to time, with the previous sanction of the Governor-General in Council, make

for Local Gov-
t to make rules

—

to define the mode in which the desire of the cultivating householders of a village to eject or exclude therefrom a resident or intending resident is to be ascertained and recorded ;

(b) to declare the authority for carrying into effect the recorded desire of the cultivating householders of a village to eject or exclude a resident or intending resident therefrom, and to prescribe the procedure to be followed by that authority in ejecting or excluding him ;

(c) to prescribe the mode in which the compensation to which an ejected resident is entitled under this Act is to be ascertained and given ; and

(d) generally to carry out the purposes of Act.

(2) When making any rule under this Act the Local Government may direct that a breach of it shall be punished with fine which may extend to one hundred rupees, or with imprisonment which may extend to three months, or with both.

6. (1) The Local Government shall, before making rules under this Act, publish a draft of the proposed rules in such manner as may, in its opinion, be sufficient for the information of persons likely to be affected thereby.

(2) There shall be published with the draft a notice specifying a date at, or after which, the draft will be taken into consideration.

(3) The Local Government shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) A rule made under this Act shall not take effect until it has been published in the local official Gazette.

(5) The publication in that Gazette of a rule purporting to be made under this Act shall be conclusive proof that it has been duly made.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the ejection or exclusion in certain circumstances of strangers from village-sites occupied by Karens and other indigenous tribes of Burma.

2. It would seem that Burman, Shan or Chinese strangers occasionally settle in Karen villages and cause very great annoyance to the Karens, who, in some cases, from shyness or timidity, do not resist the intruders, whilst in others they have been goaded into acts of lawlessness. The missionaries, who know more of the Karens than any English or Burman Government officers, are very persistent in urging that power must be taken to preserve the Karens, especially the wilder Karens in secluded tracts, from intruders. Mr. Crosthwaite, when officiating as Chief Commissioner of British Burma, proposed to issue rules providing for the ejection of intruders from Karen villages ; but it was found on further consideration that no rules of the kind could be enforced without legal sanction. The present Chief Commissioner, sharing Mr. Crosthwaite's views has urged on the Government the necessity for legislation, in the absence of which he fears that the Karen and similar tribes may either be driven out of their settlements or resort to lawless means of getting rid of intruders.

3. In these circumstances, the present Bill has been prepared. Though of a somewhat exceptional nature, it appears to the Government of India to be warranted by the peculiarities of the relations of these indigenous tribes and their neighbours. Further, it is supported by the analogy of the provisions of section 4 of the Garo Hills Regulation, I of 1882, which prohibit the acquisition of interests in land in those hills by strangers except under special sanction.

4. The provisions of the Bill are very simple. Section 1, sub-section (3), empowers the Chief Commissioner to apply the proposed Act to such local areas as he may by notification prescribe, while section 3 defines the term village so as to restrict the operation of the proposed law to purely rural tracts. Section 4 declares the circumstances under which a resident or intending resident may be excluded or ejected from a village. These are that the majority of the residents of the village belong to some indigenous tribe and that not less than one-half of the cultivating householders of the village desire ejection or exclusion of the resident or intending resident, who must not be of the same tribe as the majority of the residents of the village, or cultivate land within three miles of the village or have resided in the village for twelve years or upwards. The section further provides for compensation to persons who have been compelled to vacate any land or house in a village in consequence of their ejection therefrom. Under section 5, the Chief Commissioner has power to make rules with the sanction of the Governor-General in Council prescribing the mode in which the desire of the cultivating householders of a village to eject or exclude any one therefrom is to be ascertained and recorded, empowering certain persons to eject or exclude persons in pursuance of the recorded desire and on behalf of the cultivating householders, and prescribing the procedure to be followed in such cases, and the mode in which compensation under the proposed Act is to be ascertained. The section further enables the Local Government to direct in any rule that a breach of it shall be punished with fine which may extend to one hundred rupees, or with imprisonment which may extend to three months, or with both. Lastly, section 6 contains the usual formal matter as to the procedure for making and publishing rules.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is, by repealing that portion of Indian military law which relates to Military Courts of Requests, to make the provisions of the Army Act, 1881, respecting Courts of Requests in India (44 & 45 Vict., c. 58, ss. 148-151), apply to Her Majesty's Indian forces, and thus to place those forces, with respect to indebtedness, in the same position as the rest of the British Army. In this respect the law enacted nearly half a century ago for the Indian army is more severe than Parliament has seen fit to enact for the other branches of Her Majesty's regular forces or than the Council of the Governor-General would now enact.

MILITARY COURTS OF REQUESTS ABOLITION BILL.

The Hon'ble MAJOR-GENERAL CHESNEY moved that the Bill to abolish Military Courts of Requests as established by Indian Military Law be referred to a Select Committee consisting of the Hon'ble Mr. Ilbert, the Hon'ble Mr. Peile and the Mover.

The Motion was put and agreed to.

ODDH RENT BILL.

The Hon'ble MR. QUINTON moved that the Report of the Select Committee on the Bill to consolidate and amend the law relating to Rent in Oudh be taken into consideration. He said:—

“ I would ask Council to give me their attention while I attempt to describe briefly the course which the Bill has taken since it was referred to the Select Committee, and to account for some of the more important changes in it which we recommend. I shall pass over those points which will be discussed on the amendments standing on the paper in the name of my hon'ble friend Rana Shankar Baksh Singh.

“ The Bill was duly published for the information of those concerned ; it was sent to the Government of the North-Western Provinces and Oudh for a further expression of opinion ; and that Government in turn invited on it the opinions of selected officers. Further, a committee of the Taluqdárs Association assembled at Lucknow in August and discussed the measure in great detail among themselves and in almost daily consultation with the Government—His Honour the Lieutenant-Governor having come down from Naini Tal and remained at Lucknow a fortnight for this purpose. I would also remind Council that the enquiries which led to Government's undertaking this legislation began so far back as 1881, and that the main principles of the Bill have been under discussion for the past three years.

“ The Bill as finally settled by the Select Committee is the outcome of these consultations and discussions, and is based almost entirely on the recommendations of the Local Government, which in preparing the measure has paid great

regard to the representations of the Taluqdárs, who as landlords own three-fifths of the soil of the Province. Those gentlemen are entitled to great credit for the loyalty and public spirit with which they have advanced to meet the wishes of Government in devising measures for the protection of the tenantry, and this attitude of theirs has naturally secured for their representations the most favourable consideration consistent with securing the objects of the Bill both with the Local Government and the Select Committee. The amendments to be brought forward today by my hon'ble friend will show that, except in a few points, and those by no means the most important regulated by the Bill,—the Taluqdárs have little fault to find with it.

“Section 4 of the Bill as introduced barred contracts made before or after the passing of the Act, which would have the effect of defeating the provisions of the Bill respecting the enhancement of rents and ejectment of tenants in whose favour statutory tenancies were created.

“My hon'ble friend Rana Shankar Baksh Singh in his speech on the motion to refer to Select Committee, and the Association of the Taluqdárs at Lucknow, objected to the section as too general, and as making no allowance for reclamation-leases in jungle and alluvial lands, and for reclamations effected by or at the expense of the landlords. Similar representations were also made on behalf of persons on whom Government had conferred grants of waste-land in Oudh. These grants had been made on special conditions, which for the most part contemplated or required a gradual extension of the cultivation. The fairness of the objections was admitted by the Lieutenant-Governor and the Select Committee, and the section has been amended so as to exclude from its operation for a period of fourteen years contracts in respect of land brought under cultivation by reclamation-leases or at the expense of the landlords after it has lain waste or fallow for periods exceeding seven years. It will not, we believe, pay a landlord to allow land to lie fallow for seven years in order to get round the provisions of the Bill respecting enhancement of rent and ejectment; and, on the other hand, a landlord would, in most cases, have great difficulty in obtaining at first from tenants admitted to the cultivation of such land a rent which would be at all fair or adequate for a period of seven years. As we have amended the section, a landlord will be able to let the land at progressive rents agreed upon between the parties.

“The same principles apply to alluvial lands which are periodically surveyed by Government in order to determine what alterations should be made in the revenue, and to waste-land grants; but we have on the suggestion of the Lieutenant-Governor, and in view of the exceptional and fluctuating nature of their cultivation, included these two classes of land in Schedule D of the Bill, which will have the effect of taking them out of the operation of the sections relating to enhancement and ejectment. In alluvial tracts cultivation may vary from year to year, and in waste-land grants the special conditions on which they were made have given rise to a system of cultivation with which interference is not necessary or desirable.

“Compensation for disturbance has disappeared from the Bill. When this Bill was last before Council I endeavoured to give some reasons why the Taluqdárs' objections to this principle should not be insisted on, and Your Excellency explained that under similar circumstances the payment of compensation for disturbance to a tenant in Ireland implied no acknowledgment by the landlord of a right of permanent occupancy in the tenant's favour, and that the injury sustained by unexpected ejectment entailed upon the tenant the loss not merely of his improvements but a further loss occasioned by the disturbance introduced into his plan of life and his industrial undertakings. The Hon'ble Sir Stuart Bayley argued to the same effect, but admitted that there were other objections from a landlord's point of view which made him reserve his final opinion; and it was estimated both by him and by myself that, if security for the objects aimed at by the Bill could be attained by any other method, such a proposal would receive favourable consideration. My hon'ble friend Rana Shankar Baksh Singh stoutly opposed the provision in Council, and, in the discussions with the Taluqdárs at Lucknow to which I have already alluded, these gentlemen adhered to

their previous objections, and were not influenced by the arguments used here and by the Lieutenant-Governor in support of the principle. They recognized, however, the necessity for some check on the issue of notices of eviction which had for the last eighteen years been largely used as an engine for enhancement. After long discussion the Taluqdárs tendered as an alternative to compensation for disturbance the plan now embodied in the Bill, which is briefly this, that notices of ejectment issued upon tenants ordinarily entitled to a renewal of the statutory tenancy created by the Act should bear a stamp-duty equivalent to half a year's rent of the holdings, subject to a maximum of Rs. 25. The Local Government and the Select Committee are not insensible to the objections which may be brought against this proposal. They feel that it confers no direct benefit on the ousted tenant, and they are aware that it may, and probably will, expose Government to the imputation of attempting to make money out of ejectments. As to the first point, the truth of the allegation and the force of the argument must be admitted. The landlords, however, protested most urgently against being obliged to pay compensation to a tenant whom it was every one's interest to get rid of on account of turbulence or bad behaviour; and the Select Committee, recognizing the justice of this aspect of the case, can only hope that the existence of the provision in the law will render ejectments the exception and not the rule, and subject to eviction only tenants to whom that process can be applied with advantage to their neighbours and to the improvement of the cultivation of the soil. With reference to what fell from Your Excellency as to the disturbance of the raiyat's plan of life and industrial undertakings caused by unexpected eviction, I may point out that the Bill improves to some extent the condition of the tenant in this respect. Under the existing law he can be turned out on a month's notice, while the Bill fixes the term for such a notice at six months.

"The imputation of cupidity against Government is one on which my hon'ble friend Sir Auckland Colvin, who on a recent occasion displayed a nervous solicitude for the reputation of a Finance Member, will doubtless feel sensitive, and I shall leave him to deal with it, as it affects the Government of India. As to the Local Government, I cannot do better than read to the Council the views of Sir Alfred Lyall already quoted in our Report:—

'So far as this Government is concerned, there is no desire whatever to increase the stamp-revenue at the landlord's expense, or to impose any additional costs of this kind upon transactions between landlord and tenant. The Lieutenant-Governor would certainly not have proposed, for his own part, to turn compensation into a tax; and he has no doubt that it would, on principle, have been better to adhere to the simple and logical provision which would prevent a landlord from ejecting a tenant until he also gave him some indemnity.

'Nevertheless, when this alternative is put forward and supported by the Association, and since it has become clear that the Taluqdárs unanimously prefer to pay stamp-duty rather than compensation to the tenant, while undoubtedly the stamp-duty would answer the purpose of a check on ejectment as effectively as a compensation-payment at the same rate, the Lieutenant-Governor feels bound to accept and submit to His Excellency the Governor General in Council this proposal as an admissible compromise upon an important and closely-debated provision of the Bill.'

"It is believed by Sir Alfred Lyall, after consulting many officers of experience, that the necessity for paying half a year's rent will probably act as a sufficient check upon inconsiderate and injurious evictions; and he is further of opinion that a varying stamp-duty is better than a fixed one, which, if of high value, would be prohibitive of the ejectment of smaller tenants, among whom there is the greatest probability of finding indifferent cultivators and bad characters. I may add that the scale of compensation for disturbance originally proposed, namely, one year's rent, was very powerfully criticised as oppressive to the landlords when taken in connection with the limitation of enhancement and the period of the statutory tenancies proposed by the Bill; though, had there been no such limitations on enhancement, it would not fall heavily. This argument it might have been impossible for us altogether to ignore had the original proposal been adhered to.

"In the debate on the second reading of the Bill, it was intimated by Your Excellency that the payment of compensation for disturbance might be neutralised by a grant of an eight years' lease. Compensation for disturbance, as I have

already said, has disappeared from the Bill, but we have applied the same principle to the substitute proposed for it, and have made this clear by a section (69) inserted for the first time. A lease of a holding for eight years or upwards must, as regards enhancement, be in conformity with the provisions of the Bill, but exempts the landlord from liability to pay what I may call the penal stamp-duty imposed on notices of ejectment. A landlord wishing to eject a tenant on the expiration of an eight years' lease need not pay such stamp-duty.

"Section 129 of the Bill as introduced gave the Local Government power to revise and settle for a period of ten years the rents of an estate suffering from grave mismanagement. This power was meant to formulate the conditions on which the Government might enforce the penalties of the sanads by which Taluqdárs hold their estates, and might also, it was thought, prove not unacceptable to those landlords as substituting for vague conditions enforceable at the will of the Executive Government a more definite stipulation and penalty regulated by law. This expectation, however, turned out to be ill-founded. The Taluqdárs objected very strongly to the section, and preferred to lie under the sword of Damocles in the shape of the sanad to being relieved in the manner proposed of the risk of its falling on their necks. In view of this and of the safeguards provided by the Bill against oppressive enhancement, Sir Alfred Lyall considers it unnecessary to ask the legislature to arm the Executive Government with this authority by special enactment, and, in deference to this opinion, the Select Committee propose the omission of the section. They wish it, however, to be clearly understood that this omission in their opinion in no way affects the efficacy and force of the sanads, the obligations imposed on the Taluqdárs by those instruments or the power of the Executive Government to judge whether the conditions of the grant have been infringed and to inflict the penalty attached to such infringement."

The Hon'ble RANA SHANKAR BAKSH SINGH addressed the Council in the Vernacular, a translation of his remarks being read by the Secretary as follows :—

"With Your Lordship's permission I humbly beg to offer a few remarks on the Oudh Rent Bill as amended by the Select Committee and submitted to this Hon'ble Council for consideration and final disposal.

"When the Bill was initiated it could hardly be expected that such important, difficult and intricate questions as it involved would be so easily and promptly settled. But the difficulties, which then appeared to be almost insurmountable, have, I am glad to say, been successfully removed; and this desirable end has been achieved no less through the especial attention bestowed on the subject by His Honour the Lieutenant-Governor, and the keen interest taken by His Honour in the discussion and settlement of details, than through the peaceful disposition and loyal conduct of the Taluqdárs.

"I think I need scarcely remind this Hon'ble Council how the Taluqdárs had, subject to certain important exceptions, accepted the two main principles of the Bill,—I mean the rules about the seven years' lease, and the limitation of enhancement to one anna in the rupee,—and how the Local Government had consented to expunge section 129 of the original Bill and the rule about compensation for disturbance. But, in order to more effectually check evictions, it was subsequently resolved that a stamp-duty be levied on all ejectment-notices, and that, if the landlord desired to be exempted from the payment of such duty, he should be allowed to grant a longer lease. The last plan was suggested by Your Excellency in the speech on the Rent Bill made on the 9th June last.

"The way these points were settled may be readily ascertained from the correspondence on the subject, and need not be explained here. After the more important questions had been satisfactorily settled, the minor objections of the Taluqdárs were considered; and the few amendments proposed by them after careful consideration, and in a fair and unprejudiced spirit, were wholly or partially approved by the Local Government, adopted by the Select Committee and embodied by them in the Bill now before Your Excellency's Council.

"The Taluqdárs' objections to section 4 of the Bill, though respectfully urged, were exceptionally strong, and attracted sufficient attention at the time; but subsequently it was found impossible to amend this section to the extent they desired, because any further amendment would make it inconsistent with the principles of the seven years' lease and the limitation of enhancement as finally accepted by the Taluqdárs.

"As regards section 51 of the present Bill, the Taluqdárs had requested that it should be expunged, but the Local Government did not recommend this, and in Select Committee the section was left to stand as it is. In my humble opinion this section should be maintained, and with Your Lordship's permission I will briefly state the reasons which have led me to this conclusion.

"Though the Taluqdárs have, from philanthropic and liberal motives, or in deference to the wishes of Government, accepted the provision as to limitation of enhancement to one anna in the rupee, it is not unlikely that after a few years' experience the Government will find the rule in question inapplicable to all classes of land. There are certain descriptions of land which will not admit of any enhancement at all, while there are others for which the proposed enhancement of one anna in the rupee will be quite insufficient, and a third class of land will only bear an enhancement of less than one anna in the rupee. From the incidence of enhancement on all the three classes of land the landlord is sure to suffer heavily, and the Government will equally suffer in its revenue at a future settlement. Under these circumstances it will become necessary to vary the limits of enhancement according to the descriptions and capacities of land, and raise or lower the amount of enhancement as the circumstances of each case may demand. It is to be hoped that the powers thus given to the Local Government will be exercised by it judiciously. I am humbly but firmly of opinion that, owing to a rise in the market-rates and the improved means of communication, especially in those parts of the country to which the railway line has not yet been extended, it will become absolutely necessary to vary the limits of enhancement.

"My Lord, as the Taluqdárs have loyally sacrificed their interests and shown great moderation and liberality to their tenants, and as their objections are conceived in a perfectly fair and loyal spirit and couched in the most respectful terms, I have felt it my duty, as a member of the Select Committee, to try as best I could to obtain a fair and impartial consideration for all and each of their objections. But I was compelled to agree with my learned and hon'ble colleagues of the Select Committee in rejecting some of those objections for reasons they were good enough to explain to me. Greatly as I wished that there should be no reason for my holding a different view, I regret to say that I was reluctantly compelled to record my dissent on some important points in a minute annexed to the Select Committee's Report, now before this Hon'ble Council. The Taluqdárs' objections to the provisions of section 19 for the remission of rent are not unreasonable. What they want is that either section 23 of the North-Western Provinces Rent Act, XII of 1881, be applied to Oudh, or that section 20, Act XIX of 1868, which has long been in force in Oudh, be maintained. If the Government is disposed to show more mercy to tenants, it should equally divide between itself and the landlord the losses caused by unforeseen calamities.

"In fact, the landlords of Oudh are not better off than those of the adjoining districts of the North-Western Provinces. In some districts of the North-Western Provinces where the Permanent Settlement is in force, and which have long enjoyed the blessings of peace, the landlords surpass the landowners of Oudh in wealth and prosperity. Oudh has as yet known only a thirty years' settlement, and during the last thirty years of internal peace and security it has been disturbed by the harassing operations of a number of settlements giving rise to countless disputes and producing disastrous litigation. The landlords of Oudh are therefore by no means less entitled to the favourable consideration of the Government than those of the North-Western Provinces; and, if in the North-Western Provinces a remission of rent to tenants is followed by a remission of the revenue to the landlord, it is but just and reasonable that the same rule should be held good

for Oudh. The Chief Secretary to the Government, North-Western Provinces and Oudh, in his letter No. ^{2161 B.}₂₀₈₄₀, dated the 6th instant, has laid some stress on the fact that in practice the rule in question has led to serious errors; but from this, I humbly submit, it does not necessarily follow that the rule is radically wrong or defective and cannot be rectified or improved under proper supervision and by suitable instructions. If, however, it is considered desirable that this rule should not be introduced in Oudh, then the rule laid down in section 20 of the present Rent Act, which has been in force for eighteen years and has worked so well and without prejudice to either party, need not be altered. The only ground on which it seems possible to make the proposed alteration is to give the statutory tenant the benefit of a remission of rent under exceptional circumstances in addition to the statutory privileges already conferred upon him. But the tenant's claim to a remission of rent falls to the ground when it is considered that he has obtained such valuable concessions from his landlord, who for seven long years will not be able to share the benefits the tenant will derive from the improved capacity of the land comprised in his holding, from the increased means of communication or from high market-rates, and who cannot enhance the rent beyond one anna in the rupee even after the expiration of that period. If the tenant is entitled to get the full benefit of his cultivation, he must be held equally liable to any accidental loss that may be caused by unforeseen calamities, and for which he can compensate himself from abundant crops in better years. But, if the landlord is made to bear the whole loss, he will have no means whatever of compensating himself for it. Further, the rule in question has not proved prejudicial to tenants in Oudh holding five years' leases.

"The third alternative proposed by the Taluqdárs rests on an equally just and equitable principle. As the Government gets one-half of what is paid to the landlord as rent, it is bound in justice to him to grant a remission or the revenue equal to half the rent remitted to the tenant by its officers. The landlords have good reasons to think that, if the connection of Government is maintained, tenants will not dare prefer false or frivolous claims, and the Government officers will investigate such claims with due care.

"On section 27 I humbly beg to observe that the recommendations of His Honour the Lieutenant-Governor may be adopted with advantage. Purely conjectural estimates of compensation for improvements have in practice been found erroneous, though estimates carefully made by experienced and honest men may be safely relied upon. But such men are hardly obtainable in this country for the execution of such a petty task, and His Honour the Lieutenant-Governor has justly approved of the amendment proposed by the Taluqdárs.

"As regards section 29 I humbly beg to observe that there is nothing in the whole Bill to prevent the tenant from making whatever improvement he likes, but it does not provide for the award of a compensation to the landlord or other tenants if the improvement effected by the sitting tenant causes any loss or damage to them. In Oudh, the tenant has no right whatever in the land he cultivates, and he may possibly make an improvement with the intention of occasioning loss to his landlord or other tenants.

"I humbly submit, My Lord, that I am at a loss to understand why especial provision should be made for the award by the landlord of an additional compensation to the tenant for any loss that may be caused to his (landlord's) own land by an improvement made by himself. It is quite clear that the landlord will not do anything which might prove prejudicial to himself.

"Now, with Your Lordship's permission, I will briefly explain the losses which an improvement made by a landlord might possibly be conceived to cause to a tenant. In the first place, the landlord sinks wells in the holdings of his tenants during a particular season of the year, that is, in May or June, when there are no standing crops which might possibly be injured thereby. The rainy and the cold seasons are not favourable to the construction of wells, which are exclusively made in summer.

"In the second place, even if a well sunk by the landlord in the holding of his tenant produces salt water, which is not favourable to cultivation generally,

such water may nevertheless be utilized in raising a tobacco crop or other crops of a similar nature, to the growth of which irrigation with salt water has been found to be highly conducive. The tenant may not use such water for purposes of cultivation if he apprehends any loss or damage from using it.

"Thirdly, the construction of an embankment is a rare occurrence. Embankments are seldom or never constructed within cultivated areas, and cannot therefore cause any loss or damage to a tenant. But the tenant may himself injure his holding by opening an embankment suddenly and carelessly and letting in an excessive quantity of water, in which case the landlord cannot justly be made to share the blame which naturally attaches to the tenant. In my humble opinion the construction of an improvement cannot possibly tend to impair the productive powers of land, and there is no necessity for making an especial provision to that effect. It will be a great discouragement, if not a perfect bar, to improvements if landlords are required to pay additional compensation for accidental losses. The more useful and costly improvements are effected by landlords, and not by tenants. The rule in question, if maintained, will produce injurious effects.

"I also beg leave to bring prominently to the notice of this Hon'ble Council the fact that improvements, whether made by landlords or tenants, are effected with the special view of improving the productive powers of land and in perfectly good faith, and that any *bond fide* action cannot, and should not, be held to make the doer liable to compensation for any loss that may be caused thereby.

"The Taluqdárs' objections to the extension of the statutory privileges to *páhiúsht* or non-resident tenants carry great weight and call for the especial attention of this Hon'ble Council. To promote the agricultural prosperity of the Province has been the guiding principle and the professed aim and object of the present Bill; and, as non-resident tenants are barred by local custom as well as by the terms of the *Wajib-ul-ars* from using water and manure for the improvement of their holdings, they should not be placed on an equal footing with resident tenants and admitted to the special privileges conferred on the latter. It cannot be said that the Taluqdárs have brought forward this point at the last stage of the Bill. They have already touched upon it in their printed memorandum (page 21) proposing changes in the Bill. So able and experienced an officer as Colonel Erskine, the Special Commissioner, the outcome of whose elaborate enquiries is the present Rent Bill, has, in paragraph 149 of his letter No. 135, dated 1st June, 1883, recommended the exclusion of *páhiúsht* tenants from the new statutory privileges. I have already urged, in the course of these remarks, strong reasons against the views expressed on this point in the letter of the Chief Secretary to the Government, North-Western Provinces and Oudh, No. ²⁵⁰¹⁵₂₀₅₄₅, dated 6th instant.

"Lastly, I humbly beg to call the attention of this Hon'ble Council to section 69, wherein the words "by a registered document" appear to me quite unnecessary. The practical effect of this restriction will be to bar contracts between landlords and tenants for periods exceeding the statutory term of seven years, as neither will like to go a long way out of his village or estate to get every such document registered. I therefore humbly beg to suggest that registration may be made optional and not compulsory."

The Motion was put and agreed to.

The Hon'ble MR. QUINTON moved that the following be added to the definition of "revenue" in section 3, clause (4), of the Bill as amended by the Select Committee, namely:—

"in sections 34 and 35 it means land-revenue only."

He explained that the Select Committee had altered the definition of the word "revenue" as it stood in the present Act by omitting the article "the" before the word "money" in order to remove any doubt as to whether cesses were included in "revenue". It had been suggested, however, that there was a possibility of this affecting indirectly the interests of tenants with rights of occupancy, the term of enhancement of whose rent was fixed by sections 34 and

35 of the Bill; and, as it was not the wish or intention of the Select Committee to interfere in any way with the terms of the Rent Act of 1868 respecting occupancy-tenants, they proposed to make the amendment.

The amendment was put and agreed to.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that the following be substituted for sub-sections (2) and (3) of section 19 of the Bill as amended by the Select Committee, namely:—

"(2) Where rent payable by an under-proprietor or tenant in respect of land assessed to land-revenue is remitted under sub-section (1), there shall be allowed to the landlord a remission of revenue equal in amount to half the amount of the rent remitted by the Court."

The Hon'ble MR. QUINTON said:—

"I must oppose the amendment. The law as it at present stands authorizes the Courts before which a suit for arrears of rent is brought to allow such remission from the rent payable as appears equitable, if the area or produce of the land held by the defendant has been diminished by diluvion, drought, hail or other calamity beyond his control to such an extent that the full amount of rent payable cannot be equitably decreed. In case of tenants with rights of occupancy or holding a lease for five years, or sub-settlement-holders, this rule cannot be acted on unless a remission of revenue shall have been allowed on the same ground and by competent authority in the same estate.

"The Bill as introduced omitted this exception, so that the effect of the section was that the Courts could without any reference to the action of the Executive Government in remitting revenue allow a remission of rent under the circumstances above stated, if they considered it equitable, in the case of every tenant, and under the Bill all tenants other than tenants with a right of occupancy obtain what is practically a lease for seven years. The case is thus put by Sir Alfred Lyall:—

'The question is whether the entire section should be struck out, whereby the Courts would lose their power of making allowances in rent-decrees for inevitable calamities, or whether the section should stand without its proviso, whereby remissions of rent would cease to be in any case dependent on remissions of revenue. The latter course appears to the Lieutenant-Governor to be on the whole likely to be better for the interests of both landlord and tenant. If, as the Lieutenant-Governor believes, it is not expedient to withdraw from the Courts all power to take account of serious calamities in decreeing arrears of rent, in that case to provide that this power shall only be used when revenue has been remitted is to shackle it with an awkward and hardly logical condition.'

"The proposal deprecated here by His Honour the Lieutenant-Governor, which is that embodied in the first, and is the effect of the third, amendment of my hon'ble friend, rests on several assumptions which a little reflection will show to be unfounded.

"It assumes in the first instance that, on the occurrence of an inevitable calamity which has ruined or damaged a tenant's crops, the landlord and tenant have, as my hon'ble friend has argued, in equity an equally strong claim to relief. But this is clearly not the case: the tenant is a small man having little margin over the means of subsistence for himself and his family, and holds, or will hold if the Bill passes, under only a seven years' tenure; the landlord, on the other hand, holds his estate under a thirty years' settlement, and in two-thirds of Oudh is a Taluqdār paying revenue from Rs. 5,000 to lakhs of rupees. A landlord whose income is derived from a large area has thirty years in which to make good the loss of rent which is due to unavoidable calamities; the tenant, whose holding is 5 acres, the average size of farms in Oudh, has only seven.

"Again, the proposal assumes that the measure of relief given to the landlord is the proper measure of the relief of which the tenant stands in need; but this is obviously a generalisation the application of which in particular cases must work great hardships. Government may for very good reasons consider that a zamindār who holds under a light settlement and is a man of substance is well able to bear an occasional loss of this nature, which may mean simple ruin to small tenants. Government may very properly think remission of revenue in such circumstances uncalled for in the cases of the Mahārājās of Bulrampore or

Mehdowna, without implying that the full rents should be levied from the tenants of those gentlemen. The argument of my hon'ble friend that Government is not entitled to collect more land-revenue in a given year than half the rental realized by the landlords is obviously unsound. It ignores the fact that settlements are made for long periods instead of for a single year, and involves the position that, if the landlord pays only half the rents realized in bad years, Government would be entitled to half the full or enhanced rents realized in years of plenty. Further, a landlord who on the occurrence of a drought wishes to break down the statutory tenancy conferred upon his tenants has only to refrain from asking for a remission of revenue, while he gets decrees in the Rent Courts for arrears of rent which it is impossible for the tenants to pay, and thus use the Courts as instruments to defeat altogether the intentions of the law.

"The Local Government, however, quite recognize that landlords are unwilling to accept the possibility of large rent-remissions being granted by the Courts without any consequent remissions of revenue, and we have proposed that the sanction of the Deputy Commissioner should be necessary to the remission of rent by the District Courts, and that the test for the remission should be the actual power of the tenant to pay. Sir Alfred Lyall has also intimated his intention, if the Bill passes into law, of instructing Deputy Commissioners to use with care and discrimination the authority entrusted to them, and to bear in mind that any considerable remissions of rent will give a just claim to remission of revenue. The Select Committee, before whom my hon'ble friend argued his side of the case, as he has done today, with ability and persistence, have gone even beyond the Lieutenant-Governor and made two further important concessions. They have restored the provision of the existing law that tenants with rights of occupancy and sub-settlement-holders shall have no claim to remission of rent unless in consequence of a remission of revenue, and have laid down expressly the rule that Revenue-officers shall in other cases take into consideration any claim made by the landlord for remission of revenue when a remission of rent under this section causes a material diminution of the assets of the landlord in the village in which the remission is given. They feel that this is as far as they can go in legalizing a claim to remission of revenue on account of remission of rent, and consider that all cases falling short of this may properly and fairly be left to be dealt with by the Executive Government."

The amendment was put and negatived.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that section 19 of the Bill as amended by the Select Committee be replaced by a section in the terms of section 23 of the North-Western Provinces Rent Act, 1881, with the following modifications, namely:—

- (a) the words "Chief Commissioner" to be substituted for the words "Local Government" and "Board" wherever these latter words occur; and
- (b) the word "landlord" to be substituted for the word "landholder".

The Hon'ble MR. QUINTON said:—

"This amendment I must also oppose. It proposes to apply to Oudh the law at present in force in the North-Western Provinces, which makes remissions of revenue in cases of calamity a condition precedent to remission of rent, and leaves the amount of such remissions to be determined by the Collector in his executive capacity. Even if the rule were unobjectionable in the North-Western Provinces, it does not follow that it would be equally suitable for Oudh. In the latter Province three-fifths of the area is held by Taluqdárs, whereas in the North-Western Provinces the proportion held by large landholders is inconsiderable, and I am unable to admit the assertion of my hon'ble friend that the majority of Oudh landlords are not better off than those of the North-Western Provinces. The permanently-settled area of Benares is only a small, though no doubt an important, portion of the latter Province. Injuries to crops on small estates may embarrass proprietors which on large estates cause little or no inconvenience to the landlord, and Government on grounds of humanity may be obliged to refrain from pressing its demand in one case which in the interests of the community generally it would be unjust not to enforce in the other. But even in the North-Western Provinces the rule is not altogether satisfactory. It is open to the objections of principle

which I have urged in discussing the last amendment, and it forces the executive officers to interfere in every case and to apply a uniform rule in a rough and ready way to a large number of tenants whose cases may require nice discrimination and call for very different treatment.

"The Bill, on the other hand, leaves the parties concerned, who know best where the shoe pinches, to adjust their matters among themselves, and authorizes interference only when the landlord comes into Court to exact the uttermost farthing. Such interference can take place only in a judicial proceeding subject to appeal and to the other checks which I have already enumerated. The operation of these checks will soon prevent tenants from urging groundless claims on any large scale, which my hon'ble friend apprehends as one of the results of the measure. The Local Government, who are necessarily acquainted with the operation of both systems, are opposed to the introduction of the North-West rule into Oudh. For the reasons I have given and from my own experience of the practical working of that rule I altogether concur with them."

The amendment was put and negatived.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that a section in the terms of section 20, Act XIX, 1868, be substituted for section 19 of the Bill as amended by the Select Committee.

The Hon'ble MR. QUINTON explained that the effect of this amendment would be precisely similar to that of the first amendment proposed by the hon'ble member, and, as the arguments which he had used in discussing that amendment applied equally to this one, he would not trouble the Council with any further remarks on the subject.

The amendment was put and negatived.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that the word "registered" be omitted from section 20, sub-section (4), of the Bill as amended by the Select Committee: also that the words "by registered document" be omitted from sub-section (1), and the word "registered" from sub-section (2), of section 69 of that Bill: also that the words "not exceeding seven years" be omitted from section 156 of that Bill.

The Hon'ble MR. QUINTON said:—

"Under the Registration Act, which is of general application, the registration of leases of immoveable property from year to year or for any time exceeding one year or reserving a yearly rent is compulsory. The Lieutenant-Governor has, however, the power to exempt in certain localities leases the terms and annual rents in which do not exceed respectively five years and fifty rupees.

"The Lieutenant-Governor, in the Bill as introduced, proposed to exempt from compulsory registration all pattas granted for the statutory period of seven years. Registration in this case seemed to be unnecessary, as the pattas would be checked by the supervisor-kanungos, and the inconveniences of an enforced registration throughout the country would be very serious. My hon'ble friend now asks for a further exemption from the rules laid down by the Registration Act in favour of leases the term of which exceeds seven years, which, as I have already explained to Council, relieve the landlord from the liability to payment of stamp-duty on notices of ejectment. Such leases must for many years to come be altogether exceptional, and it is obviously desirable that, where so much will depend on the terms of the instrument by which these contracts are effected, every precaution should, in the interests of both parties, to prevent future disputes and litigation, be taken to secure the preservation of the document, and that the provisions of the general law on the subject should be applied to them. The apprehensions expressed by my hon'ble friend, that tenants will be deterred from taking such leases by the trouble of attending the registration-office, will, I hope, prove unfounded. When it is the wish of a tenant to obtain such a lease, he is not likely to be kept back by such an obstacle; and, as to the deterrent caused by payment of registration-fees, which is not now touched on by my hon'ble friend but was pressed upon us in Select Committee, it is always in the power of the Local Government to obtain from the Government of India an exemption

from payment of registration-fees in favour of such instruments should it see any necessity for such a course."

The amendment was put and negatived.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that the following proviso be added to section 27 of the Bill as amended by the Select Committee, namely:—

"Provided that the compensation so estimated shall not in any case exceed the amount of the actual outlay on the improvement."

The Hon'ble MR. ILBERT said:—"My hon'ble colleague Rana Shankar Baksh Singh has referred to the recommendation of the Lieutenant-Governor on the subject of this amendment. It is perfectly true that the Lieutenant-Governor, in his Secretary's letter of the 6th September, 1886, suggested for the consideration of the Select Committee whether it might not be advisable to revert to the terms of the present Act and base the estimate of the compensation on the outlay of the tenant and the assistance of the landlord in money, material, labour or favoured rent. But I find on referring to the previous letter from the Lieutenant-Governor's Secretary of 15th January the following remarks in paragraph 18:—

'The principle on which compensation is calculated under the present Act is solely that of the outlay of the tenant. The last sentence of the section bars right to compensation for improvements which were made more than thirty years before the date of claim, and in practice the procedure of the Courts is to make an estimate of the probable outlay assume that the improvement will last for thirty years, and award to the tenant the sum which in that proportion represents its unexpired value. Thus, if a well is believed to have cost Rs. 300 ten years ago, the Court will award to the tenant Rs. 200. The principle is by no means a just one, for the landlord is exposed to great exaggerations by the tenant of his original outlay, and where the improvements are of old standing these statements are difficult to check. The Lieutenant-Governor considers that the principles laid down in section 83 of the Bengal Tenancy Act are not only in themselves more fair, but more simply and readily applied by the Courts, for it is seldom difficult in any village to ascertain the difference in letting value due to irrigation, and a well is the most common of all improvements in Oudh. A section has been accordingly introduced from the Bengal Act, section 25 (A), and the references to outlay and the period of construction omitted from section 22.'

"That is the section which was inserted in the Bill as sent up by the Local Government, and which the Select Committee, after considering the subject, made up their minds to retain. Now, it appears to me—if I may venture to say so without disrespect to the Lieutenant-Governor—that on this point his first thoughts were better than his second. The clause which was inserted in the Bengal Tenancy Act was framed after much consideration and discussion, and with reference to the conclusions arrived at not only by the Indian but by the English legislature in dealing with tenants' improvements. Those conclusions were that in order to do justice between landlord and tenant both elements—that of outlay and that of result—ought to be taken into consideration. There are cases in which the result does not justify the expenditure, and in which a deduction from the amount expended should be made on that account. There are also cases in which a small but judicious outlay produces very valuable results, and in such cases it would not be fair to the tenant to limit the compensation to the amount originally expended. Both elements—that of outlay and that of result—should be kept in view, and in estimating the amount to be paid regard should be had to each. I think that we should in the present Bill adhere to the general principles laid down on other occasions, and therefore I must oppose this amendment."

The amendment was put and negatived.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that sub-sections (3) and (4) be omitted from section 29 of the Bill as amended by the Select Committee, and that, as a consequence, sub-clause (d) of clause (9), and the words "or section 29, sub-section (4)," in clause (12), be omitted from division B of section 108 of that Bill.

The Hon'ble MR. QUINTON said:—

"My hon'ble friend's objection to sub-sections (3) and (4) of the section I can scarcely follow. The section first gives a landlord power to make

an improvement on the holding of a tenant without a right of occupancy without his consent, and then enacts that, if, when making the improvement, he causes loss to the tenant, the latter shall have a claim for compensation against the landlord, or if the effect of the improvement is permanently to impair the productive powers of the holding the tenant shall be entitled to abatement of rent.

"The effect of the amendment of my hon'ble friend, if accepted, would be that a landlord might make an improvement on the holding of a tenant without his consent, but would not be liable to pay compensation for any loss caused in making it.

"My hon'ble friend, as I understand, contends that under the conditions of agriculture in Oudh it is impossible that any loss should be caused to the tenant of the holding, but, if this is so, then the section attaches no liability to the landlord. He can have no difficulty in successfully resisting any claim brought on this account. But the Select Committee considers that cases are conceivable, where, in the construction of an improvement to which his consent is not necessary, the tenant's crops may be damaged or the area of his holding diminished or otherwise injuriously affected, as in the case of an improvement the effects of which extend over several holdings; and the Local Government are of the same opinion. To refuse the tenant a right to compensation for such injuries would be a manifest wrong. The contemplation of the benefits arising to *B's* holding and to the letting value of *C's* land from an improvement the making of which has injured *A's* fields cannot be said to be an equitable compensation for the damage *A* has suffered."

The amendment was put and negatived.

The Hon'ble MR. QUINTON moved that in section 38, sub-section (2), of the Bill as amended by the Select Committee the words and figures "sections 49 and 50" be substituted for the word and figures "section 49". He said:—

"The section to which this and the following three amendments refer was inserted in the Bill as introduced at the instance of the Taluqdars' Association and of the Local Government in order to make it clear that a landlord was entitled to an enhancement of rent even during the currency of a statutory tenure from a tenant on whose holding an improvement had been effected by or at the expense of the landlord or acquired by him. Since the Report was presented His Honour the Lieutenant-Governor has pointed out that the section bars, at least by implication, an enhancement of rent on an incoming tenant in excess of one anna in the rupee when the landlord has paid to the tenant's predecessor compensation determined by a Court under the Act.

"The cases are similar in principle and can be supported by the same arguments. The desirability of increasing the productive powers of the soil by promoting improvements is admitted on all hands, and the Lieutenant-Governor is of opinion that, unless the section be amended as I now propose, landlords would have a strong interest in opposing all improvements made by their tenants and in contesting every claim to make such an improvement, and that thus a serious obstacle would be raised to the advancement of objects urgently called for by public policy."

The amendment was put and agreed to.

The Hon'ble MR. QUINTON moved that in section 47, sub-section (1), of the same Bill the words and figures "sections 49 and 50" be substituted for the word and figures "section 49".

He explained that the observations which had been made on the preceding amendment applied equally to this one, and that he had no further remarks to offer regarding it.

The amendment was put and agreed to.

The Hon'ble MR. QUINTON also moved that in section 47, sub-section (2), of the same Bill, between the words "a sum which" and the words "shall not exceed" the words and figures "subject to the provisions of sections 49 and 50" be inserted.

He said that this amendment was also consequential on the preceding one.

The amendment was put and agreed to.

The Hon'ble MR. QUINTON also moved that in section 50 of the same Bill the words "during the currency of a tenancy", where those words occur between the word "rent" and the words "on the ground that", be omitted, and that for the last sixteen words of that section the following be substituted, namely:—

"or for which during the currency of the tenancy compensation has been accepted from the landlord by the owner of the improvement, or, on the expiration of the tenancy, compensation has been paid in accordance with the determination of a Court under this Act."

This amendment, MR. QUINTON explained, was also consequential on the preceding one.

The amendment was put and agreed to.

The Hon'ble RANA SHANKAR BAKSH SINGH moved that the following clause be added to section 62, sub-section (1), of the Bill as amended by the Select Committee, namely:—

"(e) that the tenant is a *pāhikāsht* or non-resident tenant, and a resident tenant desires to be admitted to the occupation of the land comprised in the holding of the *pāhikāsht* or non-resident tenant."

The Hon'ble MR. QUINTON said:—

"The point raised by this amendment was started in the discussions at Lucknow by the Taluqdārs, who were anxious that the Bill should be altered in the direction my hon'ble friend now proposes. The Lieutenant-Governor, however, was unable to accede to the proposal. In submitting Major Erskine's report to the Government of India so long ago as December, 1883, Sir Alfred Lyall recommended that non-resident cultivators should not be excluded from the benefits of the Act. He admitted the force of the arguments, such as have now been urged by my hon'ble friend, arising from the inefficiency of *pāhikāsht* cultivation, the desirability of discouraging it and the necessity of giving the landlord special facilities for substituting resident for non-resident cultivation whenever opportunity may occur; but it was ascertained in the course of the enquiry that *pāhikāsht* cultivation prevailed to a considerable extent and had not diminished since settlement, from which it was inferred that this cultivation was a useful complement to the more carefully tended fields of an agriculturist's home farm, to be deprived of which would seriously cripple him in his business. If a landlord of two contiguous villages or two landlords in collusion could eject at pleasure from the non-resident portions of holdings, they would have a very strong hold on tenants in regard to their farms in their villages of residence.

"The figures given in the report as to the proportion of tenants who cultivated more or less land outside their villages of residence bore out this inference, and the Local Government accordingly decided that non-resident cultivators could not properly be excluded from the benefits of proposals intended for the tenantry at large. This principle was accepted by the Government of India and by the Secretary of State. It was accordingly maintained in the Bill as introduced, and is adhered to by the Local Government after full consideration of the representation of the Taluqdārs at Lucknow. Sir Alfred Lyall writes:—'No evidence has been brought forward in contradiction of the data obtained from the records of Colonel Erskine's enquiry.'

"With reference to the remark of my hon'ble friend that it cannot be said that the Taluqdārs have brought forward this point at the last stage of the Bill, I would observe, without wishing to attach too much importance to the fact, that the Bill as introduced had been for some time before the Taluqdārs' Association, and discussed by them when they wrote their letter of the 24th of April last printed in Papers No. 2, accepting in *their entirety* its rules of seven years' leases and of the limitation of enhancement to 6½ per cent., and the Bill as introduced made no exception from these rules as regards *pāhikāsht* tenants."

The amendment was put and negatived.

The Hon'ble MR. QUINTON moved that in section 129 of the Bill as amended by the Select Committee the word "Act" be substituted for the word "Chapter" where the latter word occurs.

He explained that the amendment was merely formal and was meant to correct a clerical error.

The amendment was put and agreed to.

The Hon'ble MR. QUINTON moved that the Bill, as amended, be passed. He said:—

"This motion, My Lord, is the final stage of the Bill which, with one or two important exceptions to which I referred in my remarks earlier in the debate, is in its principles the same measure as that introduced in Calcutta last February. In what I said on that occasion, and again in June last in moving to refer the Bill to a Select Committee, I was obliged to trespass to such a length on the patience of Council in order to describe the state of things which in the opinion of the Government rendered legislation necessary and to explain the principles on which it was proposed that that legislation should be based, that I shall make no further demand on the forbearance of hon'ble members by attempting to go over the same ground.

"The measure has been long and anxiously considered in all its details by the Local Government and the Government of India. It deals with a subject which bristles with difficulties, and was fought over not very long ago by angry and embittered partizans, and it affects materially the interests and happiness of millions of human beings. It has been conceived, matured and elaborated in a spirit of caution and moderation by authors not eager on the one hand to revive the flames of a burnt out controversy or to disturb the agricultural relations of the country beyond what the necessities of the case call for, but earnest on the other hand to afford such protection to the tenants as would be giving them a reasonable prospect of enjoying the fruits of their labour, stimulate their industry, promote the prosperity of all classes dependent on the cultivation of the soil, remove grounds for antagonism between those classes and strengthen the hands of the weaker party in all future dealings respecting the occupation of the land of this great Province. In the hope and expectation that it will in some degree prove effectual in bringing about these objects I now ask Council to pass the Bill."

The Hon'ble SIR AUCKLAND COLVIN said:—"I shall not detain your Excellency and the Council more than a few moments. It was only at a comparatively late hour that I have been enabled to take part in the discussions which have led to this measure as it now stands before us. The burden of those discussions has fallen mainly on the Government of the North-Western Provinces and Oudh and on its officers, on my hon'ble friend Mr. Ilbert and on the Taluqdárs of Oudh. But I trust I may be allowed to bear my tribute to what has seemed to me to have been, during the course of the deliberations in which I have shared, the extremely reasonable and equitable spirit in which, whether in official or non-official conferences, my hon'ble friend Rana Shankar Baksh Singh and the Taluqdárs who have accompanied him have approached this subject, which necessarily to them, in a degree not less than to the Government, involves issues of extreme importance. If we have not been able to meet on some comparatively minor points—such as those which form many of the amendments on the paper before us—the views entertained by the Taluqdárs, we have, I think, established with them a complete and cordial understanding on the main principles which underlie this Bill and in accordance with which it will have to be worked. I confidently believe that this measure when made law will contribute to bring about an equitable and durable settlement of the various issues raised in the course of this discussion, and that its influence on the future relations of landlords and tenants in Oudh will be of effective benefit. My hon'ble friend Mr. Quinton has expressed some doubt with regard to the view which the Financial Department of the Government of India may be inclined to take in respect to the provisions regarding stamp-duties on notices of ejectment. I hope I may be allowed to hasten to re-assure him on that point,

and to say that I identify myself completely with the views he has put forward as those entertained by the Government of the North-Western Provinces and Oudh, and that the Financial Department will certainly abstain from laying any claim to revenues arising from that source which the Government in the pursuit of administrative measures calculated to give greater security and relief to the cultivators may desire to appropriate."

The Hon'ble MR. ILBERT said:—"When this measure was last before the Council, my hon'ble colleague Sir Steuart Bayley congratulated the Council on the circumstances under which they were proceeding with the Bill. Those congratulations are, I am sure, still more appropriate on the present occasion. We have been told how, since last June, the provisions of the Bill have been carefully and thoroughly discussed with the Oudh landowners and their representatives at a series of conferences which have been held at Lucknow, and the result of those discussions has been to materially lighten and shorten the labours of the Select Committee which has been sitting here. But it must not be supposed that the Select Committee have accepted *en bloc* and without examination the Lucknow proposals. On the contrary we have gone through each of the several suggestions and proposals brought forward at Lucknow, with the reasons by which they were supported, have considered them on their merits and have re-cast the Bill accordingly. In the performance of this task we have had the assistance not only of my hon'ble friend Rana Shankar Baksh Singh, but of the gentlemen who have accompanied him from Oudh, and who represent, I understand, different classes of landowners and different parts of the Province. I explained to these gentlemen how I was precluded by our rules from allowing them to take a direct part in the deliberations of the Select Committee, but I promised them that they should have full opportunity of placing personally their views and arguments before myself and the other members of the Committee; and they will, I am sure, admit that I have redeemed my promise on this point. We have had the advantage of hearing the arguments for and against the material provisions of the Bill clearly, forcibly and temperately stated, and any one who was present at the conferences which have been held could honestly testify that the interests of the absent were adequately represented. The amendments which have been moved today—all of which, I may be permitted to observe, had been previously very carefully considered in Select Committee—will show how few and comparatively unimportant are the points about which there is still any difference between the Government and the representatives of the Taluqdárs. It is true that this agreement has been facilitated by material concessions to the Taluqdárs. We have been able to meet my hon'ble friend Rana Shankar Baksh Singh on both of the two points to which he took special exception in the Bill as introduced—I mean on the question of compensation for disturbance, and with respect to the clause providing special machinery for enforcing the conditions of the sanads. With respect to both these points I should personally have preferred to retain the provisions of the Bill as originally introduced, but in saying this I must not be understood as qualifying in any way my full assent to the recommendations of the Select Committee that, in view of the considerations urged by the Local Government, the modifications proposed in the interests of the Taluqdárs should be accepted. Those considerations were based to a great extent on the assurance that the landholders of Oudh could be trusted to work the Act in the spirit in which it is intended to be worked, and that the restrictions on their powers originally proposed for the protection of the tenant would be in practice unnecessary; and it is in the assurance that this confidence is not misplaced that the Government of India has assented to the Bill in its present form. With respect to the sanads, I need not do more than repeat what my friend Mr. Quinton has said, that nothing in this Bill will in any way modify or impair their effect. And, as to the substitute for compensation for disturbance, I am very glad to hear from my friend Sir Auckland Colvin that he thinks the Financial Department will be able to find a way for removing or lessening the objection to which it is most palpably open. I have every hope that the measure now before the Council will prove a lasting and satisfactory arrangement. It embodies not any compact with any particular class or section of those interested in the land but an endeavour on the part of the legislature to reconcile as

far as possible the conflicting views, wishes and interests of the several classes and sections after a fair and impartial hearing of all concerned."

His Excellency THE PRESIDENT said:—

"Before putting the motion that this Bill be passed, I desire to express my entire concurrence with everything that has fallen from my hon'ble colleague on the left (Mr. Ilbert) and from the Financial Member. I am also glad to have this opportunity of congratulating all concerned upon the fortunate and propitious issue which has attended the inception, the discussion and the elaboration of this measure. As Mr. Quinton has already remarked, it is a most important Bill, affecting the happiness of thousands and thousands of Her Majesty's subjects; and, having had considerable experience in land legislation, I must say that I have never taken part in any controversy affecting such various and momentous interests in which so laudable a spirit of conciliation has been exhibited. I especially desire to congratulate my hon'ble colleague who represents the Taluqdárs of Oudh upon the manner in which he has brought to notice the views of himself and of his associates regarding the Bill, and on the successful manner in which he has vindicated their interests and set forth their moderate and reasonable demands."

The Motion was put and agreed to.

The Council adjourned to Thursday, the 21st October, 1886.

RESOLUTION.

In the "Notes" referred to in the preamble, Mr. B. M. Malabari of Bombay, a gentleman known to the Indian public for his public-spirited efforts to promote social reform, brings to the notice of the Government of India important considerations connected with the questions of infant marriages and widowhood in India. In his "Notes" Mr. Malabari forcibly depicts the evils incident to those customs, and calls upon the Government to take measures for mitigating them, while he at the same time suggests the direction which, in his opinion, such measures of mitigation might follow. He thinks that the practice of infant marriage might be discouraged were the Educational authorities to rule that no student with a child-wife should be eligible for University degrees, and if the various heads of Government Departments were instructed to give the preference to those applicants for employment in the public service who were unmarried. In regard to widow remarriage, Mr. Malabari thinks that, among other palliatives, good would come if

Government were to take action with a view to providing (1) that no Hindu girl who during her minority had lost her husband, or the person to whom she had been betrothed, should be condemned to perpetual widowhood against her will; (2) that arrangements might be made in suspected cases to ascertain whether a widow had adopted seclusion voluntarily or whether it had been forced upon her; (3) that every widow, of whatever age, should have the right to complain to the authorities of social ill-usage, and that proper facilities should be afforded her for the purpose; and (4) that it should be declared illegal for priests to excommunicate either the parties contracting a second marriage, or their relations and connexions.

2. Copies of Mr. Malabari's Notes were forwarded to Local Governments and Administrations with the remark that the subject was one of great importance to the social well-being of the people, and that the Governor General in Council would be glad to receive any observations which the local authorities might desire to make on the proposals. Local Governments and Administrations were at the same time encouraged to consult such official or non-official persons as were considered to be well acquainted with native feeling on the question.

3. All replies from Local Governments and Administrations have now been received. They bear testimony to the good which even already has been done by Mr. Malabari's endeavours to apply a remedy to a state of things which no section of the community regards altogether with approval, and which some consider to be a great abuse. But while thus regarding with sympathy Mr. Malabari's praiseworthy efforts, all the Local Governments and Administrations exhibit complete unanimity of opinion against the adoption of the legislative action and the imposition of the executive disqualifications which Mr. Malabari advocates. After careful consideration, the Governor General in Council agrees with the unanimous conclusion arrived at on the subject by the local authorities, and he will endeavour to state as briefly as possible the reasons which have led him to that conclusion.

4. In dealing with such subjects as those raised in Mr. Malabari's Notes, the British Government in India has usually been guided by certain general principles. For instance, when caste or custom enjoins a practice which involves a breach of the ordinary criminal law, the State will enforce the law. When caste or custom lays down a rule which is of its nature enforceable in the Civil Courts, but is clearly opposed to morality or public policy, the State will decline to enforce it. When caste or custom lays down a rule which deals with such matters as are usually left to the option of citizens, and which does not need the aid of Civil or Criminal Courts for its enforcement, State interference is not considered either desirable or expedient.

In the application of such general principles to particular cases, there is doubtless room for differences of opinion; but there is one common-sense test which may often be applied with advantage in considering whether the State should or should not interfere in its legislative or executive capacity with social or religious questions of the kind now under notice. The test is, "Can the State give effect to its commands by the ordinary machinery at its disposal?" If not, it is desirable that the State should abstain from making a rule which it cannot enforce without a departure from its usual practice or procedure.

If this test be applied in the present case, the reasons will be apparent why His Excellency in Council considers that interference by the State is undesirable, and that the reforms advocated by Mr. Malabari, which affect the social customs of many races with probably as many points of difference as of agreement, must be left to the improving influences of time, and to the gradual operation of the mental and moral development of the people by the spread of education.

It is true that the British Government in India has by its legislation set up a standard of morality independent of, and in some material respects differing from, the standard set up by caste; and it may be that the former standard has had some beneficial effect in influencing native customs, practices,

and modes of thought. But legislation, though it may be didactic in its effect, should not be undertaken for merely didactic purposes; and in the competition of influence between legislation on the one hand, and caste or custom on the other, the condition of success on the part of the former is that the Legislature should keep within its natural boundaries, and should not, by overstepping those boundaries, place itself in direct antagonism to social opinion.

4. Of the suggestions made in the course of the voluminous correspondence quoted in the preamble, the only two which do not seem to the Government of India to be open to serious objection on ground of principle are (1) the amendment of section 2 of Act XV of 1856 as to the forfeiture of property of a widow on remarriage; and (2) the supply of machinery by which a Hindu widow, who fails to obtain the consent of her caste-fellows to her remarriage, may nevertheless marry without renouncing her religion.

But although there is much to be said in favour of each of these suggestions, the Governor General in Council, as at present advised, would prefer not to interfere, even to the limited extent proposed, by legislative action until sufficient proof is forthcoming that legislation is required to meet a serious practical evil, and that such legislation has been asked for by a section, important in influence or number, of the Hindu community itself.

5. With this expression of his views, His Excellency in Council has decided to publish all the opinions which have been submitted to the Government of India on this important question in the form of a Selection from its Records.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all Local Governments and Administrations for information;

that the Resolution be published in the Supplement to the *Gazette of India* for general information;

and that the Resolution, together with the papers read in the preamble, be published as a Selection from the Records of the Government of India.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 6th OCTOBER, 1886.

GENERAL REMARKS.—Except in the Punjab, Sind, and Rajputana, rain has fallen in varying quantities all over the country during the week under report.

The *kharif* outlook has much improved in Bombay, the Central Provinces, and Berar, owing to the late rainfall, but in these Provinces and also in Hyderabad, Rajputana, Central India, and the Punjab, more rain is still required for the crops. The *kharif* harvest has commenced in parts of Bombay, the North-Western Provinces and Oudh, and Rajputana, and the prospects are generally good. The standing crops in Madras, Mysore, and Coorg are generally in good condition. In Bombay slight injury has been caused by excessive rain in parts of Poona and Ratnagiri.

The rice crop in Bombay, and especially in the Central Provinces, is still in want of rain. In the latter Province the crop in the Chhattisgarh Division has been partially lost. In Bengal the early rice harvest has yielded fairly and the winter rice is coming up well. In Assam transplanting of the *sali* crop is nearly finished. The rice crop is being transplanted in Lower Burma, and prospects are satisfactory.

Cotton prospects in the Central Provinces and Berar are generally fair.

Sowings for the *rabi* are in progress in the North-Western Provinces and Oudh, the Central Provinces, Berar, and Rajputana.

The public health continues generally good in all Provinces.

Prices are rising in a few districts of the Punjab and in Coorg and are falling in the Central Provinces and Mysore. Elsewhere they remain generally stationary.

ADELAIDE JUBILEE INTERNATIONAL EXHIBITION, 1887.

(1) *System of Awards.*

Judges shall be appointed—one-half of whom may be nominated by the official representatives of the countries and colonies exhibiting, acting in conjunction with the Executive Committee; and the balance by the Executive Committee.

Judges will be selected for their qualifications in relation to the special class of work assigned to them, and will be chosen from the best sources available, and will impartially recognise merit without regard to nationality.

The Executive Committee will appoint a sufficient number of Judges to each section of classes.

The Executive Committee will appoint Judges for collective exhibits; but no collective exhibit shall obtain a higher Award than the best exhibit it contains is entitled to.

The Executive Committee will appoint a Superintendent of Judges and Awards to frame rules for the guidance of Judges, to regulate their meetings and facilitate their work, and otherwise carry out the instructions of the Judges and Awards Committee.

Judges absent from three consecutive meetings, unless by written permission of the Executive Committee, will be held to have surrendered their posts.

A vacancy in any body of Judges shall at once be reported by the said Superintendent of the Judges and Awards, and such place declared vacant, and such vacancy shall forthwith be filled by the Executive Committee.

Experts may be called in by a majority of any Judges, their names having been previously submitted to and approved by the Superintendent of Judges and Awards.

No exhibitor, or his agent, shall be a Judge in any class in which he exhibits.

An exhibitor who is not the manufacturer or producer of the article exhibited shall not be entitled to an Award. (Live Stock excepted.)

Awards shall consist of three classes, viz.,—

1st Class—Diploma of First Order of Merit, and an Official Medal in bronze.

2nd Class—Diploma of Second Order of Merit.

3rd Class—Diploma of Third Order of Merit.

Awards to be based on reports, made in writing by the Judges and attested by their signatures, setting forth the merits of the product adjudged, which have formed the ground of the award; and the awards so made shall be forthwith forwarded to the Superintendent of Judges and Awards, to whom the records of Judges shall be open for inspection.

The elements of merit shall include originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, and cost.

The Executive Committee hope to be able to secure additional valuable awards for exhibits of a special character.

All decisions of Judges must be returned to the Superintendent of Judges and Awards on or before a date to be declared by the Judges and Awards Committee, unless special written permission for an extended time shall have been granted by such Committee.

The Judges and Awards Committee will constitute a Final Court of Appeal.

In case of appeal, a fee of £1 1s. must be deposited with the Superintendent of Judges and Awards:—if appeal allowed, the fee will be returned.

The reports of the Judges recommending awards shall be forwarded by the Judges and Awards Committee to the Executive Committee, by whom awards will be announced.

INTERNATIONAL COPYRIGHT ACT, 1886.

• 49 & 50 VICTORIA, CAP. 33.

An Act to amend the Law respecting International and Colonial Copyright.

[25th June, 1886.]

WHEREAS by the International Copyright Acts Her Majesty is authorised by Order in Council to direct that as regards literary and artistic works first published in a foreign country

the author shall have copyright therein during the period specified in the order, not exceeding the period during which authors of the like works first published in the United Kingdom have copyright :

And whereas at an international conference held at Berne in the month of September one thousand eight hundred and eighty-five a draft of a convention was agreed to for giving to authors of literary and artistic works first published in one of the countries parties to the convention copyright in such works throughout the other countries parties to the convention :

And whereas, without the authority of Parliament, such convention cannot be carried into effect in Her Majesty's dominions and consequently Her Majesty cannot become a party thereto, and it is expedient to enable Her Majesty to accede to the convention :

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and

consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. (1) This Act may be cited as the International Copyright Act, 1886.

(2) The Acts specified in the first part of the First Schedule to this Act are in this Act referred to and may be cited by the short titles in that schedule mentioned, and those Acts, together with the enactment specified in the second part of the said schedule, are in this Act collectively referred to as the International Copyright Acts.

The Acts specified in the Second Schedule to this Act may be cited by the short titles in that schedule mentioned, and those Acts are in this Act referred to, and may be cited collectively as the Copyright Acts.

(3) This Act and the International Copyright Acts shall be construed together, and may be cited together as the International Copyright Acts, 1844 to 1886.

2. The following provisions shall apply to an Order in Council under the International Copyright Acts:

(1) The order may extend to all the several foreign countries named or described therein:

(2) The order may exclude or limit the rights conferred by the International Copyright Acts in the case of authors who are not subjects or citizens of the foreign countries named or described in that or any other order, and if the order contains such limitation and the author of a literary or artistic work first produced in one of those foreign countries is not a British subject, nor a subject or citizen of any of the foreign countries so named or described, the publisher of such work, unless the order otherwise provides, shall for the purpose of any legal proceedings in the United Kingdom for protecting any copyright in such work be deemed to be entitled to such copyright as if he were the author, but this enactment shall not prejudice the rights of such author and publisher as between themselves:

(3) The International Copyright Acts and an order made thereunder shall not confer on any person any greater right or longer term of copyright in any work than that enjoyed in the foreign country in which such work was first produced.

3. (1) An Order in Council under the International Copyright Acts may provide for determining the country in which a literary or artistic work first produced simultaneously in two or more countries, is to be deemed, for the purpose of copyright, to have been first produced, and for the purposes of this section "country" means the United Kingdom and a country to which an order under the said Acts applies.

(2) Where a work produced simultaneously in the United Kingdom, and in some foreign country or countries is by virtue of an Order in Council under the International Copyright Acts deemed for the purpose of copyright to be first produced in one of the said foreign countries, and not in the United Kingdom, the

copyright in the United Kingdom shall be such only as exists by virtue of production in the said foreign country, and shall not be such as would have been acquired if the work had been first produced in the United Kingdom.

4. (1) Where an order respecting any foreign country is made under the International Copyright Acts the provisions of those Acts with respect to the registry and delivery of copies of works shall not apply to works produced in such country except so far as provided by the order.

(2) Before making an Order in Council under the International Copyright Acts in respect of any foreign country, Her Majesty in Council shall be satisfied that that foreign country has made such provisions (if any) as it appears to Her Majesty expedient to require for the protection of authors of works first produced in the United Kingdom.

5. (1) Where a work being a book or dramatic piece is first produced in a foreign country to which an Order in Council under the International Copyright Acts applies, the author or publisher, as the case may be, shall, unless otherwise directed by the order, have the same right of preventing the production in and importation into the United Kingdom of any translation not authorised by him of the said work as he has of preventing the production and importation of the original work.

(2) Provided that if after the expiration of ten years, or any other term prescribed by the order, next after the end of the year in which the work, or in the case of a book published in numbers each number of the book, was first produced, an authorised translation in the English language of such work or number has not been produced, the said right to prevent the production in and importation into the United Kingdom of an unauthorised translation of such work

(3) The law relating to copyright, including this Act, shall apply to a lawfully produced translation of a work in like manner as if were an original work.

(4) Such of the provisions of the International Copyright Act, 1852, relating to translations as are unrepealed by this Act shall apply in like manner as if they were re-enacted in this section.

6. Where an Order in Council is made under the International Copyright Acts with respect to any foreign country, the author and publisher of any literary or artistic work first produced before the date at which such order comes into operation shall be entitled to the same rights and remedies as if the said Acts and this Act and the said order had applied to the said foreign country at the date of the said production: Provided that where any person has before the date of the publication of an Order in Council lawfully produced any work in the United Kingdom, nothing in this section shall diminish or prejudice any rights or interests arising from or in connection with such production which are subsisting and valuable at the said date.

7. Where it is necessary to prove the existence or proprietorship of the copyright of any

work first produced in a foreign country to which an Order in Council under the International Copyright Acts applies, an extract from a register, or a certificate, or other document stating the existence of the copyright, or the person who is the proprietor of such copyright, or is for the purpose of any legal proceedings in the United Kingdom deemed to be entitled to such copyright, if authenticated by the official seal of a Minister of State of the said foreign country, or by the official seal or the signature of a British diplomatic or consular officer acting in such country, shall be admissible as evidence of the facts named therein, and all courts shall take judicial notice of every such official seal and signature as in this section mentioned, and shall admit in evidence, without proof, the documents authenticated by it.

8. (1) The Copyright Acts shall, subject to the provisions of this Act, apply to a literary or artistic work first produced in a British possession in like manner as they apply to a work first produced in the United Kingdom:

Provided that—

- (a) the enactments respecting the registry of the copyright in such work shall not apply if the law of such possession provides for the registration of such copyright; and
- (b) where such work is a book the delivery to any persons or body of persons of a copy of any such work shall not be required.

(2) Where a register of copyright in books is kept under the authority of the government of a British possession, an extract from that register purporting to be certified as a true copy by the officer keeping it, and authenticated by the public seal of the British possession, or by the official seal or the signature of the governor of a British possession, or of a colonial secretary, or of some secretary or minister administering a department of the government of a British possession, shall be admissible in evidence of the contents of that register, and all courts shall take judicial notice of every such seal and signature, and shall admit in evidence, without further proof, all documents authenticated by it.

(3) Where before the passing of this Act an Act or ordinance has been passed in any British possession respecting copyright in any literary or artistic works, Her Majesty in Council may make an Order modifying the Copyright Acts and this Act, so far as they apply to such British possession, and to literary and artistic works first produced therein, in such manner as to Her Majesty in Council seems expedient.

(4) Nothing in the Copyright Acts or this Act shall prevent the passing in a British possession of any Act or ordinance respecting the copyright within the limits of such possession of works first produced in that possession.

9. Where it appears to Her Majesty expedient that an Order in Council under the International Copyright Acts made after the passing of this Act as respects any foreign country, should not apply to any British possession, it shall be lawful for Her Majesty by the same or any other Order in Council to declare that such Order and the International Copyright Acts and this

Act shall not, and the same shall not, apply to such British possession, except so far as is necessary for preventing any prejudice to any rights acquired previously to the date of such Order; and the expressions in the said Acts relating to Her Majesty's dominions shall be construed accordingly; but save as provided by such declaration the said Acts and this Act shall apply to every British possession as if it were part of the United Kingdom.

10. (1) It shall be lawful for Her Majesty from time to time to make Orders in Council for the purposes of the International Copyright Acts and this Act, for revoking or altering any Order in Council previously made in pursuance of the said Acts, or any of them.

(2) Any such Order in Council shall not affect prejudicially any rights acquired or accrued at the date of such Order coming into operation, and shall provide for the protection of such rights.

11. In this Act, unless the context otherwise requires—

No. 17.—The following Statute is published for general information:—

49 & 50 VICTORIA, CAP. 8.

An Act to provide, during twelve months, for the Discipline and Regulation of the Army.

[16th April, 1886.]

WHEREAS the raising or keeping a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law

And whereas it is adjudged necessary by Her Majesty and this present Parliament, that a body of forces should be continued for the

safety of the United Kingdom and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and fifty-one thousand eight hundred and sixty-seven men, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the Government of Her Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet nevertheless it being requisite, for the retaining of the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

And whereas the Army Act, 1881, will expire in the year one thousand eight hundred and eighty-six on the following days:

- (a) in the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and
- (b) elsewhere in Europe, inclusive of Malta, also in the West Indies and America, on the thirty-first day of July; and
- (c) elsewhere, whether within or without Her Majesty's dominions, on the thirty-first day of December:

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as the Army (Annual) Act, 1886.

2. (1) The Army Act, 1881, shall be and remain in force during the periods herein after

mentioned, and no longer, unless otherwise provided by Parliament; that is to say,

- (a) within the United Kingdom, the Channel Island, and the Isle of Man, from the thirtieth day of April one thousand eight hundred and eighty-six to the thirtieth day of April one thousand eight hundred and eighty-seven, both inclusive; and
- (b) elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the thirty-first day of July one thousand eight hundred and eighty-six to the thirty-first day of July one thousand eight hundred and eighty-seven, both inclusive; and
- (c) elsewhere whether within or without Her Majesty's dominions from the thirty-first day of December one thousand eight hundred and eighty-six to the thirty-first day of December one thousand eight hundred and eighty-seven, both inclusive;

and the day from which the Army Act, 1881, is continued in any place by this Act is in relation to that place referred to in this Act as the commencement of this Act.

(2) The Army Act, 1881, while in force shall apply to persons subject to military law, whether within or without Her Majesty's dominions.

(3) A person subject to military law shall not be exempted from the provisions of the Army Act, 1881, by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

3. There shall be paid to the keeper of a victualling house for the accommodation provided by him in pursuance of the Army Act, 1881, the prices specified in the Schedule to this Act.

Amendments of Army Act, 1881.

4. Whereas under section forty-one of the Army Act, 1881, sub-section five, a person subject to military law is liable, if convicted by court-martial of any offence not before in the said Act particularly specified, which when committed in England is punishable by the law of England, to suffer such punishment as in the said section mentioned

And whereas doubts frequently arise to whether an offence punishable by the law of England is or is not before in the said Act particularly specified, and it is expedient to prevent such doubts: Be it therefore enacted as follows:—

The words "not before in this Act particularly specified" shall be omitted from sub-section five of section forty-one of the Army Act, 1881.

5. Whereas sub-section one of section seventy of the Army Act, 1881, provides that "Her Majesty may, by rules to be signified under the hand of a Secretary of State, from time to time make" provisions in respect of various matters relating to courts-martial, including "the confirmation and revision of the findings and sentences of courts-martial":

And whereas in some cases the conviction by court-martial of a person subject to military law is valid, but the sentence by reason of being in excess of what is authorised by law or otherwise, is invalid, and doubts have arisen as to whether the said rules can extend to the making of provisions for the passing of a valid sentence in such a case, and with a view to prevent miscarriage of justice it is expedient to remove such doubts: Be it therefore enacted as follows:—

In sub-section one of section seventy of the Army Act, 1881, there shall be inserted after the words "revision of the findings and sentences of courts-martial" the words "and enabling the authority having power under section fifty-seven of this Act to commute sentences to substitute a valid sentence for an invalid sentence of a court-martial"

6. Whereas by section eighty-four of the Army Act, 1881, provision is made respecting the re-engagement of "a soldier of the regular forces, if in army service, and within three years of the completion of his original term of enlistment," and doubts have arisen as to the computation of the said three years, and it is expedient to remove such doubts: Be it therefore enacted as follows:—

In section eighty-four of the Army Act, 1881, the words "after the expiration of nine years from the date of his original term of enlistment" shall be substituted for the words "within three years of the completion of his original term of enlistment."

7. Whereas the twelfth sub-section of section one hundred and seventy-nine of the Army Act, 1881, as amended by section seven of the Army (Annual) Act, 1884, is as follows:—

"Nothing in the provisions of this Act relating to the term of enlistment, to the conditions of service, to appointment or transfer, to transfer to the reserve, to the re-engagement or prolongation of service, or to forfeiture of service of a soldier of the regular forces, or to the rules for reckoning service for discharge or transfer to the reserve, shall apply to the Royal Marines.

"Save that if regulations made by a Secretary of State and the Admiralty provide for the transfer of men of the Royal Marines to any other part of Her Majesty's regular forces, a man of the Royal Marines may, with his consent, be so transferred in accordance with the said regulations, and subject to those regulations shall become a soldier of the said part of Her Majesty's regular forces in like manner, so nearly as circumstances admit, as if he had been enlisted in pursuance of this Act."

And whereas it is expedient to provide for the transfer to the Royal Marines of men belonging to other portions of Her Majesty's regular forces: Be it therefore enacted as follows:—

There shall be added to section one hundred and seventy-nine of the Army Act, 1881, at the end of the said twelfth sub-section, the following enactment:—

And save that if any regulations so made provide for the transfer to the Royal Marines of men belonging to any other part of Her Majesty's regular forces, a man belonging to such part may, with his consent, be so transferred in

accordance with the said regulations, and, subject to those regulations, shall become a man of the Royal Marines in like manner, so nearly as circumstances admit, as if he had been enlisted in pursuance of the Acts relating to the Royal Marines.

8. Whereas section one hundred and eighty-two of the Army Act, 1881, provides that a warrant officer not holding an honorary commission shall not be tried by a regimental court-martial nor sentenced by a district court-martial to any punishment not in this section mentioned and (by sub-section two) provides that "without prejudice to any other power of a court-martial he may be sentenced by a court-martial other than a regimental court-martial to be dismissed from the service," and to the other punishments in that sub-section mentioned:

And whereas those punishments, though including reduction to the ranks, do not include the lower punishment of forfeitures, fines, and stoppages, and it is expedient to include the same, and to remove doubts as to the meaning of the words "without prejudice to any other power of a court-martial": Be it therefore enacted as follows:—

In sub-section two of section one hundred and eighty-two of the Army Act, 1881, the following words:

"Without taking away any power of a court-martial, other than a district court-martial, he may be sentenced by any court-martial having power to try him to such forfeitures, fines, and stoppages as are allowed by this Act either in addition to or without any other punishment, and also to be dismissed from the service,"

shall be substituted for the above recited words in the said sub-section.

9. Whereas in the Army Act, 1881, reference is made to the Naval Discipline Act, 1866:

And whereas by the Naval Discipline Act, 1884, the "Naval Discipline Act" is made the short title of the Naval Discipline Act, 1866, as amended by the Naval Discipline Act, 1884: Be it therefore enacted as follows:—

In the Army Act, 1881, the figures "1866" shall be omitted after the words "Naval Discipline Act," wherever these words occur.

No. 1572.—The following Resolution is published for general information :

No. ³¹_{1573 08}

Extract from the Proceedings of the Government of India in the Home Department (Public),—under date Simla, the 4th October, 1886.

R E S O L U T I O N .

A prolonged correspondence has taken place with Her Majesty's Government on the subject of the system under which Natives of India are admitted either to the Covenanted Civil Service under the Statute 21 & 22 Vic., cap. 106, section 32, or under the Statute 33 Vic., cap. 3, section 6, to offices formerly reserved exclusively to members of that Service. As a result of this correspondence, Her Majesty's Secretary of State has recently accepted a suggestion made by the Government of India that the question of the admission of Natives of India to such service and offices should be reopened and carefully considered, and has requested that a Commission should be appointed in India for that purpose. He has also expressed a desire that the enquiry to be made by the Commission should extend, not only to the admission of Natives to the offices referred to above, but to their employment in all branches of the public service connected with the civil administration of the country. From the subjects to be referred to the Commission, all questions connected with the conditions on which English candidates are admitted to the Indian Civil Service examination in England are excluded.

In regard to the constitution of the Commission, the Secretary of State indicates his view that it should include a proportion of Native members, which may sufficiently represent the different classes and modes of thought in India, and that it should also include a trained English lawyer, if possible, of judicial experience. In regard to its object, the Commission would, broadly speaking, be required to devise a scheme which may reasonably be hoped to possess the necessary elements of finality, and to do full justice to the claims of Natives of India to higher and more extensive employment in the public service. The Governor-General in Council fully and cordially accepts this decision, and in accordance therewith has resolved to appoint a Commission for the purpose of giving effect to it. In making the suggestion which has now resulted in this decision, the Government of India expressed the belief that any scheme to be entirely satisfactory would require parliamentary legislation hereafter. It may be further remarked that the investigations of the Commission now to be constituted will be preparatory to the Parliamentary enquiry into Indian affairs which it is the intention of Her Majesty's Government to undertake at an early date.

2. As regards the composition of the Commission, the Governor-General in Council, in view of the scope of the enquiry and the magnitude and variety of the interests involved, considers that the matter can be best dealt with by a Commission consisting of about fifteen members, including the President, for which office His Excellency in Council has selected the Hon'ble Sir Charles Aitchison, K.C.S.I., C.I.E., Lieutenant-Governor of the Punjab. The Governments of Madras, Bombay, Bengal, and the North-Western Provinces with Oudh will each be invited to submit the names of three officers whose personal experience of the actual working of district administration (including as far as possible in that term both executive and judicial branches) has been sufficiently varied and extensive to entitle them to speak with authority upon that subject for their own Provinces. From the names thus submitted the Governor-General in Council will select a representative for each of the four Provinces above mentioned. The Punjab will be represented by the President. With a view to ensure the proper representation of Native opinion on the Commission, the Local Governments named should at

once take such steps as may in their opinion be necessary to ascertain the persons regarded as most completely representative of Native opinion, and as commanding the widest confidence amongst their fellow-countrymen; and the Governor-General in Council would be glad to be furnished as soon as may be found possible by each of the above Local Governments with the names of not less than three gentlemen, being natives of the Province concerned, who are considered best fitted to represent on the Commission the several classes and modes of thought in the Province. From the names so submitted, His Excellency in Council will choose four Provincial representatives, and he will also reserve the power of making, after due consideration and enquiry, additional nominations, with a view to the more complete representation of Native views. A representative of the non-official European and of the Eurasian community respectively will be selected by the Governor-General in Council, and to this end the Local Governments mentioned above are requested to submit the names of the gentlemen who, in their opinion, would best represent the views of those communities respectively. His Excellency will also appoint a delegate on behalf of the Government of India and a trained English lawyer of judicial experience. The duties of Secretary of the Commission will be performed by Mr. F. C. Daukes, one of the Under-Secretaries to the Government of India, who will be specially deputed for this purpose.

3. The enquiry is to embrace the employment of Natives of India not only in appointments ordinarily reserved by law for members of the Covenanted Civil Service, but also in the Uncovenanted Service generally, including in this term the lower administrative appointments, executive and judicial, and all special Departments connected with the civil administration of the country. The enquiry thus contemplated is not only one of great magnitude and importance, but such as requires a careful preliminary collection of facts. Such an investigation has already been made in regard to the class of appointments hitherto ordinarily reserved for the Covenanted Civil Service and in regard to uncovenanted executive and judicial posts; but no such investigation has been prosecuted in the case of other branches of the public service. For these reasons, and also because the constitution of a Commission, settled rather with reference to the considerations likely to arise in connection with the posts above referred to, might not be altogether suitable for an enquiry into special branches of the public service, it seems desirable that the two matters should be separately dealt with. For the present, accordingly, the Government of India thinks it well that the Commission should direct its attention mainly to the question of the conditions under which Natives of India should be employed in the posts which are ordinarily reserved for the Covenanted Service, and to questions relating to the admission of Natives of India and Europeans respectively to those branches of the Uncovenanted Service which are directly engaged in the executive and judicial administration of the country. The enquiry in regard to other branches of the public service will thus be postponed until the more important question has been dealt with. It may afterwards be convenient to reconstitute the Commission with a view to enable it to deal with the remaining questions, which are more or less technical in their character, and for a proper settlement of which it is essential that recourse should be had to the professional opinion of experts.

4. With reference to the preliminary collection of facts declared in the foregoing paragraph to be a necessary preparatory step in this enquiry, it must here be stated that the question of the proper strength of the Covenanted Service has already formed the subject of careful examination, and important decisions upon it have been arrived at by the Government of India in communication with Her Majesty's Secretary of State. All relevant papers bearing on this question will be laid before the Commission, and it is believed that, in view of the discussions which have already taken place, and the conclusions which have been come to, there will be no necessity to go over the same ground again. The Commission, however, is not precluded from reviewing the facts thus collected or the conclusions thus arrived at. Accordingly, should it find in the course of its investigations reason for thinking that a further limitation in the number of posts reserved by law for the Covenanted Service is desirable, or that the larger employment of Natives of India in particular offices or classes of offices connected with the civil administration not now usually held by

them may be conducive to the public good, either absolutely or on condition of the freer admission of Europeans to offices from which they in their turn are now excluded, it will not be debarred from submitting any recommendations it may desire on such points. These, however, should be regarded as supplementary points, and the most important duty of the Commission in this portion of its enquiries will be to consider the means best adapted to secure the admission of competent Natives of each Province of India to such full proportion of the Covenanted Service employed in that Province as may not under the orders of Her Majesty's Government be reserved for Europeans.

5. As regards the scope of the enquiry to be entrusted to the Commission, it may further be stated that the investigation should not be confined to the rules framed under the Statute 33 Vic., cap. 3, section 6, but should be instituted with a view to Parliamentary legislation, if necessary. It is not possible to specify at the present moment with any approach to completeness the various points which should come under the consideration of the Commission, but attention may be drawn to the great importance of conducting a careful enquiry into the evidence as to the existence and extent of any dissatisfaction which may be felt by the Native community in regard to the existing Statutory Service; into the grounds upon which any such feeling, if it prevails, is based; into the question whether it is the Statute of 1870 itself that is objected to, or the rules framed under it; and into the results of the selections made under the Statute. It may be observed that the Statute of 1870 is one of remarkable breadth and liberality; that it empowers the Government of India and the Secretary of State acting together to frame rules under which Natives of India may be admitted to any of the offices hitherto reserved to the Covenanted Civil Service; and that it would appear that there is practically no method of selecting Natives for higher employment in India which its provisions would not allow to be attempted. The grounds therefore of any objection to a Statute of this character require careful scrutiny.

6. It has been suggested that the Act of 1870 is open to objection, because it admits persons to specific appointments only, and not to membership in an organized "Service." The reasons for this desire to be enrolled in a Service should be fully weighed, and it should be considered how far the privileges of pay, promotion, and retiring annuity, which Indian public servants enjoy through belonging to the Covenanted Civil Service, and the conditions generally under which they hold their offices, are suitable to Natives of India obtaining office under the Statutory Rules. It appears to be expressly suggested that the Act of 1870 is unpopular, because a person appointed under it draws, according to the rules laid down, pay at a lower rate than if he were a member of the Indian Civil Service appointed after competition in London. This point will require serious consideration from the Commissioners, because, among other reasons, it raises an important question as to the financial saving, which it is generally supposed will arise from the more extensive employment of Native gentlemen in the public service.

7. If it be found on enquiry that it is the Statutory Rules which excite dissatisfaction and not the Statute itself, the grounds of such dissatisfaction should be closely examined. It will be most useful to ascertain, for example, whether the communities of the various Provinces, and especially the classes from which Native public servants are commonly drawn, disapprove of selection in any form, with or without probation; whether competition of some sort is the only mode of selection which commends itself to them; and whether they think that a combination of both systems possesses advantages, more especially with regard to the promotion to higher office of deserving members of the subordinate executive and judicial services. It is scarcely necessary to remark that in a country of such extent as India, inhabited by a population so vast and various, and of such unequal civilization, the evidence taken on these points, to be of real value, should be collected over a wide area and from numerous classes of people.

8. In connexion with the question whether or not it is desirable that there should be a competitive examination in England for Natives of India, the Commission will no doubt fully examine into and report on the advantages and disadvantages of competitive selection in India, on the conditions of such competition, on the view which is likely to be taken of such a system by the Native

community at large, and on the desirability or otherwise of requiring or encouraging candidates selected in India to proceed to England with a view to passing there a period of probationary training. If the Commissioners are favourable to the maintenance, substantially, of the present system, which permits Natives to compete in England, it will be necessary to enquire what are the limits of age for Native candidates, and what the changes (if any) in the character of their examination which the Commissioners would recommend. It has already been stated that no question regarding English candidates is referred to the Commission; but, in view of the difficulty of reconciling the systems which are respectively best adapted to the two classes, and supposing that the Commission decide on recommending the maintenance of the present system of competitive examination in England, the Commissioners should give special attention to a suggestion made by the Bengal Government that the number of Native probationers to be selected by competitive examination in London should be first fixed, and that the Native candidates should be selected by an examination separate from that of the Europeans, and especially adapted as regards limits of age and otherwise to the conditions of Natives of India.

9. With regard to the question of affording facilities to Natives of India to proceed to England to compete for the Indian Civil Service, the Commissioners will doubtless be able to obtain much valuable evidence from an enquiry on the following points: (1) whether there is reason to believe that the young Natives obtained under the existing system of the open competition in England for the public service in India are the best as regards character and capacity who could be got for it under any system; (2) whether such a system is favourably looked upon by large and important classes in India; and (3) what is the relative weight to be attached to recent representations which affirm the general willingness of Indian youths to cross the sea for education, and to others which as strongly deny it. The British Indian Association, for example, appears to have said in a petition to Parliament that "a journey to England entails not only expense and hardship, but the loss of social position to all but the small minority who break with Indian society from personal motives, and are unable to faithfully reflect its sentiments by reason of their isolation."

10. In conclusion, the Governor-General in Council would observe that he has no desire to fetter the discretion of the Commission as to the particular method of enquiry which it desires to pursue. The correspondence which has taken place with Her Majesty's Secretary of State and with Local Governments and Administrations on the subject of the Statute of 1870 and the Rules framed thereunder will be placed at the disposal of the Commission, and, with this correspondence before it, it will devolve upon the Commission to determine the particular method or methods of enquiry which may be best calculated to effect the object which the Government has in view.

A complete list of the names of the members composing the Commission will be published in a subsequent Resolution.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information:—

ACT NO. XVIII OF 1886.

An Act to amend Act XXXVI of 1858.

WHEREAS it is expedient to amend Act XXXVI of 1858 (*an Act relating to Lunatic Asylums*); It is hereby enacted as follows:—

New section inserted after section 6.

“6 A. (1) Where a person found wandering at large who is deemed to be a lunatic, or where a person believed to be dangerous by reason of lunacy, is apprehended and sent to the Magistrate or the Commissioner of Police, or where, on report or information that a person deemed to be a lunatic is not under proper care and control or is cruelly treated or neglected, the Magistrate or the Commissioner of Police sends for him and then determines to proceed as prescribed in section 4 of this Act, the Magistrate or the Commissioner of Police, on the request of the medical officer, may, by order in writing, authorise the detention of the supposed lunatic for such time, not exceeding ten days, as, in the opinion of the Magistrate or the Commissioner of Police, may be necessary to enable the medical officer to form an opinion on the question whether or not the supposed lunatic is a person with respect to whom a certificate in the form A in the schedule to this Act ought to be signed.

“(2) If the medical officer certifies further detention than has been authorised under sub-section (1) to be necessary to enable him to form his opinion on that question, the Magistrate or

the Commissioner of Police may from time to time, by order in writing, authorise such further detention as he deems to be necessary:

“Provided that a supposed lunatic shall not be detained for the purpose of this section for a longer time than fourteen days from the date on which the first order authorising his detention for that purpose is made.

“(3) The Executive Government may from time to time make rules as to the place of detention, and the care and treatment, of supposed lunatics detained under this section.”

2. To section 9 the words “Subject to the provisions of any enactment for the time being in force,” shall be prefixed.

New sections to follow section 17.

3. After section 17 the following shall be inserted, namely:—

“17A. When an Executive Government has not established within its limits a public asylum for the reception and detention of lunatics under this Act, the Governor-General in Council may from time to time appoint an asylum established in British India beyond those limits to be an asylum to which a Magistrate or Judge exercising jurisdiction within those limits may send lunatics as to an asylum established under this Act for the division in which his jurisdiction is situate.

“17B. The Governor-General in Council may from time to time, by order, direct, with respect to any part of British India which is not annexed to a presidency or, being annexed to the presidency of Fort William, Fort Saint George or Bombay, is situated at a greater distance than three hundred miles from Calcutta, Madras or Bombay, respectively, that any lunatic asylum in British India named in the order shall be deemed for that part to be a lunatic asylum at the presidency for the purposes of this Act.”

S. HARVEY JAMES,

Offg. Secretary to the Government of India.

The following Report of the Select Committee on the Bill to amend Act XXXVI of 1858 was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886 :—

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill to amend Act

From Officiating Assistant Secretary to Chief Commissioner, Central Provinces, No. 182—9, dated 21st January, 1886 [Paper No. 1].
 From Secretary for Berar to Resident, Hyderabad, No. 14G., dated 19th January, 1886 [Paper No. 2].
 From Secretary to Chief Commissioner, Assam, No. 224, dated 27th January, 1886 [Paper No. 3].
 From Officiating Secretary to Chief Commissioner, British Burma, No. 534—4L., dated 29th January, 1886 [Paper No. 4].
 From Chief Commissioner, Ajmer-Merwara, No. 294C., dated 3rd February, 1886 [Paper No. 5].
 From Under-Secretary to Government, Bombay, No. 522, dated 9th February, 1886, and enclosures [Papers No. 6].
 From Acting Chief Secretary to Government, Madras, No. 355, dated 9th February, 1886, and enclosures [Papers No. 7].
 From Secretary to Government, North-Western Provinces and Oudh, No. 334—VI-500-6, dated 19th February, 1886, and enclosure [Papers No. 8].
 From Registrar, High Court, Calcutta, No. 502, dated 23rd February, 1886 [Paper No. 9].
 From Secretary to Chief Commissioner, Coorg, No. 238—12, dated 1st March, 1886 [Paper No. 10].
 From Officiating Secretary to Government, Bengal, No. 1604, dated 1st April, 1886 [Paper No. 11].
 From Secretary to Government, Punjab, No. 319, dated 19th March, 1886, and enclosures [Papers No. 12].

XXXVI of 1858 was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. The Bill as introduced was approved by the authorities to whom it was referred, but further amendments of the Act were proposed by the Governments of Bengal and the Punjab.

3. The former Government drew attention to the absence of any provision authorising the detention of supposed lunatics for observation, and the latter to the inconvenience ensuing from the provision which requires lunatics who are not natives of the country to be sent in all cases to an asylum at the presidency.

4. It appeared to us that express provision ought to be made for the detention of supposed lunatics. As a matter of practice they are detained, for in many cases the medical officer is not in a position to form an opinion on the question whether or not a person is a lunatic until he has had the person under observation for some days. The detention is probably legal where it is authorised by the Magistrate (I. L. R. 9 Cal. 341), but it is desirable that there should be no room for doubt as to the legality of a practice which is in fact absolutely necessary. We considered it desirable, however, before submitting our Report, to consult Local Governments, and we therefore circulated a draft clause proposing, in accordance with the advice of the Surgeon-General, a period of ten days as the maximum term of detention for purposes of observation. We have now, after considering the replies to our circular, proposed to extend the term to fourteen days, and to authorise Local Governments to make rules as to the place of detention, and the care and treatment, of supposed lunatics.

5. The proposal of the Punjab Government with respect to the establishment of asylums at other places than the presidency-towns for lunatics who are not natives of the country was referred by us to other Local Governments, and has been approved by them. We have provided, therefore, that the Governor-General in Council may, with respect to any part of British India which is not annexed to a presidency, or is more than three hundred miles from a presidency-town, direct that any lunatic asylum named in the order shall be deemed for that part to be a lunatic asylum at the presidency for the purposes of the Act.

6. Section 9 of the Act empowers the visitors of a lunatic asylum to order the discharge of any person detained in the asylum. As the Code of Criminal Procedure, 1882, and the Prisoners Act, 1871, reserve that power in certain cases to other authorities, we have proposed to prefix to that section an express saving of the provisions of other enactments.

discharge by the Lieutenant-Governor of the North-Western Provinces of certain functions of the Governor-General in Council was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. We have removed Regulation LII of 1800 from the schedule to the Bill, because the Mirzapur Stone Mahál Act, 1886, seems to us to render its retention unnecessary.

3. We have proposed in an additional section to validate the exercise by the Lieutenant-Governor of the North-Western Provinces of the powers of the Governor-General in Council under Regulation LII of 1803 which the Lieutenant-Governor seems to have exercised without question throughout the forty years which elapsed between the constitution of his office and the repeal of the Regulation. When the Bill was under consideration some two years ago, the interests of the parties to a suit then pending might have been affected by the validation of the exercise of these powers, and it was therefore decided that our Report should be delayed till the suit had been disposed of. There is now, so far as we are aware, no litigation before any Court which can be influenced in any way by the enactment of the section which we propose to add to the Bill.

[Third publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information :—

ACT NO. XX OF 1886.

An Act to declare the law in force in Upper Burma.

WHEREAS the territories which were formerly governed by King Thebaw have become part of British India;

And whereas it is expedient to declare the law in force in those territories, and for this purpose to distinguish between those territories and the territories which were under the administration of the Chief Commissioner of British Burma on the thirty-first day of December, 1885;

It is hereby enacted as follows :—

1. (1) This Act may be called the Upper Burma Laws Act, 1886.

Short title and commencement.

(2) This section and sections 2, 3, 4 and 5 shall come into force at once, and the rest of the Act shall come into force on such date (hereinafter called the commencement of this Act), within four months from the passing of the Act, as the Local Government may, by notification in the official Gazette, appoint in this behalf.

2. (1) The following territories shall constitute a province to be known as Burma, namely :—

Constitution of Province of Burma.

(a) the territories formerly governed by King Thebaw, which shall be known as "Upper Burma"; and

(b) the territories administered by the Chief Commissioner of British Burma on the thirty-first day of December, 1885, which shall be known as "Lower Burma."

(2) The Local Government, with the previous sanction of the Governor-General in Council, may from time to time, by notification in the official Gazette, transfer any portion of Upper Burma to Lower Burma, or any portion of Lower Burma to Upper Burma, with effect from a date to be specified in the notification, and on and from that date the portion so transferred shall form

part of Lower Burma or Upper Burma, as the case may be.

(3) When any portion of Upper Burma is transferred to Lower Burma, the Scheduled Districts Act, 1874, shall, unless the Governor-General in Council otherwise directs, continue to be in force therein. XIV of 1874.

(4) When any portion of Lower Burma is transferred to Upper Burma, the Governor-General in Council may direct that that Act shall come into force therein.

3. The Local Government may, for administrative purposes,—

(a) with the previous sanction of the Governor-General in Council, divide Upper Burma into divisions; and each of those divisions into districts, and from time to time vary the limits of those divisions and districts; and

(b) of its own authority, divide each of those districts into sub-divisions, each of those sub-divisions into townships, and each of those townships into circles, and from time to time vary the limits of those sub-divisions, townships and circles.

4. Where in any enactment in force at the passing of this Act in the territories referred to in section 2, sub-section (1), clause (b), there occurs the expression "British Burma Gazette", or the expression "British Burma" or "Burma" (except where the expression "Burma" occurs in the Petroleum Act, 1886, section 3), it shall be construed as referring to the Burma Gazette or to Lower Burma, as the case may be. XII of 1886.

5. The enactments specified in the first schedule to this Act, having been rendered unnecessary by the incorporation of Upper Burma in British India, are repealed to the extent mentioned in the third column of the schedule.

6. (1) Subject to the provisions of any Regulation under the Statute 33 of Victoria, chapter 3, so much of each of the enactments specified in the second schedule to this Act as is at the commencement of this Act in force in any part of Lower Burma which is not included in a scheduled district as defined in the Scheduled Districts Act, 1874, shall be deemed to be in force in Upper Burma generally, or in the Town of Mandalay only, according as the enactment is specified in the First or Second Part of the schedule. XIV of 1874.

(2) An enactment not specified in that schedule shall not be deemed to be or to have been in force in Upper Burma or in any part of Upper Burma unless it is expressed, by special mention of Upper Burma or a part of Upper Burma, to extend thereto, or after the commencement of this Act is extended thereto in exercise of the powers conferred by section 5 of the Scheduled Districts Act, 1874, or by any other enactment for the time being in force.

(3) The Local Government may, from time to time, with the previous sanction of the Governor-General in Council, by notification in the official Gazette, declare that any enactment which is specified in that schedule or which may hereafter be extended in exercise of any such powers as aforesaid, shall no longer be in force in Upper Burma or in any part of Upper Burma specified in the notification.

(4) The limits of the Town of Mandalay for the purposes of this Act shall be the limits for the time being of the local area subject to the ordinary original jurisdiction of the Civil Court of Mandalay.

(5) This section does not extend to the Shan States.

7. (1) The following enactments specified in the Modification of cer- First Part of the second

(b) in Act V of 1861 (*an Act for the Regulation of Police*), to section 2 the words "All Thugyis and Myothugyis for the time being holding office shall be police-officers, and shall be deemed to have been formally enrolled under this Act." shall be added;

(c) in Act VI of 1861 (*an Act to authorise the punishment of whipping in certain cases*), after section 5 the section and schedule in the third schedule to this Act shall be added;

1 of 1872.

(d) in the Indian Evidence Act, 1872, after the words "police officer" in section 25 the words "who is not a Magistrate" shall be inserted;

XIX of 1876.

(e) in the Dramatic Performances Act, 1876, the words "within such area" shall be omitted from the third paragraph of section 10, and for the first two paragraphs of that section the following shall be substituted, namely:—

"No dramatic performance shall take place except under a license granted by the District Magistrate or such officer as the District Magistrate may appoint in this behalf.

Any person who promotes or takes part in any dramatic performance in contravention of the foregoing portion of this section

shall be punishable, on conviction before a Magistrate, with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both."

(2) This section does not extend to the Shan States.

8. (1) The Local Government, with the previous sanction of the Governor-General in Council, may, by notification in the official Gazette, from time to time extend to all or any of the Shan States any enactment which is in force in any part of Upper Burma at the date of the extension, and at any time withdraw all or any of those States from the operation of any enactment so extended.

(2) Unless and until extended under sub-section (1), an Act of the Governor-General in Council shall not be in force in any Shan State.

(3) The Local Government, with the previous sanction of the Governor-General in Council, may from time to time, by notification in the official Gazette, declare what territories constitute the Shan States for the purposes of this and the two last foregoing sections.

9. For the purpose of facilitating the application of any enactment for the time being in force in Upper Burma, any Court in Upper Burma may construe the enactment with such alterations not affecting the substance as may be necessary or proper to adapt it to the matter before the Court.

10. All acts of executive authority, proceedings, decrees and sentences, which have been done, taken or passed in Upper Burma on or after the seventeenth day of November, 1885, and before the commencement of this Act, by any officer of the Government, or by any person acting under his authority or otherwise in pursuance of an order of the Government, or which have been or shall be ratified by the Local Government, shall be as valid and operative as if they had been done, taken or passed in accordance with law; and no suit or other proceeding shall be maintained or continued against any person whatever on the ground that any such acts, proceedings, decrees or sentences were not done, taken or passed in accordance with law.

11. All rules, orders or instructions made or issued after the seventeenth day of November, 1885, and before the commencement of this Act, for the guidance of officers engaged in the administration of Upper Burma shall be deemed to have had the force of law, and shall, so far as they are consistent with this Act, continue to have the force of law until they are withdrawn, or are superseded by any Act of the Governor-General in Council, or by any Regulation under the Statute 33 Victoria, chapter 3, or by any enactment extended to Upper Burma, or by any rules, orders or instructions made or issued under any such Act, Regulation or enactment.

The following Report of the Select Committee on the Bill to declare the law in force in Upper Burma was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 15th September, 1886:—

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill to declare the law in force in Upper Burma

From Secretary to Chief Commissioner, Burma, No 83—130, dated 4th September, 1886, and enclosures.

From Secretary to Chief Commissioner, Burma, No. 84—130, dated 4th September, 1886, and enclosures.

was referred, have considered the Bill and the papers noted in the margin, and have now the

honour to submit this our Report.

2. We have, in accordance with the advice of the Chief Commissioner, provided in section 1 that certain portions of the Bill shall not come into force at once. It is desirable that sections 6 to 11 of the Bill, as amended by us, should not have effect until the Civil and Criminal Justice Regulations, which have been drawn, and for the most part settled, have been finally proposed by the Chief Commissioner and have received the assent of the Governor-General under the Statute 33 Victoria, chapter 3.

3. Section 3, regarding the division of Upper Burma into divisions, districts, sub-divisions, townships and circles, will serve the purposes of the Regulations which the Chief Commissioner is about to propose.

4. Section 4 has been so modified as to cover, it is believed, the language of all enactments in force in Lower Burma.

5. Section 6 has been so amended as to define more precisely the local area to which the Second Part of the Second Schedule is to apply. The Shan States are excluded from the operation of this and the next following section.

6. *Section 7.*—(1) The section (7) which it was proposed to add to Act VI of 1864 will be rendered unnecessary by the application to Upper Burma of sections 390 to 395 of the Code of Criminal Procedure by the proposed Criminal Justice Regulation.

(2) It is proposed to amend section 25 of the Indian Evidence Act, 1872, in its application to Upper Burma, because Thugyis and Myothugyis will, besides being police-officers, be local Magistrates and Judges.

(3) The modification of section 10, Act XIX of 1876, will substantially continue the law as it was found in Upper Burma with respect to *pwés* or dramatic entertainments, and as it seems desirable to maintain that law for the present.

7. Section 8 provides that British Indian law shall not extend *proprio vigore* to any of the Shan States.

8. Sections 9, 10 and 11 remain, with slight modifications, as they were in the Bill as introduced.

9. We have added some Acts to the First Part of the Second Schedule. Among them are the Court-fees and Stamp Acts, the Presidency Banks Acts, the Indian Companies Act and the Land Improvement Loans Act. The operation of the Court-fees and Stamp Acts will be limited by notifications to be issued when those Acts come into force. The fact that the Bank of Bengal contemplates the establishment of a branch at Mandalay necessitates the extension of the Presidency Banks Acts. The Indian Companies Act may be required at any time; and the local authorities advise the extension of the Land Improvement Loans Act for the purposes of loans to be made for irrigation-works.

10. The jurisdiction to be conferred on, and the rules to be prescribed for, the Civil Court of Mandalay will render necessary the extension of the Provincial Small Cause Courts Act, XI of 1865, and the Code of Civil Procedure to the Town of Mandalay.

11. Other amendments of the Bill do not call for remark.

12. The publication ordered by the Council has been made as follows:—

<i>Gazette.</i>		<i>In English.</i>		<i>Date.</i>
Gazette of India	14th, 21st and 28th August, 1886.
British Burma Gazette	4th, 11th and 18th September, 1886.

<i>Province.</i>		<i>In the Vernacular.</i>		<i>Language.</i>	<i>Date.</i>
Burma	Burmese	...	11th and 18th September, 1886.

13. We do not think that the measure has been so altered as to require re-publication, and we recommend that it be passed as now amended.

[Third publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 24th September, 1886, and is hereby promulgated for general information :—

ACT NO. XXI OF 1886.

An Act to declare certain allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871.

WHEREAS, on the death of Her Highness the Bahu Begam, His Highness the Nawab Vazir of Oudh delivered to the British Government a sum of money with intent that the interest accruing thereon should, in compliance with the wishes of Her Highness the Bahu Begam as expressed in a Deed of Deposit executed by her in the year 1813, be applied by the British Government to the payment of certain pensions, which pensions are known as the Amanat Wasikas ;

And whereas in the year 1813 the said Government guaranteed the payment of certain pensions to persons connected with the Khās Mahāl of Her Highness the Bahu Begam, which pensions are known as the Zamanat Wasikas ;

And whereas, in the years 1814, 1825 and 1838, loans, known respectively as the 1st, 3rd

and 6th Oudh loans, were made by the Rulers of Oudh to the Honourable the East India Company with intent that the interest accruing thereon should be applied by the said Government to the payment of certain pensions, which pensions are known as the Loan Wasikas ;

And whereas the Amanat, Zamanat and Loan Wasikas have been regarded as pensions to which the Pensions Act, 1871, applies, and rules respecting them have been made and published under section 14 of that Act ;

And whereas, since the making and publication of the rules, doubt has been expressed whether the said Wasikas are pensions within the meaning of the Pensions Act, 1871 ;

And whereas it is expedient to declare them to be pensions within the meaning of that Act ;

It is hereby enacted as follows :—

1. This Act may be called the Oudh Wasikas Act, 1886.

allowances collectively known as Oudh Wasikas to be pensions within the meaning of the Pensions Act, 1871, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. The Government of the North-Western Provinces and Oudh having reported that the pensions payable under the Treaty of the year 1829, under which the 5th Oudh loan was made to the Honourable the East India Company, have all been commuted, we have removed section 3 of the Bill as introduced and so much of the preamble as had reference to that section.

3. Exception having been taken to some of the pensions being described as “ conferred by a former Government and continued by the British Government on political considerations,” we have re-drawn section 2 of the Bill so as to make it clear that the allowances are dealt with as pensions of that nature only for the purpose of barring the Civil Courts from

entertaining suits relating to them and of protecting them from attachment at the instance of creditors.

CHAPTER II.

OF CERTAIN RIGHTS AND LIABILITIES OF LANDLORDS, UNDER-PROPRIETORS AND TENANTS.

Right of Occupancy.

5. Tenants who have lost all proprietary right, whether superior or subordinate, in the lands which they hold or cultivate, shall, so long as they pay the rent payable for those lands according to the provisions of this Act, have a right of occupancy under the follow-

Every such tenant who, within thirty years next before the thirteenth day of February, 1856, has been, either by himself, or by himself and some other person from whom he has inherited, in possession as proprietor in a village or estate shall be deemed to possess a heritable but not a transferable right of occupancy in the land which he cultivated or held in such village or estate on the twenty-fourth day of August, 1866: provided that such land has not come into his occupation, or the occupation of the person from whom he has inherited, for the first time since the said thirteenth day of February, 1856: provided also that no such tenant shall have a right of occupancy in any village or estate in which he or any co-sharer with him possesses any under-proprietary right.

Nothing contained in the former part of this section shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1868.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 6-16.)*

6. Nothing in the last foregoing section shall be construed to restrict the power of a landlord to confer by registered document on any persons other than those mentioned in that section a right of occupancy in the lands which they hold or cultivate.

7. If a tenant having a right of occupancy is ejected, in accordance with the provisions of section 52, from the land in which he possesses the right, he shall thereupon lose his right of occupancy in that land.

Tenants' Right to Pattas.

8. Every tenant is entitled to receive from his landlord a patta or memorandum of the terms of the tenancy, signed by the landlord or his authorized agent, and containing the following particulars, namely:—

- (a) the quantity of land and, where the fields comprised in the patta have been numbered in a Government survey, the number of each field
- (b) the term for which the tenancy is to run;
- (c) the amount of rent payable;
- (d) the instalments in which and the times at which that amount is to be paid;
- (e) any special conditions not inconsistent with the provisions of this Act; and
- (f) if the rent is payable in kind, the proportion of produce to be delivered, and the time, manner and place of delivery.

9. Tenants having a right of occupancy are entitled to receive pattas at rates of rent determined in accordance with the provisions of Chapter IV, Part A, of this Act.

10. Tenants not having a right of occupancy are entitled to pattas for the terms and at the rates prescribed in Chapter IV, Part B, of this Act.

Landlords' Right to Counterparts.

11. Every landlord who grants a patta is entitled to receive from the tenant a counterpart signed by or on behalf of the tenant.

Arrears of Revenue or Rent.

12. Any instalment of revenue or rent which is not paid on or before the day when it becomes due, whether under a written agreement or according to law or local usage, shall be deemed to be, for the purposes of this Act, an arrear of revenue or rent, as the case may be:

Provided that, unless the proprietor and under-proprietor have otherwise agreed in writing, the rent payable to the former by the latter shall be held to become due one month before the date fixed for the payment of the revenue on account of the village in which the land in respect of which the rent is payable is situated, and to be payable in the same number of instalments as the revenue; and the amount of each instalment of the rent shall bear the same proportion to the whole of the rent

payable for the year as the amount of each instalment of the revenue bears to the whole of the revenue payable for the year.

Receipts.

13. (1) Every receipt for rent shall specify the year or years on account of which the rent has been paid; and any refusal to make that specification shall be held to be a withholding of a receipt.

(2) If a receipt for rent paid by an under-proprietor or tenant is withheld from him without sufficient cause, he may recover compensation from the landlord up to an amount not exceeding that of the rent paid.

Deposit of Revenue or Rent in Court without Suit.

14. (1) If a co-sharer, under-proprietor or tenant from whom any revenue or rent is due in respect of the land held or cultivated by him, tenders the full amount of that revenue or rent at the usual place of payment to the person authorized to receive it, and that person does not accept the amount and forthwith give a receipt in full therefor, the co-sharer, under-proprietor or tenant may, without any suit having been instituted against him, deposit the amount in Court to the credit of the person authorized to receive it.

(2) The deposit shall, so far as regards the co-sharer, under-proprietor or tenant, and all persons claiming through or under him, operate as a payment then made to the lambardar or landlord of the amount so deposited.

15. (1) The Court shall receive the deposit on the written application of the co-sharer, under-proprietor or tenant, or his recognized agent; and on the applicant making a declaration in the form set forth in Schedule A to this Act, or as near thereto as circumstances will admit, the Court shall give him a receipt for the deposit.

(2) The declaration shall be verified in the manner prescribed for the verification of plaints by section 52 of the Code of Civil Procedure, and shall be signed by the person making it. XIV of 1882.

(3) Upon receiving the deposit, the Court shall issue to the person to whose credit it has been paid a notice in the form set forth in Schedule B to this Act.

(4) The notice shall be served by the proper officer without the payment of any fee.

(5) If the person to whose credit the deposit has been paid, or his recognized agent, appears and applies for it, the Court shall cause it to be paid to him.

(6) The application under sub-section (5) may be on plain paper.

16. Where a deposit has been made under the provisions of the two last foregoing sections, a suit shall not be brought against the depositor or his representative on account of any revenue or rent which accrued due in respect of the land last hereinbefore mentioned prior to the date of the deposit, unless the suit is instituted within six months from the date of the service of the notice mentioned in section 15.

The Oudh Rent Act, 1886.

(Chapter II—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 17-24.)

Illegal Enforcement of Payment of Rent.

17. (1) If payment of rent or of any sum in excess of the rent legally claimable is illegally enforced, and any under-proprietor or tenant institutes a suit to recover compensation for the illegal enforcement of the payment, the Court may award to him compensation, not exceeding the sum of two hundred rupees, in addition to any amount for which it makes a decree in respect of the payment itself.

(2) An award of compensation under sub-section (1) shall not bar any prosecution to which the person illegally enforcing the payment may be liable under any law for the time being in force.

Abatement of Rent.

18. Save as provided by section 20, sub-section (4), a suit for an abatement of the rent of a holding shall not be brought by an under-proprietor or tenant except on the ground that the area of the holding has diminished, or on some ground specified in a lease, agreement or decree under which he holds:

Provided that, if the under-proprietor holds a sub-settlement in a revenue-paying estate, an abatement shall not be allowed to the under-proprietor unless a remission of revenue has been allowed on the same ground and by competent authority in the same estate.

Remission of Rent.

19. (1) Notwithstanding anything in the last foregoing section, a Court, when it makes a decree for an arrear of rent, may, with the previous sanction of the Deputy Commissioner, allow such remission from the rent payable by any under-proprietor or tenant as appears equitable, if the area of the land in his occupation has been materially diminished by diluvion or otherwise, or if the produce of that land has been diminished by drought, hail or other calamity beyond his control, to such an extent that the full amount of rent payable by him cannot, in the opinion of the Court, be paid.

(2) Where a remission of rent under this section causes a material diminution of the assets of the landlord in the village in which the remission is given, the revenue-authorities shall take into consideration any claim made by the landlord for a remission of revenue.

(3) A remission shall not be allowed under this section to an under-proprietor holding a sub-settlement, or to a tenant having a right of occupancy, unless a remission of revenue has been allowed on the same ground and by competent authority in the same village.

Relinquishment of Land.

20. (1) A tenant shall continue liable for the rent of the land in his holding unless on or before the fifteenth day of March in any year he gives to the landlord or to the recognized agent of the landlord notice in writing of his desire to relinquish that land, and relinquishes it accordingly.

(2) If the landlord or his recognized agent refuses to receive the notice or to sign and deliver

a receipt therefor, the tenant may, before the latest date prescribed for giving the notice, apply on plain paper to the tahsildar or proper officer, and written notice of the desire of the tenant to relinquish the land shall then be served on the landlord at the expense of the tenant.

(3) A tenant cannot without the consent of his landlord relinquish a part only of his holding.

(4) Nothing in this section shall entitle a tenant holding under a registered document under section 69 to relinquish his holding otherwise than in accordance with the terms of that document.

21. (1) If a tenant abandons his holding without informing his landlord and without arranging for the cultivation of the holding, the landlord may at any time after the fifteenth day of May enter on the holding.

(2) Before a landlord enters on a holding under sub-section (1), he shall file a notice in the prescribed form at the office of the tahsildar for service on the tenant stating that he has treated the holding as abandoned and is about to enter on it accordingly.

(3) When a landlord enters on a holding under sub-section (1), the tenant may institute a suit under this Act to recover possession of the holding, and the Court shall, on being satisfied that the tenant did not voluntarily abandon the holding, order recovery of possession on such terms with respect to the time of delivery of possession, the payment of arrears of rent, if any, and, if injury has been caused by the wrongful act, neglect or default of any party to the proceeding, with respect also to the payment of compensation by that party, as to the Court may seem just.

Compensation for Tenants' Improvements.

22. (1) If a tenant, or a person from whom he has inherited, has made any such improvement on his holding as is hereinafter mentioned, neither he nor his representative shall be ejected from the holding unless and until he or his representative, as the case may be, has received compensation for the improvement:

Provided that compensation shall not be payable for any improvement made thirty years or more before the date on which the ejection is to take effect.

(2) An improvement made by a tenant for the benefit of his holding on land belonging to the person who is entitled to receive the rent of the holding shall for the purposes of this section be deemed to have been made on the holding of the tenant.

23. Except as provided in the next following section, a tenant shall not be entitled to claim compensation for an improvement made subsequently to the passing of this Act without the written consent of the landlord.

24. (1) If a tenant applies for the written consent of his landlord to the making of an improvement on his holding, and the landlord omits or refuses to grant it, the tenant may apply to the Deputy Commissioner for permission to make the improvement.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 25-30.)**(Chapter III.—Payment of Rent in kind.—Sections 31-32.)*

(2) When an application is made to the Deputy Commissioner under sub-section (1), he shall take into consideration any objections which the landlord may have to urge on either of the following grounds, namely:—

- (a) that the improvement is too costly or is unsuitable to the nature of the tenant's holding, or
- (b) that the landlord is himself prepared to make the improvement,

and shall then either grant the permission on such conditions as he considers fair and equitable or refuse the application.

25. (1) If either the landlord or the tenant desires the amount expended on an improvement executed with the permission of the Deputy Commissioner under the last foregoing section to be determined and registered, the Deputy Commissioner shall, on application made to him for the purpose, determine the amount of the outlay, and enter it in a register kept in the prescribed form.

(2) The entry in the register shall be conclusive proof of the amount of the outlay in any subsequent proceedings respecting the cost of the improvement.

26. The word "improvement", as used in this Act, means a work by which the annual letting value of land has been, and at the time of a demand for compensation continues to be, increased, and comprises—

- (a) the construction of works for the storage of water, for the supply of water for agricultural purposes, for drainage and for protection against floods; the construction of wells; the reclamation of waste land and jungle; and other works of a like nature;

- (b) the renewal or reconstruction of any of the foregoing works, or such alterations therein or additions thereto as are not required for the maintenance thereof and increase durably their value.

27. In estimating the compensation to which a tenant is entitled for an improvement regard shall be had—

Principle on which compensation is to be estimated.

- (a) to the amount by which the value, or the produce, of the holding, or the value of that produce, is increased by the improvement;
- (b) to the condition of the improvement and the probable duration of its effects;
- (c) to the labour and capital required for the making of such an improvement;
- (d) to any reduction or remission of rent or any other advantage given by the landlord to the tenant in consideration of the improvement; and

- (e) in the case of a reclamation, or of the conversion of unirrigated into irrigated land, to the length of time during which the tenant has had the benefit of the improvement.

28. When a Court has assessed the amount of the compensation due to a tenant, it may, if both landlord and tenant desire that the compensation assessed, instead of being paid wholly in money, shall be made wholly or partly in some other way, proceed to give judgment according to the terms agreed upon between them.

29. (1) A landlord may make an improvement on the holding of a tenant not having a right of occupancy with or without the consent of the tenant.

(2) A landlord intending to make an improvement shall, if any part thereof is to be made on the holding of any such tenant, give notice of his intention to the tenant through the tahsildar.

(3) A landlord making an improvement on the holding of any such tenant shall be liable to compensate the tenant for any loss which he may cause to the tenant when making it.

(4) If the effect of the improvement is to impair the productive powers of the holding, the tenant shall, in addition to any compensation which may be awarded to him under sub-section (3), be entitled to such abatement of his rent as to the Court seems just.

(5) A landlord may not make an improvement on the holding of a tenant with a right of occupancy without the consent of the tenant.

Survey and Measurement.

30. A landlord and his agents and surveyors may at all reasonable times enter upon any land comprised in his estate for the purpose of surveying and measuring the land.

CHAPTER III.

PAYMENT OF RENT IN KIND.

31. Where rent is taken by division of the produce in kind, or by estimate or appraisement of the standing crop, or other proceeding of a similar nature requiring the presence of both the tenant and the landlord either personally or by recognized agent, if either party neglects to be present at the proper time, or if a dispute arises between the parties regarding the division, estimate, appraisement or proceeding, either party may present an application to the Court, requesting that a proper officer be deputed to make the division, estimate or appraisement or conduct the proceeding.

32. (1) On receiving the application, the Court shall issue a written notice to the other party to attend at a time and place specified in the notice, and shall depute an officer before whom the division, estimate or appraisement shall be made or the proceeding conducted.

(2) The award of that officer in respect of the division, estimate, appraisement or proceeding shall be final, unless, within one month from the date thereof, either party institutes a suit to set it aside.

*The Oudh Rent Act, 1886.***Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 33-41.)****CHAPTER IV.****ENHANCEMENT AND FIXING RATES OF RENT.***Part A.—Tenants with Right of Occupancy.*

33. (1) A tenant having a right of occupancy in any land shall not, in case of dispute as to the rent to be paid in respect of the land, be liable to an enhancement of the rent except in pursuance of a decree made under this Act on some one of the following grounds, namely:—

1st ground.—That the rate of rent paid by him is below the rate of rent usually paid, by the same class of tenants having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate.

2nd ground.—That the rate of rent paid by him is more than twelve-and-a-half per cent. below the rate of rent usually paid, by tenants of the same class not having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate, less twelve-and-a-half per cent.

3rd ground.—That the quantity of land held by him exceeds the quantity for which he has previously paid rent.

Rule.—In this case the Court shall decree rent for the land in excess, at rates to be fixed by the first or the second of the rules contained in this section, as the case may be.

(2) Nothing in sub-section (1) shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1868.

34. After a decision has been passed in accordance with the last foregoing section, a suit shall not lie for re-enhancement of the rent until the expiration of five years from the date of the decision, except on the 3rd ground mentioned in that section, or, in the case referred to in the next following section, until, by re-assessment within the term of five years, the revenue of the land has been increased.

35. If, on a re-assessment of the revenue, the rent of the tenant cannot be enhanced under section 33 by reason of the absence of the grounds therein mentioned, the landlord may institute a suit to enhance the rent to a sum not exceeding double the average amount of the revenue imposed at the re-assessment upon land of a similar description and with similar advantages held by tenants of the same class in the same village.

Part B.—Other Tenants.

36. Every tenant, not being a tenant with a right of occupancy or a sub-tenant, shall be entitled to retain possession of the holding occupied by him at the time of the passing of this Act, at the rent then payable by him, for a period of seven years from the date of the last change in his rent or of

the last alteration in the area of the holding, or, where no such change or alteration has taken place, from the date on which the tenant was admitted to the occupation of the holding.

37. Every such tenant who may be admitted to the occupation of a holding after the passing of this Act shall be entitled to retain the same for a period of seven years from the date of his admission at a rent, agreed upon with the landlord in accordance with the provisions of this Act; and every such tenant, in the area of whose holding or in the amount of whose rent any change is made by the landlord subsequently to the passing of this Act, shall be deemed to be admitted to the occupation of a holding within the meaning of this section.

Explanation I.—“Holding” means a parcel or parcels of land held by a tenant and forming the subject of a separate engagement. The engagement may be express or implied.

Explanation II.—This section and section 36 have effect subject to the provisions of section 4, sub-sections (3) and (4), relating to land not previously cultivated, and subject also to section 157, excluding certain classes of land from the operation of certain sections of this Act.

38 (1) A landlord may enhance the rent of a tenant to whom section 36 or section 37 applies, either by contract in accordance with the provisions of this section or by notice as hereinafter provided.

(2) Subject to the provisions of sections 19 and 50, the enhancement shall not in any case exceed one anna in the rupee, or six-and-a-quarter per cent., on the annual rent payable by the tenant at the time when the contract was made or the notice was issued:

(3) Provided that, where rent is paid in kind, the proportion of produce paid as rent by a tenant shall not be subject to increase except in accordance with an established custom of the pargana in which the land is situate.

39. If a landlord desires that the rent of a tenant to whom section 36 or section 37 applies be enhanced on the expiration of the term of seven years referred to in section 36 or section 37, as the case may be, or at any time during the currency of that term in the case mentioned in section 50, he may cause a notice to that effect to be served under section 42.

40. (1) A notice whereby enhancement is claimed on account of the expiration of the period of the tenancy shall not be served before the commencement of the last year of the tenancy.

(2) A notice of enhancement on account of an improvement made or acquired by the landlord may be served at any time during the currency of the tenancy.

41. The notice shall be written in Hindi and Urdu, and shall specify the land, the amount of the present rent and the amount of the enhancement, and require the tenant, if he refuses to pay the enhancement, to vacate the land by the fifteenth day of May next following, or to institute a suit

*The Oudh Rent Act, 1886.**(Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 42-51.)*

in the proper Court to contest the notice of enhancement within thirty days from the date of the service thereof.

42. On the application of the landlord to the tahsildar or other prescribed officer the notice shall be served by the officer on or before the fifteenth day of February at the expense of the landlord.

43. The tenant may institute a suit to contest the notice of enhancement, within thirty days from the date of the service thereof, on any of the following grounds, namely:—

- (a) that he has a right of occupancy in the land specified in the notice;
- (b) that he holds under a special agreement or decree of Court or lease under the terms of which his rent is not liable to enhancement;
- (c) that the enhancement claimed is in excess of the rate authorized by law;
- (d) that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37 equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- (e) that the notice has not been served in the manner required by this Act;
- (f) that, where the enhancement claimed is on account of an improvement, the amount claimed is excessive.

44. (1) If the tenant does not contest the notice of enhancement and remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, he shall become liable for the enhanced rent.

(2) If the tenant contests the notice, and the validity thereof is maintained by the Court in whole or in part, he shall, if he remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, become liable for the enhanced rent to the extent to which the Court has maintained the validity of the notice.

45. If the tenant by remaining in possession of the land under the last foregoing section becomes liable for enhanced rent, he shall be entitled to hold the land at that rent for a further period of seven years.

46. If the tenant refuses to accept the enhancement claimed or decreed and vacates the holding, he shall be entitled to recover by separate suit from the landlord compensation for any improvements made by him on the holding.

47. (1) Except in the cases mentioned in sections 49 and 50, the rent of a tenant admitted to the occupation of any land the tenancy of which has determined according to the provisions of this Act shall not exceed by more than one anna, in the rupee, or six and

a-quarter per cent., the rent payable by the tenant immediately preceding him.

(2) In the case of a tenant admitted to the occupation of a holding of which the rent has been immediately before his admission paid in kind, the rent payable shall, subject to any established custom of the pargana in which the holding is situate, be either the rent payable by the tenant immediately preceding him, or a sum which, subject to the provisions of sections 49 and 50, shall not exceed by more than six-and-a-quarter per cent. the equivalent of the value of the produce annually paid as rent on the average of the three years immediately preceding.

48. (1) The heir of a tenant who dies during the currency of the tenancy of a holding shall be entitled to retain occupation of the holding at the rent payable by the deceased for the unexpired portion of the period for which the deceased tenant might have held without liability to enhancement or ejectment, and to receive compensation under the provisions of this Act for improvements, if any, made on the holding by himself or his predecessor in interest, but shall not be entitled to a renewal of the tenancy.

(2) Subject to any rights which he may have under section 22 as a representative of the deceased, a collateral relative who did not at the date of the death of the deceased share in the cultivation of the holding shall not be deemed to be an heir of the deceased within the meaning of this section.

49. The rent of a tenant admitted to the occupation of any land the tenancy of which has ceased in consequence of the death of a previous tenant, or of the ejectment of a thekadar or mortgagee from land of which he has taken cultivating possession during the period of his theka or mortgage, shall be such amount as may be agreed upon between him and the landlord.

50. (1) Nothing in the foregoing sections shall bar the right of a landlord to enhancement or rent on the ground that the productive powers of the land held by the tenant have been increased by an improvement which has been made by, or at the expense of, the landlord or for which during the currency of the tenancy compensation has been accepted from the landlord by the owner of the improvement or, on the expiration of the tenancy, compensation has been paid in accordance with the determination of a Court under this Act.

(2) Where an enhancement is claimed on the ground of any such improvement, the Court, in determining the claim, shall have regard to—

- (a) the increase in the productive powers of the land caused, or likely to be caused, by the improvement;
- (b) the cost of the improvement; and
- (c) the cost of the cultivation required for the utilising of the improvement.

51. Notwithstanding anything in the foregoing sections, the Chief Commissioner may, by notification in the local official Gazette, vary from time to time, within periods of not less than seven years, the limits of the enhancement to which tenants to whom section 36 or section 37 applies are liable in any local area specified in the notification.

CHAPTER V.

EJECTMENT.

Tenants holding on special terms.

52. (1) A tenant having a right of occupancy in any land, or holding any land under a special agreement or decree of Court, shall not be ejected from that land otherwise than in execution of a decree for ejectment:

Provided that the decree for ejectment shall not be made, unless, at the date of that decree, a decree against the tenant for an arrear of rent in respect of the land has remained unsatisfied for fifteen days or upwards.

(2) A decree for the ejectment of a tenant holding under a special agreement or decree of Court may be made on such grounds as would justify ejectment under the agreement or decree.

Other Tenants.

53. A tenant not having a right of occupancy, and not holding under a special agreement or decree of Court, may be ejected by notice, application or suit under the following sections of this Chapter.

54. If a landlord desires to eject any such tenant on the expiration of his tenancy, he may cause a notice of ejectment to be served on the tenant under the next following section.

55. (1) The notice shall be written in Hindi and in Urdu; it shall be signed by the landlord or by an agent authorized by him in that behalf; it shall specify the land from which the tenant is to be ejected; it shall, if a court-fee is payable in respect thereof under this section, contain a certificate by the patwari as to the annual rent payable for the holding to which the notice relates; and it shall inform the tenant that he must either (a), if he means to dispute the ejectment, institute a suit for that purpose within thirty days from the date of the service of the notice, or (b) vacate the land on or before the fifteenth day of May next following.

(2) On the application of the landlord to the tahsildar or other prescribed officer, the notice shall, if the proper court-fee (where a court-fee is payable under this section) has been paid in respect thereof, be served on the tenant by the officer on or before the fifteenth day of November at the expense of the landlord.

(3) If the tenant on whom the notice is to be served is a tenant to whom section 36 or section 37 applies, there shall, except as provided by this sub-section and sub-section (1) and by section 69, be payable in respect of the notice a court-fee equal in value to half the annual rent payable for the holding of the tenant, or, in the case of a tenant paying rent in kind, a court-fee equal to half the value of the produce annually paid as rent on the average of the three years immediately preceding:

Provided that the court-fee shall not in any case exceed twenty-five rupees.

(4) A court-fee shall not be payable under sub-section (3) in respect of a notice on a person to whom section 48 applies.

(5) Stamps representing the court-fee shall be affixed on the notice before the notice and the application for the service thereof are presented to the tahsildar or other prescribed officer.

(6) The court-fee paid by a landlord under this section shall not in any circumstances be adjudged to be payable as costs or otherwise by the tenant.

56. (1) A tenant on whom a notice has been served under the last foregoing section may institute a suit to contest his liability to be ejected from the land specified therein on any of the following grounds, namely:—

- that he has a right of occupancy in the land;
- that he holds under a special agreement or decree of Court or unexpired lease under the terms of which he is not liable to be ejected from the land;
- if he is a tenant to whom section 55, sub-section (3), applies, that the notice was insufficiently stamped;
- if he is a tenant to whom section 36 or section 37 applies, that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37, as the case may be, equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- if he is a tenant to whom section 53 applies, that notice of ejectment has not been served upon him in the manner required by this Act.

(2) A thekadar shall not be entitled to contest a notice of ejectment on any ground other than that he holds a lease under the terms of which he is not liable to ejectment.

57. If the tenant has any claim for compensation for improvements on the holding, he shall file with his plaint a statement of the claim and of the grounds on which it is based.

58. If the Court dismisses the suit in whole or in part, it shall determine the amount of the compensation, if any, due for improvements, and shall declare ejectment from the whole or part of the land, as the case may be, to be conditional on payment of that amount into Court.

59. If the tenant on whom notice of ejectment has been served fails, within thirty days from the date of the service, to institute a suit to contest his liability to be ejected, his tenancy of the land in respect of which the notice has been served shall cease on the fifteenth day of May next following, unless, after the service, the landlord has authorized him in writing to continue to occupy the land.

60. (1) If the landlord requires assistance to eject a tenant on whom he alleges a notice to have been served under section 55, he may apply for that assist-

ance to the Court which would have had jurisdiction with respect to a suit by the tenant to contest his liability to be ejected under the notice, and that Court shall order the ejectment of the tenant if it is satisfied—

- (a) that a notice of ejectment was duly served on the tenant;
- (b) that the tenant has not brought a suit to contest the notice; or that, if a suit for that purpose has been brought, it has been determined adversely to the tenant;
- (c) that the tenant has not been authorised by the landlord in writing to continue to occupy the land.

(2) Nothing done by the Court under sub-section (1) shall affect the right of the tenant to institute a suit against his landlord on account of illegal ejectment and to recover compensation therefor.

61. (1) If a landlord desires to eject a tenant to whom section 53 applies and against whom a decree for an arrear of rent has been passed and remains unsatisfied, he may, after the first day of April of the year in which that arrear accrued, apply to the Deputy Commissioner to eject the tenant.

(2) The Deputy Commissioner shall, on receiving the application, cause a notice to be served on the tenant, stating the amount due under the decree, and informing him that if he does not pay that amount into Court within fifteen days from the receipt of the notice he will be ejected from his holding.

(3) If the amount is not so paid, the Deputy Commissioner shall, unless good cause is shown to the contrary, eject the tenant.

62. (1) A tenant to whom section 53 applies shall be liable to ejectment by suit during the currency of his tenancy on any of the following grounds, namely:—

- (a) that he has used the land comprised in his holding in a manner which renders it unfit for the purposes of his tenancy;
- (b) that at the time of the institution of the suit the entire holding has been sub-let;
- (c) where the rent is payable in kind, that his cultivation has diminished to a point which by the custom of the locality involves the forfeiture of the holding;
- (d) where the tenant holds, under an unexpired lease, land to which section 4, sub-sections (3) and (4), applies, then on any ground which would justify ejectment under the lease.

(2) The tenant shall continue liable for the rent of the land until the decree is executed.

General.

63. Except in pursuance of an order under section 21, sub-section (3), a tenant shall not in any case, whether in execution of a decree or otherwise, be ejected from the land in his occupation, except between the first day of April and the thirtieth day of June in any year after the passing of this Act.

64. A thekadār liable to be ejected under the provisions of this Act may be ejected at any time during his tenancy.

65. In any suit for ejectment the defendant may file any claim for compensation for improvements which he may have against the plaintiff, and, if the Court finds the grounds on which the suit is brought to be valid, it shall determine the amount of compensation, if any, due from the plaintiff to the defendant, and shall pass a decree of ejectment conditional on the payment into Court of that amount.

66. A tenant ejected in accordance with the provisions of this Act shall be entitled to receive from the landlord the value of any growing crops or other ungathered products of the earth belonging to the tenant and being on the land at the time of his ejectment:

Provided that, if the land has been sown or planted by the tenant after service on him of a notice under section 55, he shall not be so entitled, unless, after that service, the landlord has authorized him in writing to continue to occupy the land.

*CHAPTER VI.**SUPPLEMENTAL PROVISIONS RESPECTING TENANCIES.**Sir Lands.*

67. (1) The rights conferred upon tenants by sections 24, 36, 37, 38, 39, 46, 47 and 48 shall not accrue to cultivators of any of the following lands, namely:—

- (a) land which for the seven years immediately preceding the passing of this Act has been continuously dealt with as sir in the distribution of proprietary or under-proprietary profits and charges;
 - (b) land which for the seven years immediately preceding the passing of this Act has been continuously cultivated by the proprietor or under-proprietor himself or by his servants or by hired labour.
- (2) Land which was recorded as sir at settlement and has been continuously so recorded since shall, until the contrary is proved, be presumed to be land of the class mentioned in clause (a) of section (1).

Thekadārs, Mortgagees and Sub-tenants.

63. (1) A person holding land as a thekadār, mortgagee or sub-tenant shall not, while so holding, acquire any of the rights enumerated in the last foregoing section in any of the land comprised in his theka, mortgage or sub-tenancy.

(2) A person having those rights in land does not lose them by subsequently taking a theka or mortgage in which his holding is comprised.

Long Leases.

69. (1) When a holding has been let by registered document for a term of eight years or upwards at a rent determined thereby for the whole of the term in accordance with the

*The Oudh Rent Act, 1886.**(Chapter VI.—Supplemental Provisions respecting Tenancies.—Sections 70-71.—Chapter VII.—Distress for Arrears of Rent.—Sections 72-79.)*

provisions of this Act to a tenant to whom section 36 or section 37 applies, the landlord shall, on the expiration of the term, be entitled to enhance the rent of the holding in accordance with the provisions of Chapter IV, Part B, and not otherwise, and shall also be entitled to eject the tenant by notice under section 55 without payment of a court-fee under that section :

Provided that any change in the rent or alteration in the area of the holding by the landlord during the term shall be a bar to enhancement and ejectment for seven years from the date of that change or alteration.

(2) In addition to the grounds mentioned in clauses (a), (b) and (c) of section 62, sub-section (1), a tenant to whom this section applies shall be liable to ejectment by suit during the currency of his tenancy on any ground which would justify ejectment under the registered document under which he holds.

Miscellaneous.

70. Where a tenant has received a patta, a statement that since the date of the patta his rent has been changed, or area of his holding altered, by the landlord, shall not be admissible in evidence unless the change or alteration is recorded in an entry on the patta signed by or on behalf of the landlord, and in an entry on the counterpart signed by or on behalf of the tenant, or in a new patta and counterpart.

71. The expression "special agreement" or "decree of Court", where it is used in this Act to signify the tenure on which land is held by a tenant, is to be construed as referring to an agreement or decree made or passed before the passing of this Act.

CHAPTER VII.

DISTRESS FOR ARREARS OF RENT.

72. When an arrear of rent is due from any tenant, the landlord may, subject to the provisions of this Chapter, distrain the produce of the land in respect of which the arrear is due :

Provided that, when a tenant has given security for the payment of his rent, the produce of the land in respect of which the rent is payable shall not be liable to distress so long as the security is in force.

73. Distress shall not be made for the recovery of—

(a) any sum in excess of the rent payable in the last preceding year for the land in respect of which the arrear is due, unless the tenant has agreed in writing to pay that excess or unless he has been declared by decree to be liable therefor, or

(b) any arrear which has been due for a longer period than one year.

74. The power of distress vested by section 72 in landlords may be exercised by managers under the Court of Wards, managing agents and tahsildars of estates held under direct management, and other persons lawfully entrusted with the charge of land, and also by the agents

employed by landlords or any such persons as aforesaid in the collection of rent, if expressly authorized by power-of-attorney to distrain :

Provided that, if any such agent, purporting to act in the exercise of that power, commits an act which, under the provisions of this Chapter, is illegal, the person employing him shall be liable, as well as the agent, to be sued for compensation for any injury caused by the act.

75. Any person empowered to distrain property under section 72 or section 74 may employ a servant or other person to make the distress, but in every such case he shall give to the servant or person a written authority in that behalf, and the distress shall be made in the name and on the responsibility of the person giving the authority.

76. (1) Standing crops and other ungathered crops liable to distress.—products of the earth, and crops or other products when reaped or gathered and deposited in any threshing-floor or place for treading out grain or the like, whether in the field or within a homestead, may be distrained by persons invested with powers of distress under this Act.

(2) But no such crops or products, other than the produce of the land in respect of which an arrear of rent is due, or of land held under the same engagement as the land in respect of which the arrear is due, and no grain or other produce after it has been stored by the cultivator, and no other property whatsoever, shall be liable to distress under this Act.

77. (1) Before or at the time when any distress is made under this Act, the demand of arrear before or at time of distress.—distrainer shall cause the defaulter to be served with a written demand for the amount of the arrear, together with an account exhibiting the grounds on which the demand is made.

(2) The demand and account shall, if practicable, be served personally on the defaulter, but, if he cannot be found, they shall be affixed at his usual place of residence, and shall thereupon be deemed to be duly served upon him.

78. Unless the amount of the demand is immediately paid or tendered, the distrainer may distrain property as aforesaid of value as nearly as may be equal to the amount of the arrear with the costs of the distress ; and, when he has made the distress, he shall prepare a list or description of the property distrained and deliver a copy thereof to the owner, or if the owner is absent, affix it at his usual place of residence.

79. (1) Standing crops and other ungathered crops.—products of the earth may, notwithstanding the distress, be reaped or gathered by the tenant, and may be stored in such granaries or other places as are commonly used by him for the purpose.

(2) If the tenant neglects to do so, the distrainer may cause the crops or products to be reaped or gathered, and in that case shall store them either in such granaries or other places as aforesaid, or in some other convenient place in the neighbourhood.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 80-89.)*

(3) In either case the distrained property shall be placed in the charge of some proper person appointed by the distrainer for the purpose.

(4) If the crops or products do not, from their nature, admit of being stored, the distress shall be made (if at all) at least twenty days before the time when the crops or products or any part thereof would ordinarily be fit for cutting or gathering.

80. If a distrainer is opposed or apprehends resistance, and desires to obtain the assistance of a public officer, he may apply to the Court, and the Court may, if it thinks necessary, depute an officer to assist the distrainer in making the distress.

81. If at any time after property has been distrained as aforesaid, and before the sale thereof as hereinafter provided, the owner tenders payment of the arrear demanded and of the costs of the distress, the distrainer shall receive the payment and give a receipt therefor and forthwith withdraw the distress.

82. Within five days from the time of storing any distrained crops or products, or, if the crops or products do not from their nature admit of being stored, within five days from the time of making the distress, the distrainer shall apply for the sale thereof to the proper officer authorized to sell property in satisfaction of decrees of the Court within whose jurisdiction the distrained property is situate.

83. (1) The application shall be in writing; it shall contain a list or description of the property distrained, and it shall state the name of the defaulter, his place of residence, the amount due and the place in which the distrained property is deposited.

(2) Together with the application, the distrainer shall deliver to the proper officer the sum payable for the service of a notice upon the defaulter as provided in the next following section.

84. (1) Immediately on receipt of the application, the proper officer shall send a copy of it to the Court, and shall serve a notice in the form contained in Schedule C to this Act, or to the like effect, on the person whose property has been distrained, requiring him either to pay the amount demanded, or within fifteen days from the receipt of the notice to institute a suit to contest the demand.

(2) The officer shall at the same time send to the Court, for the purpose of being put up at the court-house, a proclamation fixing a day for the sale of the distrained property, not less than twenty days from the date of the proclamation, and shall deliver a copy of the proclamation to the person charged with the service of the notice, to be put up by him in the place where the distrained property is deposited.

(3) The proclamation shall contain a description of the property, and shall specify the demand for which it is to be sold, and the place where the sale is to be held.

85. (1) If a suit is instituted in pursuance of the notice mentioned in the last foregoing section, the Court shall send to the proper officer, or, if so requested by the owner of the distrained property, shall deliver to him, a certificate of the institution of the suit.

(2) On the certificate being received by, or presented to, the proper officer, he shall suspend proceedings in regard to the sale:

Provided that, if in his opinion the property distrained is such that delay will cause damage thereto, he may direct its immediate sale.

86. (1) Any person whose property has been distrained as aforesaid may institute a suit to contest the distrainer's demand at any time before the expiration of the fifteen days mentioned in section 84, sub-section (1).

(2) When any such suit is instituted, the Court shall proceed in the manner directed in section 85.

(3) If application for the sale of the property is afterwards made to the proper officer, he shall send a copy of the application to the Court, and suspend further proceedings pending the decision of the case.

87. (1) The person whose property has been distrained may, at the time of instituting any such suit as aforesaid, or at any subsequent period, execute a bond with one or more surety or sureties, for an amount not less than double the value of the property distrained, binding himself to pay whatever sum may be adjudged to be due from him, with costs of suit.

(2) When a bond has been executed under sub-section (1), the Court shall give to the owner of the property a certificate to that effect, or, if he so requests, shall serve the distrainer with notice of the execution of the bond.

(3) Upon the certificate being presented to the distrainer by the owner of the property, or upon the notice being served on the distrainer by order of the Court, as the case may be, the property shall be released from distress.

88. On the expiration of the period fixed in the proclamation of sale, if the institution of a suit to contest the demand of the distrainer has not been certified to the proper officer in the manner hereinbefore provided, he shall, unless that demand, with such costs of the distress as are allowed by him, is discharged in full, proceed, with the sanction of the Court, to sell the property, or such part thereof as may be necessary.

89. (1) The sale shall be held at the place where the distrained property is deposited, or at the nearest ganj, bazar or other place of public resort, if the proper officer thinks that it is likely to sell there to better advantage.

(2) The property shall be sold by public auction in one or more lots as the officer holding the sale thinks advisable, and if the demand, with the costs of distress and sale, is satisfied by the sale of a portion of the property, the distress shall be immediately withdrawn with respect to the remainder.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 90-99.)*

90. If, on the property being put up for sale, a price which the officer holding the sale thinks fair is not offered, and if the owner of the property or his recognized agent applies to have the sale postponed until the next day or (if a market is held at the place of sale) until the next market-day, the sale shall be postponed until that day, and shall be then completed at whatever price may be offered.

91. (1) The price of every lot shall be paid in ready money at the time of sale, or as soon thereafter as the officer holding the sale thinks fit, and in default of payment the property shall be put up again and re-sold.

(2) When the purchase-money has been paid in full, the officer holding the sale shall give the purchaser a certificate stating the property purchased by him and the price paid therefor.

92. (1) The officer holding the sale shall deduct from the proceeds one anna for every rupee and fraction of a rupee on account of the expenses attending the sale.

(2) He shall then pay to the distrainer the expenses incurred by him on account of the distress and of the issue of the notice and proclamation of sale prescribed in section 81 to such amount as, after examination of the statement of expenses furnished by the distrainer, the officer thinks proper to allow.

(3) The remainder shall be applied to the discharge of the arrear for which the distress was made, and the surplus (if any) shall be delivered to the person whose property has been sold.

93. Officers holding sales of property under this Act, and all persons employed by, or subordinate to, those officers, are forbidden to purchase, either directly or indirectly, property sold by those officers.

94. (1) The officer mentioned in section 82 shall bring to the notice of the Court any illegal act which may come to his knowledge as having been committed by any person in making a distress under this Act.

(2) If in any case, on proceeding to hold a sale under this Act, that officer finds that the owner has not received due notice of the distress and intended sale, he shall postpone the sale and report the case to the Court, and the Court shall direct the issue of another notice and proclamation of sale under section 84, or make such other order as it thinks proper.

95. (1) When that officer has gone to any place for the purpose of holding a sale, and a sale does not take place, either for the reason stated in section 94 or because the distrainer's demand has been previously satisfied, a charge of one anna for every rupee of the value of the distrained property, as estimated by the officer, shall be leviable by him on account of the expenses of the intended sale, unless the distrainer's demand has been satisfied before the day fixed for the sale and notice of its having been satisfied has been given by him to the officer.

(2) If the distrainer's demand is not satisfied until the day fixed for the sale, the charge shall be paid by the owner of the property, and may be recovered by sale of such portion of the property as may be necessary.

(3) In every other case the charge shall be paid by the distrainer, and may be recovered under the warrant of the Court by attachment and sale of his property.

(4) The charge leviable under this section shall not exceed ten rupees in any case.

96. (1) When a suit has been instituted to contest a distrainer's demand, and the property has not been released on security, if the demand or any portion thereof is adjudged to be due, the Court shall issue an order to the proper officer authorizing the sale of the property.

(2) On the application of the distrainer (which shall be made within five days from the receipt of the order by the officer), the officer shall publish a second proclamation in the manner prescribed in section 81, fixing another day for the sale of the distrained property, not being less than five or more than ten days from the date of the proclamation, and, unless the amount adjudged to be due with costs of distress is paid before that day, shall proceed to sell the property in the manner hereinbefore provided.

97. (1) In all suits instituted to contest a distrainer's demand, the defendant must prove the arrear in the same manner as if he had himself brought a suit for the amount of the arrear.

(2) If the demand or any part thereof is found to be due, the Court shall make in favour of the distrainer a decree for the amount so found.

(3) That amount may be recovered, if the distrained property has not been released on security, by sale of the distrained property as provided in section 96, and, if any balance remains due after the sale, by execution of the decree against the person and any other property of the defaulter, or, if the distrained property has been released on security, by execution of the decree against the person and property of the defaulter, and if his surety has been made a party to the suit, against the person and property of the surety.

98. If the distress is adjudged to be vexatious or groundless, the Court, besides directing the release of the distrained property, may award such compensation to the plaintiff as it thinks fit, not exceeding twice the value of the property distrained.

99. If any person claims, as his own, property which has been distrained for arrears of rent alleged to be due from any other person, the claimant may institute a suit against the distrainer and that other person to try the right to the property, in the same manner, and under the same rules as to the time of instituting the suit and as to the consequent postponement of sale, as a person whose property has been distrained for an arrear of rent alleged to be due from him may institute a suit to contest the demand.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 100-107.—Chapter VIII.—Jurisdiction of the Courts.—Section 108.)*

100. (1) When any such suit is instituted, the property may be released upon security for its value being given to the satisfaction of the Court.

Rules applicable to suit by third party.

(2) If the claim is dismissed, the Court shall make an order in favour of the distrainer for the sale of the property, or the recovery of its value, as the case may be.

(3) If the claim is upheld, the Court shall order the release of the distrained property, and may award such compensation to the plaintiff as it thinks fit, not exceeding twice the value of the property distrained.

101. No claim to any produce liable to distress under this Act and found at the time of the distress in the possession of a defaulting tenant, whether the claim be in respect of a previous sale, mortgage or otherwise, shall bar the landlord's prior claim, nor shall any attachment in execution of a decree of any Civil Court prevail against the prior claim of the landlord.

Landlord's prior claim to distrainable produce in possession of defaulting tenant.

102. When property has been distrained for an arrear of rent, and a suit has been instituted to contest the demand, and the right to distrain for that arrear is claimed by or on behalf of any person other than the distrainer, on the ground of that other person being actually and in good faith in the receipt and enjoyment of the rent of the land, that other person shall be made a party to the suit, and the question of the actual receipt and enjoyment of the rent by him before and up to the commencement of the suit shall be inquired into, and the suit shall be decided according to the result of the inquiry:

Stranger claiming to be landlord and to have right of distress to be made a party.

Provided that the decision of the Court shall not affect the right of any person having a title to the rent of land to establish that title in a Court of competent jurisdiction, by suit instituted within one year from the date of the decision.

103. Any person whose property has been distrained for the recovery of a demand not justly due, or of a demand due or alleged to be due from some other person, and who is prevented by any sufficient cause from bringing a suit to contest the demand or try the right to the property, as the case may be, within the period allowed by section 84 or section 99, and whose property is in consequence brought to sale, may institute a suit to recover compensation for any injury which he has sustained from the distress and sale.

Suit for illegal distress.

104. In any of the following cases, namely:—

Suit for illegal act of distrainer.

- (b) if any distrained property is lost, damaged or destroyed, by reason of the distrainer

not having taken proper precaution for the due keeping and preservation thereof, or

- (c) if the distress is not immediately withdrawn when any provision of this Act requires its withdrawal,

the owner of the property may institute a suit to recover compensation for any injury which he has thereby sustained.

105. (1) If any person not empowered by this Act to distrain or sell, or not duly authorized for that purpose by a person so empowered, purports to distrain or sell any property under this Act, the owner of the property may institute a suit to recover compensation from the person so distraining or selling for any injury which the plaintiff has sustained from the distress or sale.

Suit for distress or sale falsely purporting to be under the Act.

(2) The institution of a suit under sub-section (1) shall not affect the defendant's liability to be prosecuted under any law for the time being in force

106. (1) If any person resists a distress of property duly made under this Act, or forcibly or clandestinely removes any distrained property, the Court, upon complaint being made within ten days from the date of the resistance or removal, shall cause the person accused to be arrested and brought before the Court with all convenient speed, and the Court shall proceed forthwith to try the case.

Procedure in case of resistance to distress.

(2) If the case cannot be at once heard and determined, the Court may, if it thinks fit, require the person arrested to give security for his appearance whenever he may be required to appear, and, in default of the security being given, may commit him to the civil jail until the case is tried.

107. If the resistance to the distress or the removal of the distrained property is proved, the Court may order the offender to pay a fine not exceeding one hundred rupees, together with all costs and expenses incurred in the case or in making the distress, and, in default of payment, may order him to be imprisoned in the civil jail until payment is made:

Provided always that the decision of the Court shall not affect the right of any party having a legal right to the rent of the land to establish his title thereto in a Court of competent jurisdiction.

151. If the decree is for money, a process in execution shall not issue against the immoveable property of the judgment-debtor, other than for attachment of that property, unless satisfaction of the decree cannot be obtained against his moveable property.

(2) Every rule made under this section shall be published in such manner as the Chief Commissioner may direct.

Officers and Servants.

35. (1) Every committee shall, from time to time, at a special meeting, appoint one or more of its members, or, with the sanction of the Commissioner, any other person or persons, to be its secretary or secretaries, and may at a like meeting remove any person so appointed.

(2) If a person who is an officer in the service of the Government, and who is not a member of the committee, is appointed secretary, he shall, notwithstanding anything in the foregoing sections, become a member of the committee by virtue of such appointment, and shall continue to be a member of the committee as long as he holds the office of secretary.

(3) When a member of the committee is appointed to be secretary, he shall receive no remuneration in respect of his services. In other cases, the committee may, with the previous sanction of the Chief Commissioner, assign to a secretary such pay as it thinks fit.

36. Subject to the other provisions of this Regulation, and to such rules as the Chief Commissioner may make prescribing the qualifications requisite in the case of persons appointed to offices requiring professional skill, a committee may employ, in addition to its secretary or secretaries, such other officers and servants as may be necessary or proper for the efficient execution of its duties, and may assign to such officers and servants such pay as it thinks fit.

37. In the case of a Government official, a committee may—

- (1) if his services are wholly lent to it, subscribe for his pension or gratuity and leave-allowances in accordance with the rules of the Government Civil Pension and Leave Codes for the time being in force; and
- (2) if he devotes only a part of his time to the performance of duties in behalf of the committee, make a contribution on account of his pension or gratuity and leave-allowances in such proportion as may be determined by the Chief Commissioner.

38. In the case of an officer or servant not being a Government official, a committee may—

- (1) grant him leave-allowances and, if he is employed under a committee constituted under the North-Western Provinces and Oudh Municipalities Act, 1873, when this Regulation comes into force, and is not entitled to pension, or if his monthly pay is less than ten rupees, a gratuity; and,
- (2) if empowered in this behalf by the Chief Commissioner,—
 - (a) subscribe on his behalf for pension or gratuity under the rules of the Government Civil Pension Code for the time being in force; or
 - (b) purchase for him from the Government or otherwise an annuity on his retirement;

Provided that no pension, gratuity, leave-allowance or annuity shall exceed the sum to which,

39. (1) A committee may delegate to one or more of its members the power of entering into, on its behalf, any contract whereof the value or amount does not exceed two hundred rupees.

(2) A contract whereof the value or amount exceeds two hundred rupees shall not be executed until it has been sanctioned by the committee at a meeting.

40. (1) Every contract made by or on behalf of a committee whereof the value or amount exceeds twenty rupees shall be in writing.

(2) Every such contract shall be signed by the chairman, or a vice-chairman, and a secretary :

Provided that the committee may delegate to one or more of its members the power of executing any contracts which he is or they are empowered to enter into under section 39, sub-section (1).

(3) If a contract to which this section applies is executed otherwise than in conformity therewith, it shall not be binding on the committee.

CHAPTER III.

TAXATION.

Taxation.

41. (1) Subject to any general rules or special orders which the Governor General in Council may make in this behalf, and to any rules made by the Chief Commissioner under this Regulation, a committee may, from time to time, for the purposes of this Regulation and in the manner by this Regulation directed, impose in the whole or any part of the municipality any of the following taxes, namely :—

(A) with the previous sanction of the Chief Commissioner :—

- (a) a tax on buildings and lands situate within the municipality, not exceeding seven and a half per centum on the annual value of the buildings and lands ;
- (b) a tax on persons practising any profession or art or carrying on any trade or calling in the municipality ;
- (c) a tax on all or any vehicles, boats, animal used for riding, driving, draught or burden, and dogs, kept within the municipality ;
- (d) a tax on vehicles and animals used as aforesaid entering the municipality ;
- (e) an octroi on animals for slaughter or goods or both brought within the municipality for consumption or use therein ; and

(B) with the previous sanction of the Chief Commissioner and of the Governor General in Council, any other tax.

(2) In this section "annual value" means the gross annual rent for which buildings and lands liable to taxation may reasonably be expected to let :

Provided that, in the case of land which is assessed to land-revenue or of which the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, the annual value shall, if the Chief Commissioner so directs, be deemed to be double the amount of the land-revenue for the time being assessed on the land, or, when the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, double the amount which, but for such release, composition, redemption or assignment, would have been assessable as land-revenue.

42. When a committee has, in exercise of the powers conferred by this Regulation, provided for the

performance, with regard to any buildings or lands, by its agents, of the duties usually performed by sweepers, it may, with the previous sanction of the Chief Commissioner, in the manner by this Regulation directed, impose upon those buildings and lands, in addition to any other tax imposed upon them under this Regulation, a tax to be called the scavenging-tax, at such rate or of such amount as it thinks fit :

Provided that in fixing the rate or amount regard shall be had to the principle that the total net proceeds of the tax should not exceed the cost of the performance of the said duties.

43. (1) Besides the taxes mentioned in sections 41 and 42 a committee, with the previous

sanction of the Chief Commissioner, may, for the purpose of constructing or maintaining works for the supply of water to the municipality or paying the principal or interest of any loan raised for the construction of such works, impose, in the manner by this Regulation directed, a tax, to be called the water-tax, upon buildings or lands which are so situated that their occupiers can benefit by the works.

(2) The rate or amount of the tax so imposed on different buildings or lands may be determined with reference, among other considerations, to their distance from the nearest point at which the water is deliverable by the works and to their extent but in fixing it regard shall be had to the principle that the total net proceeds of the tax, with the estimated income from payments for water supplied from the works under special contracts, should not exceed the amount required for the said purposes.

44. (1) A committee may, at a special meeting, pass a resolution to propose the imposition of any tax under section 41, section 12 or section 43.

(2) When such a resolution has been passed, the committee shall publish a notice, defining the class of persons or description of property proposed to be taxed, the amount or rate of the tax to be imposed and the system of assessment to be adopted.

(3) Any inhabitant objecting to the proposed tax may, within thirty days from the publication of the notice, submit his objection in writing to

The Ajmere Municipalities Regulation, 1886.
(Chapter III.—Taxation.—Sections 45-52.)

the committee; and the committee shall, at a special meeting, take his objection into consideration.

(4) If no such objection is received within the said period of thirty days, or if such objection, having been considered as aforesaid, is deemed insufficient, the committee may forward its proposals to the Chief Commissioner, with the objections (if any) which have been submitted as aforesaid, and its decision thereupon.

(5) The Chief Commissioner, on receiving such proposals, may sanction the same, or refuse to sanction them, or return them to the committee for further consideration.

(6) When the Chief Commissioner sanctions any such proposals which require the further sanction of the Governor General in Council, he shall submit the same to the Governor General in Council, with the objections (if any) received through the committee; and the Governor General in Council may sanction the proposals, or refuse to sanction them, or return them to the Chief Commissioner for further consideration.

(7) When the proposals of a committee have been sanctioned by the Chief Commissioner, or by the Chief Commissioner and the Governor General in Council, as the case may be, the committee may, at a special meeting, direct the imposition of the tax in accordance with such proposals.

(8) In giving such direction the committee shall fix a date from which the tax shall come into force:

Provided that—

(a) no tax shall come into force until it has been notified;

(b) no tax leviable by the year shall come into force except at the commencement of the year by which it is leviable; and

(c) no other tax shall come into force less than one month from the date of the meeting at which its imposition is directed.

(9) A notification of the imposition of a tax under this Regulation shall be conclusive evidence that the tax has been imposed in accordance with the provisions of this Regulation.

45. A committee may, by a resolution passed at a special meeting and confirmed by the Chief Commissioner, abolish or reduce in amount any tax imposed under section 41, section 42 or section 43.

46. (1) A committee may exempt, in whole or in part, from the payment of any such tax any person who by reason of poverty may in its opinion be unable to pay the same.

(2) A committee may, by resolution passed at a special meeting and confirmed by the Chief Commissioner, and the Chief Commissioner may, by order, exempt in whole or in part from the payment of any such tax any person or class of persons or any property or description of property.

47. (1) If at any time it appears to the Chief Commissioner, on complaint made or otherwise, that any tax imposed under the foregoing sections is unfair in its incidence, or that the levy thereof or of any part thereof is injurious to the interests of the general public, he may require the committee to take within a specified period measures to remove the objection; and, if within that period the requirement is not complied with to the satisfaction of the Chief Commissioner, the Chief Commissioner may by notification suspend the levy of the tax or of such part thereof until the objection has been removed.

(2) The Chief Commissioner may at any time, by notification, rescind any such suspension.

48. No tax imposed under this Regulation shall be invalid merely for defect of form; and it shall be enough in any such tax on property, or any assessment of value for the purpose of any such tax, if the property taxed or assessed is so described as to be generally known; and it shall not be necessary to name the owner or occupier thereof.

49. Any tax imposed under section 41, section 42 or section 43 and payable periodically shall be payable on such dates and in such instalments (if any) as the committee, with the previous sanction of the Chief Commissioner, may, by rule, from time to time direct.

50. For all sums paid on account of any tax under this Regulation, a receipt stating the amount and the tax on account of which it is paid shall be given by the person receiving the same, on request by the person making the payment.

51. (1) An appeal against the assessment or levy of any tax under this Regulation shall lie to the District Magistrate unless he is a member of the committee, in which case the appeal shall be to the Commissioner or other officer empowered by the Chief Commissioner in this behalf.

(2) The order of the appellate authority shall be final.

52. (1) No appeal shall lie in respect of a tax on any building or land unless it is preferred within two months after the publication of the notice prescribed by section 58, and no appeal shall lie in respect of any other tax unless it is preferred within two months from the time when the demand for the tax is made:

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this section if the appellant satisfies the officer before whom the appeal is preferred that he had sufficient cause for not presenting the appeal within that period.

(2) No appeal shall be entertained unless the amount of the tax to which it relates is deposited with the committee before the appeal is preferred.

The Ajmere Municipalities Regulation, 1886.
(Chapter III.—Taxation.—Sections 53-61.)

53. No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority than in this Regulation is provided.

54. All taxes leviable in any local area under the North-Western Provinces and Oudh Municipalities Act, 1873, at the time when a committee having authority over that local area comes into existence under this Regulation, shall, so far as their imposition and assessment are consistent with this Regulation and within the powers conferred thereby, be deemed to have been imposed and assessed under this Regulation.

Taxes on Immovable Property.

55. (1) The committee shall cause an assessment-list of all buildings and lands on which any tax is imposed to be prepared, containing—

- (a) the name of the street or division in which the property is situate;
- (b) the designation of the property, either by name or by number, sufficient for identification;
- (c) the names of the owner and occupier, if known;
- (d) the annual value on which the property is assessed; and
- (e) the amount of the tax assessed thereon by the committee.

(2) For the purpose of preparing the list, the committee may require the owners or occupiers of the buildings or lands to furnish it with returns of annual value.

56. When the assessment-list has been completed, the committee shall give public notice thereof and of the place where the list or a copy thereof may be inspected; and every person claiming to be either owner or occupier of property included in the list, or the agent of any such person, shall be at liberty to inspect the list and to make extracts therefrom without charge.

57. (1) The committee shall at the same time give public notice of a time, not less than one month from the publication of the notice, when it will proceed to revise the valuation and assessment; and in all cases in which any property is for the first time assessed, or the assessment thereof is increased, it shall also give notice thereof to the owner or occupier of the property.

(2) All objections to the valuation and assessment shall be made in writing before the time fixed in the notice, or orally or in writing at that time.

58. (1) After the objections have been enquired into and the persons making them have been allowed an opportunity of being heard either in person

or by authorized agent as they think fit, and the revision of the valuation and assessment has been completed, the amendments made in the list shall be authenticated by the signatures of not less than two members of the committee, who shall at the same time certify that no valid objection has been made to the valuation and assessment contained in the list, except in the cases in which amendments have been entered therein; and, subject to such amendments as may thereafter be duly made, the tax so assessed shall be deemed to be the tax for the whole year by which it is leviable next following that in which the assessment is made.

(2) The list when amended under this section shall be deposited in the committee's office, and shall there be open during office-hours to all owners and occupiers of property comprised therein, and a public notice that it is so open shall forthwith be published.

59. (1) The committee may at any time amend the list by inserting the name of any person whose name ought to be inserted, or by inserting any property which ought to have been inserted, or by altering the assessment on any property which has been insufficiently valued or assessed through mistake, oversight or fraud, after giving notice, to any person interested in the amendment, of a time, not less than one month from the date of service of such notice, at which the amendment is to be made.

(2) Any person interested in any such amendment may tender his objection to the committee in writing before the time fixed in the notice, or orally or in writing at that time, and shall be allowed an opportunity of being heard in support of the same in person or by authorized agent as he thinks fit.

60. It shall be in the discretion of the committee to prepare a new assessment-list every year; or to adopt the valuation and assessment contained in the list for any year, with such alterations as may in particular cases be deemed necessary, as the valuation and assessment for the year following, giving the same notice of the valuation and assessment as if a new assessment-list had been prepared.

61. (1) When a tax payable under section 41, sub-section (1), clause (a), unoccupied immovable or under section 42 or section 43, is payable in one sum in respect of an entire year, and the property in respect of which it is payable is unoccupied throughout the year, or when such a tax is payable in instalments and the property is unoccupied throughout the period in respect of which an instalment is payable, the amount payable in respect of the property for the year, or the instalment, as the case may be, shall be remitted:

Provided that it shall be in the discretion of the committee to direct that no remission shall be granted unless notice in writing of the vacancy has been given to it within such time from the beginning of the year or of the period as it may, from time to time, fix in this behalf.

The Ajmere Municipalities Regulation, 1886.
(Chapter III.—Taxation.—Sections 62-67.—Chapter IV.—Municipal Fund and Property.—Sections 68-69.)

(2) When in any case not provided for by the foregoing part of this section a building in respect of which a tax is payable under section 41, sub-section (1), clause (a), or under section 42 or section 43, is wholly or in greater part demolished or destroyed by fire or otherwise, the committee may remit such proportion of the tax as it thinks equitable.

62. (1) A tax payable under section 41, sub-section (1), clause (a), shall be paid by the owner of the property in respect of which it is payable.

(2) A tax payable under section 42 or section 43 shall be paid by the occupier of the property in respect of which it is payable.

63. (1) When any sum is due on account of a tax payable under this Regulation in respect of any property by the owner thereof, the committee shall cause a bill for the amount, stating the property and the period for which the charge is made, to be presented to the person liable to pay the same.

(2) If the bill is not paid within one month from the presentation thereof, the sum due shall be deemed to be an arrear of tax.

(3) The amount of every such arrear may be recovered, on the application of the committee, by the officer discharging the functions of a Collector under the Ajmere Land and Revenue Regulation, 1877, in the part of the territories administered by the Chief Commissioner in which the municipality is situate, as if the property were an estate assessed to land-revenue, and the arrear were an arrear of such revenue due thereon:

• Provided that nothing in this sub-section shall authorise the arrest of a defaulter.

Octroi and Tolls.

64. If any person, bringing or receiving a conveyance or package within the octroi-limits of a municipality in which octroi is leviable, refuses, on the demand of an officer authorised by the committee in this behalf, to permit the officer to inspect the contents of the conveyance or package for the purpose of ascertaining whether it contains any articles in respect of which octroi is payable, the officer may cause the conveyance or package to be taken without unnecessary delay before a Magistrate, who shall cause the inspection to be made in his presence.

65. Every person bringing or receiving within the octroi-limits of any municipality any article on which octroi is payable shall, when required by an officer authorized by the committee in this behalf, and so far as may be necessary for ascertaining the amount of tax chargeable,—

(a) permit that officer to inspect, examine, weigh and otherwise deal with the article; and

(b) communicate to that officer any information and exhibit to him any bill, invoice or document of a like nature which he may possess relating to the article.

66. Every officer demanding octroi by the authority of the committee shall tender to every person introducing or receiving any article on which the tax is claimed a bill specifying the article taxable, the amount claimed and the rate at which the tax is calculated.

67. (1) In case of non-payment of any octroi or of any toll on demand, the officer empowered to collect the same may seize any article on which the octroi is chargeable, or any vehicle or animal on which the toll is chargeable, or any part of its burden of sufficient value to satisfy the demand.

(2) The committee may cause any property so seized, or so much thereof as is necessary, to be sold by auction to satisfy the demand, with the expenses occasioned by the seizure, custody and sale thereof, unless the demand and expenses are in the meantime paid, after the lapse of five days from the seizure, and after the issue of a proclamation fixing the time and place of sale.

Provided that, by order of the chairman or a vice-chairman, articles of a perishable nature which could not be kept for five days without serious risk of damage may be sold after the lapse of such shorter time as the chairman or vice-chairman may, having regard to the nature of the articles, think proper.

CHAPTER IV.

MUNICIPAL FUND AND PROPERTY.

68. There shall be formed for each municipality a municipal fund, and there shall be placed to the credit thereof—

(a) all sums received by or on behalf of the committee under this Regulation or otherwise;

(b) all fines realized in cases in which prosecutions are instituted under this Regulation or the rules made hereunder or under section 34 of Act V of 1861 for offences committed within the municipality; and

(c) when there has been included within the municipality any municipality constituted under the North-Western Provinces and Oudh Municipalities Act, 1873, the balance (if any) standing at the credit of the municipal fund of that municipality at the time when the committee comes into existence.

69. (1) The committee shall set apart and apply annually out of the municipal fund—

*The Ajmere Municipalities Regulation, 1886.**(Chapter IV.—Municipal Fund and Property.—Sections 70-72.—Chapter V.—Municipal Police.—Sections 73-76.)*

(c) *thirdly*, such sum as may be required to pay the expenses of pauper lunatics sent to public asylums from the municipality, the expenses incurred in auditing the accounts of the committee, and such portion of the cost of the Provincial Departments for Education, Sanitation, Vaccination, Medical Relief and Public Works as may be held by the Chief Commissioner to be equitably debitable to the committee in return for services rendered to it by those Departments.

(2) Subject to the charges specified in sub-section (1) and to such rules as the Chief Commissioner may make with respect to the priority to be given to the several duties of the committee, the municipal fund shall be applicable to the payment, in whole or in part, of the charges and expenses incidental to the following matters within the municipality, and, with the sanction of the Commissioner, outside the municipality, when such application of the fund is for the benefit of the inhabitants of the municipality, namely:—

- (j) the holding of fairs and industrial exhibitions; and
- (k) all acts and things likely to promote the safety, health, welfare or convenience of the inhabitants.

70. (1) In places where there is a Government treasury or sub-treasury, the municipal fund shall be kept in the treasury or sub-treasury.

(2) In places where there is no such treasury or sub-treasury, the municipal fund may be deposited with any banker, or person acting as a banker, who has given such security for the safe custody and repayment on demand of the fund so deposited as the Chief Commissioner may in each case think sufficient.

71. (1) A committee may, from time to time, with the previous sanction of the Chief Commissioner, invest any portion of its municipal fund in securities of the Government of India or such other securities as the Governor General in Council may, from time to time, approve in this behalf, and vary such investments for others of a like nature.

(2) The income resulting from the securities and the proceeds of the sale of the same shall be credited to the municipal fund.

72. The management, control and administration of every public institution maintained out of the municipal fund shall vest in the committee:

Provided that the extent of the independent authority of the committee in respect of any such institution may be prescribed by the Chief Commissioner.

CHAPTER V.

MUNICIPAL POLICE.

73. Every committee shall maintain a police-establishment for watch and ward, and the prevention and suppression of nuisances, within the municipality, and for the enforcement of this Regulation and the rules made thereunder, and of the orders of the committee.

74. The establishment maintained under section 73 shall, as the committee with the approval of the Chief Commissioner may direct, be either a body of watchmen or a part of the general police-force under the Local Government within the meaning of section 2 of Act V of 1861; and it shall consist of such number of officers and men, and the officers and men shall receive such pay, leave-allowances, gratuities and pensions, as the committee may, from time to time, after consultation with the District Magistrate and the Commissioner, and subject to the final decision of the Chief Commissioner, direct.

75. If the establishment maintained under section 73 is a body of watchmen, the watchmen shall be appointed and promoted, and shall be liable to dismissal, suspension, reduction or fine, under such rules as the Chief Commissioner may make in this behalf; and shall perform such duties, and be liable to such penalties, as village-watchmen appointed under the Panjab Laws Act, 1872, as amended by the Panjab Laws Amendment Act, 1875, perform and are liable to.

76. If the establishment is part of the general police-force, the Chief Commissioner may, notwithstanding any thing contained in Act V of 1861 or in any other

The Ajmere Municipalities Regulation, 1886.
(Chapter V.—Municipal Police.—Section 77.—Chapter VI.—Power for
Sanitary and other Purposes.—Sections 78-85.)

Act for the time being in force, define the duties which the officers and men of the establishment may or may not be required to perform.

77. In any municipality in which section 34 of Act V of 1861 is in force, every watchman under this Regulation shall have the powers of a police-officer under that section.

CHAPTER VI.

POWER FOR SANITARY AND OTHER PURPOSES.

Streets and Buildings.

78. When any land is required for a new street or for the improvement of an existing street, the committee may proceed to acquire, in addition to the land to be occupied by the street, any land unoccupied by buildings which is, in the opinion of the committee, necessary for the sites of the buildings to be erected on the sides of the street.

79. The committee may close temporarily any street or any part thereof for the purpose of repairs, or for the purpose of constructing or repairing any sewer, drain, culvert or bridge, or for any other public purpose; and may divert, discontinue or permanently close any such street.

80. The committee may grant permission in writing for the temporary occupation of any street or of any land under its control or management, for the purpose of depositing any building materials or making any temporary excavation therein or erection thereon, subject to such conditions as it may prescribe for the safety or convenience of persons passing by or dwelling or working in the neighbourhood, and may charge fees for such permission, and may at its discretion withdraw the permission.

81. The committee may attach to the outside of any building brackets for lamps in such manner as not to occasion any injury thereto or inconvenience.

82. (1) The committee at a meeting may cause a name to be given to any street, and to be affixed on any building in such place as it thinks fit, and may also cause a number to be affixed to any building; and in like manner may, from time to time, cause such names and numbers to be altered.

(2) Whoever destroys, pulls down or defaces any such name or number, or puts up any different name or number from that put up by order of the committee, shall be punished with fine which may extend to twenty rupees.

83. The committee at a meeting may direct that within certain limits, to be fixed by it, the roofs and external walls of huts or other buildings shall not be made or renewed of grass, mats, leaves or other highly inflammable materials unless with the permission of the committee in writing; and the committee may, by written notice, require any person who has disobeyed any such direction to remove or alter the

roofs or walls so made or renewed as it may think fit.

84. (1) If any building or part of a building projects beyond the regular line of a street either existing or determined on for the future, or beyond the front of the building on either side thereof, the committee may, whenever the building or part has been either entirely or in greater part taken down or burnt down, or has fallen down, by notice require the building or part, when being re-built, to be set back to or towards the said regular line or the front of the adjoining buildings; and the portion of the land added to the street by such setting back shall become part of the street and shall vest in the committee:

Provided that the committee shall make full compensation to the owner for any damage he may sustain in consequence of his building or any part thereof being set back.

(2) The committee may, on such terms as it thinks fit, allow any building to be set forward for the improvement of the line of the street.

85. (1) Every person intending to erect or re-erect any building shall, if required to do so by rule made by the committee in this behalf, give notice in writing of his intention to the committee, and shall, if required to do so, submit a plan showing the levels at which the foundation and lowest floor are proposed to be laid, and specifications of the works intended to be constructed, and the materials to be used, and shall obey all written directions consistent with this Regulation given by the committee within one month after receiving such notice, either prohibiting the erection or re-erection, if deemed likely to be injurious to the inhabitants of the neighbourhood, or in respect of all or any of the matters following, namely:—

- (a) free passage or way in front of the building;
- (b) space to be left about the building to secure free circulation of air and facilitate scavenging;
- (c) ventilation and drainage;
- (d) level and width of foundation, level of lowest floor and stability of structure; and
- (e) the line of frontage with neighbouring buildings, if the building abuts on a street

Provided that the committee shall make full compensation to the owner for any damage he may sustain in consequence of the prohibition of the erection or re-erection of any building, or of its requiring any land belonging to him to be added to the street.

(2) If any such building is begun or erected without giving notice, or without submitting particulars as aforesaid, when required, or in contravention of the legal orders of the committee issued within one month, the committee may by notice require the building to be altered or demolished, as it may deem necessary.

Explanation.—The expression "erect any building" includes all additions and alterations which involve new foundations or increased superstructure on existing foundations, or the conversion

(Chapter VI.—Power for Sanitary and other Purposes.—Sections 86-93.)

into a dwelling-house of any building not originally constructed for human habitation, or the conversion into more than one dwelling-house of a building originally constructed as one dwelling-house only.

86. (1) It shall not be lawful, unless with the written permission of the committee, for the owner or occupier of any building in a street to add to, or place against or in front of, the building any projection or structure overhanging, projecting into or encroaching on the street or into or on any drain, sewer or aqueduct therein.

(2) The committee may, by notice, require the owner or occupier of any building to remove or alter any projection, encroachment or obstruction built or placed against or in front thereof if the same overhangs or projects into or encroaches on any street, or projects into or encroaches on any drain, aqueduct or sewer in the street:

CHAPTER I.

PRELIMINARY.

1. (1) This Act may be called the Oudh Rent Act, 1886.

(3) It shall come into force on the first day of January, 1887.

(4) Any power conferred by this Act on the Chief Commissioner to make rules, or to issue orders, may be exercised at any time after the passing of this Act; but a rule or order so made or issued shall not take effect until the Act comes into force.

*The Oudh Rent Act, 1886.**(Chapter I.—Preliminary.—Sections 2-4.—Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Section 5.)*

2. (1) The Oudh Rent Act, XIX of 1868, is hereby repealed, but all notifications published and rules made under that Act shall, so far as may be, be deemed to have been published and made under this Act.

(2) The following enactments also are hereby repealed, namely:—

(2) Nothing in any contract made between a landlord and a tenant after the passing of this Act shall take away or limit the right of a tenant, as provided by this Act, to make improvements and claim compensation for them.

(3) Where land not previously cultivated has been or is hereafter let by a landlord to a tenant, either after being reclaimed by or at the expense of the landlord or for the purpose of being reclaimed by the tenant, nothing in this section shall be construed to affect the conditions of any contract relating to that land until fourteen years have elapsed from the date on which the land was first brought under cultivation.

(4) Where land has remained uncultivated during a period of seven years, it shall for the purposes of the last foregoing sub-section be deemed to have not been previously cultivated.

(5) This section does not apply to tenants having a right of occupancy or to sub-tenants.

CHAPTER II.

OF CERTAIN RIGHTS AND LIABILITIES OF LANDLORDS, UNDER-PROPRIETORS AND TENANTS.

Right of Occupancy.

5. Tenants who have lost all proprietary right, whether superior or subordinate, in the lands which they hold or cultivate, shall, so long as they pay the rent payable for those lands according to the provisions of this Act, have a right of occupancy under the following rule:—

Every such tenant who, within thirty years next before the thirteenth day of February, 1856, has been, either by himself, or by himself and some other person from whom he has inherited, in possession as proprietor in a village or estate shall be deemed to possess a heritable but not a transferable right of occupancy in the land which he cultivated or held in such village or estate on the twenty-fourth day of August, 1866: provided that such land has not come into his occupation, or the occupation of the person from whom he has inherited, for the first time since the said thirteenth day of February, 1856: provided also that no such tenant shall have a right of occupancy in any village or estate in which he or any co-sharer with him possesses any under-proprietary right.

Nothing contained in the former part of this section shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1868.

*The Oudh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 6-15.)*

6. Nothing in the last foregoing section shall be construed to restrict the power of a landlord to confer by registered document on any persons other than those mentioned in that section a right of occupancy in the lands which they hold or cultivate.

7. If a tenant having a right of occupancy is ejected, in accordance with the provisions of section 52, from the land in which he possesses the right, he shall thereupon lose his right of occupancy in that land.

Tenants' Right to Pattas.

8. Every tenant is entitled to receive from his landlord a patta or memorandum of the terms of the tenancy, signed by the landlord or his authorized agent, and containing the following particulars, namely:—

- (a) the quantity of land and, where the fields comprised in the patta have been numbered in a Government survey, the number of each field;
- (b) the term for which the tenancy is to run;
- (c) the amount of rent payable;
- (d) the instalments in which and the times at which that amount is to be paid;
- (e) any special conditions not inconsistent with the provisions of this Act; and
- (f) if the rent is payable in kind, the proportion of produce to be delivered, and the time, manner and place of delivery.

9. Tenants having a right of occupancy are entitled to receive pattas at rates of rent determined in accordance with the provisions of Chapter IV, Part A, of this Act.

10. Tenants not having a right of occupancy are entitled to pattas for the terms and at the rates prescribed in Chapter IV, Part B, of this Act.

Landlords' Right to Counterparts.

11. Every landlord who grants a patta is entitled to receive from the tenant a counterpart signed by or on behalf of the tenant.

Arrears of Revenue or Rent.

12. Any instalment of revenue or rent which is not paid on or before the day when it becomes due, whether under a written agreement or according to law or local usage, shall be deemed to be, for the purposes of this Act, an arrear of revenue or rent, as the case may be:

Provided that, unless the proprietor and under-proprietor have otherwise agreed in writing, the rent payable to the former by the latter shall be held to become due one month before the date fixed for the payment of the revenue on account of the village in which the land in respect of which the rent is payable is situate, and to be payable in the same number of instalments as the revenue; and the amount of each instalment of the rent shall bear the same proportion to the whole of the rent

payable for the year as the amount of each instalment of the revenue bears to the whole of the revenue payable for the year.

Receipts.

13. (1) Every receipt for rent shall specify the year or years on account of which the rent has been paid; and any refusal to make that specification shall be held to be a withholding of a receipt.

(2) If a receipt for rent paid by an under-proprietor or tenant is withheld from him without sufficient cause, he may recover compensation from the landlord up to an amount not exceeding that of the rent paid.

Deposit of Revenue or Rent in Court without Suit.

14. (1) If a co-sharer, under-proprietor or tenant from whom any revenue or rent is due in respect of the land held or cultivated by him, tenders the full amount of that revenue or rent at the usual place of payment to the person authorized to receive it, and that person does not accept the amount and forthwith give a receipt in full therefor, the co-sharer, under-proprietor or tenant may, without any suit having been instituted against him, deposit the amount in Court to the credit of the person authorized to receive it.

(2) The deposit shall, so far as regards the co-sharer, under-proprietor or tenant, and all persons claiming through or under him, operate as a payment then made to the *lambardar* or landlord of the amount so deposited.

15. (1) The Court shall receive the deposit on the written application of the co-sharer, under-proprietor or tenant, or his recognized agent; and on the applicant making a declaration in the form set forth in Schedule A to this Act, or as near thereto as circumstances will admit, the Court shall give him a receipt for the deposit.

(2) The declaration shall be verified in the manner prescribed for the verification of plaints by section 52 of the Code of Civil Procedure, and shall be signed by the person making it.

(3) Upon receiving the deposit, the Court shall issue to the person to whose credit it has been paid a notice in the form set forth in Schedule B to this Act.

(4) The notice shall be served by the proper officer without the payment of any fee.

(5) If the person to whose credit the deposit has been paid, or his recognized agent, appears and applies for it, the Court shall cause it to be paid to him.

(6) The application under sub-section (5) may be on plain paper.

16. Where a deposit has been made under the provisions of the two last foregoing sections, a suit shall not be brought against the depositor or his representative on account of any revenue or rent which accrued due in respect of the land last hereinbefore mentioned prior to the date of the deposit, unless the suit is instituted within six months from the date of the service of the notice mentioned in section 15.

*The Oudh Rent Act, 1886.**(Chapter II—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 17-24.)**Illegal Enforcement of Payment of Rent.*

17. (1) If payment of rent or of any sum in excess of the rent legally claimable is illegally enforced, and any under-proprietor or tenant institutes a suit to recover compensation for the illegal enforcement of the payment, the Court may award to him compensation, not exceeding the sum of two hundred rupees, in addition to any amount for which it makes a decree in respect of the payment itself.

(2) An award of compensation under sub-section (1) shall not bar any prosecution to which the person illegally enforcing the payment may be liable under any law for the time being in force.

Abatement of Rent.

18. Save as provided by section 29, sub-section (1), a suit for an abatement of the rent of a holding shall not be brought by an under-proprietor or tenant except on the ground that the area of the holding has diminished, or on some ground specified in a lease, agreement or decree under which he holds:

Provided that, if the under-proprietor holds a sub-settlement in a revenue-paying estate, an abatement shall not be allowed to the under-proprietor unless a remission of revenue has been allowed on the same ground and by competent authority in the same estate.

Remission of Rent.

19. (1) Notwithstanding anything in the last foregoing section, a Court, when it makes a decree for an arrear of rent, may, with the previous sanction of the Deputy Commissioner, allow such remission from the rent payable by any under-proprietor or tenant as appears equitable, if the area of the land in his occupation has been materially diminished by diluvion or otherwise, or if the produce of that land has been diminished by drought, hail or other calamity beyond his control, to such an extent that the full amount of rent payable by him cannot, in the opinion of the Court, be paid.

(2) Where a remission of rent under this section causes a material diminution of the assets of the landlord or the village in which the remission is given, the revenue-authorities shall take into consideration any claim made by the landlord for a remission of revenue.

(3) A remission shall not be allowed under this section to an under-proprietor holding a sub-settlement, or to a tenant having a right of occupation, unless a remission of revenue has been allowed on the same ground and by competent authority in the same village.

Relinquishment of Land.

20. (1) A tenant shall continue liable for the rent of the land in his holding unless on or before the fifteenth day of March in any year he gives to the landlord or to the recognized agent of the landlord notice in writing of his desire to relinquish that land, and relinquishes it accordingly.

(2) If the landlord or his recognized agent refuses to receive the notice or to sign and deliver

a receipt therefor, the tenant may, before the latest date prescribed for giving the notice, apply on plain paper to the tahsildar or proper officer, and written notice of the desire of the tenant to relinquish the land shall then be served on the landlord at the expense of the tenant.

(3) A tenant cannot without the consent of his landlord relinquish a part only of his holding.

(4) Nothing in this section shall entitle a tenant holding under a registered document under section 69 to relinquish his holding otherwise than in accordance with the terms of that document.

21. (1) If a tenant abandons his holding without informing his landlord and without arranging for the cultivation of the holding, the landlord may at any time after the fifteenth day of May enter on the holding.

(2) Before a landlord enters on a holding under sub-section (1), he shall file a notice in the prescribed form at the office of the tahsildar for service on the tenant stating that he has treated the holding as abandoned and is about to enter on it accordingly.

(3) When a landlord enters on a holding under sub-section (1), the tenant may institute a suit under this Act to recover possession of the holding, and the Court shall, on being satisfied that the tenant did not voluntarily abandon the holding, order recovery of possession on such terms with respect to the time of delivery of possession, the payment of arrears of rent, if any, and, if injury has been caused by the wrongful act, neglect or default of any party to the proceeding, with respect also to the payment of compensation by that party, as to the Court may seem just.

Compensation for Tenants' Improvements.

22. (1) If a tenant, or a person from whom he has inherited, has made any such improvement on his holding as is hereinafter mentioned, neither he nor his representative shall be ejected from the holding unless and until he or his representative, as the case may be, has received compensation for the improvement:

Provided that compensation shall not be payable for any improvement made thirty years or more before the date on which the ejectment is to take effect.

(2) An improvement made by a tenant for the benefit of his holding on land belonging to the person who is entitled to receive the rent of the holding shall for the purposes of this section be deemed to have been made on the holding of the tenant.

23. Except as provided in the next following section, a tenant shall not be entitled to claim compensation for an improvement made subsequently to the passing of this Act without the written consent of the landlord.

24. (1) If a tenant applies for the written consent of his landlord to the making of an improvement on his holding, and the landlord omits or refuses to grant it, the tenant may apply to the Deputy Commissioner for permission to make the improvement.

*The Outh Rent Act, 1886.**(Chapter II.—Of certain Rights and Liabilities of Landlords, Under-proprietors and Tenants.—Sections 25-30.)**(Chapter III.—Payment of Rent in kind.—Sections 31-32.)*

(2) When an application is made to the Deputy Commissioner under sub-section (1), he shall take into consideration any objections which the landlord may have to urge on either of the following grounds, namely:—

(a) that the improvement is too costly or is unsuitable to the nature of the tenant's holding, or

(b) that the landlord is himself prepared to make the improvement,

and shall then either grant the permission on such conditions as he considers fair and equitable or refuse the application.

25. (1) If either the landlord or the tenant desires the amount of compensation on improvements, executed with the sanction of the Deputy Commissioner under the last foregoing section to be determined and registered, the Deputy Commissioner shall, on application made to him for the purpose, determine the amount of the outlay, and enter it in a register kept in the presence of both.

(2) The entry in the register shall be a sufficient proof of the amount of the outlay, and any subsequent proceedings respecting the cost of the improvement.

26. The word "improvement", as used in this Act, means any work by which the amount of the value of land has been, and at the time of a demand for compensation, continues to be, increased, and comprises—

(a) the construction of works for the storage of water, for the supply of water for agricultural purposes, for drainage and for protection against floods; the construction of wells; the reclamation of waste land and jungle; and other works of a like nature;

(b) the renewal or reconstruction of any of the foregoing works, or such alterations therein or additions thereto as are not required for the maintenance thereof and increase durably their value.

27. In estimating the compensation to which a tenant is entitled for an improvement regard shall be had—

(a) to the amount by which the value, or the produce, of the holding, or the value of that produce, is increased by the improvement;

(b) to the condition of the improvement and the probable duration of its effects;

(c) to the labour and capital required for the making of such an improvement;

(d) to any reduction or remission of rent or any other advantage given by the landlord to the tenant in consideration of the improvement; and

(e) in the case of a reclamation, or of the conversion of unirrigated into irrigated land, to the length of time during which the tenant has had the benefit of the

28. When a Court has assessed the amount of the compensation due to a tenant, it may, if both landlord and tenant desire that the compensation assessed, instead of being paid wholly in money, shall be made wholly or partly in some other way, proceed to give judgment according to the terms agreed upon between them.

29. (1) A landlord may make an improvement on the holding of a tenant not having a right of occupancy with or without the consent of the tenant.

(2) A landlord intending to make an improvement shall, if any part thereof is to be made on the holding of any such tenant, give notice of his intention to the tenant through the tahsildar.

(3) A landlord making an improvement on the holding of any such tenant shall be liable to compensate the tenant for any loss which he may cause to the tenant when making it.

(4) If the effect of the improvement is to impair the productive powers of the holding, the tenant shall, in addition to any compensation which may be awarded to him under sub-section (3), be entitled to such abatement of his rent as to the Court seems just.

(5) A landlord may not make an improvement on the holding of a tenant with a right of occupancy without the consent of the tenant.

Survey and Measurement.

30. A landlord and his agents and surveyors may at all reasonable times enter upon any land comprised in his estate for the purpose of surveying and measuring the land.

CHAPTER III.

PAYMENT OF RENT IN KIND.

31. Where rent is taken by division of the produce in kind, or by estimate or appraisement of the standing crop, or other proceeding of a similar nature requiring the presence of both the tenant and the landlord either personally or by recognized agent, if either party neglects to be present at the proper time, or if a dispute arises between the parties regarding the division, estimate, appraisement or proceeding, either party may present an application to the Court, requesting that a proper officer be deputed to make the division, estimate or appraisement or conduct the proceeding.

32. (1) On receiving the application, the Court shall issue a written notice to the other party to attend at a time and place specified in the notice, and shall depute an officer before whom the division, estimate or appraisement shall be made or the proceeding conducted.

(2) The award of that officer in respect of the division, estimate, appraisement or proceeding shall be final, unless, within one month from the date thereof, either party institutes a suit to set it

*The Oudh Rent Act, 1886.**Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 33-41.)*

CHAPTER IV.

ENHANCEMENT AND FIXING RATES OF RENT.

Part A.—Tenants with Right of Occupancy.

33. (1) A tenant having a right of occupancy in any land shall not, in case of dispute as to the rent to be paid in respect of the land, be liable to an enhancement of the rent except in pursuance of a decree made under this Act on some one of the following grounds, namely:—

1st ground.—That the rate of rent paid by him is below the rate of rent usually paid, by the same class of tenants having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate.

2nd ground.—That the rate of rent paid by him is more than twelve-and-a-half per cent. below the rate of rent usually paid, by tenants of the same class not having a right of occupancy, for land of a similar description and with similar advantages, situate in the same village.

Rule.—In this case the Court shall enhance his rent to such amount as the plaintiff demands, not exceeding that rate, less twelve-and-a-half per cent.

3rd ground.—That the quantity of land held by him exceeds the quantity for which he has previously paid rent.

Rule.—In this case the Court shall decree rent for the land in excess, at rates to be fixed by the first or the second of the rules contained in this section, as the case may be.

(2). Nothing in sub-section (1) shall affect the terms of any agreement in writing entered into between a landlord and tenant after the twenty-second day of July, 1888.

34. After a decision has been passed in accordance with the last foregoing section, a suit shall not lie for re-enhancement of the rent until the expiration of five years from the date of the decision, except on the 3rd ground mentioned in that section, or, in the case referred to in the next following section, until, by re-assessment within the term of five years, the revenue of the land has been increased.

35. If, on a re-assessment of the revenue, the rent of the tenant cannot be enhanced under section 33 by reason of the absence of the grounds therein mentioned, the landlord may institute a suit to enhance the rent to a sum not exceeding double the average amount of the revenue imposed at the re-assessment upon land of a similar description and with similar advantages held by tenants of the same class in the same village.

Part B.—Other Tenants.

36. Every tenant, not being a tenant with a right of occupancy or a sub-tenant, shall be entitled to retain possession of the holding occupied by him at the time of the passing of this Act, at the rent then payable by him, for a period of seven years from the date of the last change in his rent or of

the last alteration in the area of the holding, or, where no such change or alteration has taken place, from the date on which the tenant was admitted to the occupation of the holding.

37. Every such tenant who may be admitted to the occupation of a holding after the passing of this Act shall be entitled to retain the same for a period of seven years from the date of his admission at a rent agreed upon with the landlord in accordance with the provisions of this Act; and every such tenant, in the area of whose holding or in the amount of whose rent any change is made by the landlord subsequently to the passing of this Act, shall be deemed to be admitted to the occupation of a holding within the meaning of this section.

Explanation I.—“Holding” means a parcel or parcels of land held by a tenant and forming the subject of a separate engagement. The engagement may be express or implied.

Explanation II.—This section and section 33 have effect subject to the provisions of section 4, sub-sections (2) and (3), relating to land not previously cultivated, and subject also to section 157, excluding certain classes of land from the operation of certain sections of this Act.

38. (1) A landlord may enhance the rent of a tenant to whom section 36 or section 37 applies, either by contract in accordance with the provisions of this section or by notice as hereinafter provided.

(2) Subject to the provisions of sections 19 and 50, the enhancement shall not in any case exceed one anna in the rupee, or six-and-a-quarter per cent., on the annual rent payable by the tenant at the time when the contract was made or the notice was issued:

(3) Provided that, where rent is paid in kind, the proportion of produce paid as rent by a tenant shall not be subject to increase except in accordance with an established custom of the pargana in which the land is situate.

39. If a landlord desires that the rent of a tenant to whom section 36 or section 37 applies be enhanced on the expiration of the term of seven years referred to in section 36 or section 37, as the case may be, or at any time during the currency of that term in the case mentioned in section 50, he may cause a notice to that effect to be served under section 12.

40. (1) A notice whereby enhancement is claimed on account of the expiration of the period of the tenancy shall not be served before the commencement of the last year of the tenancy.

(2) A notice of enhancement on account of an improvement made or acquired by the landlord may be served at any time during the currency of the tenancy.

41. The notice shall be written in Hindi and Urdu, and shall specify the land, the amount of the present rent and the amount of the enhancement, and require the tenant, if he refuses to pay the enhancement, to vacate the land by the fifteenth day of May next following, or to institute a suit

*The Oudh Rent Act, 1886.**(Chapter IV.—Enhancement and fixing Rates of Rent.—Sections 42-51)*

in the proper Court to contest the notice of enhancement within thirty days from the date of the service thereof.

42. On the application of the landlord to the tahsildar or other prescribed officer the notice shall be served by the officer on or before the fifteenth day of February at the expense of the landlord.

43. The tenant may institute a suit to contest the notice of enhancement, within thirty days from the date of the service thereof, on any of the following grounds, namely:—

- (a) that he has a right of occupancy in the land specified in the notice;
- (b) that he holds under a special agreement or decree of Court or lease under the terms of which his rent is not liable to enhancement;
- (c) that the enhancement claimed is in excess of the rate authorized by law;
- (d) that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37 equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- (e) that the notice has not been served in the manner required by this Act;
- (f) that, where the enhancement claimed is on account of an improvement, the amount claimed is excessive.

44. (1) If the tenant does not contest the notice of enhancement and remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, he shall become liable for the enhanced rent.

(2) If the tenant contests the notice, and the validity thereof is maintained by the Court in whole or in part, he shall, if he remains in possession of the land after the fifteenth day of May next following the date of the service of the notice, become liable for the enhanced rent to the extent to which the Court has maintained the validity of the notice.

45. If the tenant by remaining in possession of the land under the last foregoing section becomes liable for enhanced rent, he shall be entitled to hold the land at that rent for a further period of seven years.

46. If the tenant refuses to accept the enhancement claimed or decreed and vacates the holding, he shall be entitled to recover by separate suit from the landlord compensation for any improvements made by him on the holding.

47. (1) Except in the cases mentioned in sections 49 and 50, the rent of a tenant admitted to the occupation of any land the tenancy of which has determined according to the provisions of this Act shall not exceed by more than one anna in the rupee, or six-and-

a-quarter per cent., the rent payable by the tenant immediately preceding him.

(2) In the case of a tenant admitted to the occupation of a holding of which the rent has been immediately before his admission paid in kind, the rent payable shall, subject to any established custom of the pargana in which the holding is situate, be either the rent payable by the tenant immediately preceding him, or a sum which, subject to the provisions of sections 49 and 50, shall not exceed by more than six-and-a-quarter per cent. the equivalent of the value of the produce annually paid as rent on the average of the three years immediately preceding.

48. (1) The heir of a tenant who dies during the currency of the tenancy of a holding shall be entitled to retain occupation of the holding at the rent payable by the deceased for the unexpired portion of the period for which the deceased tenant might have held without liability to enhancement or ejectment, and to receive compensation under the provisions of this Act for improvements, if any, made on the holding by himself or his predecessor in interest, but shall not be entitled to a renewal of the tenancy.

(2) Subject to any rights which he may have under section 22 as a representative of the deceased, a collateral relative who did not at the date of the death of the deceased share in the cultivation of the holding shall not be deemed to be an heir of the deceased within the meaning of this section.

49. The rent of a tenant admitted to the occupation of any land the tenancy of which has ceased in consequence of the death of a previous tenant, or of the ejectment of a thekedar or mortgagee from land of which he has taken cultivating possession during the period of his theka or mortgage, shall be such amount as may be agreed upon between him and the landlord.

50. (1) Nothing in the foregoing sections shall bar the right of a landlord to enhancement of rent on the ground that the productive powers of the land held by the tenant have been increased by an improvement which has been made by, or at the expense of, the landlord, or for which during the currency of the tenancy compensation has been accepted from the landlord by the owner of the improvement or, on the expiration of the tenancy, compensation has been paid in accordance with the determination of a Court under this Act.

(2) Where an enhancement is claimed on the ground of any such improvement, the Court, in determining the claim, shall have regard to—

- (a) the increase in the productive powers of the land caused, or likely to be caused, by the improvement;
- (b) the cost of the improvement; and
- (c) the cost of the cultivation required for the utilising of the improvement.

51. Notwithstanding anything in the foregoing sections, the Chief Commissioner may, by notification in the local official Gazette, vary from time to time, within periods of not less than seven years, the limits of the enhancement to which tenants to whom section 36 or section 37 applies are liable in any local area specified in the notification.

CHAPTER V.

EJECTMENT.

Tenants holding on special terms.

52. (1) A tenant having a right of occupancy in any land, or holding any land under a special agreement or decree of Court, shall not be ejected from that land otherwise than in execution of a decree for ejectment:

Provided that the decree for ejectment shall not be made, unless, at the date of that decree, a decree against the tenant for an arrear of rent in respect of the land has remained unsatisfied for fifteen days or upwards.

(2) A decree for the ejectment of a tenant holding under a special agreement or decree of Court may be made on such grounds as would justify ejectment under the agreement or decree.

Other Tenants.

53. A tenant not having a right of occupancy, and not holding under a special agreement or decree of Court, may be ejected by notice, application or suit under the following sections of this Chapter.

54. If a landlord desires to eject any such tenant on the expiration of his tenancy, he may cause a notice of ejectment to be served on the tenant under the next following section.

55. (1) The notice shall be written in Hindi and in Urdu; it shall be signed by the landlord or by an agent authorized by him in that behalf; it shall specify the land from which the tenant is to be ejected; it shall, if a court-fee is payable in respect thereof under this section, contain a certificate by the patwari as to the annual rent payable for the holding to which the notice relates; and it shall inform the tenant that he must either (a), if he means to dispute the ejectment, institute a suit for that purpose within thirty days from the date of the service of the notice, or (b) vacate the land on or before the fifteenth day of May next following.

(2) On the application of the landlord to the tahsildar or other prescribed officer, the notice shall, if the proper court-fee (where a court-fee is payable under this section) has been paid in respect thereof, be served on the tenant by the officer on or before the fifteenth day of November at the expense of the landlord.

(3) If the tenant on whom the notice is to be served is a tenant to whom section 36 or section 37 applies, there shall, except as provided by this sub-section and sub-section (4) and by section 69, be payable in respect of the notice a court-fee equal in value to half the annual rent payable for the holding of the tenant, or, in the case of a tenant paying rent in kind, a court-fee equal to half the value of the produce annually paid as rent on the average of the three years immediately preceding:

Provided that the court-fee shall not in any case exceed twenty-five rupees.

(4) A court-fee shall not be payable under sub-section (3) in respect of a notice on a person to whom section 48 applies.

(5) Stamps representing the court-fee shall be affixed on the notice before the notice and the application for the service thereof are presented to the tahsildar or other prescribed officer.

(6) The court-fee paid by a landlord under this section shall not in any circumstances be adjudged to be payable as costs or otherwise by the tenant.

56. (1) A tenant on whom a notice has been served under the last foregoing section may institute a suit to contest his liability to be ejected from the land specified therein on any of the following grounds, namely:—

- (a) that he has a right of occupancy in the land;
- (b) that he holds under a special agreement or decree of Court or unexpired lease under the terms of which he is not liable to be ejected from the land;
- (c) if he is a tenant to whom section 55, sub-section (3), applies, that the notice was insufficiently stamped;
- (d) if he is a tenant to whom section 36 or section 37 applies, that seven years will not have elapsed on the fifteenth day of May next following, since the date of any such change of rent or alteration of area as is under section 36 or section 37, as the case may be, equivalent to an admission to the occupation of a holding, or, where no such change or alteration has taken place, since the date on which he was admitted to the occupation of the holding;
- (e) if he is a tenant to whom section 53 applies, that notice of ejectment has not been served upon him in the manner required by this Act.

(2) A thekadār shall not be entitled to contest a notice of ejectment on any ground other than that he holds a lease under the terms of which he is not liable to ejectment.

57. If the tenant has any claim for compensation for improvements, if any, to be claimed in suit contesting liability to ejectment, he shall file with his plaint a statement of the claim and of the grounds on which it is based.

58. If the Court dismisses the suit in whole or in part, it shall determine the amount of the compensation, if any, due for improvements, and shall declare ejectment from the whole or part of the land, as the case may be, to be conditional on payment of that amount into Court.

59. If the tenant on whom notice of ejectment has been served fails, within thirty days from the date of the service, to institute a suit to contest his liability to be ejected, his tenancy of the land in respect of which the notice has been served shall cease on the fifteenth day of May next following, unless, after the service, the landlord has authorized him in writing to continue to occupy the land.

60. (1) If the landlord requires assistance to eject a tenant on whom he alleges a notice to have been served under section 55, he may apply for that assist-

*The Oudh Rent Act, 1886.**(Chapter V.—Ejectment.—Sections 61-66.—Chapter VI.—Supplemental Provisions respecting Tenancies.—Sections 67-69.)*

ance to the Court which would have had jurisdiction with respect to a suit by the tenant to contest his liability to be ejected under the notice, and that Court shall order the ejectment of the tenant if it is satisfied—

- (a) that a notice of ejectment was duly served on the tenant;
- (b) that the tenant has not brought a suit to contest the notice, or that, if a suit for that purpose has been brought, it has been determined adversely to the tenant;
- (c) that the tenant has not been authorised by the landlord in writing to continue to occupy the land.

(2) Nothing done by the Court under sub-section (1) shall affect the right of the tenant to institute a suit against his landlord on account of illegal ejectment and to recover compensation therefor.

61. (1) If a landlord desires to eject a tenant to whom section 53 applies and against whom a decree for an arrear of rent has been passed and remains unsatisfied, he may, after the first day of April of the year in which that arrear accrued, apply to the Deputy Commissioner to eject the tenant.

(2) The Deputy Commissioner shall, on receiving the application, cause a notice to be served on the tenant, stating the amount due under the decree, and informing him that if he does not pay that amount into Court within fifteen days from the receipt of the notice he will be ejected from his holding.

(3) If the amount is not so paid, the Deputy Commissioner shall, unless good cause is shown to the contrary, eject the tenant.

62. (1) A tenant to whom section 53 applies shall be liable to ejectment by suit during the currency of his tenancy on any of the following grounds, namely:—

- (a) that he has used the land comprised in his holding in a manner which renders it unfit for the purposes of his tenancy;
- (b) that at the time of the institution of the suit the entire holding has been sub-let;
- (c) where the rent is payable in kind, that his cultivation has diminished to a point which by the custom of the locality involves the forfeiture of the holding;
- (d) where the tenant holds, under an unexpired lease, land to which section 1, sub-sections (3) and (4), applies, then on any ground which would justify ejectment under the case.

(2) The tenant shall continue liable for the rent of the land until the decree is executed.

General.

63. Except in pursuance of an order under section 21, sub-section (3), a tenant shall not in any case, whether in execution of a decree or otherwise, be ejected from the land in his occupation, except between the first day of April and the thirtieth day of June in any year after the passing of this Act.

64. A thekadár liable to be ejected under the provisions of this Act may be ejected at any time during his tenancy.

65. In any suit for ejectment the defendant may file any claim for compensation for improvements which he may have against the plaintiff, and, if the Court finds the grounds on which the suit is brought to be valid, it shall determine the amount of compensation, if any, due from the plaintiff to the defendant, and shall pass a decree of ejectment conditional on the payment into Court of that amount.

66. A tenant ejected in accordance with the provisions of this Act shall be entitled to receive from the landlord the value of any growing crops or other ungathered products of the earth belonging to the tenant and being on the land at the time of his ejectment:

Provided that, if the land has been sown or planted by the tenant after service on him of a notice under section 55, he shall not be so entitled, unless, after that service, the landlord has authorized him in writing to continue to occupy the land.

CHAPTER VI.**SUPPLEMENTAL PROVISIONS RESPECTING TENANCIES.***Sir Lands.*

67. (1) The rights conferred upon tenants by sections 24, 36, 37, 38, 39, 43, 46, 47 and 48 shall not accrue to cultivators of any of the following lands, namely:—

- (a) land which for the seven years immediately preceding the passing of this Act has been continuously dealt with as sir in the distribution of proprietary or under-proprietary profits and charges;
- (b) land which for the seven years immediately preceding the passing of this Act has been continuously cultivated by the proprietor or under-proprietor himself or by his servants or by hired labour.

(2) Land which was recorded as sir at settlement and has been continuously so recorded since shall, until the contrary is proved, be presumed to be land of the class mentioned in clause (a) of section (1).

Thekadárs, Mortgagees and Sub-tenants.

68. (1) A person holding land as a thekadár, mortgagee or sub-tenant shall not, while so holding, acquire any of the rights enumerated in the last foregoing section in any of the land comprised in his theka, mortgage or sub-tenancy.

(2) A person having those rights in land does not lose them by subsequently taking a theka or mortgage in which his holding is comprised.

Long Leases.

69. (1) When a holding has been let by registered document for a term of eight years or upwards at a rent determined thereby for the whole of the term in accordance with the

*The Oudh Rent Act, 1886.**(Chapter VI.—Supplemental Provisions respecting Tenancies.—Sections 70-71.—Chapter VII.—Distress for Arrears of Rent.—Sections 72-79.)*

provisions of this Act to a tenant to whom section 36 or section 37 applies, the landlord shall, on the expiration of the term, be entitled to enhance the rent of the holding in accordance with the provisions of Chapter IV, Part B, and not otherwise; and shall also be entitled to eject the tenant by notice under section 55 without payment of a court-fee under that section:

Provided that any change in the rent or alteration in the area of the holding by the landlord during the term shall be a bar to enhancement and ejectment for seven years from the date of that change or alteration.

(2) In addition to the grounds mentioned in clauses (a), (b) and (c) of section 62, sub-section (1), a tenant to whom this section applies shall be liable to ejectment by suit during the currency of his tenancy on any ground which would justify ejectment under the registered document under which he holds.

Miscellaneous.

70. Where a tenant has received a patta, a statement that since the date of the patta his rent has been changed, or area of his holding altered, by the landlord, shall not be admissible in evidence unless the change or alteration is recorded in an entry on the patta signed by or on behalf of the landlord, and in an entry on the counterpart signed by or on behalf of the tenant, or in a new patta and counterpart.

71. The expression "special agreement" or "decree of Court", where it is used in this Act to signify the tenure on which land is held by a tenant, is to be construed as referring to an agreement or decree made or passed before the passing of this Act.

CHAPTER VII

DISTRESS FOR ARREARS OF RENT.

72. When an arrear of rent is due from any tenant, the landlord may, subject to the provisions of this Chapter, distrain the produce of the land in respect of which the arrear is due:

Provided that, when a tenant has given security for the payment of his rent, the produce of the land in respect of which the rent is payable shall not be liable to distress so long as the security is in force.

73. Distress shall not be made for the recovery of—
Distress not permissible in certain cases.

(a) any sum in excess of the rent payable in the last preceding year for the land in respect of which the arrear is due, unless the tenant has agreed in writing to pay that excess or unless he has been declared by decree to be liable therefor, or

(b) any arrear which has been due for a longer period than one year.

74. The power of distress vested by section 72 in landlords may be exercised by managers under the Court of Wards, managing agents and tahsildars of estates held under direct management, and other persons lawfully entrusted with the charge of land, and also by the agents

employed by landlords or any such persons as aforesaid in the collection of rent, if expressly authorized by power-of-attorney to distrain:

Provided that, if any such agent, purporting to act in the exercise of that power, commits an act which, under the provisions of this Chapter, is illegal, the person employing him shall be liable, as well as the agent, to be sued for compensation for any injury caused by the act.

75. Any person empowered to distrain property under section 72 or section 74 may employ a servant or other person to make the distress, but in every such case he shall give to the servant or person a written authority in that behalf, and the distress shall be made in the name and on the responsibility of the person giving the authority.

76. (1) Standing crops and other ungathered crops liable to distress.—Crops or other products of the earth, and trees, crops or other products when reaped or gathered and deposited in any threshing-floor or place for treading out grain or the like, whether in the field or within a homestead, may be distrained by persons invested with powers of distress under this Act.

(2) But no such crops or products, other than the produce of the land in respect of which an arrear of rent is due, or of land held under the same engagement as the land in respect of which the arrear is due, and no grain or other produce after it has been stored by the cultivator, and no other property whatsoever, shall be liable to distress under this Act.

77. (1) Before or at the time when any distress is made under this Act, the debtor or at time of distress, the defaulter to be served with a written demand for the amount of the arrear, together with an account exhibiting the grounds on which the demand is made.

(2) The demand and account shall, if practicable, be served personally on the defaulter, but, if he cannot be found, they shall be affixed at his usual place of residence, and shall thereupon be deemed to be duly served upon him.

78. Unless the amount of the demand is immediately paid or tendered, the distrainer may distrain property as aforesaid of value as nearly as may be equal to the amount of the arrear with the costs of the distress; and, when he has made the distress, he shall prepare a list or description of the property distrained and deliver a copy thereof to the owner, or if the owner is absent, affix it at his usual place of residence.

79. (1) Standing crops and other ungathered crops liable to distress.—Reaping and storing crops notwithstanding the distress, be reaped or gathered by the tenant, and may be stored in such granaries or other places as are commonly used by him for the purpose.

(2) If the tenant neglects to do so, the distrainer may cause the crops or products to be reaped or gathered, and in that case shall store them either in such granaries or other places as aforesaid, or in some other convenient place in the neighbourhood.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 80-89.)*

(3) In either case the distrained property shall be placed in the charge of some proper person appointed by the distrainer for the purpose.

(4) If the crops or products do not, from their nature, admit of being stored, the distress shall be made (if at all) at least twenty days before the time when the crops or products or any part thereof would ordinarily be fit for cutting or gathering.

80. If a distrainer is opposed or apprehends resistance, and desires to obtain the assistance of a public officer, he may apply to the Court, and the Court may, if it thinks necessary, depute an officer to assist the distrainer in making the distress.

81. If at any time after property has been distrained as aforesaid, and before the sale thereof as hereinafter provided, the owner tenders payment of the arrear demanded and of the costs of the distress, the distrainer shall receive the payment and give a receipt therefor and forthwith withdraw the distress.

82. Within five days from the time of storing any distrained crops or products, or, if the crops or products do not from their nature admit of being stored, within five days from the time of making the distress, the distrainer shall apply for the sale thereof to the proper officer authorized to sell property in satisfaction of decrees of the Court within whose jurisdiction the distrained property is situate.

83. (1) The application shall be in writing; it shall contain a list or description of the property distrained, and it shall state the name of the defaulter, his place of residence, the amount due and the place in which the distrained property is deposited.

(2) Together with the application, the distrainer shall deliver to the proper officer the sum payable for the service of a notice upon the defaulter as provided in the next following section.

84. (1) Immediately on receipt of the application, the proper officer shall send a copy of it to the Court, and shall serve a notice in the form contained in Schedule C to this Act, or to the like effect, on the person whose property has been distrained, requiring him either to pay the amount demanded, or within fifteen days from the receipt of the notice to institute a suit to contest the demand.

(2) The officer shall at the same time send to the Court, for the purpose of being put up at the court-house, a proclamation fixing a day for the sale of the distrained property, not less than twenty days from the date of the proclamation, and shall deliver a copy of the proclamation to the peon charged with the service of the notice, to be put up by him in the place where the distrained property is deposited.

(3) The proclamation shall contain a description of the property, and shall specify the demand for which it is to be sold, and the place where the sale is to be held.

85. (1) If a suit is instituted in pursuance of the notice mentioned in the last foregoing section, the Court shall send to the proper officer, or, if so requested by the owner of the distrained property, shall deliver to him, a certificate of the institution of the suit.

(2) On the certificate being received by, or presented to, the proper officer, he shall suspend proceedings in regard to the sale:

Provided that, if in his opinion the property distrained is such that delay will cause damage thereto, he may direct its immediate sale.

86. (1) Any person whose property has been distrained as aforesaid may institute a suit to contest the distrainer's demand at any time before the expiration of the fifteen days mentioned in section 84, sub-section (1).

(2) When any such suit is instituted, the Court shall proceed in the manner directed in section 85.

(3) If application for the sale of the property is afterwards made to the proper officer, he shall send a copy of the application to the Court, and suspend further proceedings pending the decision of the case.

87. (1) The person whose property has been distrained may, at the time of instituting any such suit as aforesaid, or at any subsequent period, execute a bond with one or more surety or sureties, for an amount not less than double the value of the property distrained, binding himself to pay whatever sum may be adjudged to be due from him, with costs of suit.

(2) When a bond has been executed under sub-section (1), the Court shall give to the owner of the property a certificate to that effect, or, if he so requests, shall serve the distrainer with notice of the execution of the bond.

(3) Upon the certificate being presented to the distrainer by the owner of the property, or upon the notice being served on the distrainer by order of the Court, as the case may be, the property shall be released from distress.

88. On the expiration of the period fixed in the proclamation of sale, if the institution of a suit to contest the demand of the distrainer has not been certified to the proper officer in the manner hereinbefore provided, he shall, unless that demand, with such costs of the distress as are allowed by him, is discharged in full, proceed, with the sanction of the Court, to sell the property, or such part thereof as may be necessary.

89. (1) The sale shall be held at the place where the distrained property is deposited, or at the nearest *ganj, bazar* or other place of public resort, if the proper officer thinks that it is likely to sell there to better advantage.

(2) The property shall be sold by public auction in one or more lots as the officer holding the sale thinks advisable, and if the demand, with the costs of distress and sale, is satisfied by the sale of a portion of the property, the distress shall be immediately withdrawn with respect to the remainder.

*The Oudh Rent Act, 1886.**(Chapter VII.—Distress for Arrears of Rent.—Sections 90-99.)*

90. If, on the property being put up for sale, a price which the officer holding the sale thinks fair is not offered, and if the owner of the property or his recognized agent applies to have the sale postponed until the next day or (if a market is held at the place of sale) until the next market-day, the sale shall be postponed until that day, and shall be then completed at whatever price may be offered.

91. (1) The price of every lot shall be paid in ready money at the time of sale, or as soon thereafter as the officer holding the sale thinks fit, and in default of payment the property shall be put up again and re-sold.

(2) When the purchase-money has been paid in full, the officer holding the sale shall give the purchaser a certificate stating the property purchased by him and the price paid therefor.

92. (1) The officer holding the sale shall deduct from the proceeds one anna for every rupee and fraction of a rupee on account of the expenses attending the sale.

(2) He shall then pay to the distrainer the expenses incurred by him on account of the distress and of the issue of the notice and proclamation of sale prescribed in section 84 to such amount as, after examination of the statement of expenses furnished by the distrainer, the officer thinks proper to allow.

(3) The remainder shall be applied to the discharge of the arrear for which the distress was made, and the surplus (if any) shall be delivered to the person whose property has been sold.

93. Officers holding sales of property under this Act, and all persons employed by, or subordinate to, those officers, are forbidden to purchase, either directly or indirectly, property sold by those officers.

94. (1) The officer mentioned in section 82 shall bring to the notice of the Court any illegal act which may come to his knowledge as having been committed by any person in making a distress under this Act.

(2) If in any case, on proceeding to hold a sale under this Act, that officer finds that the owner has not received due notice of the distress and intended sale, he shall postpone the sale and report the case to the Court, and the Court shall direct the issue of another notice and proclamation of sale under section 84, or make such other order as it thinks proper.

95. (1) When that officer has gone to any place for the purpose of holding a sale, and a sale does not take place either for the reason stated in section 94 or because the distrainer's demand has been previously satisfied, a charge of one anna for every rupee of the value of the distrained property, as estimated by the officer, shall be leviable by him on account of the expenses of the intended sale, unless the distrainer's demand has been satisfied before the day fixed for the sale and notice of its having been satisfied has been given by him to the officer.

(2) If the distrainer's demand is not satisfied until the day fixed for the sale, the charge shall be paid by the owner of the property, and may be recovered by sale of such portion of the property as may be necessary.

(3) In every other case the charge shall be paid by the distrainer, and may be recovered under the warrant of the Court by attachment and sale of his property.

(4) The charge leviable under this section shall not exceed ten rupees in any case.

96. (1) When a suit has been instituted to contest a distrainer's demand, and the property has not been released on security, if the demand or any portion thereof is adjudged to be due, the Court shall issue an order to the proper officer authorizing the sale of the property.

(2) On the application of the distrainer (which shall be made within five days from the receipt of the order by the officer), the officer shall publish a second proclamation in the manner prescribed in section 84, fixing another day for the sale of the distrained property, not being less than five or more than ten days from the date of the proclamation, and, unless the amount adjudged to be due with costs of distress is paid before that day, shall proceed to sell the property in the manner hereinbefore provided.

97. (1) In all suits instituted to contest a distrainer's demand, the defendant must prove the arrear in suit to contest his demand, in the same manner as if he had himself brought a suit for the amount of the arrear.

(2) If the demand or any part thereof is found to be due, the Court shall make in favour of the distrainer a decree for the amount so found.

(3) That amount may be recovered, if the distrained property has not been released on security, by sale of the distrained property as provided in section 96, and, if any balance remains due after the sale, by execution of the decree against the person and any other property of the defaulter, or, if the distrained property has been released on security, by execution of the decree against the person and property of the defaulter, and if his surety has been made a party to the suit, against the person and property of the surety.

98. If the distress is adjudged to be vexatious or groundless, the Court, besides directing the release of the distrained property, may award such compensation to the plaintiff as it thinks fit, not exceeding twice the value of the property distrained.

99. If any person claims, as his own, property which has been distrained for arrears of rent alleged to be due from any other person, the claimant may institute a suit against the distrainer and that other person to try the right to the property, in the same manner, and under the same rules as to the time of instituting the suit and as to the consequent postponement of sale, as a person whose property has been distrained for an arrear of rent alleged to be due from him may institute a suit to contest the demand.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is, by repealing that portion of Indian military law which relates to Military Courts of Requests, to make the provisions of the Army Act, 1881, respecting Courts of Requests in India (44 & 45 Vict., c. 58, ss. 148-151), apply to Her Majesty's Indian forces, and thus to place those forces, with respect to indebtedness, in the same position as the rest of the British Army. In this respect the law enacted nearly half a century ago for the Indian army is more severe than Parliament has seen fit to enact for the other branches of Her Majesty's regular forces or than the Council of the Governor-General would now enact.

The 22nd September, 1886.

Summary of the Weather Reports for the month of September 1886.

The slight depression of temperature which characterized the weather of August last, disappeared, at its close, over the greater portion of the country, and in several provinces, owing to the early cessation of the rains, September was a warm month. In the Punjab, the temperature remained greatly above the average throughout, and, in the latter half of the month, over the whole of the Central Indian plateau. On the mean of the month, the excess amounted to from 2° to 4° in the Punjab, (except in the Derajat and Multan divisions, where it was small,) and from 1° to 4° in Central India, Khandesh, the Deccan and Concan. In the Gangetic plain, Assam, Rajputana, Sind and the Carnatic, the temperature was below the normal average. The depression was greatest in Behar, where it amounted to over $2\frac{1}{2}^{\circ}$.

The atmospheric pressure was slightly below the September average in the Punjab, owing probably to the high temperature. In Rajputana, Guzerat, and locally at a few places elsewhere, there was a slight excess. Elsewhere the differences from the average in both directions were very small. The air was drier than usual throughout North-Western and Central India, as well as in Bombay. In the Carnatic and the North-West of Bengal, however, it was damper than usual.

The rains ceased early in the month in North-Western India, Rajputana, Central India, Sind, Guzerat and a large part of the Deccan; but in Bengal, Burma, Assam and the more eastern districts of the North-West Provinces, they continued to fall almost to its close. In Madras, as well as over a large portion of Bombay, light showers fell at short intervals.

The rainfall was very heavy all over Bengal, and especially in Behar, where it was nearly three times the average amount; and next thereto, in Northern Bengal. In the Carnatic the rainfall was about the average, and in Mysore and on the plateau of Bellary, it was but slightly above it. Everywhere else, the rainfall was more or less deficient, and little or no rain fell in the Indus Valley, Cutch and Guzerat.

The following table shows the amount of rain and the difference from the average, during the month of September 1886, according to districts, as far as is indicated by the telegraphic reports.

(2) The Governor-General in Council may at any time, by notification in the official Gazette, direct that this section shall cease to be in force in any district with effect from a date to be specified in the notification.

(3) While this section is in force in any district, the District Magistrate may, in any case in which he has himself called for, or a Sub-divisional Magistrate has forwarded to him, the record of a proceeding before a Magistrate of the second or of the third class, pass such order in the case as he thinks fit.

XVI. In any case in which an appeal lies, the Appellate Court may enhance any punishment which has been awarded:

Provided that, if the appeal is from the sentence of a Magistrate of any class, the Appellate Court shall not inflict a greater punishment than might have been inflicted by a Magistrate of the first class.

XVII. Where an offence referred to in section 195 is committed before a Judge of a Criminal Court or Magistrate, or in contempt of his authority, or is brought to his notice in the course of a judicial proceeding, he may himself try for the offence the person accused thereof.

XVIII. Notwithstanding anything in section 435, a Court may allow any police-officer to conduct a prosecution.

XIX. A Court may, for reasons to be stated in writing, refuse to exercise in the manner mentioned in section 526A the power of postponement or adjournment given by section 544.

43. If there are two or more defendants, and appearance is made by one or more of them and not by the other or others, the Court shall proceed with the suit to judgment, and shall, at the time of passing judgment, make such order with respect to the defendant or defendants by whom appearance has not been made as is just and proper in the circumstances of the case.

46. A judgment shall not be set aside on an application under either of the two last foregoing sections unless notice of the application has been served on the opposite party.

47. If both parties are present on the day fixed for the defendant to appear and answer, or on any subsequent day to which the proceedings are adjourned for this purpose, the Judge shall examine them with a view to ascertaining upon what questions of law and fact the parties are at issue, and, having with his own hand made a note of the examination, shall frame and record the issues of law and fact on which the right decision of the case depends.

48. (1) If the parties are at issue on a question of fact, the Court shall then further examine them as to the evidence they intend

to adduce upon the question, and shall appoint a time and place for the hearing of the suit.

53. The Court may at any stage of the suit examine as a witness any person present in Court, or call upon him to produce any document or other thing, or summon any person to give evidence or produce any document or other thing, if it considers that the evidence of the person, or the production of the document or thing, is likely to aid it in the decision of the matters in dispute.

Commissions to take Evidence, make local Enquiries and examine Accounts.

54. (1) If in any case—

Provided that, when the timber or other forest-produce with respect to which such offence is believed to have been committed is the property of Government and the offender is unknown, it shall be sufficient if the officer makes, as soon as may be, a report of the circumstances to his official superior.

20. Upon the receipt of any such report, the Magistrate shall take such measures as may be necessary for the trial of the accused and the disposal of the property according to law.

21. (1) When any person is convicted of a forest-offence, all timber or other forest-produce in respect of which such offence has been committed, and all tools, boats, carts and cattle used in committing such offence, shall be liable, by order of the convicting Magistrate, to confiscation.

7. If a person does either of the following things, namely,—

- (b) having a license under this Act, commits or suffers to be committed a breach of any duty prescribed in the license or of any regulation or condition contained therein,

8. (1) The Governor-General in Council may from time to time make such rules as he thinks expedient for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity, and for preventing telegraph lines from being injuriously affected by any of those appliances or apparatus.

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor-General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) The publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive proof that it has been duly made.

(5) Rules under that section may from time to time be amended, added to or cancelled by the Governor-General in Council.

10. Nothing in this Act shall prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under section 7 or against a rule under section 8, or from being liable under that other law to any other or higher punishment or penalty than that provided by section 7 or a rule under section 8:

Provided that a person shall not be punished twice for the same offence.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to empower the Governor-General in Council to make rules (a) for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity for lighting, and (b) for preventing telegraph-lines from being injuriously affected by any of those appliances or apparatus.

2. The danger to the public from electric light connections arises from the fact that currents of great strength are used in the production of the light, the currents being powerful enough to cause death to any person, or set fire to any inflammable material, coming in contact with the wires while the currents are passing, that is to say, while the lamps are being used. Protection may be afforded either by placing these wires or connections in such a position that contact with them is impossible, or by so covering them with insulating material that contact with them is innocuous.

Interference with telegraph and telephone signals is caused by obstructive currents being induced in the telegraph and telephone wires when the electric light wires pass within a certain distance of them. The remedy is to arrange that the electric light wires shall be placed sufficiently far off. It is impossible of course to determine what the safe distance is without knowing the strength of the current employed for the electric light, which again varies with the number of lamps in circuit, but the distance can be determined from time to time with reference to the maximum current to be used in any particular local area.

3. A company desiring to supply electricity in any local area for any purpose must, if the company was not supplying it in that area for that purpose at the time of the passing of the Act, obtain a license from the Governor-General in Council. By this license the

Governor-General in Council may impose such regulations and conditions as he thinks expedient, and confer on the licensee, with respect to the placing of appliances and apparatus for the supply of electricity, any of the powers which the telegraph-authority possesses under the Indian Telegraph Act, 1885, with respect to the placing of telegraph lines and posts for the purposes of a telegraph established or maintained by the Government or to be so established or maintained.

Companies which were supplying electricity in any local area for any purpose at the time of the passing of the Act may elect to continue supplying it without a license, and therefore without the obligations which may be imposed, or the privileges which may be conferred, by a license.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Report of the Select Committee on the Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st October, 1886 :—

Preliminary Report on the Bengal Civil Courts Bill, 1881.

THE Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was introduced into the Council of the Governor-General by the Hon'ble Mr. Stokes in 1851, was referred to a Select Committee and was circulated for opinion, but its further progress was suspended in consequence of a proposal to establish appellate benches in Bengal. That proposal having been abandoned for the present, the opinions on the Bill of 1881 have been examined, and most of the recommendations in them incorporated in the amended copy of the Bill which accompanies this Report.

The law recommendations which have not been adopted have reference to the relation of Courts of Small Causes to District Courts, and will be best considered in connection with the Provincial Small Cause Courts Bill, 1885. I propose therefore to move at the next meeting of Council that all members of the Select Committee appointed to consider and report on that Bill who are residents of, or are or have been officially connected with, Bengal, the North-Western Provinces or Assam be added to the Select Committee on the Courts Bill to which this Preliminary Report relates.

2. The following portions of the amended Bill seem to call for remark :—

- (a) *Section 5.*—A sub-section has been added on the advice of the Government of the North-Western Provinces and Oudh for the purpose of removing any doubt there may be as to the competence of a Local Government to appoint a Judge of a Court of Small Causes to be a Subordinate Judge, or to appoint a District Judge or Subordinate Judge to discharge temporarily the functions of another District Judge or Subordinate Judge, as the case may be, in addition to the performance of his own duties.
- (b) *Section 7.*—The powers vested in the High Courts at Fort William and Allahabad by the Statute 24 & 25 Vic., cap. 104, section 15, seem to render it unnecessary to provide in this and other sections of the Bill that a District Judge is in all matters connected with the administration of the Courts to act under the control of the High Court, the District Judge being already in those matters under the obligation of obeying any instructions which the High Court may be pleased to issue.
- (c) *Section 8.*—It has been objected that the provision of the Act of 1871 which requires an Additional Judge or Subordinate Judge in charge of the office of a District Judge to discharge “such of the current duties thereof as are connected with the filing of suits and appeals, the issue of processes and the like functions,” is too indefinite, and has in practice resulted in inconvenience and loss to parties. An attempt is made in sub-section (2) of section 8 of the revised Bill to define more particularly the powers which an Additional Judge or Subordinate Judge in charge of the office of a District Judge may exercise.
- (d) *Section 9.*—Objection has been taken by the High Court for the North-Western Provinces to the words “on leave” in section 9 of the Act of 1871, and to the words in the same section which empower the District Judge to transfer cases only to his own Court or to the Court of a Subordinate Judge. The High Court points out that a Subordinate Judge may be absent from his district otherwise than on leave, as, for instance, on deputation to another district, and that, where, as occasionally happens, the Court of a Subordinate Judge is for any tract of country the Court of last resort jurisdiction, it may be convenient to transfer cases from his Court to that of a Munsif. The section has in these respects been amended, and two sub-sections (3) and (4) have been added, the former being supplementary to the amendment of sub-section (1), and the latter designed to remove a difficulty which has been felt in the North-Western Provinces.
- (e) *Section 10.*—The expression of this section, which was inaccurate in the Act of 1871, has been amended in the manner proposed by Mr. Justice Prinsep.
- (f) *Section 11.*—This section has been modified in accordance with the recommendations of the Lieutenant-Governor of Bengal, the Chief Commissioner of Assam and Mr. Justice Prinsep.

- (g) *Section 16.*—A sub-section has, on the suggestion of Mr. Justice Prinsep, been added to meet the case of officers in the territories referred to in section 11 who dispose of civil business while on tour at any place within the local limits of their jurisdiction.
- (h) *Section 17.*—On the suggestion of Mr. Justice Field, a sub-section has been added to the effect that a judicial act shall not be invalid by reason only of its having been done on a holiday.
- (i) *Section 18.*—This section has been so drawn as to remove difficulties experienced in Bengal, the North-Western Provinces and Assam in the working of the corresponding section of the Act of 1871.
- (j) *Section 21.*—A sub-section has been added with reference to the cases at 13 B. L. R. 376; 10 B. L. R., App., 30; 19 W. R. 201; and 8 C. L. R. 6.
- (k) *Section 22.*—Sub-section (2) of this section has been re-drawn with advertence to the cases at 18 W. R. (F. B.) 261; 18 W. R. 316; and 19 W. R. 131.

Sub-section (3) has been added on the suggestion of Mr. Justice Prinsep.

- (l) *Section 23.*—The case at 1. L. R. 7 All. 775 suggests an expansion of this section.
- (m) *Section 25.*—Sub-section (1) will empower the District Judge to transfer appeals from orders of Munsifs, as well as from their decrees, to Subordinate Judges.

Sub-section (2) has, on the suggestion of Mr. Justice Prinsep, been so drawn as to enable the District Judge to transfer to any other competent Court under his control an appeal withdrawn from the Court of a Subordinate Judge.

Sub-section (3) is suggested by the cases at 16 W. R. 235 and 18 W. R. 292.

- (n) *Section 26.*—This section has been amended in several particulars. It is proposed, on the suggestion of Mr. Justice Field, that the order of the High Court may be either general or special; on the suggestion of Mr. Justice Prinsep, that the High Court may authorise a Subordinate Judge or Munsif to take cognizance of the proceedings mentioned in the section; on the suggestion of the Government of the North-Western Provinces and Oudh, that references by Collectors under section 322C of the Code of Civil Procedure should be added to the list of proceedings; and on the suggestion of the same Government and of Mr. Justice Field and Mr. Justice Maclean, that several of the proceedings specified in section 26 of the Bill of 1881 should be excluded therefrom.
- (o) *Section 27.*—On the suggestion of Mr. Justice Prinsep, it is proposed that appeals from orders passed by Subordinate Judges in proceedings mentioned in section 26 shall, when appeals are permitted, lie to the High Court.
- (p) *Section 31.*—With respect to section 35 of the Bill of 1881, Mr. C. J. Daniell, District Judge of Moradabad, recorded the following remarks:—

"I consider it essential to the efficiency of the ministerial officers of the subordinate Civil Courts in a judgeship that a stream of promotion should be maintained from the lowest to the highest grade of these officials throughout the judgeship. If this is secured, every hard-working man knows that there are several appointments to which he can aspire, the field for his promotion is widened, and he is more encouraged to do his work well than if he had only to look to the rare vacancies in a single munsifi for advancement. On the other hand, the Judge can promote any man from any one of several situations to any other that he may be qualified for in the whole judgeship, and a stimulus is provided to efficient and industrious work which is entirely absent if the Judge can promote no one but the officials of his own office, or if, in order to promote a deserving man in a munsifi, he is obliged to place him over the heads of other men in his own office, without being at the same time able to provide any of his own officials with a step on promotion in any of the munisifs subordinate to him.

"There can, I think, be no doubt that better men are obtainable and better work done in a wide than in a narrow field of work; but this section (35), as it stands, reduces the area over which a subordinate official's career extends within the most confined limits.

"In former times, when the subordinate Civil Courts were never inspected, something might be said in favour of allowing Munsifs to nominate and promote the officials of their own Courts; but in these days Munsifs are frequently changed, while Judges are seldom changed, and a judgeship is becoming more and more the unit of judicial administration. It is as well that this should be so, for such a condition is an incentive to a more careful supervision on the part of a Judge over his subordinates, and consequently to better work on the part of all below him. This incentive, however, will fail to act if the area of nomination and selection in a judgeship is confined to single munisifs instead of extending to all the Courts in the judgeship."

The Government of the North-Western Provinces expressed concurrence in Mr. Daniell's remarks, as the Government of Bengal did in similar remarks recorded by Mr. Justice Field.

- (q) *Section 35.*—This section provides for the case of Civil Court amins and the joint process-serving establishments now maintained throughout Bengal and the North-Western Provinces under the superintendence of central nazirs and the control of the District Judge.
- (r) *Section 38.*—The addition to this section was suggested by Mr. Justice Oldfield.
- (s) *Section 40.*—This section seems to be required for the purposes of applications under section 108 of the Code of Civil Procedure and other proceedings not referred to in sections 623 and 649 of that Code.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 20th OCTOBER, 1886.

GENERAL REMARKS.—During the week under report the rainfall has been almost confined to Burma, Madras, Bombay, excluding Sind, Mysore, Berar, Hyderabad, and the Central Provinces. In Bengal, the North-Western Provinces and Oudh, and Central India rain fell in places, but the showers were light.

The *kharif* harvest is in active progress in Bombay, the North-Western Provinces and Oudh, the Punjab, and Rajputana, and a good outturn is expected. In the Central Provinces, Berar, Hyderabad, and Central India, where the harvest has not yet commenced, the prospects of the standing *kharif* are improving, the recent rain having been of benefit to the crops. In Mysore the crops are in good condition, and in Coorg the *rugi* has been harvested. In Madras prospects are good, but in some districts the harvest is yielding an outturn below the average.

In Bombay the rice crop is generally good, except in Ahmedabad, where rain is still urgently wanted; and in the Central Provinces the crop has improved by the recent rain. The early rice harvest in Bengal has been completed, and the winter rice generally looks well, though in Behar and East Bengal some injury has been caused to it by floods. Preparations for the winter crops still continue in Assam. In Burma the rice crop promises well.

Sowings for the *rabi* are generally in active progress in Bombay, the North-Western Provinces and Oudh, Rajputana, and the Central Provinces, though in the last-named province they have been retarded in places by rain. In Bengal, the Punjab, Hyderabad, and Berar sowing has also commenced. In the Punjab rain is needed.

The public health continues to be generally satisfactory everywhere.

Prices are rising in a few districts of the Punjab, fluctuating in the Central Provinces and in Mysore, and falling in Coorg. Elsewhere they are generally stationary.

The figures under Bombay include the outstanding circulation of the abolished Sub-Circles of Nagpur and Akola.

6. There is on the whole a falling-off in circulation of about 50 lakhs; the fluctuations in the lower denominations are not important; the increase of ten rupee notes more than balances the decrease of fives and twenties, showing that though little change has taken place in the use of notes for current circulation there is a small improvement, but there is a decrease of more than 50 lakhs in the notes of Rs1,000, which are chiefly used by Banks and others as convenient for

reserve balances, the decrease here is probably due to the economy of balances made imperative by a gradually falling exchange.

7. From these figures it will be found that the average value of each Note in circulation on the last day of the year, compared with the past two years, was —

	1883-84.	1884-85.	1885-86.		1883-84.	1884-85.	1885-86.
Calcutta Circle .	30	32	28	Kurrachee Circle .	61	84	105

Lahore „ .	73	69	65	Calicut „ .	32	33	37
Bombay „ .	41	47	44	Rangoon „ .	167	102	70

The average value, which decreased in the larger circles, rose considerably in Kurrachee. This is due to the ten thousand-rupee Notes of that circle being much in excess of last year's figures.

8. The variations in the net circulation of each circle are shown in the following table, omitting 000 :—

9. On these the following remarks are offered :—

These figures almost throughout this year have been larger than last year. As usual, there was considerable fluctuation during the shipping season, but nothing to call for any special remark.

10. The same figures for Bombay and Madras are :—

The circulation at Bombay, which had been increasing during the first 9 months of the year, fell off considerably in the last three, and was at the end 40 lakhs below 1885; this is, however, not an unusually large fluctuation, and probably arose from trade demand for silver. The Madras circulation was on the whole above that of last year.

11. The following figures show (in lakhs and thousands) the "Gross circulation" in the Presidency Circles, of Notes not exceeding R100 each. It will be seen that in these lower denominations the circulation is well maintained :—

ANALYSIS OF CIRCULATION.

12. As explained last year a system of record is now introduced by which it will be possible hereafter to verify the outstanding balance of the circulation account with the details obtained from the issue registers, the system is based on that adopted at the Bank of England, and it will remove a great defect of our previous system of record. Its extension to past years is a work of much labour and is not yet completed.

THE RESERVE.

13. The value held against the net circulation upon 31st March 1886 was as follows :—.

As usual, the receipts of Bullion for coinage were largest at Bombay, and towards the close of the year the amount expected was so considerable that it was thought desirable to transfer 51 lakhs for coinage in Calcutta; this transfer was not, however, completed until after the expiration of the year under review.

14. The half-yearly verifications of the Currency balances were held as follows :—

	1st half.	2nd half.

The balances of the last working day of each half-year were verified in accordance with the orders issued on the subject. The delay in the verification of Calicut Currency balances is due to the Local Government not having communicated to the Collector of Malabar, as usual, their order appointing an officer for that purpose.

Investments.

15. No alteration has been made since the last report in the amount of the invested reserve, which is held in book debt certificates as below—

EXPLANATIONS.

a and *d*.—These are the ordinary issues and receipts in exchange for other notes or for coin.

b and *e*.—These are exchange transactions with treasuries, as the Agencies do not deal directly with the public, but only enable the treasuries to do so to a greater extent than would otherwise be the case.

f.—This figure represents notes cashed at other currency circles from March 16th, 1885, to March 15th, 1886, and returned during the year under report to the circles to which they belong.

c and *g*.—These remittances are for the most part payments and receipts of one currency office, in consideration of receipts or payments at another.

The chief noticeable point in the above table is the considerable reduction as compared with last year, *viz.*, from 1,47,700 to 1,11,348, in the number of rupees reduced in weight otherwise than by reasonable wear: it is hoped that the special attention given to the examination of coin has had the effect of improving the character of the circulation.

27. I give below statements similar to those given last year of the whole rupees coined and issued from the Indian Mints during the years 1835 to 1885, and the proportions of each of those issued found on examination in every District Treasury of a bag of 2,000 rupees of the coin ordinarily current in the district.

I can only repeat the remarks made last year that there is considerable difficulty in drawing any general conclusions from the movement of coin which these statements indicate. New coin being largely used for melting into ornaments the coinage of a prosperous year, or perhaps of the year preceding, is likely to disappear comparatively quickly. The large remittances of coin to the Punjab from Bombay in 1879 to provide for war expenditure account for the high proportion of coin of that year circulating in the Province. Very large specie remittances are made to Burma at the commencement of the rice season, but whether it is in new or old coin depends on whether it is found convenient to obtain the actual coin from Calcutta or Bombay, where it would probably be freshly minted, or from Madras, where it would be accumulated from general circulation.

	R	R	R
1881-82	59,87,643	1,53,84,800	2,13,72,452

1885-86	1,94,06,198	6,75,75,104	8,69,81,302

Thus it appears that the receipts were higher than for any year since 1879-80, when the total was R9,31,22,111, and of the whole Bombay received more than three times as much as Calcutta.

32. The operation of the bullion clauses of the Currency Act is shown in further detail in the following figures :—

FORGERY AND FRAUD.

36. The following were the cases of forged notes of the Calcutta Circle during the year under review. In no other circle were any forged notes presented. No important series of forgeries has appeared :—

5-rupee	6 pieces
10 „	2 „
50 „	1 „

37. These were very clumsy attempts at forgery, the medallions being thick and coarse the words in the body of the note very rough. The paper of one out of the two 10-rupee notes however is perhaps a little more than usually like that of genuine notes, and bears an imitation of the water-mark "Government of India".

REMITTANCES OF SILVER.

38. The following is the detail of silver remittances :—

	R
Calcutta to Allahabad	13,50,000
Calcutta to Lahore	40,00,000
Calcutta to Rangoon	50,00,000
Allahabad to Calcutta	13,48,675

Bombay to Rangoon	20,00,000
Kurrachee to Bombay	4,000
Kurrachee to Lahore	20,00,000
Madras to Rangoon	30,00,000

39. The remittances from Lahore and Allahabad one in shroff-marked coin sent for recoinage to the Calcutta Mint. The remittances from Bombay were as usual to disperse a part of the large sums tendered in Bullion for coinage.

No. 3977.

The 29th October, 1886.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

- The following letters submitting Reports on the working of the Mints and the Assay Departments of Calcutta and Bombay for the year 1885-86 :

From Colonel J. H. White, R.E., Mint Master, Bombay, No. 835, dated 16th August 1886.

From Major A. W. Baird, R.E., Officiating Mint Master, Calcutta, No. 839, dated 27th July 1886.

From Surgeon-Major J. Scully, Assay Master, Calcutta, No. 45, dated 26th July 1886.

From Captain G. Martin, Assay Master, Bombay, dated August 1886.

RESOLUTION.

Imports and Coinage: Gold.—The net imports of gold into India in 1885-86 amounted in value to Rs. 2,76,29,347 against Rs. 4,67,19,365 in the preceding year. No gold was tendered for coinage or coined in the Bombay Mint; in Calcutta the value of the gold received for coinage was only Rs. 95,875, being less by Rs. 51,192 than in the previous year. The value of the gold which was coined was Rs. 2,25,855.

The balance of gold held in the Bombay Mint which, at the beginning of 1885-86, was valued at Rs. 6,141, was at its close reduced to Rs. 4,602, the difference representing the value of gold medals struck for private parties and public departments. It may be said that practically none of the gold imported into this country is coined and circulated as money.

2. *Imports and Coinage: Silver.*—The net imports of silver into India and the coinage in each year in both the Mints from 1872-73 were—

					Net imports. Lakhs.	Coinage Lakhs.
1872-73	72	398
1873-74	249	237
1874-75	464	490
1875-76	155	255
1876-77	720	627
1877-78	1,468	1,618
1878-79	397	721
1879-80	787	1,025
1880-81	349	425
1881-82	538	219
1882-83	748	651
1883-84	641	566
1884-85	725	579
1885-86	1,161	1,029
Total				...	8,514	8,640

The coinage therefore in these 14 years was 126 lakhs in excess of the quantity of silver imported, the difference representing the value of worn and defaced coin sent for recoinage, native uncurrent coin received as bullion, Indo-Portuguese silver coin, and ornaments, and also the loss in melting.

3. The coinage of silver at both Mints, during the year 1885-86, exceeded that of the previous year by Rs. 4,49,13,353. No silver coin has been struck for the Portuguese Indian Government since 1883-84.

4. *Total Coinage: Gold and Silver.*—The total coinage of gold and silver at each Mint is shewn below separately for the last five years:

	CALCUTTA.					BOMBAY.				
	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.
Value—	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Gold	3,39,705	1,71,045		1,29,816	2,28,466					
Silver	84,77,510	1,42,99,070	1,27,46,606	1,23,71,009	3,46,07,321	1,33,85,241	5,07,85,401	2,38,87,408	4,55,71,232	6,81,58,999
Total	88,17,215	1,44,74,021	1,27,46,606	1,25,00,711	3,49,23,176	1,33,85,242	5,07,85,194	2,38,87,407	4,55,71,232	6,81,58,350

5. *Recoinage of old coin.*—Defaced and uncurrent coin of the value of Rs. 3,24,958 was remitted to the Bombay Mint for recoinage, and received at par at a cost of Rs. 4,605; the amount of such coin remitted to the Calcutta Mint was Rs. 43,02,166, principally from the Punjab and the North-Western Provinces, the cost of receipt at par being Rs. 63,329. The loss on this account represents the deficiency below standard weight of the coin received. The receipt of uncurrent coin during 1884-85 was Rs. 3,22,351 in Bombay and Rs. 22,07,584 in Calcutta. A coin ceases to be a legal tender when it loses more than 2 per cent. of its weight, and if all the coin brought to the Mints in 1885-86 were to this extent under weight, the loss on recoinage should have amounted to Rs. 92,512 instead of Rs. 67,934. The actual loss was equivalent to 1.472 per cent. in Calcutta and 1.417 per cent. in Bombay. A large proportion of these coins must therefore have been within the legal tender of weight, the reason being that defaced coins are sent for recoinage, although they have lost less than 2 per cent. in weight.

6. *Amount of Silver offered for coinage on tender on behalf of owner or of the Currency Department.*—In 1885-86, silver to the value of Rs. 1,97,46,701 was tendered by the public for coinage in the Calcutta Mint; in 1884-85 the amount was Rs. 1,81,45,995. The value of the silver transferred by the Paper Currency Department for coinage was Rs. 2,85,77,262 against Rs. 1,08,55,163 in the previous year.

In the Bombay Mint, all the silver tendered during 1885-86 was on behalf of the Currency Department, which ordered coinage of bullion weighing 68,639,140 tolas. This quantity included country silver and ornaments weighing 319,382 tolas, and native coins weighing 207,314 tolas. In 1884-85 the quantities received on similar accounts were tolas 1,867,751 and 1,637,234 respectively.

7. *Copper Coinage.*—The coinage of copper amounted to Rs. 8,13,610 in 1885-86, being less than that of the previous year by Rs. 2,44,200. This included a coinage of 7,412,670 cent pieces of the value of Rs. 1,66,785 for the Government of the Straits Settlements. No copper was coined in the Bombay Mint during the year owing to the Mint having been fully engaged in coining silver.

8. The coinage of copper in each Mint for the last five years has been as follows:

	Calcutta. Value. Rs.	Bombay. Value. Rs.
1891-92 ...	39,950	50,009
1892-93 ...	8,62,580	2,14,214
1893-94 ...	11,54,245	2,19,389
1894-95 ...	7,02,560	3,55,250
1895-96 ...	8,13,610	...

9. In the Bombay Mint 200 tons of copper cakes were received during the year 1885-86 from Her Majesty's Secretary of State for India at an average rate of Rs. 33½ per cwt. Uncurrent British Indian copper coin of the

nominal value of Rs. 21,635, old Indo-Portuguese copper coin valued at Rs. 10,197, and copper coins of native mintage amounting to Rs. 1,96,732 were remitted to the Bombay Mint for destruction.

10. The gain on copper coinage in both Mints for the last five years is shewn below :

						Rs.
1881-82	1,39,707
1882-83	3,50,091
1883-84	5,00,227
1884-85	5,69,634
1885-86	1,11,053

11. *Operative losses in Mints.*—The operative losses at Calcutta and Bombay during 1885-86 were Rs. 96,065 and Rs. 60,736 against Rs. 52,952 and Rs. 45,762 in the preceding year. These sums include a loss on account of melting and recoinage of Government remittances to the extent of Rs. 94,199 in Calcutta and Rs. 8,849 in Bombay.

12. The proportion of loss in the melting and coining of silver in the two Mints per 100 tolas has been as follows for the last five years :

				MELTING.		COINING.	
				Calcutta.	Bombay	Calcutta.	Bombay.
				Pics.	Pics.	Pics.	Pics.
1881-82	6.7	7	9	7
1882-83	7.8	7.5	9.1	6
1883-84	7.2	9.5	8.6	6
1884-85	6.9	6	4.2	3.5
1885-86	5.2	6	2.6	1

13. The rate of loss in coining for 1885-86 was the lowest on record, a satisfactory result mainly due to the adoption of the new process of annealing. This new procedure, among other advantages, renders it easier to trace a deficiency of standard metal in other branches of the Mechanical Department.

14. *Revenue and Expenditure.*—The total revenue and expenditure of each of the Mints from 1881-82 to 1885-86 are shewn separately below :

				REVENUE.		EXPENDITURE.	
				Calcutta.	Bombay.	Calcutta.	Bombay.
				Rs.	Rs.	Rs.	Rs.
1881-82	2,11,295	3,83,528	8,90,413	6,45,716
1882-83	2,70,213	11,57,658	10,51,958	9,42,708
1883-84	2,23,937	5,57,634	9,75,327	7,46,122
1884-85	2,83,781	10,03,616	12,06,282	8,39,083
1885-86	6,52,755	15,40,263	10,56,864	9,66,724
Total				16,41,931	40,42,699	51,80,814	41,40,657

15. The total revenue of both Mints during the last five years amounts to Rs. 62,84,630 and the total expenditure to Rs. 93,21,531, shewing a loss for the period of Rs. 30,36,901, or an annual loss of Rs. 6,07,380. There was a gain last year of Rs. 1,69,426 against a loss of Rs. 7,58,018 in 1884-85.

16. The expenditure on account of Salaries and Establishments in the two Mints was as follows :

	CALCUTTA.		BOMBAY.	
	1884-85.	1885-86.	1884-85.	1885-86.
Fixed Establishment	1,96,168	2,04,401	2,19,534	2,15,853
Extra Establishment	58,647	82,950	39,303	59,918
Total	2,55,115	2,87,351	2,58,897	2,75,771

The increase in both cases was due to the increase in coinage.

17. The expenditure on stores in Calcutta during 1885-86 was Rs. 86,792 against Rs. 1,10,853 in the previous year, and in Bombay Rs. 2,38,603 against Rs. 1,16,719 in 1884-85.

18. *Pro formâ charges.*—The *pro formâ* charges in the years 1884-85 and 1885-86 were calculated respectively in the Calcutta Mint at Rs. 7,69,328 and Rs. 5,37,874, and in the Bombay Mint at Rs. 3,65,798 and Rs. 3,15,992. The decrease in 1885-86 is mainly due to a smaller interest charge on the average silver working balance, which was lower than in 1884-85 on account of the larger coinage. The decrease in the Calcutta Mint is also due to the cost of pension and furlough allowances of superior servants having been calculated at one-seventh of the salary instead of one-fifth as formerly : the calculation should be at one-sixth of salary.

19. *Capital Account.*—An addition of Rs. 14,714 and Rs. 1,12,714 was made to the Capital Accounts of the Mints at Calcutta and Bombay respectively during the year on account of buildings and plant ; Rs. 1,499 and Rs. 3,241 were written off to profit and loss in the Calcutta and Bombay Mints. The total at debit of Capital Account to end of 1885-86 was Rs. 76,35,773 in Calcutta and Rs. 35,52,942 in Bombay, as detailed below :

	Calcutta. Rs.	Bombay. Rs.
Land ..	20,09,200	12,62,200
Building	33,22,109	15,71,616
Plant	23,04,464	7,19,126
Total	76,35,773	35,52,942

20. *Reports on the working of the Assay Departments.*—Separate reports on the working of the Assay Departments of the Mints have now for the first time been submitted.

21. The principal duties of the Assay Departments are—

- (1) to assay and value gold and silver bullion tendered at the Mint ;
- (2) to assay, before coinage is commenced, bullion alligated to standard fineness, that is, after it has by melting been mixed with alloy in such proportion, recommended by the Assay Master, as will make the metal of the fineness necessary to yield coins of the fineness required by the Indian Coinage Act ; and
- (3) to ascertain, before the coins are issued from the Mint, by a pyx trial, whether the fineness and weight are in accordance with the provisions of the Coinage Act.

The process of assay adopted for both (1) bullion tendered and (2) bullion alligated to standard is as follows :

The molten metal is thoroughly stirred and a small portion taken from each pot and granulated by pouring into a basin of cold water. The granulated

sample so obtained is assayed in duplicate and the resulting figure is taken as the assay report for all the bars cast from the pot so sampled. It is now the practice in both Mints to pre-melt all bullion tendered for coinage, of whatever fineness and in whatever shape it may be, in order that this process may be applied, as it possesses advantages over assay on a piece cut from a bar or ingot taken to represent the whole mass.

Assay of pyx coins (3) is an assay of samples of each batch of coins when ready for issue. From every lakh of gold and silver coins finished in the Mint or from a whole day's coinage in gold or silver, if that happens to be less than a lakh of pieces, a fixed number of coins is taken as a sample and submitted to assay; these coins constitute the "pyx." If the result of the assay of these coins proves that they fall within the limit of fineness and weight prescribed in the Coinage Act, the lakh or whole day's coinage which they represent is assumed to be correctly coined and is issued from the Mint.

22. Other duties of the Assay Department are—

- (1) "Check assays" made for the preparation of samples of pure gold and pure silver, to be worked side by side with the bullion of which the fineness is to be determined by the assay process in order that the results of the ordinary assays may be checked by comparison with the results on these samples of known fineness;
- (2) "Parting Assays," to ascertain the small amount of gold contained in the silver coinage;
- (3) Assay of Mint drosses, conducted periodically with a view—
 - (a) to ascertain that the process of recovery of the particles of precious metals which get mixed, in the course of mechanical operations, with the sweepings of the various rooms, &c., has been carried up to the limit within which such recovery can perfectly be made; and
 - (b) to determine approximately the actual amounts of metal left in the drosses for purposes of account under the head of "operative losses."
- (4) Assay of counterfeit coins;
- (5) Miscellaneous assays for Government Departments and others; and
- (6) Custody of standard weights and measures, and the verification and adjustment of weights sent to the Mint for this purpose.

23. *Assays made.*—The total number of assays made in Calcutta in 1885-86 was 19,630 and in Bombay 32,319.

24. *Assays of silver bullion alligated to standard.*—The average fineness of the bullion assayed for the whole year in the Calcutta Mint was 916.14 and 916.02 in Bombay. These averages, below the standard required for coins, are found necessary in the bullion for coinage in order to produce coins up to the standard of 916.66. This is due to the fact that in the process of manufacture the coins are subject to refining, first by being cut from a comparatively rich part of the strap, and second by blanching.

25. "Parting" assay of silver coins.—To ascertain the amount of gold present in the silver coinage, samples are taken every month, and the amount of gold per mille found in these samples is taken as the average proportion of gold contained in silver coins issued from the Mint in that month. The average proportion of gold found in silver coins at the Calcutta Mint during 1885-86 amounted to .227 per mille—the maximum was .535 and the minimum .087. The average of the Bombay Mint was .239 per mille, the maximum being .315 and the minimum .060. The fluctuations are due to the source from which the silver coined is derived. Silver in its native state commonly contains gold in small and variable proportion. But silver imported from Europe or America is found to contain only very minute quantities of gold, if any, the gold having been extracted before exportation in refineries at a profit to those establishments. In Eastern

countries, where no silver refining establishments exist, notable quantities of gold remain mixed with the silver produced in those regions. It is therefore inferred that a rise in the proportion of gold found in the silver coins means that a certain amount of Chinese, Burmese, or Indian silver is being worked for coinage.

26. *Pyx trials of silver coins.*—The coinage is tested in the following way :—From every lakh of rupees coined, a certain number of pieces are taken at random for pyx assay. Of these, some coins are assayed singly and the remainder are melted and assayed together. To test the weight of the rupees, sample pieces are taken at random from every lakh struck and weighed coin by coin.

The results of the pyx trials in 1885-86 are thus stated.

In Calcutta, the average weights of the sample pieces were—

Rupees	Grains	179.996	or	.004	only	below	standard.
$\frac{1}{2}$ Rupees	"	89.993	"	.007	"	"	"
$\frac{1}{4}$ "	"	45.005	"	.005	"	above	"
$\frac{1}{8}$ "	"	22.497	"	.003	"	below	"

and the average fineness—

Rupees	916.668	} All up to or above the standard.
$\frac{1}{2}$ Rupees	916.645	
$\frac{1}{4}$ "	916.773	
$\frac{1}{8}$ "	916.651	

In Bombay only 34 coins in the whole year were found to differ appreciably from the standard in weight, of which 18 were above and 16 below the standard; and only one lakh had to be readjusted for weight, in consequence of two coins in it being found light beyond remedy; while the average fineness of the coins tested singly was 916.535, and of those melted and tested together 916.735.

These results are satisfactory.

27. *Pyx trials in England.*—Another test of these coins is made in England. From every lakh of gold or silver coins, or from every whole day's coinage when that happens to be less than one lakh, one coin is set apart for trial in England. At the end of the year the coins so collected are despatched to Her Majesty's Secretary of State, who obtains a report on their weight and fineness from the Assay Department of the London Mint. This report is subsequently published in the *Gazette of India* for the information of the general public. The London report shows the small quantity of gold found in silver coins separately, so that, to make the results of the English comparable with the Indian test, the proportion of gold has to be added to the fineness stated.

28. *Dross Assays.*—During 1885-86, the dross assays made in Calcutta were larger than usual, in consequence of a number of experiments made to test the working of a new system of washing. In Bombay there was the usual number of such assays.

29. *Silver containing Bismuth.*—The presence of bismuth was found in certain consignments of silver tendered for coinage in both the Mints. Such silver has been found to be brittle and therefore unfit for coinage, and special care is taken not to admit it in the Mints for the purpose of coinage.

30. *Administration of the Mints and Assay Departments.*—The Governor-General in Council acknowledges the efficiency with which both Mints and Assay Departments have been controlled and worked by the officers in charge. The reform in the process of assay recently introduced has worked very satisfactorily. The available balance of coined rupees was quite 50 lakhs higher in 1885-86 than it would have been had the accelerated processes not been introduced, and the saving in interest alone has not on the average been less than Rs. 1,50,000 yearly.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India*.

6. (1) Notwithstanding anything in the last foregoing section, the Governor-General in Council may, on the application of any person supplying electricity for any purpose in any local area at the time of the passing of this Act, grant to the person a license for that purpose in that area under the provisions of section 4.

Penalty for supplying electricity without license or contravening license. 7. If a person does either of the following things, namely,—

- (a) being a person to whom section 3 is applicable, supplies electricity for a price without a license, or,
- (b) having a license under this Act, commits or suffers to be committed a breach of any duty prescribed in the license or of any regulation or condition contained therein,

he shall be punished with fine which may extend to one thousand rupees, and, in the case of a continuing offence, with a further fine which may extend to two hundred rupees for every day during which the electricity is supplied or the breach of the duty, regulation or condition continues.

8. (1) The Governor-General in Council may from time to time make such rules as he thinks expedient for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity, and for preventing telegraph lines from being injuriously affected by any of those appliances or apparatus.

(2) A rule under this section may apply to the appliances and apparatus of a person not having

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor-General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) The publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive proof that it has been duly made.

(5) Rules under that section may from time to time be amended, added to or cancelled by the Governor-General in Council.

10. Nothing in this Act shall prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under section 7 or against a rule under section 8, or from being liable under that other law to any other or higher punishment or penalty than that provided by section 7 or a rule under section 8:

Provided that a person shall not be punished twice for the same offence.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to empower the Governor-General in Council to make rules (a) for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity for lighting, and (b) for preventing telegraph-lines from being injuriously affected by any of those appliances or apparatus.

2. The danger to the public from electric light connections arises from the fact that currents of great strength are used in the production of the light, the currents being powerful enough to cause death to any person, or set fire to any inflammable material, coming in contact with the wires while the currents are passing, that is to say, while the lamps are being used. Protection may be afforded either by placing these wires or connections in such a position that contact with them is impossible, or by so covering them with insulating material that contact with them is innocuous.

Interference with telegraph and telephone signals is caused by obstructive currents being induced in the telegraph and telephone wires when the electric light wires pass within a certain distance of them. The remedy is to arrange that the electric light wires shall be placed sufficiently far off. It is impossible of course to determine what the safe distance is without knowing the strength of the current employed for the electric light, which again varies with the number of lamps in circuit, but the distance can be determined from time to time with reference to the maximum current to be used in any particular local area.

3. A company desiring to supply electricity in any local area for any purpose must, if the company was not supplying it in that area for that purpose at the time of the passing of the Act, obtain a license from the Governor-General in Council. By this license the

Governor-General in Council may impose such regulations and conditions as he thinks expedient, and confer on the licensee, with respect to the placing of appliances and apparatus for the supply of electricity, any of the powers which the telegraph-authority possesses under the Indian Telegraph Act, 1885, with respect to the placing of telegraph lines and posts for the purposes of a telegraph established or maintained by the Government or to be so established or maintained.

Companies which were supplying electricity in any local area for any purpose at the time of the passing of the Act may elect to continue supplying it without a license, and therefore without the obligations which may be imposed, or the privileges which may be conferred, by a license.

The 21st October, 1886.

[Second publication.]

The following Report of the Select Committee on the Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st October, 1886 :—

Preliminary Report on the Bengal Civil Courts Bill, 1881.

THE Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was introduced into the Council of the Governor-General by the Hon'ble Mr. Stokes in 1881, was referred to a Select Committee and was circulated for opinion, but its further progress was suspended in consequence of a proposal to establish appellate benches in Bengal. That proposal having been abandoned for the present, the opinions on the Bill of 1881 have been examined, and most of the recommendations in them incorporated in the amended copy of the Bill which accompanies this Report.

The few recommendations which have not been adopted have reference to the relation of Courts of Small Causes to District Courts, and will be best considered in connection with the Provincial Small Cause Courts Bill, 1885. I propose therefore to move at the next meeting of Council that all members of the Select Committee appointed to consider and report on that Bill who are residents of, or are or have been officially connected with, Bengal, the North-Western Provinces or Assam be added to the Select Committee on the Courts Bill to which this Preliminary Report relates.

2. The following portions of the amended Bill seem to call for remark :—

- (a) *Section 5.*—A sub-section has been added on the advice of the Government of the North-Western Provinces and Oudh for the purpose of removing any doubt there may be as to the competence of a Local Government to appoint a Judge of a Court of Small Causes to be a Subordinate Judge, or to appoint a District Judge or Subordinate Judge to discharge temporarily the functions of another District Judge or Subordinate Judge, as the case may be, in addition to the performance of his own duties.
- (b) *Section 7.*—The powers vested in the High Courts at Fort William and Allahabad by the Statute 24 & 25 Vic., cap. 101, section 15, seem to render it unnecessary to provide in this and other sections of the Bill that a District Judge is in all matters connected with the administration of the Courts to act under the control of the High Court, the District Judge being already in those matters under the obligation of obeying any instructions which the High Court may be pleased to issue.
- (c) *Section 8.*—It has been objected that the provision of the Act of 1871 which requires an Additional Judge or Subordinate Judge in charge of the office of a District Judge to discharge “such of the current duties thereof as are connected with the filing of suits and appeals, the issue of processes and the like functions,” is too indefinite, and has in practice resulted in inconvenience and loss to parties. An attempt is made in sub-section (2) of section 8 of the revised Bill to define more particularly the powers which an Additional Judge or Subordinate Judge in charge of the office of a District Judge may exercise.
- (d) *Section 9.*—Objection has been taken by the High Court for the North-Western Provinces to the words “on leave” in section 9 of the Act of 1871, and to the words in the same section which empower the District Judge to transfer cases only to his own Court or to the Court of a Subordinate Judge. The High Court points out that a Subordinate Judge may be absent from his district otherwise than on leave, as, for instance, on deputation to another district, and that, where, as occasionally happens, the Court of a Subordinate Judge is for any tract of country the Court of lowest jurisdiction, it may be convenient to transfer cases from his Court to that of a Munsif. The section has in these respects been amended, and two sub-sections (3) and (4) have been added, the former being supplementary to the amendment of sub-section (1), and the latter designed to remove a difficulty which has been felt in the North-Western Provinces.
- (e) *Section 10.*—The expression of this section, which was inaccurate in the Act of 1871, has been amended in the manner proposed by Mr. Justice Prinsen.
- (f) *Section 11.*—This section has been modified in accordance with the recommendations of the Lieutenant-Governor of Bengal, the Chief Commissioner of Assam and Mr. Justice Prinsep.

- (g) *Section 16.*—A sub-section has, on the suggestion of Mr. Justice Prinsep, been added to meet the case of officers in the territories referred to in section 11 who dispose of civil business while on tour at any place within the local limits of their jurisdiction.
- (h) *Section 17.*—On the suggestion of Mr. Justice Field, a sub-section has been added to the effect that a judicial act shall not be invalid by reason only of its having been done on a holiday.
- (i) *Section 18.*—This section has been so drawn as to remove difficulties experienced in Bengal, the North-Western Provinces and Assam in the working of the corresponding section of the Act of 1871.
- (j) *Section 21.*—A sub-section has been added with reference to the cases at 13 B. L. R. 376; 10 B. L. R., App., 30; 19 W. R. 201; and 8 C. L. R. 6.
- (k) *Section 22.*—Sub-section (2) of this section has been re-drawn with advertence to the cases at 18 W. R. (F. B.) 261; 18 W. R. 316; and 19 W. R. 131.

Sub-section (3) has been added on the suggestion of Mr. Justice Prinsep.

- (l) *Section 23.*—The case at 1. L. R. 7 All. 775 suggests an expansion of this section.
- (m) *Section 25.*—Sub-section (1) will empower the District Judge to transfer appeals from orders of Munsifs, as well as from their decrees, to Subordinate Judges.

Sub-section (2) has, on the suggestion of Mr. Justice Prinsep, been so drawn as to enable the District Judge to transfer to any other competent Court under his control an appeal withdrawn from the Court of a Subordinate Judge.

Sub-section (3) is suggested by the cases at 16 W. R. 235 and 18 W. R. 292.

- (n) *Section 26.*—This section has been amended in several particulars. It is proposed, on the suggestion of Mr. Justice Field, that the order of the High Court may be either general or special; on the suggestion of Mr. Justice Prinsep, that the High Court may authorise a Subordinate Judge or Munsif to take cognizance of the proceedings mentioned in the section; on the suggestion of the Government of the North-Western Provinces and Oudh, that references by Collectors under section 322C of the Code of Civil Procedure should be added to the list of proceedings; and on the suggestion of the same Government and of Mr. Justice Field and Mr. Justice Maclean, that several of the proceedings specified in section 26 of the Bill of 1881 should be excluded therefrom.
- (o) *Section 27.*—On the suggestion of Mr. Justice Prinsep, it is proposed that appeals from orders passed by Subordinate Judges in proceedings mentioned in section 26 shall, when appeals are permitted, lie to the High Court.
- (p) *Section 34.*—With respect to section 35 of the Bill of 1881, Mr. C. J. Daniell, District Judge of Moradabad, recorded the following remarks:—

"I consider it essential to the efficiency of the ministerial officers of the subordinate Civil Courts in a judgeship that a stream of promotion should be maintained from the lowest to the highest grade of these officials throughout the judgeship. If this is secured, every hard-working man knows that there are several appointments to which he can aspire, the field for his promotion is widened, and he is more encouraged to do his work well than if he had only to look to the rare vacancies in a single munsifi for advancement. On the other hand, the Judge can promote any man from any one of several situations to any other that he may be qualified for in the whole judgeship, and a stimulus is provided to efficient and industrious work which is entirely absent if the Judge can promote no one but the officials of his own office, or if, in order to promote a deserving man in a munsifi, he is obliged to place him over the heads of other men in his own office, without being at the same time able to provide any of his own officials with a step on promotion in any of the munsifis subordinate to him.

"There can, I think, be no doubt that better men are obtainable and better work done in a wide than in a narrow field of work; but this section (35), as it stands, reduces the area over which a subordinate official's career extends within the most confined limits.

"In former times, when the subordinate Civil Courts were never inspected, something might be said in favour of allowing Munsifs to nominate and promote the officials of their own Courts; but in these days Munsifs are frequently changed, while Judges are seldom changed, and a judgeship is becoming more and more the unit of judicial administration. It is as well that this should be so, for such a condition is an incentive to a more careful supervision on the part of a Judge over his subordinates, and consequently to better work on the part of all below him. This incentive, however, will fail to act if the area of nomination and selection in a judgeship is confined to single munsifis instead of extending to all the Courts in the judgeship."

The Government of the North-Western Provinces expressed concurrence in Mr. Daniell's remarks, as the Government of Bengal did in similar remarks recorded by Mr. Justice Field.

- (q) *Section 35.*—This section provides for the case of Civil Court amins and the joint process-serving establishments now maintained throughout Bengal and the North-Western Provinces under the superintendence of central nazirs and the control of the District Judge.
- (r) *Section 38.*—The addition to this section was suggested by Mr. Justice Oldfield.
- (s) *Section 40.*—This section seems to be required for the purposes of applications under section 108 of the Code of Civil Procedure and other proceedings not referred to in sections 623 and 649 of that Code.

(2) Nothing in this section shall be construed to prevent a Local Government from appointing any Judge of a Court of Small Causes to be also a Subordinate Judge, or from appointing a District Judge or Subordinate Judge to discharge, for such period as it thinks fit, in addition to the functions devolving on him as such District Judge or Subordinate Judge; all or any of the functions of another District Judge or Subordinate Judge, as the case may be.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Viceregal Lodge, Simla, on Thursday, the 21st October, 1886.

P R E S E N T :

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.

The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.

The Hon'ble Major-General G. T. Chesney, R.E., C.S.I., C.I.E.

SIR HERBERT MACPHERSON'S DEATH.

His Excellency THE PRESIDENT SAID:—Before the Council proceeds to its ordinary business I desire to take this opportunity of expressing, in the name of the Government of India, the deep sorrow and concern with which we have heard of the death of one of our most distinguished Generals—Sir Herbert Macpherson. Until yesterday morning we had received no intimation even of his being unwell. On first reaching Mandalay, indeed, he noted in one of his letters to the Commander-in-Chief that he had suffered from a slight touch of the sun, but he spoke lightly of the matter, and from his subsequent correspondence there was no appearance of its having produced any inconvenient effects.

"During the short time that he has remained in command in Burma he devoted himself unremittingly to the arduous duties which he had undertaken, and he travelled about the country in various directions, and eventually went up to Bhamo. It is to be presumed that on his return he must have contracted the fatal fever of which he died. It was on his way out to sea, whither he was being taken in the hope of the sea air proving beneficial to him, that he expired.

"In Sir Herbert Macpherson both India and England have lost a most talented and trustworthy officer, as well as a gallant and noble soldier. He has died in the discharge of his duty, and I have taken upon myself to communicate to his family in the name of my colleagues our deep sympathy and regret. I have received a telegram from Her Majesty the Queen in which She also expresses Her deep sorrow at the calamity—for it is no less—which has, thus suddenly, overtaken Herself and the country."

DEKKHAN AGRICULTURISTS' RELIEF BILL.

The Hon'ble SIR THEODORE HOPE presented the Report of the Select Committee on the Bill to amend the Dekkhan Agriculturists' Relief Acts, 1879 to 1882.

The Hon'ble SIR THEODORE HOPE also moved that the Report be taken into consideration. He said:—

"In making this motion I have merely to state that the Select Committee have found very little to alter in the Bill as originally introduced. On the suggestion of the Governor of Bombay in Council we have, I think I may say *ex majore cantelâ*, defined the expression 'standing crops' so as to make it perfectly clear

that it includes garden-produce attached to trees or to the soil. We have also made an amendment (which is perhaps the only amendment worthy of specific notice) in the section relating to documents which are registered by the Village-Registrar. In the Bill it was contemplated that the Village-Registrar should no longer make an exact transcript of a deed into his register, but merely an abstract. From further consideration, however, and communication with the local authorities of Bombay, it appears doubtful whether persons of the comparatively scant education and want of legal knowledge, which may not unfairly be considered characteristics of the Village-Registrars, would be able to make a trustworthy summary of documents. We have therefore thought it better to leave the law as it is, and to let the documents still be transcribed *verbatim* into the books. At the same time this does not alter the provision originally contemplated that any person who wishes to have a copy of what has been registered shall receive one, but now, instead of getting a copy merely of the abstract made by the Village-Registrar, he will get one of the document itself whenever he desires to have it.

"We have taken the opportunity of correcting a trifling misprint which, singular to say, seems to have survived from 1879 up to the present time the scrutiny of all officers concerned.

"We have likewise added what I may term a somewhat routine section in order that persons having claims of a certain description, mentioned in section 3, clause (x), may not be prejudiced by the application of the special rules of limitation prescribed in section 72 being restricted to suits of the kind mentioned in section 3, clause (w).

"The papers which we have received from Bombay contain a variety of very interesting remarks upon the Act itself, introduced apparently *apropos* of section 3 of the Bill, by which the Local Government receives power to extend it, with the previous sanction of the Governor General in Council, to other parts of the Bombay Presidency. To a very large extent these comments are satisfactory; in certain cases the opinion is not so favourable to such an extension; but after carefully considering them I venture to think that such objections as have been brought forward are not in any respect different from those which on previous occasions have been laid before this Council and have not been held to justify hesitation in extending the benefits of the Act."

The Hon'ble MR. PEILE said:—"I think that the amendments in the Dekkhan Agriculturists' Relief Acts proposed in this Bill should be adopted. I was concerned, as a member of the Bombay Government, in the inquiries and discussion which preceded the introduction of this Bill; and though observation of the working of the Act did not fall within my special province, yet as a measure affecting the interests of the agricultural classes I have given attention to it. The exceptional character of this legislation imposes caution in declaring it a confirmed success, but I think that, with some conflict of opinion, the balance of evidence is distinctly in favour of the Act. Its procedure, as it will be amended by this Bill, appears to me so beneficial that in part at least it may well be extended to other districts under the power given by the third section of this Bill. That procedure is acceptable to the agricultural classes because it is simple and intelligible to them, and in conformity with their customs and traditions. The principles of that procedure are that the debtor and creditor should be brought face to face. That can always be done under the amendment in section 8 of this Bill—a section which will no doubt require to be carefully watched in its effect. They are then led, if possible, to an amicable compromise, and if that is not possible their confused accounts are turned inside out by the Court, the agriculturist is told what he owes, instalments are fixed if necessary according to his means, and he is required to pay them out of the produce which he raises from his land. This latter obligation will be enforced by the amendment made in section 7 of this Bill, and I trust that that amendment will remove any sense of grievance under which the creditors have hitherto suffered. The great advantage of the Act is that, while providing for the payment of debt, it maintains the agriculturist in the possession and use of his holding. In this sense this legislation is a complement of the revenue law and practice in Bombay, which

ensures to the holder of land under Government a position of exceptional stability and security. It is held that the merits of the Act can only be finally tested by a famine, and that in that case loans may not be forthcoming. No doubt famine puts a severe strain on agricultural credit and temporarily depreciates the value of land as a security. But a load of ancestral debt has been cleared off, and if perhaps under that process some hardship has been felt by creditors yet the provisions of the Act are not prohibitive of fair money-dealing in the future. Sahukárs are not sentimental, and I presume that a business man would not consider an agricultural holding a less desirable security for a loan because it has been cleared from previous encumbrances."

The Motion was put and agreed to.

The Hon'ble SIR THEODORE HOPE also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

ELECTRICITY SUPPLY BILL.

The Hon'ble SIR THEODORE HOPE also moved for leave to introduce a Bill to regulate the supply of electricity for lighting and other purposes. He said :—

"In making this motion I should explain that the necessity for this Bill was demonstrated about three or four years ago, when we suddenly had an influx into India of companies and promoters of companies for the purpose of electric lighting. These companies proposed to start operations, and actually did in some cases start them, in some of the principal towns of India. But when we desired to regulate their proceedings with a view to the safety of the public and the prevention of interference with our own telegraphic system, we found that we were without the legal means of doing so. As regards the public, it is probably well known that there is considerable danger arising from electric light connections in consequence of the currents used in the production of the light being of very great strength. They are so powerful as to cause instant death to any person who comes in contact with them, or to set fire to any inflammable material which lies on the wires while the currents are passing. Again, when electric light wires pass within a certain distance of telegraph or telephone wires, obstructive currents are liable to pass from one to the other, which of course entirely put a stop to the use of the telegraph and telephone for the time being. In order to meet these two difficulties the Bill proposes, as regards protection, that the wires or communications should be put in such a position that contact is impossible, or that they should be so covered with insulating material that contact with them will produce no evil results. As regards interference with the telegraph and telephone wires, the only thing that can be done is to take care that the electric light wires are placed sufficiently far off. That again is an extremely technical matter, and is dependent on the strength of the current used and local circumstances. The Bill therefore provides, in order to secure all these purposes, that any company which desires to supply electricity must take out a license from the Governor General in Council; in this license regulations and conditions will be provided suitable for the particular circumstances of the occasion."

The Motion was put and agreed to.

The Hon'ble SIR THEODORE HOPE also introduced the Bill.

The Hon'ble SIR THEODORE HOPE also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

GLANDERS AND FARCY BILL.

The Hon'ble MR. ILBERT moved that the Bill to extend the Glanders and Farcy Act, 1879, to the Bombay Presidency be taken into consideration. He explained that the Bill had received the approval of the Bombay

Government, and he thought there was no reason why it should not be passed into law without further delay.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill be passed.

The Motion was put and agreed to.

BENGAL CIVIL COURTS BILL.

The Hon'ble MR. ILBERT also presented the Preliminary Report of the Select Committee on the Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam. He said :—

"This Bill was introduced by my predecessor in 1881 with a view of removing certain minor defects in the Bengal Civil Courts Act. It was referred to a Select Committee and circulated for opinion, but its further progress was suspended by the revival of a scheme for establishing local Appellate Benches in Bengal—a scheme which is still in abeyance in consequence of financial and other difficulties. The amendments proposed by the Bill, though useful, can hardly be described as of urgent importance, and I should have been content to leave the measure to slumber a little longer in the archives of the Legislative Department but for the circumstance that there is before the Legislative Council another Bill which ought to be passed at an early date and which may affect the Bengal Civil Courts Act. I refer to the Bill to amend the law relating to Provincial Small Cause Courts. Under these circumstances I have taken upon myself, as the single representative of the Committee on the Bengal Civil Courts Bill, to have that Bill revised in accordance with the opinions that have been received, and to prepare a Report explaining the nature of the amendments which have been made, and recommending that the Bill, as amended, be re-published. And I propose to move that the Select Committee be reinforced by the addition of those members of the Committee on the Small Cause Courts Bill who are connected officially or otherwise with the Provinces to which the Civil Courts Act applies, in order that the two measures—the Civil Courts Bill and the Small Cause Courts Bill—may be considered together. Whether a single member of the Committee is technically competent to submit a Report on behalf of the whole Committee may possibly be open to doubt; but in view of the obvious convenience of the course which I propose for adoption, and of the fact that it will not in any way fetter the action either of my successor or of the Council or of any one else, I trust that the irregularity, if any, may be condoned."

The Hon'ble MR. ILBERT also moved that the Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam be re-published.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Hon'ble Mr. Peile, the Hon'ble Mr. Quinton and the Hon'ble Bábú Peári Mohan Mukerji be added to the Select Committee on the Bill.

The Motion was put and agreed to.

The Council adjourned *sine die*.

RESOLUTION.

Madras Presidency.—There were 207 companies in existence at the close of 1884-85, with an aggregate nominal capital of Rs. 2,74,47,928. During the year 1885-86, 10 companies with a nominal capital of Rs. 22,13,000 ceased to work, and 7 increased their capital by Rs. 12,51,972; while 375 new companies were registered against 60 in the previous year. Ninety-six of the newly registered companies were banking or loan companies, six were trading companies, three mills and presses, and one a mining and quarrying company; the remaining 260 companies being provident and benefit societies, securing certain payments to members or their nominees on death or marriage.

The net result at the close of 1885-86 was a total of 563 companies at work. Of these 563 companies, 314 had liabilities limited by guarantee and possessed no capital divided into shares. The remainder represented a nominal capital of Rs. 3,58,23,187. Of the nominal capital, Rs. 1,19,40,896 was paid up, as shewn below :

Nature of Companies.	No.	Nominal capital. Rs.	Paid-up capital. Rs.
Loan or Banking	201	2,35,19,067	58,47,531
Trading	14	39,30,000	5,65,590
Mining	10	20,69,100	9,29,726
Mills and Presses	16	50,90,000	37,59,889
Planting	8	12,20,000	8,18,160
Total	249	3,58,23,187	1,19,40,896

So that about half of the whole paid-up capital invested in these companies was devoted to money-lending transactions.

Four companies omitted to file their balance sheets and other documents as required by the Act, and the Government Solicitor was instructed to proceed against them.

The receipts from registration fees and the expenditure of the Registrar's office amounted in 1885-86 to Rs. 87,575 and Rs. 1,263 respectively against Rs. 13,731 and Rs. 1,049 in the previous year.

2. *Bombay Presidency.*—The year 1884-85 closed with a total of 174 companies in existence, representing an aggregate nominal capital of Rs. 11,26,31,430, of which Rs. 8,54,22,014 were paid-up, and with 83 companies in liquidation.

Of the 174 companies, 9 went into liquidation in 1885-86, 10 increased their capital by Rs. 10,39,500, 1 decreased its capital by Rs. 12,000, and 23 new companies were registered with an aggregate nominal capital of Rs. 74,97,500. The net result at the close of 1885-86 was 92 companies in liquidation and 188 companies at work, as shown below:—

Nature of Companies.	No.	Nominal capital.	Paid-up capital.
		Rs.	Rs.
Mills and Presses .	117	7,63,77,330	6,46,85,430
Trading .	42	1,84,16,600	1,27,92,234

Others .	9	78,75,000	69,78,190
Total	188	11,30,36,430	8,79,53,222

Thus nearly three-fourths of the paid-up capital of working companies in Bombay are invested in the great and increasing cotton industry.

Two companies omitted to file the usual notice of increase of capital as required by section 57 of the Act. They were prosecuted and fined in the sums of Rs. 501 and Rs. 500 respectively.

The fees realised in 1885-86 amounted to Rs. 8,877, and the total expenditure was Rs. 1,039-10, against collections Rs. 7,996-8 and expenditure Rs. 1,314-4-7 in the preceding year.

3. *Bengal.*—The year 1884-85 closed with 232 companies at work, with an aggregate nominal capital of Rs. 11,23,54,500, besides 10 companies in course of liquidation, whose nominal capital was Rs. 15,30,000.

Of these last, 10 are for tea cultivation, 2 for trading purposes, 1 for the cultivation of indigo, being the first of its kind, and 1 is an insurance company.

The net result at the close of 1885-86 was:—

Others .	4	13,10,000	9,33,580
Total	231	11,34,81,100	9,29,38,157

Thus rather more than a third of the paid-up capital was invested in tea companies, and about a fifth in mills and presses, mostly jute and cotton.

The total receipts from registration fees amounted to Rs. 6,995 against Rs. 7,089-6 in the previous year; and the total expenditure was Rs. 588.

GENERAL.

11. The details reviewed in the preceding paragraphs are summarised in the table appended to this Resolution, which shews the total capital, nominal and actual, in the different provinces of all joint-stock companies. Bengal, Bombay, and Madras head the list with a paid-up capital of 929, 879, and 119 lakhs respectively, making a sum of about 1,927 lakhs out of the aggregate for all India of 2,098 lakhs, or about 92 per cent.

12. The following table compares the paid-up capital in the several provinces in the last two years :—

Province.	Paid-up capital in 1884-85.	Paid-up capital in 1885-86.	Increase or decrease per cent in 1885-86.	Proportion of paid-up capital to all paid-up capital in 1885-86.
	Rs.	Rs.		Per cent.
Bengal	9,43,58,342	9,29,38,157	— 1.51	44.3
Bombay	8,54,22,014	8,79,53,222	+ 2.96	41.9
Madras	1,03,93,359	1,19,40,896	+ 14.89	5.7
North-Western Provinces and Oudh.	81,22,212	85,98,365	+ 5.86	4.1
Punjab	38,51,200	40,45,287	+ 5.	1.9
Burma	13,40,325	12,48,657	— 6.84	0.6
Other Provinces	28,70,992	30,84,009	+ 7.42	1.5
Total	20,63,58,444	20,98,08,593	+ 1.67	100

13. The largest part of this capital—934 lakhs paid-up—is invested in mills and presses chiefly for working or pressing cotton, jute, wool, and silk. The Bombay Presidency shews the largest contribution under this head, chiefly for working or pressing cotton, Bengal following, chiefly with jute.

Tea and other plantations follow with a total of 337 lakhs paid-up capital. Bengal is far ahead of the other provinces in the tea industry, most of the tea companies being registered in Calcutta.

Banking or loan companies rank third with 315 lakhs paid-up. Bengal heads the list here, the Madras Presidency coming next.

Trading companies rank fourth, with a paid-up capital of 278 lakhs. Bombay heads the list here, Bengal coming next.

Mining and quarrying engaged 103 lakhs paid-up. Here also Bengal heads the list, the Bombay Presidency being next.

The other industries individually represent much smaller sums; thus ice-making, 20 lakhs paid-up, chiefly in Bombay and Bengal; breweries, 12 lakhs paid-up, chiefly in the Punjab and the North-Western Provinces and Oudh.

14. The following table shews, so far as reported, the total number of joint stock companies at work in India with their nominal and paid-up capital at the end of each of the last six years :—

Year:	Companies at work.	Nominal capital.	Paid-up capital.	Increase of paid-up capital.
		Rs.	Rs.	Rs.
1880-81	475	19,74,10,150	14,86,66,364	
1881-82	500	21,29,73,730	15,45,80,041	59,13,677 = 3.98 %
1882-83	547	22,17,01,800	17,01,59,044	1,55,79,003 = 10.08 „
1883-84	619	26,67,31,384	18,75,06,107	1,73,47,063 = 10.19 „
1884-85	696	27,86,76,908	20,63,58,444	1,58,52,337 = 10.05 „
1885-86	805	28,52,71,367	20,98,08,593	34,50,149 = 1.67 „

The increase during the year was only 34½ lakhs, being at the rate of little more than 1½ per cent.—a very much smaller rate of increase than in previous years. The average annual rate of increase during the six years has been a little under 7 per cent.

15. The fees realised and the expenditure in each province last year were :—

(d) every right and liability belonging to or incurred by the old committee may be enforced by and against the new committee in like manner as it might have been enforced by and against the old committee if this Law had not been passed;

(e) a Government officer employed by the old committee at the time when the new committee comes into existence shall be deemed to be similarly employed by the new committee, and shall not be dismissed from that employment without the sanction of the Resident; and

(f) the new committee shall be substituted for the old committee in all legal proceedings by or against the old committee pending at the time when the new committee comes into existence.

(2) When a committee comes into existence under section 16 for a municipality constituted under this Law, and that municipality comprises within its limits a local area in which Book Circular No. XIV of 1881 is in force, that Book Circular shall cease to have effect in that local area, and the committee constituted under that Book Circular for that local area shall cease to exist.

18. A committee shall, from time to time, at a special meeting, elect as its chairman one of its own members or some other person qualified for election as a member; and the member or other person so elected shall, if the

election is approved by the Resident, but not otherwise, become chairman of the committee:

Provided that—

(a) if the office of chairman remains vacant for three months from the date of the first meeting of the committee, or, in the case of a vacancy afterwards occurring, from the occurrence of that vacancy, and no person is within that period elected under this section to fill it, the Resident may in his discretion appoint such person as he thinks fit by name or by virtue of office to be chairman; and

(b) in such municipalities as the Resident may, from time to time, by notification, exempt from the operation of this section, the Resident may, from time to time, appoint such person as he thinks fit by name or by virtue of office to be chairman.

The Resident may remove any chairman or vice-chairman of a committee from his office as such chairman or vice-chairman if he refuses to act, or becomes incapable of acting, or is declared an insolvent, or is convicted of any such offence, or subjected by a Criminal Court to any such order, as implies, in the opinion of the Resident, a defect of character which unfits him to be chairman or vice-chairman, or if he, without sufficient excuse, neglects for more than three consecutive months to be present at the meetings of the committee.

23. (1) If an elected chairman or a vice-chairman dies or resigns his office, or is removed, a new chairman or vice-chairman shall be elected or appointed in manner provided by section 18 or section 19, as the case may be.

(2) If a chairman appointed by the Resident dies, resigns his office or is removed, the Resident shall appoint another chairman.

30. (1) At every meeting of a committee the chairman, if present, shall preside.

(2) If, when any meeting is held, the office of chairman is vacant, or the chairman is absent from the meeting, and a vice-chairman is present, such vice-chairman or, when two vice-chairmen are present, the senior of them by date of appointment, shall preside.

(3) In any case not provided for in the foregoing portion of this section, the members present shall elect one of their number to be chairman of the meeting.

CHAPTER III.

TAXATION.

Taxation.

41. (1) Subject to any general rules or special orders which the Governor-General in Council may make in this behalf, and to any rules made by the Resident under this Law, a committee may, from time to time, for the purposes of this Law and in the manner by this Law directed, impose in the whole or any part of the municipality any of the following taxes, namely:—

(1) with the previous sanction of the Resident—

(a) a tax on buildings and lands situate within the municipality, not exceeding seven-and-

a-half per centum on the annual value of the buildings and lands;

(b) a tax on persons practising any profession or art or carrying on any trade or calling in the municipality;

(c) a tax on all or any vehicles, boats, animals used for riding, driving, draught or burden, and dogs, kept within the municipality;

(d) a tax on vehicles and animals used as aforesaid entering the municipality;

(e) a tax on menial and domestic servants;

(f) an octroi on animals for slaughter, or goods, or both, brought within the municipality for consumption or use therein; and

(B) with the previous sanction of the Resident and of the Governor-General in Council, any other tax.

(2) In this section, "annual value" means the gross annual rent for which buildings or lands liable to taxation may reasonably be expected to let:

Provided that, in the case of land which is assessed to land-revenue or of which the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, the annual value shall, if the Resident so directs, be deemed to be double the amount of the land-revenue for the time being assessed on the land, or, when the land-revenue has been wholly or in part released, compounded for, redeemed or assigned, double the amount which, but for such release, composition, redemption or assignment, would have been assessable as land-revenue.

42. When a committee has, in exercise of the powers conferred by this Law, provided for the performance, with regard to any buildings or lands by its agents, of the duties usually performed by sweepers, it may, with the previous sanction of the Resident, in the manner by this Law directed, impose upon those buildings and lands, in addition to any other tax imposed upon them under this Law, a tax, to be called the scavenging-tax, at such rate or of such amount as it thinks fit:

Provided that in fixing the rate or amount regard shall be had to the principle that the total net proceeds of the tax should not exceed the cost of the performance of the said duties.

43. (1) Besides the taxes mentioned in the foregoing sections, a committee, with the previous sanction of the Resident, may, for the purpose of constructing or maintaining works for the supply of water to the municipality or paying the principal or interest of any loan raised for the construction of such works, impose, in the manner by this Law directed, a tax, to be called the water-tax, upon buildings or lands which are so situated that their occupiers can benefit by the works.

(2) The rate or amount of the tax so imposed on different buildings or lands may be determined with reference, among other considerations, to their distance from the nearest point at which the water is deliverable by the works and to their level; but in fixing it regard shall be had to the principle that the total net proceeds of the tax, with the estimated income from payments for water supplied from the works under special contracts, should not exceed the amount required for the said purpose.

44. (1) A committee may, at a special meeting, pass a resolution to propose the imposition of any tax under section 41, section 42 or section 13.

(2) When such a resolution has been passed, the committee shall publish a notice, defining the class of persons or description of property proposed to be taxed, the amount or rate of the tax to be imposed and the system of assessment to be adopted.

(3) Any inhabitant objecting to the proposed tax may, within thirty days from the publication of the notice, submit his objection in writing to the committee; and the committee shall, at a special meeting, take his objection into consideration.

(4) If no such objection is received within the said period of thirty days, or if such objection, having been considered as aforesaid, is deemed insufficient, the committee may forward its proposals to the Resident, with the objections (if any) which have been submitted as aforesaid, and its decision thereupon.

(5) The Resident, on receiving such proposals, may sanction the same, or refuse to sanction them, or return them to the committee for further consideration.

(6) When the Resident sanctions any such proposals which require the further sanction of the Governor-General in Council, he shall submit the same to the Governor-General in Council, with the objections (if any) received through the committee; and the Governor-General in Council may sanction the proposals, or refuse to sanction them, or return them to the Resident for further consideration.

(7) When the proposals of a committee have been sanctioned by the Resident, or by the Resident and the Governor-General in Council, as the case may be, the committee may, at a special meeting, direct the imposition of the tax in accordance with such proposals.

(8) In giving such direction the committee shall fix a date from which the tax shall come into force:

Provided that—

(a) no tax shall come into force until it has been notified

(b) no tax leviable by the year shall come into force except at the commencement of the year by which it is leviable; and

(c) no other tax shall come into force less than one month from the date of the meeting at which its imposition is directed.

(9) A notification of the imposition of a tax under this Law shall be conclusive evidence that the tax has been imposed in accordance with the provisions of this Law.

45. A committee may, by a resolution passed at a special meeting and confirmed by the Resident, abolish or reduce in amount any tax imposed under the foregoing sections.

46. (1) A committee may exempt, in whole or in part, from the payment of any such tax any person who by reason of poverty may in its opinion be unable to pay the same.

(2) A committee may, by resolution passed at a special meeting and confirmed by the Resident, and the Resident may by order, exempt in whole or in part from the payment of any such tax any person or class of persons or any property or description of property.

47. (1) If at any time it appears to the Resident, on complaint made or otherwise, that any tax imposed under the foregoing sections is unfair in its incidence, or that the levy thereof or of any part thereof is injurious to the interests of the general public, he may require the committee to take within a specified period measures to remove the objection; and, if within that period the requirement is not complied with to the satisfaction of the Resident, the Resident may by notification suspend the levy of the tax or of such part thereof until the objection has been removed.

(2) The Resident may at any time, by notification, rescind any such suspension.

48. No tax imposed under this Law shall be invalid merely for defect of form; and it shall be enough in any such tax on property or any assessment of value for the purpose of any such tax, if the property taxed or assessed is so described as to be generally known; and it shall not be necessary to name the owner or occupier thereof.

49. Any tax imposed under the foregoing sections and payable periodically shall be payable on such dates and in such instalments (if any) as the committee, with the previous sanction of the Resident, may, by rule, from time to time, direct.

50. For all sums paid on account of any tax under this Law a receipt stating the amount and the tax on account of which it is paid shall be given by the person receiving the same, on request by the person making the payment.

51. (1) An appeal against the assessment or levy of any tax under this Law shall lie to the District Magistrate.

shall lie to the Commissioner or other officer empowered by the Resident in this behalf.

(2) The order of the appellate authority, shall be final.

52. (1) No appeal shall lie in respect of a tax on any building or land unless it is preferred within one month after the publication of the notice prescribed by section 53, and no appeal shall lie in respect of any other tax unless it is preferred within one month from the time when the demand for the tax is made:

Provided that an appeal may be admitted after the expiration of the period prescribed therefor by this section if the appellant satisfies the officer before whom the appeal is preferred that he had sufficient cause for not presenting the appeal within that period.

(2) No appeal shall be entertained unless the amount of the tax to which it relates is deposited with the committee before the appeal is preferred.

53. No objection shall be taken to any valuation or assessment, nor shall the liability of any person to be assessed or taxed be questioned, in any other manner or by any other authority than in this Law is provided.

54. All taxes leviable in any local area under Act IV of 1873, at the time when a committee having authority over that local area comes into existence under this Law, shall, so far as their imposition and assessment are consistent with this Law and within the powers conferred thereby, be deemed to have been imposed and assessed under this Law.

Taxes on Immovable Property.

55. (1) The committee shall cause an assessment-list of all buildings and lands on which any tax is imposed to be prepared, containing—

- the name of the street or division in which the property is situate;
- the designation of the property, either by name or by number, sufficient for identification;
- the names of the owner and occupier, if known;
- the annual value on which the property is

- the amount of the tax assessed thereon by the committee.

(2) For the purpose of preparing the list the committee may require the owners or occupiers of the buildings or lands to furnish it with returns annual value.

56. When the assessment-list has been completed, the committee shall give public notice thereof, and on the place where the list or a copy thereof may be inspected; and every person claiming to be either owner or occupier of any property included in the list, or the agent of any such person, shall be at liberty to inspect the list and to make extracts therefrom without charge.

57. (1) The committee shall at the same time give public notice of a time, not less than one month from the publication of the notice, when it will proceed to revise the valuation and assessment; and in all cases in which any property is for the first time assessed, or the assessment thereof is increased, it shall also give notice thereof to the owner or occupier of the property.

(2) All objections to the valuation and assessment shall be made in writing before the time fixed in the notice, or orally or in writing at that time.

58. (1) After the objections have been enquired into and the persons making them have been allowed an opportunity of being heard, either in person or by authorized agent as they think fit, and the revision of the valuation and assessment has been completed, the amendments made in the list shall be authenticated by the signatures of not less than two members of the committee, who shall at the same time certify that no valid objection has been made to the valuation and assessment contained in the list, except in the cases in which amendments have

been entered therein; and, subject to such amendments as may thereafter be duly made, the tax so assessed shall be deemed to be the tax for the whole year by which it is leviable next following that in which the assessment is made.

(2) The list when amended under this section shall be deposited in the committee's office, and shall there be open during office-hours to inspection by all owners and occupiers of property comprised therein, and a public notice that it is so open shall forthwith be published.

59. (1) The committee may at any time amend the list by inserting the name of any person whose name ought to be inserted, or by inserting any property which ought to have been inserted, or by altering the assessment on any property which has been insufficiently valued or assessed through mistake, oversight or fraud, after giving notice, to any person interested in the amendment, of a time, not less than one month from the date of service of such notice, at which the amendment is to be made.

(2) Any person interested in any such amendment may tender his objection to the committee in writing before the time fixed in the notice, or orally or in writing at that time, and shall be allowed an opportunity of being heard in support of the same in person or by authorised agent as he thinks fit.

60. It shall be in the discretion of the committee to prepare a new assessment-list every year, or to adopt the valuation and assessment contained in the list for any year, with such alterations as may in particular cases be deemed necessary, as the valuation and assessment for the year following, giving the same notice of the valuation and assessment as if a new assessment-list had been prepared.

61. (1) When a tax payable under section 41, sub-section (1), clause (a), or under section 42 or section 43, is payable in one sum in respect of an entire year, and the property in respect of which it is payable is unoccupied throughout the year, or when such a tax is payable in instalments and the property is unoccupied throughout the period in respect of which an instalment is payable, the amount payable in respect of the property for the year, or the instalment, as the case may be, shall be remitted:

Provided that it shall be in the discretion of the committee to direct that no remission shall be granted unless notice in writing of the vacancy has been given to it within such time from the beginning of the year or of the period as it may, from time to time, fix in this behalf.

(2) When in any case not provided for by the foregoing part of this section a building in respect of which a tax is payable under section 41, sub-section (1), clause (a), or under section 42 or section 43, is wholly or in great part demolished or destroyed by fire or otherwise, the committee may remit such proportion of the tax as it thinks equitable.

62. (1) A tax payable under section 41, sub-section (1), clause (a), shall be paid by the owner of the property in respect of which it is payable.

(2) A tax payable under section 42 or section 43 shall be paid by the occupier of the property in respect of which it is payable.

63. (1) When any sum is due on account of a tax payable under this law in respect of any property by the owner thereof, the committee shall cause a bill for the amount, stating the property and the period for which the charge is made, to be presented to the person liable to pay the same.

(2) If the bill is not paid within one month from the presentation thereof, the sum due shall be deemed to be an arrear of tax.

(3) The amount of every such arrear may be recovered, on application made in this behalf by the committee to the Deputy Commissioner, as if the property were an estate assessed to land-revenue and the arrear were an arrear of such revenue due thereon:

Provided that nothing in this sub-section shall authorise the arrest of a defaulter.

Octroi and Tolls.

64. If any person, bringing or receiving a conveyance or package within the octroi-limits of a municipality in which octroi is leviable, refuses, on the demand of an officer authorised by the committee in this behalf, to permit the officer to inspect the contents of the conveyance or package for the purpose of ascertaining whether it contains any articles in respect of which octroi is payable, the officer may cause the conveyance or package to be taken without unnecessary delay before a Magistrate, who shall cause the inspection to be made in his presence.

65. Every person bringing or receiving within the octroi-limits of any municipality any article on which octroi is payable shall, when required by an officer authorised by the committee in this behalf, and so far as may be necessary for ascertaining the amount of tax chargeable,—

(a) permit that officer to inspect, examine, weigh and otherwise deal with the article; and

(b) communicate to that officer any information and exhibit to him any bill, invoice or document of a like nature which he may possess relating to the article.

66. Every officer demanding octroi by the authority of the committee shall tender to every person introducing or receiving any article on which the tax is claimed a bill specifying the article-taxable, the amount claimed and the rate at which the tax is calculated.

67. (1) In case of non-payment of any octroi or of any toll on demand, the officer empowered to collect the same may seize any article on which the octroi is chargeable, or any vehicle or animal on which the toll is chargeable, or any part of its burden of sufficient value to satisfy the demand.

(2) The committee may cause any property so seized, or so much thereof as is necessary, to be sold by auction to satisfy the demand, with the expenses occasioned by the seizure, custody and

sale thereof, unless the demand and expenses are in the meantime paid, after the lapse of five days from the seizure, and after the issue of a proclamation fixing the time and place of sale :

Provided that, by order of the chairman or a vice-chairman, articles of a perishable nature which could not be kept for five days without serious risk of damage may be sold after the lapse of such shorter time as the chairman or vice-chairman may, having regard to the nature of the articles, think proper.

CHAPTER IV.

(2) The license may prescribe the duties of the licensee and provide for the revocation of the license on his failure to perform any of those duties, and generally may contain such regulations and conditions as the Governor-General in Council thinks expedient.

(3) By a license granted under this section the Governor-General in Council may, subject to such conditions as he thinks fit to impose, confer on the licensee, with respect to the placing of appliances and apparatus for the supply of electricity, any of the powers which the telegraph authority possesses under the Indian Telegraph Act, 1855, with respect to the placing of telegraph lines and posts for the purposes of a telegraph established or maintained by the Government or to be so established or maintained.

(1) The Governor-General in Council may from time to time amend, add to or cancel any of the regulations and conditions contained in a license, and withdraw any of the powers conferred by a license or impose amended or additional conditions with respect to the exercise of those powers.

5. (1) Section 3 shall not apply to any person supplying electricity for any purpose in any local area at the time of the passing of this Act so far as regards the supply of electricity for that purpose within that area.

(2) If any question arises with respect to the purpose or the local area for or in which electricity was being supplied at that time, it shall be decided by an authority to be appointed by the Governor-General in Council in that behalf, and the decision of that authority on the question shall be final.

6. (1) Notwithstanding anything in the last foregoing section, the Governor-General in Council may, on the application of any person supplying electricity for any purpose in any local area at the time of the passing of this Act, grant to the person a license for that purpose in that area under the provisions of section 4.

(2) Where a license is granted under sub-section (1), it shall supersede any engagement between the person to whom it is granted and any local authority with respect to the conditions on which electricity may be supplied by that person for the purpose, and in the local area, specified in the license.

Penalty for supplying electricity without license or contravening license.

7. If a person does either of the following things, namely,—

- (a) being a person to whom section 3 is applicable, supplies electricity for a price without a license, or,
- (b) having a license under this Act, commits or suffers to be committed a breach of any duty prescribed in the license or of any regulation or condition contained therein,

he shall be punished with fine which may extend to one thousand rupees, and, in the case of a continuing offence, with a further fine which may extend to two hundred rupees for every day during which the electricity is supplied or the breach of the duty, regulation or condition continues.

8. (1) The Governor-General in Council may from time to time make such rules as he thinks expedient for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity, and for preventing telegraph lines from being injuriously affected by any of those appliances or apparatus.

(2) A rule under this section may apply to the appliances and apparatus of a person not having

a license under this Act as well as to those of a person having a license thereunder.

(3) In making a rule under this section, the Governor-General in Council may direct that a breach of it shall be punishable with fine which may extend to one thousand rupees and, in the case of a continuing breach, with a further fine which may extend to two hundred rupees for every day during which the breach continues.

9. (1) The Governor-General in Council shall, before making rules under the last foregoing section, publish, in such manner as he deems sufficient, a draft of the proposed rules for the information of persons likely to be affected thereby.

(2) There shall be published with the draft a notice specifying a date at or after which the draft will be taken into consideration.

(3) The Governor-General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) The publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive proof that it has been duly made.

(5) Rules under that section may from time to time be amended, added to or cancelled by the Governor-General in Council.

10. Nothing in this Act shall prevent any person from being prosecuted under any other law for any act or omission which constitutes an offence under section 7 or against a rule under section 8, or from being liable under that other law to any other or higher punishment or penalty than that provided by section 7 or a rule under section 8 :

Provided that a person shall not be punished twice for the same offence.

STATEMENT OF OBJECTS AND REASONS.

THE primary object of this Bill is to empower the Governor-General in Council to make rules (a) for protecting the public in person and property from injury by reason of contact with, or the proximity of, appliances or apparatus used in the supply of electricity for lighting, and (b) for preventing telegraph-lines from being injuriously affected by any of those appliances or apparatus.

2. The danger to the public from electric light connections arises from the fact that currents of great strength are used in the production of the light, the currents being powerful enough to cause death to any person, or set fire to any inflammable material, coming in contact with the wires while the currents are passing, that is to say, while the lamps are being used. Protection may be afforded either by placing these wires or connections in such a position that contact with them is impossible, or by so covering them with insulating material that contact with them is innocuous.

Interference with telegraph and telephone signals is caused by obstructive currents being induced in the telegraph and telephone wires when the electric light wires pass within a certain distance of them. The remedy is to arrange that the electric light wires shall be placed sufficiently far off. It is impossible of course to determine what the safe distance is without knowing the strength of the current employed for the electric light, which again varies with the number of lamps in circuit, but the distance can be determined from time to time with reference to the maximum current to be used in any particular local area.

3. A company desiring to supply electricity in any local area for any purpose must, if any was not supplying it in that area for that purpose at the time of the passing obtain a license from the Governor-General in Council. By this license the

Governor-General in Council may impose such regulations and conditions as he thinks expedient, and confer on the licensee, with respect to the placing of appliances and apparatus for the supply of electricity, any of the powers which the telegraph-authority possesses under the Indian Telegraph Act, 1885, with respect to the placing of telegraph lines and posts for the purposes of a telegraph established or maintained by the Government or to be so established or maintained.

Companies which were supplying electricity in any local area for any purpose at the time of the passing of the Act may elect to continue supplying it without a license, and therefore without the obligations which may be imposed, or the privileges which may be conferred, by a license.

The 21st October, 1886.

[Third publication.]

The following Report of the Select Committee on the Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st October, 1886 :—

Preliminary Report on the Bengal Civil Courts Bill, 1881.

THE Bill to amend the law relating to Civil Courts in Bengal, the North-Western Provinces and Assam was introduced into the Council of the Governor-General by the Hon'ble Mr. Stokes in 1881, was referred to a Select Committee and was circulated for opinion, but its further progress was suspended in consequence of a proposal to establish appellate benches in Bengal. That proposal having been abandoned for the present, the opinions on the Bill of 1881 have been examined, and most of the recommendations in them incorporated in the amended copy of the Bill which accompanies this Report.

The few recommendations which have not been adopted have reference to the relation of Courts of Small Causes to District Courts, and will be best considered in connection with the Provincial Small Cause Courts Bill, 1885. I propose therefore to move at the next meeting of Council that all members of the Select Committee appointed to consider and report on that Bill who are residents of, or are or have been officially connected with, Bengal, the North-Western Provinces or Assam be added to the Select Committee on the Courts Bill to which this Preliminary Report relates.

2. The following portions of the amended Bill seem to call for remark :—

- (a) *Section 5.*—A sub-section has been added on the advice of the Government of the North-Western Provinces and Oudh for the purpose of removing any doubt there may be as to the competence of a Local Government to appoint a Judge of a Court of Small Causes to be a Subordinate Judge, or to appoint a District Judge or Subordinate Judge to discharge temporarily the functions of another District Judge or Subordinate Judge, as the case may be, in addition to the performance of his own duties.
- (b) *Section 7.*—The powers vested in the High Courts at Fort William and Allahabad by the Statute 24 & 25 Vic., cap. 104, section 15, seem to render it unnecessary to provide in this and other sections of the Bill that a District Judge is in all matters connected with the administration of the Courts to act under the control of the High Court, the District Judge being already in those matters under the obligation of obeying any instructions which the High Court may be pleased to issue.
- (c) *Section 8.*—It has been objected that the provision of the Act of 1871 which requires an Additional Judge or Subordinate Judge in charge of the office of a District Judge to discharge “such of the current duties thereof as are connected with the filing of suits and appeals, the issue of processes and the like functions,” is too indefinite, and has in practice resulted in inconvenience and loss to parties. An attempt is made in sub-section (2) of section 8 of the revised Bill to define more particularly the powers which an Additional Judge or Subordinate Judge in charge of the office of a District Judge may exercise.
- (d) *Section 9.*—Objection has been taken by the High Court for the North-Western Provinces to the words “on leave” in section 9 of the Act of 1871, and to the words in the same section which empower the District Judge to transfer cases only to his own Court or to the Court of a Subordinate Judge. The High Court points out that a Subordinate Judge may be absent from his district otherwise than on leave, as, for instance, on deputation to another district, and that, where, as occasionally happens, the Court of a Subordinate Judge is for any tract of country the Court of lowest jurisdiction, it may be convenient to transfer cases from his Court to that of a Munsif. The section has in these respects been amended, and two sub-sections (3) and (4) have been added, the former being supplementary to the amendment of sub-section (1), and the latter designed to remove a difficulty which has been felt in the North-Western Provinces.
- (e) *Section 10.*—The expression of this section, which was inaccurate in the Act of 1871, has been amended in the manner proposed by Mr. Justice Prinsep.
- (f) *Section 11.*—This section has been modified in accordance with the recommendations of the Lieutenant-Governor of Bengal, the Chief Commissioner of Assam and Mr. Justice Prinsep.

- (g) *Section 16.*—A sub-section has, on the suggestion of Mr. Justice Prinsep, been added to meet the case of officers in the territories referred to in section 11 who dispose of civil business while on tour at any place within the local limits of their jurisdiction.
- (h) *Section 17.*—On the suggestion of Mr. Justice Field, a sub-section has been added to the effect that a judicial act shall not be invalid by reason only of its having been done on a holiday.
- (i) *Section 18.*—This section has been so drawn as to remove difficulties experienced in Bengal, the North-Western Provinces and Assam in the working of the corresponding section of the Act of 1871.
- (j) *Section 21.*—A sub-section has been added with reference to the cases at 13 B. L. R. 376; 10 B. L. R., App. 30; 19 W. R. 201; and 8 C. L. R. 6.
- (k) *Section 22.*—Sub-section (1) of this section has been re-drawn with advertence to the cases at 18 W. R. (F. B.) 261; 18 W. R. 316; and 19 W. R. 131.

Sub-section (3) has been added on the suggestion of Mr. Justice Prinsep.

- (l) *Section 23.*—The case at 1 L. R. 7 All. 775 suggests an expansion of this section.
- (m) *Section 25.*—Sub-section (1) will empower the District Judge to transfer appeals from orders of Munsifs, as well as from their decrees, to Subordinate Judges.

Sub-section (2) has, on the suggestion of Mr. Justice Prinsep, been so drawn as to enable the District Judge to transfer to any other competent Court under his control an appeal withdrawn from the Court of a Subordinate Judge.

Sub-section (3) is suggested by the cases at 16 W. R. 235 and 18 W. R. 292.

- (n) *Section 26.*—This section has been amended in several particulars. It is proposed, on the suggestion of Mr. Justice Field, that the order of the High Court may be either general or special; on the suggestion of Mr. Justice Prinsep, that the High Court may authorise a Subordinate Judge or Munsif to take cognizance of the proceedings mentioned in the section; on the suggestion of the Government of the North-Western Provinces and Oudh, that references by Collectors under section 322C of the Code of Civil Procedure should be added to the list of proceedings; and on the suggestion of the same Government and of Mr. Justice Field and Mr. Justice Maclean, that several of the proceedings specified in section 26 of the Bill of 1881 should be excluded therefrom.
- (o) *Section 27.*—On the suggestion of Mr. Justice Prinsep, it is proposed that appeals from orders passed by Subordinate Judges in proceedings mentioned in section 26 shall, when appeals are permitted, lie to the High Court.
- (p) *Section 34.*—With respect to section 35 of the Bill of 1881, Mr. C. J. Daniell, District Judge of Moradabad, recorded the following remarks:—

"I consider it essential to the efficiency of the ministerial officers of the subordinate Civil Courts in a judgeship that a stream of promotion should be maintained from the lowest to the highest grade of these officials throughout the judgeship. If this is secured, every hard-working man knows that there are several appointments to which he can aspire, the field for his promotion is widened, and he is more encouraged to do his work well than if he had only to look to the rare vacancies in a single munsifi for advancement. On the other hand, the Judge can promote any man from any one of several situations to any other that he may be qualified for in the whole judgeship, and a stimulus is provided to efficient and industrious work which is entirely absent if the Judge can promote no one but the officials of his own office, or if, in order to promote a deserving man in a munsifi, he is obliged to place him over the heads of other men in his own office, without being at the same time able to provide any of his own officials with a step on promotion in any of the munsifis subordinate to him.

"There can, I think, be no doubt that better men are obtainable and better work done in a wide than in a narrow field of work; but this section (35), as it stands, reduces the area over which a subordinate official's career extends within the most confined limits.

"In former times, when the subordinate Civil Courts were never inspected, something might be said in favour of allowing Munsifs to nominate and promote the officials of their own Courts; but in these days Munsifs are frequently changed, while Judges are seldom changed, and a judgeship is becoming more and more the unit of judicial administration. It is as well that this should be so, for such a condition is an incentive to a more careful supervision on the part of a Judge over his subordinates, and consequently to better work on the part of all below him. This incentive, however, will fail to act if the area of nomination and selection in a judgeship is confined to single munsifis instead of extending to all the Courts in the judgeship."

The Government of the North-Western Provinces expressed concurrence in Mr. Daniell's remarks, as the Government of Bengal did in similar remarks recorded by Mr. Justice Field.

- (q) *Section 35.*—This section provides for the case of Civil Court amins and the joint process-serving establishments now maintained throughout Bengal and the North-Western Provinces under the superintendence of central nazirs and the control of the District Judge.
- (r) *Section 38.*—The addition to this section was suggested by Mr. Justice Oldfield.
- (s) *Section 40.*—This section seems to be required for the purposes of applications under section 108 of the Code of Civil Procedure and other proceedings not referred to in sections 623 and 649 of that Code.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 3rd NOVEMBER, 1886.

GENERAL REMARKS. —The rainfall of the past week has been heaviest in Bombay, the Central Provinces, Mysore and Coorg, and Burma. In Madras, Bengal, Assam, Berar, and Central India, and in a few places in the Punjab and the North-Western Provinces and Oudh, there have been slight showers.

The *kharrif* harvest continues in Bombay, the North-Western Provinces, and Oudh, Punjab, Rajputana, and Hyderabad, and is also in progress in the Central Provinces, where, as in parts of Bombay, the standing crops have been somewhat damaged in places by heavy and untimely rain. In Berar and Central India the crops are progressing well, and prospects are also satisfactory in Madras, Mysore and Coorg.

The rice crop in the Central Provinces is improving under the late rain, and in Bombay, Bengal, Assam, and Burma the condition of the crop is favourable.

Cotton picking continues in the North-Western Provinces and Oudh and in Berar, but in the Central Provinces the crop has been injured by excessive rain. In Bombay cotton prospects are generally good.

Rabi operations are in active progress everywhere, and where the sowings have germinated they promise well. In the Central Provinces the rainfall still retards the *rabi* sowings.

The public health is generally satisfactory in all Provinces.

Prices are falling in Mysore and Coorg and in two districts of the Punjab, but are generally steady elsewhere.

EXAMINATIONS.

The 25th November, 1886.

No. 69.—The following Regulations respecting the examination of candidates for the Civil Service of India, to be held in June 1887, are published for general information:—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE 1887.

N.B.—The Regulations are liable to be altered in future years.

1. On the 1st June, 1887, and following days, an Examination, open to all qualified persons, will be held in London (a). Not fewer than persons will be selected, if so many shall be found duly qualified; viz., for the Lower Provinces of Bengal (including Assam); for the Upper Provinces of Bengal (including the Punjab and Oudh); for Burma; for Madras; and for Bombay (b).

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners:—

(i.) That he is a natural-born subject of Her Majesty.

(ii.) That his age will be above seventeen years and under nineteen years on the 1st January 1887. [*N.B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided.*]

(iii.) That he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India.

(iv.) That he is of good moral character.

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee (c), will be admitted to the Examination. The Commissioners may however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary, and if the result of such inquiries, in the case of any Candidate, should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India; and if already selected will be removed from the position of a Probationer.

(a) An order for admission to the Examination will be sent to each Candidate on the 16th of May.

(b) The numbers will be announced hereafter.

(c) The fee (£5) will be payable by means of a special stamp according to instructions which will be communicated to Candidates.

4. The Examination will take place only in the following branches of knowledge:—

	Marks.
English Composition	300
(a) History of England—including a period selected by the Candidate	300
(a) English Literature—including books selected by the Candidate	300
Greek	600
Latin	600
French	500
German	500
Italian	400
(b) Mathematics (pure and mixed)	1,000
Natural Science: that is, the Elements of any two of the following Sciences, viz.:—

Logic	300
Elements of Political Economy	300
(c) Sanskrit	500
(c) Arabic	500

Candidates are at liberty to name any or all of these branches of knowledge. No subjects are obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*d*), in order to secure that “a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer.”

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates, will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the Selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate. A Selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected Candidates, before proceeding to India, will be on probation for two years, during which time they will be examined periodically, with a view of testing their progress in the following subjects (*e*):—

4. The History and Geography of India	350
5. Political Economy	350

In these Examinations, as in the Open Competition, the merit of the Candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one Examination. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. The last of these Examinations will be held at the close of the second year of probation, and will be called the “Final Examination,” at which it will be decided whether a Selected Candidate is qualified for the Civil Service of India. At this Examination Candidates will be permitted to take up any one of the following branches of Natural Science, viz.—Agricultural Chemistry, Botany, Geology, or Zoology for which 350 marks will be allowed.

10. Candidates will be tested during their probation as to their ability to perform journeys on horseback; and no Candidate will be deemed qualified for the

(a) A considerable portion of the marks for English History and Literature will be allotted to the work selected by the Candidate. (See notice on page 704.) In awarding marks for this, regard will be had partly to the extent and importance of the periods or books selected, but chiefly to the thoroughness with which they have been studied.

(b) The Examination will range from Arithmetic, Algebra, and Elementary Geometry, up to the elements of the differential and integral calculus, including the lower portions of applied Mathematics.

(c) The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency, such as may be expected to be reached by a Native of good education.

(d) Marks assigned in English Composition and Mathematics will be subject to no deduction. Each science will, for the purpose of deduction, be treated as a separate subject.

(e) Full instructions as to the course of study to be pursued will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

12. The Selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

13. Persons desirous to be admitted as Candidates must apply on Forms,* which may be obtained from "The Secretary, Civil Service Commission, London, S. W.," at any time after the 1st December 1886. The Forms must be returned so as to be received at the Office of the Civil Service Commissioners on or before 31st March, 1887 (a).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

- (1) *Selected Candidates will be permitted to choose, according to the order in which they stand in the list resulting from the Open Competition, so long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed; but this choice will be subject to a different arrangement, should the Secretary of State, or the Government of India, deem it necessary (b).*
- (2) *The Probationers, having passed the necessary Examinations, will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*
- (3) *The Seniority in the Civil Service of India of the Selected Candidates shall be determined according to the order in which they stand on the list resulting from the Final Examination.*
- (4) *An allowance amounting to £800 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's and Aberdeen; University College, London; and King's College, London; provided such Candidates shall have passed the required Examinations to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.*

Candidates are not permitted to migrate from the University originally chosen by them to another University without first applying to the India Office for the permission, and receiving the sanction, of the Secretary of State, who will not entertain such applications unless good and sufficient reasons are assigned.

STATISTICS AND COMMERCE.

COMMERCE AND TRADE.
MERCHANT SHIPPING.*The 23rd November, 1886.*

No. 4255.—In exercise of the powers conferred by Sections 58 and 67 of the Indian Merchant Shipping Act, 1880, the Governor General in Council is pleased to make the following rules regarding the relief of distressed seamen or apprentices in Madras, Bombay and Burma:—

Relief of distressed seamen.

In these rules the term "distressed seamen" includes—

- (a) all seamen and apprentices being native Indian subjects of Her Majesty who have been shipwrecked, discharged, or left behind at any place in British India, whether from any British ship employed in the merchant service, or from any of Her Majesty's ships, or who have been engaged by any person acting either as principal or agent to serve in any ship belonging to any foreign power, or to the subject of any foreign State, and who are in distress in any such place;
- (b) all seamen and apprentices not being native Indian subjects who have been shipwrecked, discharged, or left behind at any place in British India from any British ship registered in British India, and who are in distress in any such place.

2. In taking charge of distressed seamen, the local authority will provide them with subsistence and clothing, as their necessities may require, but upon the most reasonable terms possible, and no more expensive clothing should be supplied to an officer than to a common seaman. Beds and bedding should not be supplied except under special circumstances, and the value of clothing should not exceed ₹10 for each person. In any case of unusual expense, when the local authority considers it absolutely necessary to deviate from the foregoing rules, or to provide relief for a longer period than one month, a statement of the exceptional circumstances which necessitated the further outlay is to accompany his accounts when transmitted for audit. Money payments to the seamen themselves for purposes of relief must be avoided as far as practicable.

3. In all cases to which Section 62 of the Act applies, a report should be submitted by the local authority to the Government, in order to admit of the seaman's wages (if any are due) and the expenses incurred in his behalf being recovered from the master or owner or other person liable under Section 63 of the Act.

Conveyance home of distressed seamen.

4. Distressed seamen who are in receipt of relief are to be sent home by the earliest available opportunity, and British vessels requiring men to make up their complement should be preferred in order to admit of the seamen earning wages while being so sent; but if no such vessel can be found, and if there is no immediate prospect of any such vessel requiring men, they should be sent as supernumeraries on board the British vessels (whether registered in British India or not) that may be in the port at the time, and bound to their homes, or to ports near their homes, as the case may be; provided, however, that no ship be required to convey more than one supernumerary to every fifty tons of her registered tonnage. Distressed seamen who refuse to work, if able, for their passage home, cease to be entitled to further relief under these rules.

5. The local authority will endorse upon the agreement of the British ship, on board which distressed seamen are sent under Section 56 or Section 57 of the Act, the name of each man sent on board, and the day on which he was sent on board. He will also, in the case of a distressed seaman sent on board under Section 57, fill up, sign, and deliver to the master an order with certificate in form A for the seaman's conveyance.

6. Whenever there are no British merchant vessels to which distressed seamen can be allotted, and the local authority thinks it desirable, in order to avoid expense, to engage a passage for them in foreign merchant vessels, he may do so on the best terms he can obtain. He should avoid, if practicable, making any payment beforehand for such passage, but should report the terms to the Government, and direct the master to apply for payment to the shipping master at the port to which the vessel is bound.

RESOLUTION.

In the penultimate paragraph of Home Department Resolution dated 20th May 1879, cited in the preamble, the following general instructions in respect of the treatment of gangs of foreign Asiatic vagrants were laid down for the guidance of Local Governments and Administrations and the officers subordinate to them, namely:—

- (1) that the frontier provinces are responsible that such gangs are not allowed to pass into India;
- (2) that in any province where such a gang commit any depredations, no effort should be spared in bringing the chief offenders to justice for specific crimes, or treating them, as the law allows, under the provisions of the Code of Criminal Procedure relating to security for good behaviour;
- (3) That on no account should such gangs be passed on under police or other guards into other districts or other provinces; but if deportation is deemed necessary, it should be carried out at once under Act* III of 1864, full lists and descriptive rolls of the deported persons, with photographs of the leaders, being taken and forwarded to the frontier Governments; and
- (4) that on no account should safe-conduct passes or licenses to carry arms be granted to gangs of this type, or to any members of such gang; and that if arms or ammunition are found in their possession, they should be at once disarmed in accordance with the provisions of the Arms Act.

* An Act to give the Government certain powers with respect to Foreigners.

2. The following instances have recently come under the notice of the Government of India in which these instructions have in certain respects been overlooked by local officers. In the year 1884, a large body of Pathans visited the Lower Provinces. According to the Police reports, these men described themselves as being of Dehra Ghazi Khan, although there was reason to believe that they were wandering gipsies from beyond the North-West Frontier of India. They travelled in several gangs, the number of which appeared to be fluctuating, and while pretending to be horse-dealers caused great annoyance to the inhabitants of the districts through which they passed by practising various methods of extortion.

In June 1885, three vagrant bands entered the Ganjam District of the Madras Presidency from Bengal—two through the Gurjat Mahals, and one through the Sambalpur District of the Central Provinces. These gangs, or some members of them, were found to be furnished with police escorts, passes, and licenses to carry arms. Two of the bands called themselves Biluchis, but stated that they came from Dera Ghazi Khan. The third described themselves as being natives of Hyderabad in Sind. Although trade in false-jewels, pocket-knives, pearls, and other miscellaneous articles was their ostensible object, their entry into the Madras Presidency was at once marked by disturbances. On the 31st July 1885, the Local Government issued an

order directing the removal of the gangs in question from the territories belonging to the Madras Presidency under the provisions of section 3 of Act III of 1864. Paragraphs 3 and 4 of that order were as follow :—

There is reason to believe that the three gangs are connected, and that they entered the Northern Circars of this presidency in the year 1882; and then stated that they belong to Hyderabad in Sind. From enquiries then made it was ascertained that the men were not known at the places mentioned by them, and the order of this Government then passed declared them to be “clearly *foreign* vagrants.” His Excellency the Governor in Council has no hesitation therefore in treating all three of the present gangs as foreigners.

The gangs have now entered the Vizagapatam District, and the question of their future disposal must be decided. His Excellency in Council resolves to order, under the provisions of Act III of 1864, section 3, that these gangs of foreign vagrants shall remove themselves from the territories belonging to the Madras Presidency by the shortest route leading towards their home beyond the North-West Frontier of British India. * * *

It also appears that certain gangs of foreign vagrants were passed on last year from the Central Provinces to the territories of certain Native States in Central India.

In a report submitted by the Bengal Government, it is explained that gun licenses were fraudulently obtained from the authorities at Alipore and Howrah by some individual members of one of the three gangs who entered the Ganjam District from the Bengal side. As regards the passports which these gangs were said to possess, it is stated that they were mostly certificates from a few local officers in the Lower Provinces to the effect that the men were a quiet set of traders, who had created no disturbance in the localities where they had temporarily halted, or that they were respectable travelling merchants. Stringent orders have now been issued by the Bengal Government with the object of preventing any repetition of the practice of giving such certificates.

3. The practice of furnishing wandering gangs such as those referred to above with police escorts, passes, and licenses to carry arms is clearly opposed to the orders contained in the Resolution of the 20th May 1879; and the Governor General in Council desires that the special attention of district officers in the several provinces should be directed to those orders, a strict observance of which should at the same time be enjoined. It must also be understood that such gangs must under no circumstances be passed on from British territory into Native States. His Excellency in Council would furthermore point out that the treatment of these foreign vagrants is a matter which requires the exercise of a careful discretion, and which cannot be regulated by hard-and-fast rules.

4. The Government of India also concurs in the suggestions contained in the letters from the Chief Commissioner of the Central Provinces and the Bengal Government, dated the 26th November 1885 and 31st July last, respectively, which are cited in the preamble to this Resolution, namely,—

- (1) that an order of deportation, if issued by any Local Government, should be made effective, and should not merely require the removal of the persons concerned from a particular presidency or province, but beyond the limits of British India (section 3, Act III of 1864), and that the route for removal should be always specified in the order, warning being at the same time given to the Local Governments and Administrations through whose territories the gang will pass; and
- (2) that whenever a license to carry arms is given to any person who may appear to be travelling *bonâ fide* for the purpose of trade, a note should be made on the

license of the number of persons accompanying such person, and that he should be given distinctly to understand that should his followers be augmented at any time, or should he join any other company or gang, his license would be at once liable to cancellation.

5. In conclusion, the Governor General in Council wishes it to be clearly understood that the object of calling renewed attention to the matter is not to interfere with the movements of persons who are *bonâ fide* engaged in trade, but to protect the peaceable inhabitants of the country from the depredations of wandering gangs whose real object is rather larceny or plunder than legitimate trade.

ORDER.—Ordered, that a copy of this Resolution, together with a copy of the correspondence cited in the preamble, be forwarded to Local Governments and Administrations for information and guidance, and to the Foreign Department for information and communication to Political and other authorities subordinate to that Department.

Ordered also, that the Resolution and the papers be published in the Supplement to the *Gazette of India*.

A. P. MACDONNELL,

Offg. Secretary to the Government of India.

No. 1126 J., dated Calcutta, the 28th February 1885.

From—J. WARE-EDGAR, Esq., C.S.I., Officiating Secretary to the Government of Bengal, Judicial, Political and Appointment Departments.

To—The Secretary to the Government of India.

In accordance with your endorsement No. 264, dated 25th February, enclosing a telegram (herewith returned) from Daria Khan and his followers, I am directed to submit the following report.

2. About nine months ago, the attention of Government was drawn by police reports to the presence in Behar districts of a large number of Pathans. According to the police reports these men described themselves as being of Dera Ghazi Khan, visiting India for the purpose of trading in horses. They were estimated to number some 250 persons. Reports concerning them were received from Sarur, Durbhanga, Monghyr and Bhagulpore. They were stated to have no fixed abode, to be travelling under the authority of perwanahs granted to them by certain officers in the North-Western Provinces, and under the cover of horse-dealing to be practising various methods of extortion on the inhabitants of the places they visited. These Pathans travelled in several gangs, the number of which appears to be fluctuating. Daria Khan was reported to be the leader of one of the gangs. The Pathans subsequently visited Purneah, Maldah, Dinapore, Bogra and Pubna. They were everywhere watched by the police.

3. In September last, under orders of the Inspector General of Police, a gang of these Pathans was stopped by the police in Pubna, and examined as to whether they were inhabitants of British India or not. Twenty of the men stated that they were inhabitants of "Rajhan in Khelat in the elaka of the Khan, but having no fixed abode. In Khelat which is under the control of the Khan, there is a British Resident." Rajhan they described as being in the hills, 30 miles distant from the district of Dera Ghazi Khan. The Inspector General of Police then represented to Government that this particular gang had committed many depredations and much harassed the villages on which the gang quartered themselves, and on his application the Lieutenant-Governor, by an order in writing under section 3, Act III of 1864, dated 4th December, directed that these foreigners should remove themselves from British India *via* Bogra, Maldah, Bhagulpore, Monghyr and Dinapore. The Government of the North-Western Provinces were at the same time addressed, informed that a police escort would accompany the men either to Buxar or the Karamnassa, and requested to issue necessary instructions to have the band passed on towards Khelat. On the 16th December, on the suggestion of the Magistrate of Dacca, the route was changed to one *via* Goalundo, Moorshedabad, Rajmehal and Bhagulpore. The gang was escorted by the police to Goalundo. Shortly after leaving that place, however, they got away from the police and appear to have joined other bands of Pathans.

4. Of those who escaped, one party appears to have come down south to the neighbourhood of Barrackpore, and under Subhan Khan to have joined the band of Daria Khan at Amta. At any rate, it is certain that these two bands entered the district of Midnapore together at the beginning of this month. On their arrival at Midnapore, the band of Subhan Khan was, on being identified by the Inspector of Police, who had previously been in charge of all the foreigners whose deportation was ordered, separated from that of Daria Khan, and despatched under a police escort towards Synthia. Daria Khan was

informed that he was at liberty to march where he liked, so long as he committed no depredation. But further enquiries are being made about him and his followers in Dera Ghazi Khan. It is to the separation from the party of Daria Khan of the Pathans who are under orders of deportation that the telegram under report refers.

5. With regard to Daria Khan, I am to say that the Lieutenant-Governor received a petition purporting to be sent by a person of that name at the end of last December. In the petition it was stated that the petitioner and his party had come from Dera Ghazi Khan to Bengal with horses and ponies for the purpose of carrying on trade, and the petitioners prayed that the police would not molest them. Attached to the petition was a paper purporting to be a copy of a certificate signed by R. A. Cole, Bengal Staff Corps, Station Staff Officer at Erinpura, to the effect that Daria Khan, merchant and horse-dealer from Dera Ghazi Khan, with about 150 followers, had camped near Erinpura for five or six days, and that their behaviour had been orderly. This Mr. Cole is apparently the gentleman referred to in the telegram. The petition, which was addressed from Calcutta, was sent to the Commissioner of Police, Calcutta, for report. In reply, it was stated that Daria Khan had applied to the Commissioner of Police for a license for arms and a rahdari perwannah to Madras *via* Midnapore and Balasore. On consideration of the unfavourable reports regarding Daria Khan, the grant of the perwannah was refused. As stated in the last paragraph, Daria Khan went at the beginning of this month to Midnapore. Thence the Lieutenant-Governor received from him two telegrams complaining of the separation of his party and alleging oppression by the police.

6. Daria Khan appears to be the chief leader of the Pathans. He and his party first entered Sarun from Goruckpore in the North-Western Provinces about May last, and the police reports have throughout been unfavourable regarding him and his men. There have been complaints against them of extorting money by threats from women and timid people, dealing in false precious stones, and of grazing their ponies on the crops of the villagers. Daria Khan himself and two of his party were tried on the 10th December last in Nuddea for culpable homicide. They were acquitted, because the witnesses either would not or could not speak positively as to the identity of the accused. There is, however, no doubt that one or some of the band did commit the murder.

7. I am to say that careful inquiry was made as to the country from which those Pathans came regarding whom orders of deportation were issued. They described themselves as foreigners and as subjects of the Khan of Khelat, and not British subjects. As they described their residence as being 30 miles from the District of Dera Ghazi Khan, in the hills, a reference was made to the District Superintendent of Police of Dera Ghazi Khan. In reply, he stated "nothing is known in this district of the members of the gang mentioned, nor can any substantial information be obtained regarding their arrival in Dera Ghazi Khan. From their habits, appearance, and mode of living, it would seem that they are either Khorasani or Irani gypsies, called sometimes Kuchianis."

8. There has been no vexatious or unnecessary interference with the men originally belonging to the gang of Daria Khan, but orders have been given to the police to watch their proceedings strictly. They have caused great annoyance to the inhabitants of the districts through which they have passed, and certainly in no respect have earned the character of being peaceable traders. It is probable that they are wandering gypsies from beyond the north-west frontier of India, but, pending the receipt of further information, Sir Rivers Thompson is unwilling to deport them in a body under the Act.

From—The Honourable E. F. WEBSTER, Chief Secretary to the Government of Madras.

To—The Secretary to the Government of India, Foreign Department.

I am directed to forward, for the consideration of His Excellency the Governor General in Council, the marginally noted G.O., 31st July 1885, No. 1990. Proceedings of this Government regarding certain wandering gangs describing themselves as Beluchis, who appeared recently in the northern districts of this Presidency.

2. These vagrant bands appear to have entered the Ganjam District from Cuttack, and their arrival in this Presidency was at once marked by a succession of criminal occurrences. They had in their possession passports of various dates, which, so far as they can be deciphered, appear to be of little value as evidence of nationality or for any other useful purpose. I am directed to enclose a gun-license, taken from Daria Khan, one of the leaders of the gang, purporting to have been granted on the 14th May 1885, by the Magistrate of Pooree, in contravention, it would seem, of the express orders of the Government of India as contained in the resolution noted in the

margin. It is in the opinion of His Excellency in Council, through inattention to these instructions, that these people have been enabled to penetrate so far south. The action of each district officer appears to have been directed merely to hurrying on the gang as quickly as possible out of his own jurisdiction, and His Excellency in Council would, therefore, suggest the advisability of positive instructions being reiterated to the Governments of the Northern Presidencies to carefully attend to the instructions laid down by the Government of India to which reference is made above.

Telegram dated Chatrapur, the 5th June 1885.

From—The District Magistrate, Ganjam.

To—The Chief Secretary to the Government of Madras.

Two gangs, numbering 38 and 45, respectively, entered district from Bengal side. They declare that they came from Dera Ghazi Khan, but Commissioner, Cuttack, styles one gang Beluchis, whilst Inspector General, Police, Bengal, has apparently treated them as British subjects furnishing escort. They are provided with numerous passes and also three gun licenses, but I have notwithstanding ordered disarmament, as already complaints of violence and plunder made. I believe gangs to be identical with those who wandered through the country in 1882—*vide* G. O. No. 506 of 19th June. They wish to proceed *via* Vizagapatnam to Madras. Have warned Mr. Turner.

ORDER THEREON.

The following telegram will be sent to the District Magistrate, Ganjam:—

“Your telegram fifth. Your action approved. Forward passes said to have been given to gang.”

No. 1794, dated Chatrapur, the 4th June 1885.

From—J. G. HORSFALL, Esq., District Magistrate of Ganjam.

To—The Chief Secretary to the Government of Madras.

I have the honour to report that a party of Beluchis, consisting of 13 men, 9 women, and 16 children, arrived here from Cuttack yesterday morning, *via* Rawbha. Another gang, said to number 80 persons, arrived at Kalingapodoro in the Kurcholi muttah of the Goomsur taluk on the 1st instant.

2. The arrival of these gangs in the district has spread alarm and consternation among the people. At Rawbha it is reported that the shops were all closed, and at Buguda in Goomsur it is reported that housebreaking with violence has been committed, and a strong body of police has had to be despatched there to inquire into the offence and make arrests if necessary.

3. Daria Khan, the leader of the gang which arrived here, possessed a double-barrelled rifle. As it is undesirable that such gangs of wild characters as these appear to be should be allowed to proceed with arms through this and adjoining districts, their presence in itself being a terror to the people, I have directed that the above gun be seized and detained here.

4. The Magistrates of Balasore and Pooree appear to have granted licenses to Daria Khan to possess arms contrary to the directions contained in paragraph 53 of the resolution of the Government of India, communicated with G.O., 2nd July 1879, No. 1552. The two licenses presented before me are enclosed for the information of Government.

5. I may mention that timely intimation was given me by the Commissioner of Cuttack of the advent of the smaller gang, but that I received no warning regarding the larger gang which has entered the districts suddenly by an unfrequented road, and would seem from the reports received to have at once broken out into acts of violence and lawlessness. I have communicated to the District Magistrate, Vizagapatam, the movements of the two gangs.

6. Though claiming to be Beluchis, I consider that they are the identical people who came down some four years ago and claimed to be Scindis. They have with them for sale nothing but a few English pocket-knives, and, what they call stones (probably glass), and a lot of ponies, but nothing of any value.

No. 376, dated Russellkonda, the 4th June 1885.

From—M. R. RY. A. SURYANARAYANA, General Deputy Magistrate of
Ganjam.

To—The District Magistrate of Ganjam.

In continuation of my letter, dated 2nd instant, No. 366, I have the honour to report that Mr. Inspector Lever met the gang of Mussulmans at Ballisayi on the evening of the 2nd instant, and on the 3rd accompanied them to Kullada, where they remained that day. The gang arrived at Russellkenda this morning and encamped in a tope about half a mile from the town. They intend to halt here to-morrow, and then march to the next stage "Gangupur" *en route* to Berhampore.

2. The headman of the gang and five others just came to my Office and showed me passports detailed in the enclosed list and several others obtained from the authorities in Native States. These show that they are peaceable traders.

3. It appears that these are Scindis or Punjabis residing in Dera Ghazi Khan district. They were travelling through several Native States in Upper India, and also through North Canara, Tanjore, Mysore, Bangalore, Calcutta, and Central Provinces from some years back for the purpose of trade. They have brought with them different kinds of false stones, pearls, penknives and other miscellaneous articles, and are exposing them for sale to the public at Russellkonda. The gang consists of—

[illegible]

They got a license for these guns from the Joint Magistrate of Howrah. The license is dated 8th January 1895, and is current till 31st December next. They are also accompanied by four constables of the Gurjat police.

4. They state that they intend going by land to Madras *via* Berhampore, Vizagapatam, Godavari, Kistna, and Nellore districts for purpose of trade.

5. They have not produced any passport from Government to pass through the Madras Presidency, but from the endorsement,* dated 13th March 1885, given by the District Magistrate of Burdwan, it appears that the orders of the Inspector General, Bengal, are that "they should be allowed to go where they please, the police, however, keeping an eye on them. They appear to be inoffensive traders, and say they belong to district Dera Ghazi Khan."

6. The Assistant Superintendent of Tributary Mahals (Gurjat Police) certifies, on 13th May 1885, to the effect that "these persons are travelling through these tributary mahals, and are now going to Berhampore. They have permission of Government to travel under police surveillance; this police guard should be relieved at the next district they go to." This shows that these people have permission of Bengal Government to go to Berhampore. But as I have received no orders from you, I am doubtful whether I may allow this gang to pass on to Berhampore under police surveillance.

7. They ask me for a passport and a police guard of one head constable and four constables, as they have also much money with them; but object to the deputation of Police Inspector to accompany them, saying that he would give them trouble. If they are allowed to pass on to Berhampore, I think it better to send an Inspector with a few constables along with them to Berhampore, so that they may not give any trouble to the villagers on their way. I respectfully solicit early orders, as these people say that they cannot stay here more than two days.

8. As regards the Kalingapodoro affair, Mr. Lever reports that some of the women of the gang quarrelled with the Panos of the place on account of some fowls, and each party received a beating from the other. He further reports that one Komati Narayana Patro of Gayagonda complained to him that the women belonging to the gang entered his house and carried away Rs. 60 in cash, a cloth, brass-pot, and some sugar. The matter is under investigation by the police, and if there is sufficient evidence, the offenders will be dealt with according to law.

Dated Soory, the 13th March 1885.

Endorsed by the District Magistrate of Soory on application for a copy.

Copy of departmental order cannot be given. The petitioner and his companions are going *via* Ranchee to trade. The Inspector General's orders are that they should be allowed to go where they place,* the police, however, keeping an eye on them; they appear to be inoffensive traders, and say they belong to district Dera Ghazi Khan.

CERTIFICATE.

Mirza Ali Muhammad Beg and party of men, women, and children, in all 45 persons, are travelling through these tributary mahals, and are now going to Berhampore. They have permission of Government to travel under police surveillance; this police guard should be relieved at the next district they go to.

Endorsed by the District Magistrate.

Submitted to Government in continuation of my letter of 4th June 1885, No. 1794, and my telegram of this date. I have issued warrant to seize all arms in their possession, and instructed the General Deputy Magistrate to act in accordance with the rules laid down in paragraph 53 of G. O., 2nd July 1879, No. 1552, Judicial Department, treating them as aliens.

From—J. G. HORSFALL, Esq., District Magistrate of Ganjam.

To—The Chief Secretary to the Government of Madras.

As directed in Government telegram of the 9th instant, I have the honour to forward 29 passes obtained from Daria Khan, the leader of the gang which passed through Chatrapur and which is now at Berhampore, and 2 gun licenses and 5 passes obtained from the gang which entered the district through Kurcholi.

2. The gang under the command of Daria Khan appear to be in a hurry to proceed to Russelkonda and join the other party there. The Superintendent of Police reports that he has reason to believe that they intend, if allowed, to go on together to Hyderabad *via* Balliguda, Kalahandi, &c. I have therefore issued orders (as Agent to Governor) that the gang should not be permitted to travel *via* Balliguda.

3. The Assistant Superintendent of Police, Gurjat Mahals, writes to the Superintendent of this District that "during their passage through the Tributary States of Orissa they gave a good deal of trouble to some of the Rajahs in whose States

they were, by quarrelling with the amila about payment of supplies and by thefts said to have been committed by their women."

4. His report only reached the Superintendent of Police after the gang had entered this district.

Ordered, that the following telegram be despatched to District Magistrate, Ganjam :—

that another gang, consisting of 10 men, 19 women, and 11 children, who call themselves natives of Hyderabad (Seinde?), arrived at Kurcholi in the Goomsur taluk on the 20th instant from Sambulpur, accompanied by a fourth grade head constable and a constable of the reserve police of that district. These are, no doubt, another party of the two previous gangs.

2. Besides the above, four men, who also style themselves natives of Hyderabad, joined the Russelkonda gang of the Biluchis on the 21st and 22nd *viâ* Buguda, Bellugunta, and Aska. The whole gang proposes to start for Vizianagram *viâ* Sergada and Pattupur.

With reference to my remarks on confidential monthly report, dated 1st July, I have now the honour to forward the report of the Superintendent of Police, Ganjam, on the Biluchi gangs that entered this Presidency last month. They are a turbulent and unruly set of people, who cause great annoyance to the timid and peaceful inhabitants of this Presidency, and it seems very objectionable that they should be allowed to wander about at will with fire-arms and protected by passes.

2. The inhabitants of this Presidency are not accustomed to deal with such people, the consequence is that, where there are no police at hand, they rob and bully the villagers, and are a perfect pest. They are not British subjects or it might be said that it would be interference with their liberty to prevent them travelling through India. They are, in my judgment, nothing more than vagrants provided with a certain amount of rubbish to give a cloak to their being considered travelling merchants.

No. 852, dated Chatrapur, the 14th June 1885.

From—H. T. Ross, Esq., Superintendent of Police.

To—The Assistant Inspector General of Police (through the Deputy Inspector General of Police), Madras.

In continuation of my telegram of the 5th instant, I have the honour to submit the following report.

2. On the 1st instant District Magistrate, Ganjam, informed me of the expected arrival of a gang of Biluchis (copy of letter A attached); I at once sent information to all Inspectors concerned.

3. On the 1st instant the Inspector of Police, Ganjam Division, reported the arrival on the 30th ultimo at Panditgam (5 miles this side of Bengal frontier) of a gang of Biluchis consisting of 13 males, 9 females, and 16 children, in all 38. They proceeded to Kalikot (the head-quarters of the zemindar) on the 31st idem under police escort; on the 1st instant to Rawbha; on the 2nd to Chatrapur, where they remained until the 6th, and then went on to Berhampore, where they are at present.

4. Whilst at Chatrapur the District Magistrate issued a warrant for the seizure of a licensed double-barrelled gun found with the leader of the gang. The gun was seized, but the Magistrate subsequently returned it on condition of its being sold to the Kalikot Rajah who had expressed a wish to buy it.

5. This portion of gang has been giving no trouble whatever in the district; the members profess to be itinerating merchants, and have with them a large stock of penknives, false pearls, gold mohurs, &c.

6. The leader states that the whole gang, of which the present number is but a portion, consists of 150 members; that they left Biluchistan about two years ago, and travelled together as far as Cuttack, visiting Calcutta, Balasore, and Midnapur, where they divided into two gangs—one going into the interior towards Sumbulpore, and the other followed the trunk road arranging to meet at Berhampore in this district. The name of leader is Daria Khan. He says he and his party belong to Dehra Ghazi Khan in Biluchistan.

7. On the 3rd instant I received a report from Inspector Lever at Russellkonda to the effect that the Baroda station officer had sent him information of the arrival, on the 1st instant at Kalingapodora (a Pano village, 20 miles north-east of Russellkonda), of a gang of about 80 Muhammadans who had demanded food from the villagers, entered their houses, assaulted and looted them of their fowls, &c.

8. The Inspector immediately started for the village and met the gang on the night of the 2nd at Bullichage. Mirza Muhammad Ali Beg and Mirza Kyser Beg, the two headmen of the gang, on being questioned stated they were natives of Dehra Ghazi Khan, and it is evident that they are members of the same gang now at Berhampore. A double-barrelled rifle and a fowling piece were found with them. These have subsequently been seized. This party was accompanied by four constables of Ongul (Gurjat district) and possessed a pass from the Assistant Superintendent of Police, Ongul (Gurjat district), dated 13th ultimo, in which it was stated that the gang had been permitted by Government to travel through the tributary mahals on their way to Berhampore under police surveillance, and that the guard should be relieved at the next district.

9. Regarding the numerous complaints made by the villagers, these four Bengal constables state that "they were in close attendance on the gang since it left Ongul, and did not notice or hear of any irregularity having been committed by them." I have called upon the Inspector for a further report regarding this matter. No intimation of the coming of this gang was sent me by the Gurjat district authorities, the first information we received of their presence was from villagers coming in with complaints. Besides the cases above mentioned a Komati of Gayagondal stated that the women of the gang broke into his shop on the morning of the 1st while passing through the village, stole Rs. 50 in cash, four gold-bladed necklaces to the value of Rs. 120, and a piece of loaf-sugar. These complaints are under inquiry.

10. The gang is found to be actually 45 strong, and is now at Russellkonda, where it will remain pending the disposal of the above charges.

11. It is believed that one of the leaders, Mirza Muhammad Ali Beg named above, was fined, some years ago (1882), Rs. 1,000 at Vizagapatam by the District Magistrate for keeping in his possession a gun without license.

12. Since writing the above, the charges against the various members of the gang have been inquired into.

13. I attach a statement giving particulars of each case.

14. The Police Inspector reports that the evidence in almost all the charges disclosed facts seriously complicating the police constables who accompanied the gang from Ongul.

15. In one case it is stated that the first-class constable in charge of the escort urged the villagers to pay up on the head of the gang threatening to loot and burn down the village if his demands were not met.

16. This constable, as might be expected, was cited as a witness for the defence in nearly all the cases charged, and, of course, the evidence was in favour of the parties citing him.

17. I will report further regarding the Ongul constables as soon as I receive the Deputy Magistrate's proceedings.

18. I have just received an order to obtain and forward to the District Magistrate all the passes granted by the Bengal authorities found in possession of the Biluchis.

I attach copy of a letter received yesterday from the Assistant Superintendent of Police, Gurjat mahals—*vide* B.

I have the honour to inform you that, on the 3rd instant, a party of "Khe-laties," headed by one Mirza Ali Muhammad Beg, entered your district and was made over to your police. These men have been travelling through Bengal with the permission of the Inspector General of Police, Lower Provinces, whose orders were that they should be watched, but not restrained by the police under whose surveillance they should be passed on from district to district. They are said to be travelling for the purpose of dealing in pearls, cutlery, and horses, but during their passage through the Tributary States of Orissa, they gave a good deal of trouble to some of the Rajas, in whose States they were, by quarrelling with the amla about payment of supplies and by thefts said to have been committed by their women.

From—District Magistrate, Ganjam.

Biluchis are at Guzratipet, Vizagapatam district. Their progress stopped. Have telegraphed to District Magistrate, Vizagapatam.

ORDER THEREON.

On the 5th of June the District Magistrate, Ganjam, telegraphed the arrival in his district of two wandering gangs described by the Commissioner of Cuttack as Beluchis, but furnished with escort, passes, and gun licenses. The Magistrate reported that he had ordered disarmament, and approval of his action in this respect was communicated to him by wire, and the receipt of further information awaited. This has now been furnished in the letters read above. It appears that three gangs have entered this Presidency, numbering in all 127 persons including women and children. Two parties called themselves Biluchis, but stated that they came from Dera Ghazi Khan in the Punjab; the third band describe themselves as natives of Hyderabad in Scinde, and state that trade is the object of their journey. They have in their possession different kinds of false jewels, pocket-knives, pearls, and other miscellaneous articles, which they offer for sale. Their entry into this Presidency was at once marked by disturbances. At Rawbha shops were all closed, and at Buguda house-breakings are reported to have been committed by them. Numerous complaints of theft and other offences are reported in the enclosures to the Inspector General of Police's report. Several fire-arms were found with them, and most of these have been seized by the local authorities.

2. It is clear from their actions in this Presidency, as well as from the proceedings of the Magistrate of Balasore, dated 24th March 1885, and the letter of the Assistant Superintendent of Police, Gurjat Mahals, dated 8th June 1885, that these gangs of foreigners are turbulent and dangerous to the public peace, and it is highly desirable to prevent them from wandering further into this Presidency.

3. There is reason to believe that the three gangs are connected, and that they entered the Northern Circars of this Presidency in the year 1882, and then stated that they belonged to Hyderabad in Scinde. From inquiries then made it was ascertained that the men were not known at the places mentioned by them, and the order of this Government then passed declared them to be "clearly *foreign* vagrants;" His Excellency the Governor in Council has no hesitation, therefore, in treating all three of the present gangs as foreigners.

4. The gangs have now entered the Vizagapatam district, and the question of their future disposal must be decided. His Excellency in Council resolves to order, under the provisions of Act III of 1864, section 3, that these gangs of foreign vagrants shall remove themselves from the territories belonging to the Madras Presidency by the shortest route leading towards their home beyond the north-west frontier of British India. The following telegram will accordingly be despatched to the District Magistrate, Vizagapatam:—

"Three gangs of Biluchis, total 127 persons now at Guzratipet. Government orders them under section 3, Act III of 1864, to remove themselves from Presidency by northern route. Inform them of penalty under section 4 in case of neglect or refusal. Communicate with Agent, Ganjam, and report result to Government."

5. The Government of India will be addressed regarding the action of the Bengal authorities in furnishing these gangs with passes and police escort.

No. 2793, dated Ootacamund, the 14th October 1885.

From—The Chief Secretary to the Government of Madras.

To—The Secretary to the Government of India, Home Department.

With reference to your letter, dated 17th September 1885, No. 320, regarding the wandering gangs of Biluchis who lately visited this Presidency, I am directed to refer you to the marginally noted letter which was addressed to the Government of India upon the subject.

1st September 1885, No. 2307.

2. No correspondence has taken place between this Government and the Government of Bengal in connection with the matter, but the passes found with the Biluchis, which had been granted by certain district officers in Bengal, have been ordered to be returned to the Bengal Government.

3. With reference to your inquiry regarding the results of the inquiry made into the conduct of the police constables who accompanied the gangs in question from Ongul, I am directed to state that the District Magistrate of Ganjam has not furnished any report upon the subject. The Police, in question, were Bengal Police, and doubtless the police authorities in Ganjam have reported the matter to the Superintendent of Police in Gurjat district, from which district the gangs were sent into Ganjam. A report upon the subject will, however, be called for from the Inspector General of Police.

No. 4158—203, dated Nagpur, the 28th October 1885.

From—F. C. ANDERSON, Esq., Officiating Secretary to the Chief Commissioner, Central Provinces.

To—The Secretary to the Government of India, Home Department.

I am directed to forward, for the information of His Excellency the Governor General in Council, a copy of letter No. 6134, dated

11th instant, from the Commissioner, Chhattisgarh Division, with copy of the letter referred to therein from the Deputy Commissioner of Sambalpur regarding wandering gangs of Beluchis. It appears from order No. 1990 (Judicial), dated 31st July last, passed by the Madras Government, that the case has been reported to the Government of India by the Madras authorities, and I am to say that the Chief Commissioner would be glad if he were furnished with a copy of any orders that may be passed on it by the Supreme Government. It is perhaps hardly necessary for the Chief Commissioner to point out that the deportation of large numbers of so-called Beluchis through the Central Provinces must cause considerable inconvenience and entail some expense.

No. 6134, dated Camp Bilaspur, the 11th October 1885.

From—The Commissioner, Chhattisgarh Division.

To—The Secretary to the Chief Commissioner of the Central Provinces.

I have the honour to forward, for the orders of the Chief Commissioner, the accompanying copy of letter from the Deputy Commissioner, Sambalpur,

* To be returned.

No. 4378, dated 5th instant, with enclosures* in original, suggesting that uniform action be followed by Local Governments in the treatment of gangs of Beluchis or Khelatis, who, from time to time, wander about the country, being regarded sometimes as peaceable traders, and at others as marauders preying upon the people. In the present instance it will be seen that certain gangs were allowed to go through Bengal protected by passes and escort, only to be regarded as turbulent and dangerous on entering the Madras Presidency, and deported as foreign vagrants under Act III of 1864. The gangs now deported from Madras will be escorted through the Central Provinces districts, but the question submitted for consideration is the possibility of arrangements being made to ensure for the future a uniform treatment of these people either as peaceable traders or as foreign vagrants.

No. 4378, dated the 5th October 1885.

From—J. P. GOODRIDGE, Esq., Deputy Commissioner, Sambalpur.

To—The Commissioner, Chhattisgarh Division.

I think it advisable to bring to the notice of the Chief Commissioner and yourself the movements of certain gangs of persons known as Khelatis or Beluchis.

2. In June or July last two such gangs passed through this district coming from the district of Lohardugga and the States of the South-West Agency. These men were accompanied by an escort of Bengal Police, and were in possession of rahdari parwannahs or safe passes granted to them by the Bengal authorities. Secretary to Chief Commissioner's Book Circular X of 1879 having forbidden the issuing of such passports and the detailing of a police guard to escort these gangs about, and having also directed that they should be treated either as ordinary traders and travellers, in which case they should not be molested, but only watched if in large numbers, or they should be deported if they misconducted themselves by oppressing or robbing the people. The District Superintendent of Police was directed to make an enquiry into their antecedents and present behaviour. The enquiry elicited the fact that they had passed peaceably through the districts of the Chota Nagpur country selling their wares, and that since their arrival in this district no complaints had been made against them. They sold a large quantity of imitation pearls and pocket knives of British manufacture, and after remaining here several weeks left on their way to Cuttack. At their departure they were very anxious to obtain rahdari parwannahs similar to those with which they had entered the district, and police escorts to protect and assist them on their way.

The instructions issued to the District Superintendent of Police were not to grant any such passes or escorts but to have them closely watched by one or more trustworthy constables, and so long as they conducted themselves in an orderly manner they should not be molested. If, however, they acted in a lawless or oppressive manner to the people, they were to be arrested, and the matter reported with a view to their deportation. Similar instructions were issued to the Feudatory Chief of Sonapur through whose State they passed on their way to the Gurjat Tributary Mehals. The second gang proceeded in the Raipur direction also without an escort or passes.

The District Superintendent of Police and the Chief of Sonepur subsequently informed me that they had conducted themselves in a peaceable manner, and had taken the route indicated by them to Cuttack.

And attached to this letter is the report of the District Superintendent of Police regarding these people which gives a good description of the men who visited this district this year, and their conduct while here.

3. I have now received information from the Commissioner of Orissa that several gangs of the same class of men styled Beluchis who had been travelling about in the Orissa country were, on their entering the Madras Presidency, arrested, and that the Government of Madras had eventually ordered them to be deported as gangs of foreign vagrants to their own country by the shortest route *via* Sambulpur.

4. From the Proceedings of the Madras Government, which were forwarded to me by the Commissioner of Orissa, and which are enclosed herewith for your information, I observe that these people stated before the Madras authorities what similar gangs have stated here, *viz.*, that they had come from Hyderabad (Scind). But nothing precise is known about them save what they state themselves. They carry about with them their women and children and all their belongings, and have now apparently no fixed abode. The Madras Government having made in 1882 enquiries about similar gangs who then untruthfully alleged that they were British subjects from Scind have now "no hesitation in treating these gangs as foreigners." It is also mentioned in the papers that various acts of violence and lawlessness had been attributed to them, and would be enquired into. A few distinct charges of theft and robbery are made, which, it is said, would also be enquired into; but it is noteworthy that no case is mentioned of any member of these gangs having been convicted of any of the serious offences with which they have from time to time been charged. But in any case whether they be peaceable traders or free-booters, the Madras Government seems to have taken a quite different view of them to that taken by the Bengal authorities when the latter granted them passes and escorts.

5. During the year several gangs of these men have proceeded from the Province of Bengal and spread themselves westwards and southwards, apparently on their way to the Madras and Bombay Presidencies. If these gangs were permitted to disperse from Bengal, and are afterwards collected in and deported from Madras to the North-West Frontier by the shortest road, then this district will become their route, and it will be necessary to detach large parties of Police to march with them several hundred miles across Central India. This will cause much inconvenience, which might apparently be avoided if these gangs were, in the first instance, not permitted to disperse from Bengal.

6. If these people moved about as peaceable traders in small parties, no objection could be taken to their presence. But insisting as they do on travelling about in large numbers with their women and children under the leadership of their headmen, collecting at certain places, dispersing and concentrating again according to a pre-arranged plan, and often selecting routes through solitary and backward parts of the country, their movements have to be placed under *surveillance*, and their evil reputation for violence and cunning causes considerable alarm both to the country and townspeople. They conducted themselves last July in an orderly manner in this district, but this may be due to the fact that they knew that they were watched; and it is not improbable that, if they had an opportunity, they would commit depredations.

7. The District Superintendent of Police has described in his memorandum the various tricks and artifices with which they are credited in the popular mind, but ordinarily and especially when they are closely watched it is most difficult to say whether they are freebooters travelling about in imposing numbers to plunder and cheat or are merely bands of peaceable traders, who, attracted by the plenty of India, have permanently left their homes in Beluchistan or elsewhere and have not yet acquired a new domicile in this country. They are ostensibly horse-dealers, but they brought no horses with them to this district, though they sold large

* According to their statement. numbers of pocket knives and false pearls valued at upwards of Rs. 700,* and were in possession of considerable sums of money. The Madras Inspector General of Police writes of their wares as "rubbish intended as a cloak to their being considered travelling merchants," but they unquestionably did a considerable business in imitation pearls and pocket knives in the district, and no one has complained of having been cheated by them.

8. But whatever may be thought of the character of these gangs, the difficulty arises from their moving about in large numbers and the necessity of employing Police to watch them in order to prevent them from oppressing timid and ignorant villagers. And now a second inconvenience is threatened, and there seems some danger that the Madras authorities will deport all those who have been allowed to

travel from Orissa to Madras, and that the Central Provinces authorities will have to provide escorts to convey these people across Central India.

9. Some arrangements, therefore, which would prevent these people from moving about in large numbers, and a settled policy for the observance of the different Local Governments in dealing with them, seem desirable, and this, I venture to suggest, can only be effectively done by dealing with them at their starting points on the frontier or seaport towns.

10. As regards the gangs deported by the Madras Government, the departure of which from Cuttack for this place has been announced by the Commissioner of Orissa, I beg to say that they will be forwarded to Jubbulpore *via* Bilaspore in charge of an adequate police guard.

It will not escape the notice of the Bengal Government that any such action is opposed to the orders contained in the penultimate paragraph of Home Department Resolution No. 29—989-1000, dated 20th May 1879, which lay down that on no account should gangs of foreign vagrants be passed on under Police or other guards into other districts or provinces, and that safe conduct passes or licenses to carry arms should under no circumstances be granted to the members of such gangs.

to forward copies of the papers marginally noted regarding certain wandering gangs of vagrants who recently visited the Lower Provinces and the Madras Presidency. It will be observed that, although trade was the ostensible object of these gangs, their arrival in many districts was immediately followed by disturbances of various kinds and by considerable inconvenience to the local officers.

2. It is not in any way the desire of the Government of India that the movements of peaceable persons whose *bond fide* object is trade should be in any way interfered with so long as they commit no breach of the law and abstain from giving trouble to the local authorities of the Provinces through which they pass ; but on the other hand it appears to the Governor General in Council that, when persons are found to be wandering about the country, not in small parties, but in gangs of considerable numbers, and to be causing disturbances and generally giving difficulty to the district officers, it is only a fair and a reasonable inference to draw that their real object is rather larceny or plunder than legitimate trade. It must be remembered that, although such gangs may be found to be well-behaved amongst the stalwart races of the Punjab, experience has shown that they become a source of considerable trouble in parts of the country where the population is of a more timid character. Under these circumstances the Government of India would be glad to be favoured with the advice of His Honour the Lieutenant-Governor as to whether more effectual means could not be developed for preventing the entry into, and dispersion over, India of such gangs from the Punjab Frontier Districts. It will be observed that, in the penultimate paragraph of Home Department Resolution No. 29—989-1000, dated 20th May 1879, it was laid down that the frontier provinces must be held responsible that gangs of foreign vagrants are not allowed to pass into India, and that there is reason to suppose that some of the gangs at all events to which the correspondence now forwarded relates came from beyond the North-Western Frontier or from districts in the Punjab.

No. 2408J., dated Calcutta, the 31st July 1886.

From—F. B. PEACOCK, Esq., Chief Secretary to the Government of Bengal.

To—The Offg. Secretary to the Government of India, Home Department.

I am directed to acknowledge the receipt of your letter No. 398 of the 30th November last, forwarding a copy of a correspondence with the Government of Madras, and of other papers regarding certain wandering gangs of Beluchis in the northern districts of the Madras Presidency. In this letter the attention of this Government has been drawn to the communication from the Government of Madras, No. 2307 of the 1st September last, stating that the vagrant bands entered the Ganjam district from Cuttack, that their arrival was at once marked by a succession of criminal occurrences, that they had in their possession passports of various dates, and that the leader of one of the gangs (Daria Khan) had a gun license purporting to have been granted by the Magistrate of Pooree in contra-

Nos. 29—989 to 1000, dated the 20th May 1879. vention of the orders of the Government of India, as contained in the Resolution

noted in the margin. Full information regarding the action taken by certain local officers in Bengal in furnishing these gangs or some members of them with police escorts, passes, and licenses, and to carry arms, was also asked for, and is given below.

2. In my letter No. 1126J, dated the 28th February 1885, a report on the movements in the Lower Provinces of certain wandering bands of Pathans or Beluchis was submitted to the Government of India. In that letter it was explained that two parties of Pathans—one headed by Daria Khan, and the other by Subhan Khan—passed through Calcutta, 24-Pergunnahs, and Howrah, and, having met at Ampta, entered the district of Midnapore, where they were separated, the band of Subhan Khan, which formed a part of a gang, the deportation of which had been previously ordered by the Lieutenant-Governor, being despatched under a police escort towards Synthia. Daria Khan was informed that he was at liberty to go where he

liked, so long as he behaved himself and committed no acts of depredation. As already explained in the letter cited above, Daria Khan, while in Calcutta, had applied for a license for arms and a rahadari perwanna to Madras *via* Midnapore and Balasore, but his application was refused by the Commissioner of Police. It now appears that some individual members of his gang surreptitiously obtained gun licenses from the authorities at Alipore and Howrah. Two of these licenses were seized by the Madras authorities, and were forwarded to this Government along with some other papers (described as passports) taken from the Beluchis. Mr. J. Posford, who granted one of these licenses as Joint-Magistrate of Alipore, explains that a Cabuli appeared before him and applied for a gun license, stating that he was in charge of a number of horses and ponies. Mr. Posford supposing him to be a man going about with a drove of horses for sale, and taking into consideration the fact that he would have to halt in the vicinity of places where wild beasts might be encountered, was of opinion that the application should be granted. Before, however, complying with the application, careful inquiries were directed to be made regarding the applicant, and on being satisfied from a police report that he was a peaceful trader, who had with him a number of women, Mr. Posford granted him a gun license, warning him at the same time that the license only held good in the district of the 24-Pergunnahs, and that, if he passed into any other district, he must renew it there. Mr. Posford adds that, when the orders of the Government of India, dated 20th May 1879, on the subject of the treatment of foreign vagrants travelling in British India were issued, he was on furlough, and that he was not aware of such orders until he was required to explain the circumstances under which the license in question was granted by him. The other license was granted by Mr. C. J. O'Donnell as Joint-Magistrate of Howrah. This officer explains that, when the license was granted, he was not aware that the applicant was a member of a gang of wandering Beluchis, and that in fact it was an ordinary license such as would be given to a local trader proceeding to Madras. He adds that in September 1884, when he was Officiating as Magistrate of Bogra, he instituted six prosecutions against members of a gang of Punjabi vagrants, and reported on the necessity of Government restraining their movements, and urges that he would certainly be the last officer in Bengal, in the following January, to knowingly issue licenses to carry arms to a similar body. These men, Mr. O'Donnell says, are constantly changing their names in order to conceal their identity in case of their getting into trouble in the criminal courts, and this procedure enables them to assume local names and possibly to obtain gun licenses.

3. I am to observe that the only party of Beluchis that entered Orissa from the direction of Midnapore was that headed by Daria Khan, whose movements were closely watched by the police, and it does not appear that they misbehaved in any way during their journey from Calcutta to Midnapore. These men were regarded in Orissa as Beluchi merchants travelling through the country. A copy of a letter from the Commissioner of Orissa, No. 412 of the 27th February last, giving a detailed account regarding them, is enclosed for the information of the Government of India. Another band entered the Gurjats of Orissa from the direction of Sambulpore. This party was accompanied by a guard of four constables of the Gurjat Police force, and was allowed to proceed to Rasulkoonda in the Ganjam Tributary Mehals. It is reported that, in consequence of the difficulty of obtaining supplies, they became involved in several disputes with the amlah of the Gurjat Rajahs about the procuring and payment of supplies, but that no instance of direct robbery or violence was brought to the notice of the Superintendent of the Tributary Mehals, Cuttack, during their journey through those mehals. The two parties appear to have converged and met at

Berhampore in Ganjam. The action of the Gurjat police in not giving timely information of the approach of the gang proceeding to Rasulkoonda to the authorities in Ganjam, and in not giving the constables accompanying it proper instructions as to their conduct, formed the subject of a separate correspondence, which ended with the letter from this Government, No. 14J—D of the 26th April last.

4. As regards the passports which the vagrant bands in Madras were said to possess, I am to say that they were mostly certificates from a few local officers in Bengal, stating that the men were a quiet set of traders who had created no disturbance in the localities where they had temporarily halted, or that they were respectable travelling merchants. The Lieutenant-Governor regrets the action of these officers in granting certificates, even of such a character, to these men, and he has issued stringent orders which will prevent any repetition of this practice.

5. In the letter from the Home Department, No. 399 of the 30th November last, addressed to the Government of the Punjab, it is stated that it is not the desire of the Government of India that the movements of peaceable persons, whose *bonâ fide* object is trade, should be in any way interfered with, so long as they commit no breach of the law, and abstain from giving trouble to the local authorities of the districts through which they pass. Keeping this policy in view, the Lieutenant-Governor is of opinion that, while there can be no objection to a small party of foreigners, consisting of two or three men, travelling for the purpose of trade, these parties should on no account be allowed to unite in British India. He, therefore, proposes to issue instructions that, whenever a license to carry arms is given to any person who may appear to be travelling *bonâ fide* for the purpose of trade, a note should be made on the licence of the number of persons accompanying such person, and he should be given distinctly to understand that, should his followers be augmented at any time, or should he join any other company or gang, his license will be at once liable to cancellation. Sir Rivers Thompson thinks that, if such a course were uniformly adopted, these men would probably desist from endeavouring to move about in bands of such a size as to cause fear and annoyance to the inhabitants of the villages through which they may pass.

The original enclosures of your letter are returned as requested.

No. 412, dated Cuttack, the 27th February 1886.

From—C. T. METCALFE, Esq., C.S.I., Commissioner of the Orissa Division.

To—The Chief Secretary to the Government of Bengal, Judicial Dept.

I have the honour in reply to your letter No. 545J., dated the 28th of January 1886, to forward a report on the case of the Beluchi merchants, which was referred by the Government of Madras to the Government of India.

2. The view taken of the character of these merchants by the Collector of Ganjam is diametrically opposed to the view taken by myself and the district officers of Orissa.

3. The persons who are spoken of as a wandering gang of vagrants in the letter of the Chief Secretary to the Government of Fort St. George were regarded in Orissa simply as a number of Beluchi merchants travelling through the country selling ponies, knives, false pearls and false stones.

4. The succession of criminal occurrences which appear to have marked their wanderings in Ganjam, were unknown here.

5. A party consisting of 13 men, 9 women, and 14 children with 19 ponies arrived in Cuttack on the 21st of April 1885, and applied for written permission to go to Madras. The headman personally reported what his business was. Enquiries were made. It was found that the party had two rifles and merchandise as above stated. The headman had also a number of certificates given to him by different officers of the districts through which he had passed. The men remained here some days. Men and women hawking pearls and knives and other articles in

the bazars. After a stay of some days, half the party asked permission to visit Dhenkanal which was granted. There they stayed three days, and then making a detour by Tigiria, Banki and Khorda; the party left for Ganjam on the 23rd May, entering Kalskota on the 29th idem, where their further progress south was checked as being foreign vagrants. Their return was intimated to this office by the Magistrate of Ganjam in his letter No. 2933 of the 18th of August.

6. Before the party left for Ganjam, I had refused to give the leader any written permission as to his route, deeming it quite unnecessary; but I instructed the District Magistrate to depute police to go with the party for the reasons—

(a) That villagers in Orissa will never sell provisions except under authoritative orders, and it was necessary to assist the Beluchies to enable them to buy such provisions as they might require.

(b) That the wild and strange appearance of these men might raise apprehensions among villagers unaccustomed to their appearance.

7. On the return of the Beluchis from Ganjam, they were similarly met by a police officer who escorted the party to Katak. On the 6th of September 1885, I reported that these men had been expelled from Madras to the Government, and in reply, I was instructed that the Beluchie might travel *via* Angul to Sumbulpore under police escort. This was done. The Central Provinces officials being warned of their coming.

8. No action was taken on the arrival of the merchants by me under Act III of 1864, because of their character as merchants. The orders of Government both of India and of Bengal in regard to bands of foreigners refer distinctly to persons of *doubtful character* found wandering in British India. The men in question did not fall under the category for their orderly behaviour during the time they were in Orissa, and in the Gurjats accorded with the many written certificates held by them; one of which, endorsed by the Magistrate of Burdwan, stated that the bearer and his companions were traders, who were under the orders of the Inspector General of Police, allowed to go wherever they pleased. The police being however directed to keep an eye upon them.

9. Circular No. I of the 2nd January 1879 requires each case of a wandering gang of foreigners of doubtful character to be reported through the Inspector General of Police for orders of Government. No such action was taken in the case of these Beluchies, because they were both by enquiry and by their acts found to be *bona fide* merchants, following a regular trade through Hindustan. The party spreading out and often travelling to a converging point by parallel routes, so as to dispose of their goods to the best advantage. I therefore heard with some surprise of the view taken by the Madras Government.

10. Parties of Afghan traders are constantly arriving in Katak. The Beluchies so far differed from them that they had women and children with them; but both are hawkers of goods, and action under Act III seemed to me no more necessary in the case of the Beluchies than of the Afghans.

11. It is hardly probable that a party of Beluchies should pass through any province without being guilty of some petty penal acts, but such acts as quarrelling over prices of vegetables and fowls, cutting firewood without permission, turning out ponies to graze on other people's land are offences not confined to the special class under report.

12. It is not the case that the merchants in question were hurried out of any one district in this division, in order to get rid of them and pass them on to Madras. As regards the arms with which the party were supplied, they were not more than what they might reasonably require for purposes of defence at night in a wild country against wild beasts.

No. 293, dated Lahore, the 22nd April 1886.

From—W. M. YOUNG, Esq., Secretary to the Government of the Punjab.

To—The Secretary to the Government of India, Home Department.

I am desired by the Lieutenant-Governor to acknowledge the receipt of your letter No. 399, dated 30th November 1885, regarding certain wandering gangs of vagrants who recently visited the Lower Provinces and the Madras Presidency, and who have been supposed to come from the North-West Frontier or from districts in the Punjab. The Government of India enquire whether more effectual means cannot be developed for preventing the entry into and dispersion over India of such gangs from the Punjab Frontier districts.

2. The Lieutenant-Governor would observe in the first place that there is no evidence to show that the people mentioned in the correspondence forwarded with your letter under acknowledgment passed through the Punjab in gangs. There is nothing to prevent individuals of this character from passing down-country without attracting attention and forming themselves into gangs at a distance from the frontier; and it is probable that this has happened in the instances under consideration, for the Inspector General of Police has never had his attention called to the fact of similar gangs moving about this province. But whatever may be the origin or starting point of the bodies of vagrants, of whose depredations complaints are made, the Lieutenant-Governor considers that the rule laid down in the Home Department Resolution No. 29, dated 20th May 1879, are sufficient—and more than sufficient—to meet all practical requirements when actual gangs have to be dealt with, though they are quite ineffectual to prevent the passage of foreigners through the Punjab who may meet and form gangs, holding together for a longer or shorter time in various parts of India. In the present days of free and rapid communication, no precautions which the British Government can take consistently with its principles of administration will prevent foreigners passing through this province into other parts of India. Nor does His Honour think that further restrictions are expedient. The Lieutenant-Governor holds that the British Government cannot resort to continental methods of passport and police espionage. It has not the establishment for that system, nor have British officers the temperament requisite to make such measures a success. Sir Charles Aitchison believes that any attempts in this direction would most assuredly fail in their object, and be a source of great worry and hardship to individuals. This opinion is formed upon experience of such attempts which have been made in the past from time to time.

3. If, however, the Government of India should see fit to insist on measures of repression, the most effectual way, in the Lieutenant-Governor's opinion, would be to apply the provisions of section 5 and following sections of Act III of 1864 to the Punjab and Sindh; but it is needless to say His Honour does not advise the adoption of this course. The real remedy is severe punishment for breach of the law in the district where the gang is found offending; and as there are very probably certain rendezvous in the Lower Provinces where gangs of foreigners are formed, the more effectual way of dealing with the subject would be, in Sir Charles Aitchison's opinion, to trace back their component parts from the places where they are first observed, and ascertain the conditions under which they band themselves together for marauding purposes.

At the same time the scheme for an interprovincial Railway Police, under the immediate orders of one superior, would no doubt strengthen the hands of Government in this matter; and on this

No. 6438, dated Madras, the 13th November 1885.

From—Colonel H. D. CLOETE, Inspector General of Police.

To—The Acting Chief Secretary to the Government of Madras.

With reference to G.O. No. 2792 (Judicial Department), dated 14th October 1885, I have the honour to attach copy of extract from the judgment of the Deputy Magistrate in the case of the Ongul constables. The Superintendent of Police, Gurjat Mehals, in reply to a communication from the Superintendent of

Police, Ganjam, forwarding the above extract to him, states that the orders of the guard were "not to interfere with the gang in any way whatever as they were going through States which my police have no right to enter and have no jurisdiction," the result of such orders being that the Ongul constables not only allowed the Beluchis to do as they pleased, but apparently aided and abetted them in their lawless acts.

2. The Beluchis left the Madras Presidency on the 5th September and have not been heard of since, and no further communication has passed between the Superintendents of Police, Ganjam and Gurjat Mehals.

Extract from Judgment in Calendar Case No. 22 of 1885 on the file of the General Deputy Magistrate of Ganjam, dated the 12th day of June 1885.

* * * *

I think it right to mention here that four constables, Nos. 300, 371, 453 and 560, of Gurjat Police, accompanied the gang from Ongul to Russelkonda under the orders of the Assistant Superintendent of Police of the former place. The facts elicited in the trial of these cases show that these constables did not at all prevent this lawless gang from annoying the people in various rural villages it passed through for gratuitous supplies. On the other hand, it appears that in some cases these constables even advised the frightened villagers to pay something to the gang and to avoid further trouble to themselves.

ORDER THEREON.

I am directed to forward, for the consideration of His Honour the Lieutenant-Governor, in connection with the letter from this Department, No. 398, dated the 30th November 1885, a copy of a communication* received from the Government of Madras, forwarding an extract from a judgment of the Deputy Magistrate of Ganjam, which contains remarks regarding the conduct of certain constables of the Gurjat Police who were apparently deputed to accompany one of the gangs of Pathans referred to in Home Department letter of the 30th November from Angul to Russelkonda.

With reference to Mr. Daukes' letter No. 11, dated the 23rd January last, regarding the conduct of certain constables of the Gurjat Mehals Police, who were deputed to accompany a gang of Beluchi vagrants to Russelkonda in the Madras Presidency, I am

directed to forward, for the information of the Government of India, the accompanying copy of a letter* which has been addressed to the Inspector General of Police, Lower Provinces, on the subject.

To—The Inspector General of Police.

I am directed to acknowledge the receipt of your letter No. 2801, dated the 18th ultimo, regarding the behaviour of certain constables of the Gurjat Mehals police, who accompanied a gang of Beluchi vagrants from Angul to Russelkonda in the Madras Presidency. You consider that the Assistant Superintendent in charge of the Gurjat police is to blame for not giving the Ganjam police timely information of the approach of the gang, and for not giving his men proper orders as to their conduct.

2. In reply I am to say that the Lieutenant-Governor concurs with you, and I am to request that you will be good enough to warn the Assistant Superintendent of the Gurjat Mehals police against a repetition of such carelessness.

From—F. C. ANDERSON, Esq., Officiating Secretary to the Chief Commissioner, Central Provinces.

To—The Secretary to the Government of India, Home Department.

In continuation of my letter No. 4158—203, dated 28th ultimo I am directed to forward extract paragraphs 5 and 6 from a letter No. 4921, dated 18th current, from the Deputy Commissioner of Sambalpur, reporting on the character of the so-called Beluchis in respect to whom the order of deportation was passed by the Madras Government. I am also to forward copy of a letter No. 3125, dated 17th idem, from the Madras Government, and to say that, in the Chief Commissioner's opinion, an order of deportation from British India should be effective, and that it cannot be effective unless arrangements are made for securing the removal from British India of the persons who have been directed to remove themselves. It appears to the Chief Commissioner that the Local Government passing an order of deportation should look to something more than the removal of the foreigners from its own territories, and should see that proper arrangements are made for their removal from British India, the other Local Governments through whose territories the foreigners are to pass being communicated with so as to secure compliance with the order of deportation. What is desired is that the foreigners should remove themselves from British India, not that they should merely remove themselves from one part of British India into another part of British India.

PARA.—5. I would here add that these people having been now for some time under surveillance, the District Superintendent and myself have now been able to form a more correct opinion of them, which it may be useful to note here :—

- (1) These bands are always on the look-out for opportunities to pilfer the people either through fear or cajolery. Their women are most dexterous thieves and are the chief culprits. If carefully watched, and if they are convinced that they will be firmly dealt with if detected in crime, they conduct themselves in a quiet and circumspect manner.
- (2) From their habit of moving about in considerable numbers and by their conduct they cause considerable alarm to ignorant villagers, by whom they are credited with marvellous powers in committing thefts.

(3) Their ostensible means of subsistence is dealing in horses and ponies picked up in their passage through this country, and which they are always anxious to exchange. They deal also in false pearls and pocket-knives of cheap British manufacture; but their main object is to live free, in a more or less lawless manner, on the country through which they pass. They need to be most carefully watched, and have to be followed about by trustworthy Police officers; and if they are not escorted about, there is danger of considerable alarm among the people or even a panic, such as is reported to have occurred in the Ganjam district on their recent arrival there. The Police officer who escorted the gang to the borders of the Bilaspur District reports that he had great difficulty in getting them on and preventing them from any violence to the villagers. They would under various pretexts lag behind and seize every opportunity of visiting the villages on the roads, and begin quarrelling with the villagers about fowls and supplies, trying to overawe them and to get their supplies for nothing.

6. It would be well, therefore, if their movements in large bodies were put a stop to. If they are legitimate traders, they can have no objection to moving about in small parties like the Cabulense, who bring dried fruits to India in the cold season and return with cotton fabrics, and against whom no complaints are made. The Banjaras move about in much larger numbers with several hundred head of cattle; but their presence does not create alarm, nor are they charged with misconduct of this kind alleged against the so-called Beluchis. The only conclusion is that these gangs of Beluchis, Khelatis, Panjabis, or whatever they may be, move about in considerable numbers to overawe the people, and so obtain opportunities for plundering them and living at free quarters.

From—The Chief Secretary to the Government of Madras.

To—The Chief Commissioner, Central Provinces.

I am directed to acknowledge the receipt of your letter, dated 28th October 1885, No. 4100, enquiring what the intention of this Government is in respect to the destination of certain gangs of Beluchis, and stating that, on receipt of more precise information as to the place to which this Government wishes them to be sent, the Chief Commissioner will be better able to give effect to the order of deportation. In reply I am directed to say that the Chief Commissioner appears to be under a misapprehension as to the action taken by this Government. The order passed regarding these gangs did not direct them to be sent, that is, deported under escort, anywhere, nor did it express any wish on the part of this Government as to where they were to be sent. It merely directed them in terms of Act III of 1864 to *remove themselves* from the territories administered by the Madras Government, and this they appear to have done.

between the District Superintendent of Police, Narsinghpur, and the Political Agent, Bundelkhand, and between the latter officer and this office.

2. In March last, I received from the Superintendent of Rewah a report of a similar nature referring to a gang of Beluchis, numbering 200 men, who had been sent under Police escort from the Bilaspur district of the Central Provinces to the nearest Police post on the Rewah border. In this instance intimation of the arrival of the Beluchis was not sent in time to enable the Superintendent of Rewah to make any arrangements for their control or supervision, the consequence being that the gang was dispersed among the villages of Rewah, where they harried the people, taken supplies without payment, and causing panic and disturbance wherever they went. The gang was eventually escorted out of Rewah territory by a strong detachment of State troops. Lately another gang of Beluchis, numbering about 60 persons, has again visited the Rewah State, necessitating further arrangements for supervision and escort.

3. I must point out that Native States are less well able to protect themselves against bodies of men, such as those referred to, than are the authorities of British districts; and I would propose that some instructions be issued to Local Governments of British provinces forbidding action such as that protested against by the Political Agent, Bundelkhand.

No. 808, dated Nowgong, the 16th July 1885.

From—CAPTAIN D. ROBERTSON, Political Agent in Bundelkhand.

To—The First Assistant to the Agent to the Governor General for Central India.

With reference to the accompanying copy of a letter from the District Superintendent of Police, Narsinghpur, which has been forwarded to me by the Political Agent, Baghelkhand, as Pannah is within the Bundelkhand Agency, I have the honour to suggest that the attention of the Central Provinces Administration be invited to the undesirability of allowing British Police officers to “turn” bands of Beluchis into the Native States of this Agency for the express purposes apparently of allowing them a fair field for a fight, in a place where the Police administration is necessarily weaker than it is in British India, and also of sparing the District Police.

2. Nowgong has been recently visited by three or four bands of these vagrants. In each case I enquired where they were bound for, wrote to inform the authorities of the places to be passed *en route* and of the destination, and provided a guard to prevent speculation and disturbances with the limits of Central India. We can, I would submit, not except British Police officers to do less than this; and though Beluchis are very unwelcome visitors, it appears hardly justifiable that they should be deported, without notice, to a neighbouring State, merely because the District Superintendent of Police wishes to spare his Police from the performance of one of their primary duties.

From—A. B. MARRIOTT, Esq., District Superintendent of Police, Narsinghpur.

I beg to enclose a copy of a vernacular report received from the Hameerpur district, regarding two hostile bands of Beluchis who are said to be marching down to Narsinghpur for the purpose of having a good fight, whenever they may happen to meet, for the possession of some women who have been carried away apparently by one of the gangs.

2. These people, from another vernacular report, which I enclose, seem now to have reached the Damoh district, from whence they have been turned into Pannah territory. Pannah, I believe, is under your jurisdiction, and so I should feel obliged if you could find these people and issue the necessary orders to prevent their coming to Narsinghpur.

I am directed to acknowledge the receipt of your letter No. 59P.—340, dated the 15th August 1885, regarding two gangs of Beluchis who were passed on from the Damoh district of the Central Provinces to the Native State of Pannah.

2. In reply I am to state that the general question of the immigration into British India of foreign vagrants, and of the operations of the orders contained in Home Department Resolution No. 29—989-1000 of 20th May 1879 relative thereto, is now under the consideration of the Government of India, and that your letter will be dealt with in connection therewith.

R E S O L U T I O N .

THE usual statement showing the loss of human and animal life caused by wild animals and venomous snakes, and the results of the measures adopted for the destruction of noxious animals and snakes during the year 1885, as compared with the previous year, is appended to this Resolution. The number of human lives lost rose from 22,425 to 22,907. Of these deaths, 2,765 and 20,142 were caused by noxious animals and snakes, respectively, compared with 2,796 and 19,629 in the year 1884. As in previous years, more than three-fourths of the deaths occurred in the Lower Provinces of Bengal and in the North-Western Provinces and Oudh in which 11,823 and 5,359 lives, respectively, are reported to have been lost. The animals which were most destructive to human life were tigers in Bengal, the Central Provinces, Assam and Madras, and wolves in the North-Western Provinces and Oudh. Under the head "other animals," which accounted for 1,259 deaths, details are only furnished for Bengal, Bombay and the North-Western Provinces and

Oudh. In these Provinces it appears that 644 deaths were caused by jackals, 251 by aligators, crocodiles and sharks, and 99 by wild boars and pigs. The deaths caused by these animals in the Lower Provinces alone amounted to 559, 222 and 79 respectively. In the Presidency and in the Rajshahye and Cooch Behar Divisions, no less than 247 and 137 deaths, respectively, were caused by jackals.

2. The reported loss of cattle amounted to 59,029 against 49,672 in the preceding year. Of these 1,483 are said to be due to snake-bite against 1,728 in the previous year. There is little variation in the figures of the several Provinces compared with those of the year 1884, except in Assam, where the loss has risen from 6,670 to 14,187. This increase, however, the Chief Commissioner remarks, is more apparent than real as it is due to the new system introduced in 1884 of reporting deaths of cattle through the same agency and at the same time as vital statistics instead of leaving them to be separately recorded by the Police. There is, the Chief Commissioner states, no reason to suppose that there has been any increase in the actual number of deaths. Tigers, leopards and wolves are shown to have destroyed 24,964, 21,504 and 6,635 head of cattle respectively. The Provinces which appear to have suffered the most heavy losses are Assam, Bengal, Madras and the North-Western Provinces and Oudh. The figures given cannot, however, represent the total loss of cattle. Many of the largest grazing grounds, upon which tigers and leopards do most mischief, are situated miles away from any police station, and the graziers do not, during the months for which they take their cattle to graze, often leave the jungle for the town or village where there is a reporting station.

3. There was a slight decline in the number of wild animals destroyed from 23,775 in the previous year to 23,670. The decline was common to all the more destructive animals except leopards. The numbers of animals killed were 1,855 tigers, 1,874 bears and 6,278 wolves, as compared with 2,196, 1,997 and 6,706 in the year 1884. Fewer tigers were destroyed in Bengal and Madras, and fewer bears and wolves in Bengal than in the previous year. In the Resolution recorded on the statements for 1884 the Governor General in Council remarked that it would be convenient if future reports contained full particulars regarding the number of licenses granted under the Arms Act rules either for purposes of protection of crops or destruction of wild animals. This information has not been given in a complete or uniform manner. The Government of Bombay does not supply any figures, but remarks that "licenses to carry arms for genuine sporting purposes and for protection of crops have been liberally granted in all districts." The Government of the North-Western Provinces and Oudh gives no information on the point. The Governments of Madras, Bengal and Burma report that 3,839, 18,116 and 693 licenses, respectively, were given during the year. In Assam the total number of licensed guns was 9,663; while in the Punjab and the Central Provinces the total number of licenses in force, including those granted in years previous to the year under report, were 12,283 and 10,384 respectively. The information required in respect of such licenses is (1) the number granted during the year under report, (2) number granted in previous years and still in force, and (3) total number in force during the year. The Governor General in Council desires that information should be given in the detail above specified, the figures being confined to licenses issued for the destruction of wild animals and protection of crops. The provisions of the Arms Act rules are favourable to the grant of such licenses, which are current for a term of five years, and are given without the payment of any fee.

4. The number of snakes reported to have been killed is 420,044 against 380,981 in the preceding year. The only provinces which

again show a large destruction of snakes are Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab. In the last mentioned Province there was a large falling off in the number of snakes killed from 74,355 in the year 1884 to 47,576 in the year under review. The Local Government has, therefore, impressed upon district boards the necessity for taking more active steps for the destruction of these reptiles.

5. The total sum paid in rewards amounted to Rs. 2,24,126 against Rs. 2,46,525 in the previous year. It is noticed that in Ganjam between Rs. 4,000 and Rs. 5,000 were paid away as rewards on skins produced from Native States or from Orissa where it has been customary to return the skins upon which rewards have been paid. In addition to this sum fraudulently obtained, Rs. 3,193 were disbursed over the sanctioned amount in Ganjam. Skins of animals destroyed should either be retained by Government on payment of the reward or so marked that they cannot be again produced for reward without a certainty of the fraud being detected.

6. The Governor General in Council regrets that the general results of the year are not more satisfactory. Having regard to the remarks regarding licenses for arms made at the close of paragraph 3 above, it may be conceded that the want of success is to be attributed to the apathy and inaction of the people themselves particularly in the matter of the destruction of snakes. District Officers and enlightened members of district boards can do much to impress upon the people the necessity of being more active in the matter, and it is through their exertions only that any improvement can at present be effected. His Excellency in Council hopes that Local Governments and Administrations will continue to impress upon district officers the necessity for interesting themselves personally and strenuously in the prevention of the loss of life that is yearly caused by wild animals and snakes.

ORDER.—Ordered, that this Resolution, with the appended Table, be forwarded to Local Governments and Administrations for information and guidance, and that it be published in the Supplement to the *Gazette of India*.

Also that a copy be communicated to the Foreign Department for information.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 24th NOVEMBER 1886.

GENERAL REMARKS.—Except in Madras and in a few places in Bengal, Bombay and the Punjab, no rain has fallen in the country during the week under report. No reports have been received from Burma.

The *kharif* harvest has been almost completed in the North-Western Provinces and Oudh and the Punjab, and has been finished in some places in Bombay and Rajputana. In the Central Provinces, Central India, Berar and Hyderabad, the crops continue in good condition. Generally the harvest promises to yield a good outturn in all parts of the country. In Madras, Mysore and Coorg the condition of the standing crops is satisfactory.

The rice crop in Bombay, Bengal and Assam promises well. Cotton prospects in Bombay, the Central Provinces and Berar are good.

In Bengal and the North-Western Provinces and Oudh, the poppy sowings are doing well. In the Central Provinces cloudy weather and heavy rains have injured the linseed crop which has been replaced by wheat in many parts.

The *rabi* sowings are now approaching completion in most of the Provinces, and prospects are everywhere satisfactory.

Fever and cholera continue in Bengal and there has been some mortality from the latter disease in Ajmere. Elsewhere the public health continues satisfactory.

Prices show an upward tendency in a few places in the Punjab and have also slightly risen in Coorg. Elsewhere they are generally steady.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

SUMMARY OF THE WEATHER REPORTS FOR THE MONTH OF OCTOBER 1886.

No. 170 Met. 12—16, dated Calcutta, the 26th November 1886.

Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department, (Meteorology).

Read the following:—

Summary of Weather Reports for the Month of October 1886.

The high temperature, which obtained in the latter half of September over the whole of Central India and a large portion of the Bombay Presidency, gave way rapidly towards the beginning of October, and during the early part of this month the temperature was considerably below the average. In the Punjab the temperature remained much above the average during the first week, in all but the more eastern districts, and was slightly below it throughout the rest of the month. On the whole, October was rather a cool month over a large tract of country, extending from the Deccan across Central India to the more eastern districts of the North-Western Provinces; also in the Central and Eastern Punjab, and at a few places in the south of the Peninsula; more or less warm elsewhere. The excess of temperature above the mean was greatest in Assam where it amounted to $2\frac{1}{2}^{\circ}$.

Except on the North-West Himalaya, the atmospheric pressure was everywhere more or less below the average, but in the Upper Provinces, Assam and Bengal, the differences were very small. The deficiency was greatest in Central India, Lower Sind, Guzerat, and the Konkan; being more than a twentieth of an inch.

The rainfall was considerably below the average in Northern Bengal, Assam, and Cachar, and little or no rain fell during the month in the Indus Valley and in Cutch. Elsewhere, over the whole of Northern and Central India as well as in the Peninsula, (excepting parts of the Carnatic and on the Bellary plateau), there was a general, and in some places a considerable, excess of rain. This was particularly the case in Behar, the North-Western Provinces, Central India, the Konkan, the Deccan, the Northern Circars and Orissa, where heavy rain fell in connection with several small barometric depressions, which were formed successively over the Bay of Bengal in the early part of the month, and travelled across the Peninsula or towards Central India. None of these storms was of any great violence, but they were of considerable intensity and of unusual frequency even for October.

The following table shows the amount of rain and the difference from the average, during the month of October 1886, according to districts as far as is indicated by the telegraphic reports:—

Director General of Railways' No. 918 T., dated 26th October 1886.

Abstract Returns of Accidents to trains, &c., on the open lines of Railway in India for the quarter ended 30th June 1886.

OBSERVATIONS.—As compared with the corresponding quarter of the previous year, the number of accidents to trains, rolling-stock, permanent way, &c., shows a decrease of 151, or 14·57 per cent., against an increase of 485·25 miles or 4·08 per cent. in the mean mileage open, and of 160,629 miles or 1·25 per

cent. in the train milcage. The following are the Railways on which the numbers chiefly fluctuated :—

RAILWAY.	ACCIDENTS.				TRAIN MILCAGE.	
	Increase.	Decrease.	Percent- age of increase.	Percent- age of decrease.	Percent- age of increase.	Percent- age of decrease.
	No.	No.

Oudh and Rohilkhand	24	...	68 57	...	29 56	...
Bengal and North-Western	12	...	50 00	12 91	...

2. The decrease on the Rajputana-Malwa Railway was due to the number of cattle accidents having been only 77 against 128, or less by 51. Under "Collisions between goods-trains or parts of goods-trains," "Goods-trains or parts of goods-trains, engines, &c., leaving the rails," and "Failure of couplings" the numbers rose by 5, 7 and 5 respectively. Under "Fire at stations or involving injury to bridges or viaducts" there were also 6 accidents against *nil* in the corresponding previous quarter.

3. On the Southern Mahratta, South Indian and Oudh and Rohilkhand Railways the increase mainly took place under "Trains running over cattle on the line."

4. On the North-Western Railway the number of cattle accidents and "Failures of Machinery, Springs, &c., of Engines" decreased by 23 and 15, and those of cases of "The bursting of Boilers or Tubes, &c., of Engines" and "Fire in Trains" increased by 9 and 13 respectively.

5. Of the decrease of 27 accidents on the Eastern Bengal Railway, 10 occurred under "Failure of Machinery, Springs, &c., of Engines," and 6 under each of the heads "Failure of couplings" and "Other accidents."

6. The decrease on the Cawnpore-Achnora Railway principally took place under "Trains running over cattle on the line," and on the Madras and the Great Indian Peninsula Railways under "Trains running over cattle on the line" and "Fire in Trains." The cattle accidents on these three lines numbered 16, 19 and 30 against 29, 36 and 40, and the cases of "Fire in Trains" on the latter two lines 14 and 10 against 21 and 39 respectively.

7. On the Jorhat Railway the number of "Failures of Machinery, Springs, &c., of Engines" increased from 2 to 10, but under "Failure of Wheels" there is *nil* against 34 cases recorded under this head in the corresponding quarter of the previous year.

8. On the Bengal and North-Western Railway there is no noticeable difference under any particular class of accidents.

9. The casualties resulting from accidents to trains, &c., were, among passengers and others, 3 killed and 20 injured against 1 killed and 2 injured, and among servants, 2 killed and 16 injured against 6 injured. Of the total casualties, 7 passengers were injured by a collision which took place on the 24th May 1886 between a down passenger-train and a down goods-train at the distant signal at Patna, East Indian Railway, in consequence of the latter train not having been protected by the guard in terms of General Rule No. 79. At the Phagwara Station, North-Western Railway, 7 passengers were very slightly hurt by a collision between a down goods and an up mail-train on the 14th May 1886, owing to the former having been turned into a wrong siding. On the 21st May 1886 3 passengers were killed and 5 passengers and 1 ballast-cooly injured on the Eastern Bengal Railway at Habra by a collision between a down-train and a ballast-train standing on the siding, and on the Great Indian Peninsula Railway a wagon of a ballast-train was derailed at Khapri on the 24th April 1886, while being taken to the loop siding, through the points not being carefully attended to, and 2 men and 3 women, who jumped out of the wagon through fright, were slightly injured.

10. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby :—

CLASS.	Number of accidents.	NUMBER OF PASSENGERS AND OTHERS.		NUMBER OF SERVANTS.		TOTAL.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.

Other accidents	47
TOTAL	903	3	20	2	16	5	36

11. The number of cattle accidents decreased from 491 to 425, or by 66. They were most numerous on the Rajputana-Malwa Railway, being 77 or 18 per cent. of the total; but as compared with the corresponding previous quarter, there has been a decrease of 51 accidents or 40 per cent. The lines which come next in order are the Eastern Bengal, South Indian and Oudh and Rohilkhand, the accidents numbering 63, 48 and 42 respectively.

12. Of the 27 cases of "bursting of boilers or tubes, &c., of engines," 19 occurred on the North-Western Railway alone.

13. The number of "Failures of machinery, springs, &c., of engines" decreased from 59 to 41, owing, it appears, to there being only 8 cases against 25 recorded in the corresponding previous quarter on the North-Western Railway, and 5 against 15 on the Eastern Bengal Railway. The largest number of accidents of this class occurred on the Jorhat Railway, being 10, or 24 per cent. of the total.

14. It is noteworthy that no case of "Failure of wheels" is reported during the quarter under review; whereas in the corresponding period of the previous year, 35 cases were recorded under this head. Out of this number, 34, as already noticed, occurred on the Jorhat Railway.

15. There were 34 cases of "Failure of couplings," of which 10 cases were reported on the Rajputana-Malwa Railway and 12 on the North-Western.

16. The number of cases of "Fire in trains" was the largest on the North-Western Railway, being 52 out of a total of 92, and 13 over the number reported in the corresponding period of 1885. On the Great Indian Peninsula Railway, the number has diminished from 39 to 10. In the total there is a decrease of 29 accidents.

17. The accidents classed as "Other accidents" numbered 47 against 71, the largest number, *viz.*, 20, being returned by the Bombay, Baroda and Central India Railway.

18. The casualties to passengers from causes other than accidents to trains, &c., were:—

Causes of accidents.	Killed.	Injured.
From falling between carriages and platforms	3	...
Falling on to the platform, ballast, &c., when getting into or out of trains	2	2
By closing of carriage doors	2
Falling out of carriages during the travelling of trains	1	15
Other accidents	10
TOTAL .	6	29

19. The accidents to servants in the employ of Railways, or of contractors,

whilst performing duties connected directly with the transit of passengers and goods, from causes other than accidents to trains, &c., were as follows:—

Causes of accidents.	Killed.	Injured.
During shunting operations	6	12
Falling off engines, vans, wagons, &c.	1	19
Getting on or off trains, engines, &c.	6	9
Whilst loading, unloading or sheeting	1	13

Do. do. crossing or standing on the line	8	6
Do. passing between vehicles	1	2
Do. attending to the machinery of engines, cleaning them, &c.	4
Do. do. to gates at level-crossings	5	...
Falling or being caught between vehicles and platforms	1	4
Do. off ladders, scaffolds, platforms, &c.	1	3
By falling of lamps, wagon doors, timber, weights, &c.	2
Whilst coupling or uncoupling wagons	1	8
Miscellaneous	3	28
TOTAL	38	117

20. Of other persons killed and injured by running trains, &c., 3 were injured whilst passing over the line at level-crossings; 35 were killed and 13 injured whilst trespassing on the line; 9 committed suicide and 1 was injured in attempting to commit suicide; and 11 were killed and 3 injured from miscellaneous causes.

21. The following table shows the total number of persons killed and injured from causes connected with the working of trains, as compared with the corresponding quarter of 1885:—

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 1st DECEMBER 1886.

GENERAL REMARKS.—The rainfall of the past week has been chiefly confined to Bombay and Bengal, though in a few places in the Punjab, the Central Provinces and Rajputana, slight showers are reported. Elsewhere the week has been rainless. No reports have been received from Madras, Mysore, Coorg, and Hyderabad.

The *kharif* harvest, which has been completed in the Punjab, is still in progress in Bombay, the North-Western Provinces and Oudh, the Central Provinces and Rajputana, though in most places reaping has been finished. The prospects of the harvest continue generally satisfactory.

The rice crop is being reaped in Bombay, the Central Provinces, Bengal, Assam and Burma. In the Central Provinces some reaped rice has been injured by rain, but in Bengal an excellent outturn is anticipated, and in Assam, Burma and Bombay the harvest promises well.

Poppy in Bengal and the North-Western Provinces and Oudh is thriving.

Rabi sowings have been completed in most places and the prospects of the crops are everywhere very favourable.

The public health continues unsatisfactory in Bengal, but in other Provinces it is generally good.

Prices are generally steady everywhere except in the Punjab, where they are still rising in four districts.

No. 245.—With a view to encourage the study of the Chinese language among officers of the Burma Commission, the Governor General in Council is pleased to notify, with effect from this date, that any officer of the Commission who shall pass an examination in the Chinese language equivalent to the Higher Standard

Examination, which members of the Commission are required to pass in Burmese, shall be entitled to a reward of ₹2,000. The Governor-General in Council is also pleased to notify that any officer who, by passing an elementary examination in Chinese, the standard of which shall be fixed by the Chief Commissioner of Burma, evinces thereby his intention to become a candidate for the reward of ₹2,000, shall, on application, be granted special leave on full pay at Bhamo, or in China for six months for the purpose of studying the Chinese language. The leave will be granted on the distinct understanding that it is to be spent either at Bhamo or in China, and will count as duty qualifying for privilege leave, provided that the examination for which it is granted is successfully passed. An officer shall be eligible for such leave only once. The dialect in which the examination of a candidate for the above named reward shall be first conducted will be that spoken by the Chinese across the Bhamo frontier. After passing in that dialect, an officer will be permitted to gain a further reward of ₹2,000 by qualifying by the same standard in one or two other principal dialects to be selected by the Chief Commissioner of Burma, but under no circumstances will he be able to obtain a reward for proficiency in a second dialect till he has obtained one for his knowledge of the Bhamo frontier dialect.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

STATEMENT OF OBJECTS AND
REASONS.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 17th December, 1886:—

No. 27 OF 1886.

A Bill to amend the Code of Criminal Procedure, 1882.

WHEREAS it is expedient to amend the Code of Criminal Procedure, 1882; It is hereby enacted as follows:—

1. In the definition of "Officer in charge of Amendment of sec- a Police-station" in section 4. 4, clause (o), of the said Code there shall be substituted for the word "therefrom" the words "from the station-house", and for the words "present at the Police-station" the words "present at the station-house".

2. In section 312 of the said Code the word Amendment of sec- "four" shall be substituted tion 312. for the word "two".

The primary object of this Bill is to amend section 312 of the Code of Criminal Procedure, 1882, the Hon'ble the Chief Justice and Judges of the High Court at Fort William having represented that, as the law at present stands, owing to the numerous absences from Calcutta of gentlemen whose names are on the special jury list, and to the necessity of excusing special jurors from attendance on sufficient grounds, it is found necessary to summon the same gentlemen very frequently, to their manifest inconvenience and to serious interference with their business avocations.

2. A Bill to amend the Code having thus become necessary, the opportunity has been taken to cure a defect which has been noticed by the Government of Bombay in the definition of the expression "Officer in charge of a Police-station."

ANDREW R. SCOBLE.

S. HARVEY JAMES,

Offg. Secretary to the Government of India.

No. 4821.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

The President of the Finance Committee having reported to the Government of India that, in accordance with the instructions conveyed in Financial Department No. 3397, dated 29th September, and No. 4745, dated 17th December, the Committee have made arrangements for the submission of their final report and have dissolved, it becomes necessary to arrange for the completion of enquiries in certain branches of the administration which have been instituted by the Committee, but for the prosecution and completion of which it is not necessary that so numerous a body as the Finance Committee should be retained.

2. The Government of India will dispose of the recommendations of the Committee in regard to the Provincial Contracts and such other subjects as can be disposed of on the reports already submitted. But the Government is not in a position to carry out effectively, without further aid, certain other of the enquiries which are at present in various stages of advancement, and which from their importance need the whole time and attention of the officers engaged in them. His Excellency in Council has, therefore, decided to avail himself for a further term of the services of Mr. C. A. Elliott, Chief Commissioner of Assam and late President of the Finance Committee; to appoint him, while engaged on these further enquiries, Finance Commissioner with the Government of India; and to appoint Colonel Filgate and Mr. Bliss to be on special duty with the Finance Commissioner with the Government of India for the purpose of assisting him in completing the enquiries confided to him. Mr. Elliott will act under the instructions of the Government of India in the Financial Department as to the subjects to which his attention is to be directed, and will arrange, in communication with that Department, the order in which they shall be taken up, the mode in which the enquiries are to be pursued, and all other matters connected with the work entrusted to him. It will be understood that in all such enquiries Mr. Elliott and his Colleagues are acting on behalf and with the authority of the Government of India in the Financial Department. It is the intention of His Excellency in Council that their labours should be directed to the completion of enquiries which have been instituted by the Committee and are actually in progress, and it will not, save in exceptional cases, (which will be subject to the limits within which, in paragraph 3 of the Resolution No. 649, dated 10th February 1886, the Finance Committee were instructed to confine themselves) be necessary for them to enter upon the examination of branches of the administration other than those to which the Committee have directed their attention.

Mr. S. Jacob will be deputed to act as Secretary to the Finance Commissioner with the Government of India; and replies to any letters issued by the Secretary, Finance Committee, which have not been answered up to date, should be addressed to him in that capacity.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India*, and that copies of it be communicated to Mr. C. A. Elliott, Colonel A. J. Filgate, Mr. H. W. Bliss, and Mr. S. Jacob for information.

Ordered also, that the Resolution be communicated to the several Local Governments and Administrations, the Comptroller and Auditor General, and the several Accountants General and Comptrollers.

Bills introduced into the Council of the Governor General for making Laws and Regulations,
or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

• The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 17th December, 1886:—

No. 27 OF 1886.

A Bill to amend the Code of Criminal Procedure, 1882.

WHEREAS it is expedient to amend the Code of Criminal Procedure, 1882; It is hereby enacted as follows:—

1. In the definition of "Officer in charge of
Amendment of sec- a Police-station" in section
tion 4. 4, clause (o), of the said
Code there shall be substituted for the word
"therefrom" the words "from the station-
house", and for the words "present at the Police-
station" the words "present at the station-
house".

2. In section 312 of the said Code the word
Amendment of sec- "four" shall be substituted
tion 312. for the word "two".

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to amend section 312 of the Code of Criminal Procedure, 1882, the Hon'ble the Chief Justice and Judges of the High Court at Fort William having represented that, as the law at present stands, owing to the numerous absences from Calcutta of gentlemen whose names are on the special jury list, and to the necessity of excusing special jurors from attendance on sufficient grounds, it is found necessary to summon the same gentlemen very frequently, to their manifest inconvenience and to serious interference with their business avocations.

2. A Bill to amend the Code having thus become necessary, the opportunity has been taken to cure a defect which has been noticed by the Government of Bombay in the definition of the expression "Officer in charge of a Police-station."

CRIMINAL PROCEDURE CODE AMENDMENT BILL.

The Hon'ble MR. SCOBLE moved for leave to introduce a Bill to amend the Code of Criminal Procedure, 1882. He said:—

“This is a Bill which owes its origin to representations made by the Chief Justice and the Judges of the High Court of Calcutta that the present constitution of the special jurors list occasions considerable inconvenience to the gentlemen who are liable to be called upon to serve as special jurors at the criminal sessions here. As the law now stands, under section 312, the names of not more than two hundred persons shall at any one time be inserted in the special jury list. It has been found, in consequence of the fluctuating character of a portion of the population of Calcutta who are entitled to be entered in the special jury list, that the operation of this section presses very heavily upon many classes; and it is proposed that, instead of only two hundred persons

being eligible to be entered in the special jury list, not more than four hundred shall be eligible for entry in that list. The Judges state that this will enable the special jurors to be empanelled from time to time without causing any inconvenience to any class, and that the addition of a possible two hundred more to this list of those already liable to serve as special jurors will not in any way interfere with the efficiency of the common jury list. The main clause of this Bill provides therefore for the substitution of 'four hundred' for 'two hundred' in section 312 of the Criminal Procedure Code.

"It having been considered desirable to introduce a Bill for the purpose of thus enlarging the special jury list in Calcutta, a reference was made to the High Courts in Madras and Bombay, and they intimated that, although they considered the working of the present law for those Presidency-towns was satisfactory, they saw no inconvenience whatever in the proposed alteration, as it would give them, if occasion should arise, an opportunity for a similar enlargement of the special jury list in Madras and Bombay.

"The second point to which the Bill refers is a small matter, which has, nevertheless, created some practical inconvenience. It arises on a definition in the interpretation-clause, section 4, of the Criminal Procedure Code. In that section 'police-station' is defined to mean 'any post declared, generally or specially, by the Local Government to be a police-station for the purposes of this Code, and includes any local area specified by the Local Government in this behalf.'

"I understand that as a matter of fact the local area included under the definition of 'police-station' very often includes the whole of a taluq, and in some cases extends over a considerable district of many square miles in extent. That in itself would not be a reason for altering the definition of 'police-station' were it not that in the latter part of the clause the definition of 'officer in charge of a police-station' provides that only when the officer in charge of the police-station is absent therefrom or unable from illness to perform his duties, the police-officer present at the police-station who is next in rank to such officer and is above the rank of constable, or, when the Local Government so directs, any other police-officer so present shall perform those duties. When the officer in charge of a police-station, as frequently happens, is going round his district, within the local area included under the term 'station,' it frequently happens that applications are made at the station-house which require immediate attention, and which cannot be attended to by the officer next in rank, who is technically not in charge of the station according to the strict construction of the clause. It is clear, therefore, that it is desirable that the definition should be so altered as to provide that when the head officer in charge is travelling within the limits of his local area on duties connected with the police, the police-officer next in rank present at the police-station should be able to act for him. The second section of this Bill will have the effect of removing that difficulty, by so altering this definition in the interpretation-clause that the chief police-officer actually present at the station-house will be able to perform the duties of the officer in charge of the police-station when that officer is absent from the station-house within the limits of his own jurisdiction on duty."

The Motion was put and agreed to.

The Hon'ble MR. SCOBLE also introduced the Bill.

The Hon'ble MR. SCOBLE also moved that the Bill and Statement of Objects and Reasons be published in the *Gazette of India* in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Friday, the 7th January, 1887.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 22nd DECEMBER 1886.

GENERAL REMARKS.—There has been slight but seasonable rain during the past week in the Madras Presidency and the Deccan, and local showers in Central India, Rajputana, and Hyderabad.

Some damage has been occasioned by the late heavy rains in a few districts of Madras and Bombay, while in the western districts of the North-Western Provinces more rain would be beneficial, but on the whole the *rabi* crops are in good condition and promise well. In the Punjab rain is much needed to complete the *rabi* sowings.

Harvesting of the *kharif* crops continues in progress in the Bombay districts and Hyderabad, and the winter rice is being reaped in Burma, Bengal, and Assam with prospects of a fair outturn. Elsewhere the autumn harvest has been completed.

Prices are rising in parts of the Punjab and are generally steady elsewhere.

Cholera and fever are still prevalent in Bengal, though less severe, and smallpox exists in Madras, Bombay, and at Peshawar. Elsewhere the public health is fair.

Cattle-disease is reported from Madras, Bombay, Burma and most of the other provinces, but is nowhere serious.
